VOL. XXXI. PORTSMOUTH, N. H. MONDAY, JULY 1, 1867. No. 1.

The Chronicle.

THE MYSTERIOUS WOMAN.—In the memoir of Gov. Briggs of Mass., there is recorded the following anecdote, related by him at a great meeting in Albany. It was subsequently printed in two or three forms by the American Temperance Union, and widely circulated with remarkable effect.—And although our ministers, deacons and physicians are temperance men, there are some men who advocate granting licenses.

At a certain town meeting in Pennsylvania, the question came up whether any persons should be licensed to sell rum. The clergyman, the deacon and physician, strange as it may appear, all favored it.—One man only spoke against it because of the mischief it did. The question was about to be put, when all at once there arose from one corner of the room, a miserable woman. She was thinly clad, and her appearance indicated the utmost wretchedness, and that her mortal career was almost closed. After a moment's silence, and all eyes being fixed upon her, she stretched her attenuated body to its utmost height, and then her long arms to their greatest length, and raising her voice to a shrill pitch, she called to all present to look upon her.

"Yes," she said, "look upon me, and then hear me. All that the last speaker has said relative to temperate drinking as being the father of drunkenness, is true. All practice, all experience, declares its truth. All drinking of all alcoholic poison as a beverage is excess. Look upon me! you all know me, or once did; you all know I was once the mistress of the best farm in the town; you all know, too, I had one of the best and most devoted of husbands; you all know I had fine, noble-hearted, industrious boys. Where are they now? Doctor, where are they now? You all know. You all know they lie in a row, side by side, in yonder church-yard; all—every one of them—filling the drunkard's grave. They were all taught to believe that temperate drinking was safe—that excess alone ought to be avoided: they never acknowledged excess. They quoted you—and you—and you—(pointing with her shred of a finger to the minister, deacon and doctor), as authority.

They thought themselves safe under such teachers. But I saw the gradual change coming over my family and prospects, with dismay and horror. I felt we were all to be overwhelmed in one common ruin. I tried to ward off the blow; I tried to break the spell—the delusive spell—in which the idea of the benefits of temperate drinking had involved my husband and sons. I begged, I prayed, but the odds were against me.—The minister said the poison which was destroying my husband and boys was a good creature of God; the deacon who sits under the pulpit there, and took our farm to pay his rum bills, sold them the poison; the doctor said a little was good, and excess only ought to be avoided. My poor husband and my dear boys fell into the snare, and they could not escape; and one after another they were conveyed to the sorrowful grave of the drunkard.

Now just look at me again. You probably see me for the last time. My sands of life have almost run out. I have dragged my exhausted frame from my present home—your poor-house—to warn you, deacon! to warn you, false teacher of God's word!" and with her arms flung high, and her tall form stretched to its utmost, and her voice raised to an unearthly pitch, she exclaimed, "I shall soon stand before the judgment seat of God. I shall meet you there, you false guides, and be a witness against you all!"

The miserable woman vanished. A dead silence pervaded the assembly. The minister, deacon and physician hung their heads; and when the president of the meeting put the question, "Shall any license be granted for the sale of spirituous liquors?" the unanimous response was No!

SAGE TEA IN PROFUSE SWEATING.—An old remedy for excessive sweating is again brought to public notice in the shape of cold sage tea. It is made by taking a large teaspoonful of chopped sage leaves, and boiling them in six ounces of water for two or three minutes. The decoction is then left to stand and cool, and is strained and sweetened to the taste. This remedy has been used with benefit in the colliquative sweating, as it is called, of pulmonary consumption.

BLESS THE BABY.—Lord Granville, Chancellor of the University of London, remarked on a recent public occasion that he had been charged by a Bishop in the House of Lords with incompetence to discuss the subject of education, on the ground that he had no children. "A recent circumstance," he gravely added, "has put me in a better position; but I cannot say it has changed a single view I ever held on the subject of education." That was a neat use to put a baby to.

— A good story is told of a rather verdant agricultural laborer, who having by hook and crook scraped together fifty dollars, took it to his employer with a request to take charge of it for him. A year after the laborer went to another friend to know what would be the interest on it. He was told three dollars. "Well," said he, "I wish you would lend me three dollars for a day or two. My boss has been keeping fifty dollars for me a year and I want to pay him the interest for it."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
The Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring the hair to its natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

MONDAY, JULY 1, 1867.

WORSHIP.—The Congregationalist has a good article on this subject, finding fault with the lazy and irreverent practice of sitting during prayer, without any apparent attention or interest in the service. It says, however, "A return to the custom [of standing, in Puritan style] may not be practicable, if it be desirable."

We ask, why not practicable? We can see no good reason, physical or moral, why we should not stand, or kneel, in prayer, as our fathers and mothers did, or as we did, till recently; but as a foolish, undevotional and lazy fashion brought in the sitting,—so let a decorous, devotional, and comfortable fashion bring us on our feet again, for a portion of the services, and not condemn us to sit an hour or more in one lazy posture.

We notice that in some of the newly built Episcopal churches, they have omitted the kneeling benches, and that the people sit and bow the head toward a little book-desk in front, instead of kneeling in prayer. We deem this, like the other fashion named above, rather lazy, and not exactly reverential. The Ritualists do these things better; and proper postures are as important in public worship as good manners are in the family and social circle. U. T.

TROTTING PARKS.—The most wealthy, fashionable and respectable gentlemen in New York, own or patronize the trotting tracks there; and the opening spring race at Jerome Park has come to be the occasion for bringing out and deciding the styles of ladies' toilets.

The new and splendid Narragansett Park which is located in Cranston, near Providence, R. I., and is to be conducted by an association of gentlemen, of which Amasa Sprague, Esq., is President and George H. Smith, Esq., Secretary, offer premiums to the handsome sum of ten thousand dollars, so divided that all the best horses in the country can compete. The trotting will commence July 31 and continue August 1 and 2.

And nearer home, the Manchester Trotting Park is to have its grand opening on the afternoon of the Fourth of July.—Among other purses given for particular horses, there will be one of $100 for trotting horses owned in the State—$75 to the best and $25 to second best, mile heats, 3 in 5 to harness. Trotting to commence at 2 o'clock. Henry H. Smith is Superintendent.

And the new Track in this city will be finished as soon as possible, in season for Fall sport; and all gentlemen interested in good horses should aid and encourage the movement, as is done everywhere else.—New Englanders are too much given to work and piddling, and too little to innocent, out of door sports.

A MEAL-CAT.—Our attention (says the Concord Monitor) has been called to a bill now pending before the House of Representatives, entitled "An Act for the Encouragement of Manufactures," containing provisions which strike down some of the most vital principles of public law and private rights in this State. It authorizes any person or any corporation to erect dams upon his own land to overflow any and all lands, tenements and property, of whatsoever kind and to whomsoever belonging—the owner of the lands and property so overflowed having no remedy save in the liberality of the overflower, or, in the last resort, an appeal by petition to the Supreme Court.

"The bill is very loosely drawn, perhaps intentionally. But we see in it features which will not, and ought not to receive the sanction of the people of New Hampshire. Under it, every inhabitant upon every lake in the State can be drowned out and driven from his home; and this by "any person or corporation" who can make out to the satisfaction of the Court or Commissioners that said dam is or may be of public use or benefit? We warn the Republicans of the Legislature that a big cat lies under that meal."

REV. HENRY WOOD, Chaplain U. S. Navy, has received the honorary degree of D. D. from Hampden Sidney College, Virginia. Mr. Wood was formerly pastor of the Congregational Church at Hanover, (Dartmouth College); afterwards editor of the N. H. Observer; was appointed by President Pierce Consul at Beirout, and then Chaplain in the Navy. In the latter capacity he made a long voyage to Japan, Brazil, &c. He was stationed a while at our Navy Yard, and is now chaplain at the U. S. Naval Asylum in Philadelphia.

NEW HAMPSHIRE ITEMS.

— Three barns on Dover Neck, near together, were burnt last week; origin of fire unknown.

— A hailstorm passed over a small part of Ossipee, Wolfeborough and Tuftonborough, Friday June 21; breaking glass, &c.

— A barn and sheds, in Gilmanton, on Ladd hill, were burnt last week; loss $1000; insurance $500. Incendiary, no doubt, as the buildings were not in use except for storage.

☞ On Friday in the Legislature, the Senate passed an act authorizing the Eastern Railroad Company and Eastern Railroad in New Hampshire, to unite and form one corporation. Also an act to authorize the Trustees of the Methodist General Biblical Institute to transfer funds, &c.

The House passed a joint resolution in favor of Ex-Gov. Smyth. The bill providing that any person not paying his poll tax for one year before an election, shall be deemed excused at his own request,—was laid on the table and made a special order for Monday at 4 P. M.

The bill authorizing the Nashua & Epping Railroad Co. to unite with the Portland & Rochester Railroad Co. and the bill to further extend the act relating to the suspension of specie payments by banks, were read a third time and passed. The House indefinitely postponed the bill incorporating the Manchester & Portland Railroad.

EUROPEAN ITEMS.—The Czar has left a million for the poor of Paris. During his visit he spent £200,000, and the Czarwitch £40,000.

The wrath of the populace in Waterford, Ireland, against the informer on the Fenians was so great that the police had great difficulty in saving him. The cab he was in was smashed with stones.

The yellow fever at Mauritius carried off two hundred per day; 10,000 persons had died of it.

The Memorial Diplomatique says the effect on the Empress Carlotta when informed of the captivity of Maximilian and that his life was in danger, was that she appeared suddenly to recover all her clearness of intellect; she declared the Mexican nation could not be capable of so odious an act as to raise a murderous hand against a prince who had devoted himself with so much self-denial to the regeneration of the country

☞ Mr. George C. Coffin, editor of the Whalemen's Shipping List and proprietor of the Exchange Reading Room, New Bedford, was found dead, "dead and alone," in the attic of his printing office, after being missed for two days, last week—having killed himself with laudanum, or really with rum, for he had been under the influence of intoxicating liquor for two or three weeks, and was in a state of partial insanity from its effects. The Standard says Mr. Coffin was a very kind-hearted, pleasant man, and without an enemy. He was well known and enjoyed the confidence of all connected with the whaling interest. His sad and tragic end casts a deep gloom over the mercantile circles. He was a gentleman of excellent musical taste, and had been a teacher of brass bands. He leaves an aged mother, three grown up sons, and several younger children, and verily died as the fool dieth.

GRANITE STATE MILITARY INSTITUTE, The anniversary exercises of this institution situated at Reed's Ferry, took place on Thursday, and, notwithstanding the inclemency of the weather, a large and appreciative audience was in attendance. The examination of the several classes was conducted by the Rev. Mr. Howell, Principal, and was very creditable to the students. The military drill included infantry, artillery and the sabre exercise, and, under the management of Major Blodgett, the Military Instructor, the Cadets reflected great credit to themselves and upon the teachers. This institution has been organized two years, and meets with great public appreciation.

☞ On Friday in Baltimore, President Johnson and Secretary Seward made speeches: It was after four o'clock in the afternoon, and "the wit was out." Their late efforts have made about as much capital as those in their voyage to Mr. Lincoln's monument.

☞ A London item of Saturday noon confirms the statement that every man of the Sacramento's crew was saved in small boats.

☞ There are some Indian troubles on the line of the Kansas Pacific Railroad.

GOLD, Saturday, 138 1-4.

— At a legal town meeting in Alfred, it was voted,—only 20 negatives being thrown —to subscribe for $10,000 of stock in the Portland & Rochester Railroad.

— The Providence Press says the people of Connecticut have ascertained that their common schools are far behind the schools of other States, and that the result of their last election would indicate that the deficiency has existed some years.

Correspondence of the Chronicle.

KEENE, June 27.

Messrs. Editors,—It would be too bad to liken this beautiful town that nestles amid green-clad hills, to a tadpole striving to be a frog before its time; but you know that an effort is making to obtain a city charter for this highly respectable town,—which may or may not be successful, for there are many of its most prominent and influential citizens who are opposed to changing their well-conducted Town organization, for the high-sounding, more elaborate and more expensive City government. But whether it becomes a city or remains a town, it will not change the beauty of its surroundings, the elegance and good taste of its residences, nor the genial and cultivated character of its inhabitants.

This western border of our Granite State partakes of the green fertility of our neighbor Vermont. The granite is here lost sight of, among the green mountains and fertile vales.

Yesterday a portion of this beautiful town came near being reduced to ashes. A large building belonging to the Cheshire Railroad Company, containing four or five hundred cords of sawed dry pine wood, was suddenly discovered to be on fire. In five minutes from the first alarm, the whole contents of the building were ablaze. The small streams of the hand engines (they have no Steam Fire Engines) were impotent to quench such a fire, and the firemen did wisely to let it burn,—devoting their efforts only to prevent its spreading to the neighboring buildings, which were of wood. This they succeeded in doing, with much difficulty, and thus prevented the destruction of a large section of the business part of the town. Keene has suffered pretty severely from fire, for the past few years; it should have a more efficient extinguishing equipment, and larger resources of water.

A Strawberry Festival was given last evening at the Town Hall, by the Episcopalians, at which were gathered many of the young and gay, and a few possessing the maturer charms of the more cultivated society of Keene. The profusion of fragrant flowers and delicious strawberries, with the dimples and grace of the tastefully arranged ladies, rendered the occasion a very pleasant one.—Then we had the pleasure of shaking the hand of the patriarch of Keene, the worthily distinguished Hon. John Prentiss, whose life now covers nine-tenths of a century. He seemed to enjoy the occasion with as much zest as the youngest. The frequent witty sallies that escaped him, were like the last flashes from a silent summer cloud, which has well done its work in watering the parched earth. The seeds which his long and useful life have planted, will continue to spring up and bear fruit for many years after he shall have passed away.

In closing these few lines, Messrs. Editors, let me say that seekers of a change of air in Portsmouth, cannot find a more delightful place for a summer sojourn than at Keene.—There are several good hotels; the Cheshire House is large, airy, and pleasantly as well as centrally situated,—it is well supplied with the luxuries of the season, its attendants are neat and ready, and its gentlemanly landlord ever cheerful and accommodating.

Always yours, MONADNOCK.

☞ Rev. Rowland Connor, colleague pastor of School Street Universalist church, Boston, having attended the Free Religion Convention, and become its Secretary,—was visited by the Committee of his parish, and invited to resign. He declined doing as requested, and referred the question to a parish meeting. On Sunday, June 23, he preached on the subject, and defended his course. The Parish meeting was held Thursday evening, June 27, and the Commonwealth says the vote was two to one, to invite him to resign.

☞ Friday morning, between 5 and 6 o'clock, the train which left Buffalo on the Erie Railroad ran off the track at Chemung, caused by the breaking of a rail. The engine, tender, postal, baggage and smoking cars were thrown down an embankment a distance of between 20 and 30 feet. The engineer, fireman and one passenger were killed. The passenger cars became detached, or the loss of life would have been fearful. The postal car was badly broken, but the mail agent was not seriously hurt.

☞ The Boston Transcript says "Miss Braddon is thirty years old." How impolite to say it—and how uncivil old Time is to make the dear creatures grow old, too, isn't he?

LOOK AT YOUR COAT

and see if the collar and shoulders are not covered with dandruff. If such be the case, procure a bottle of "Harrett's Vegetable Hair Restorative," a few applications of which will entirely eradicate every particle of dandruff and render your hair clean, rich and glossy. jy1

VAST QUANTITIES OF IVORY DESTROYED.—Thousands of teeth that might last a lifetime are lost every year, simply because the parties concerned either forget or do not appreciate the fact that SOZODONT, duly applied, renders the dental substance proof against decay. 7

A DEAR ARTICLE.—Common Soda mixed with poisonous substances, when bought for good Saleratus, is a very dear article. Pyle's Saleratus costs about the same, is worth three times as much, and is the best and cheapest in the world. Tell your grocers you want Pyle's Saleratus.—See that the name is on the package. 8

☞ The thousands of Consumptive persons who have been kept alive and improved by the use of SPEER'S Sambucl Wine is sufficient evidence of its great value. When used with a raw egg for a length of time, it often effects a perfect cure. Sold by Druggists. 6

— We are glad to see a disposition on the part the manufacturers in this country to excel in quality, and of consumers to purchase the best in the market, especially in the articles which enter into the food of man. We are led to the above remarks since having the pleasure of eating some very nice light Biscuit, made from Herrick Allen's Gold Medal Saleratus. Our better half announces it the best she ever saw. Try it. Most all the Grocers and many Druggists sell it. 87

MEXICO.—The 15th of May is hereafter to be observed as a grand national festival day, in honor of the victory of the Liberals over Maximilian. The Mexican press are firm and unanimous in favor of the execution of Maximilian. The Liberals appear to be berating each other as to who were the greatest traitors to the Republic; every Mexican apparently accusing every other one of treason.

It is stated that Gen. Escobedo has threatened to depose President Juarez should the latter not order the execution of Maximilian.

— About $10,000 in Confederate money was sold in New Orleans the other day at 4 cents a pound.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia.—A sense of fullness, tightness, and weight in the stomach, together with sickness, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with mucous or slime. The food, fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucous or slime, and renders the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before one is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 2 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. If how they rank under the hardest trial watches can have, is shown by the following letter:—

PENN RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTEND'T,
ALTOONA, PA., 15 Dec., 1866.

Gentlemen.—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have run more and do wear much longer without repairs than any watches we have ever had in use on this road.—As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Repectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Any dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany the watch sold, so that buyer may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our celebrated watches throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

DR. S. S. FITCH,
Of 714 BROADWAY, NEW YORK, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Dyspepsia, Heart Disease and all Chronic Diseases, will be at the
ROCKINGHAM HOUSE, Portsmouth,
On THURSDAY, July 4th, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skins, Joints, Urinary; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most persons, somewhere from 15 to 50 have one or more bad ills of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "If or seventeen years you have kept me well of disease grounded utterly incurable by general eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty three years ago she had ulcerated lungs, and true, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I have now enjoyed perfect health twenty-two and a half years; not a single show of lung disease in all that time."

D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I took bleeding and steaming. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

Dr. Fitch's "FAMILY PHYSICIAN," a most excellent book in all families, 76 pages, 25 cents, sent free of postage to any address. Send no money until you get the book and approve it. Direct all letters for books or consultation to 25 TREMONT ST., BOSTON, MASS. je29—ly

Local.

☞ The President of the Rockingham County Agricultural Society was in this city a few days ago, to ascertain whether our citizens desire to have the County Fair held here next fall. What say you, gentlemen of business, do you want it? and how much can be raised by subscription for the object? $600 was subscribed for the last Fair here; and we understand that for the Fair in Exeter last year, the managers paid out more than $3000 in the town, besides the much larger sum which must have been the aggregate of private expenses.

The new Trotting Park here will be completed in season for this event; and if the new city Horticultural Society should have a show, perhaps the inauguration of the Track, and the two entertainments referred to, could be combined in one grand triple attraction, or at any rate held at the same time. With a Fair hall show in town, the Horticultural exhibition either combined or separate, and with the Cattle Show at the Park, if deemed suitable, and a landing place on the Concord Railroad at the nearest point to the Park, and trains run half hourly,—we do not see why a grand time may not be had—but somebody has got to do some work for it.

☞ A correspondent informs us that on Friday afternoon some boys from this city went in a boat to Kittery, to get strawberries; and while crossing a field they were chased by a colored man, who, finding they would not stop, fired upon them, the ball taking effect in the back of one of the boy's heads, which stunned him for a moment.—The wound bled profusely, but as the distance was great, only a flesh wound was made, and the result was frightening the boy, more than doing serious injury. We give the story as told us, but we think it more likely the nigger "fired" a stone from his hand, as the boys and other folks often term throwing—and we doubt if there was any fire about it.

☞ The match game of base ball between the "Minie" Club of South Berwick Academy and the "Granite State" Club of this city, at the Plains Saturday afternoon, was attended by many spectators and was an interesting affair. Some very fine playing was displayed on both sides. The Berwick club is a new organization it is said, and though losing the game, played pluckily, notwithstanding the hopelessness of their cause after the fourth inning. The slow pitching on their part tended to increase the gap as the game progressed. The Granite States are improving and bid fair to rank among the best clubs in the State. It will be seen by the score published below that the latter club won by 41 aces.

☞ John Gerrish,—he, the little slender chap of the Depot Restaurant,—has bought out (or into) the nice new saloon, late of Mr. Larrabee, on Market street, and will keep them both running—which he is amply capable to do, though to look at him you wouldn't think he was great at running, would you?

☞ To prevent burning your face on the water—chalk it. So says a correspondent—but we suppose the rule won't work if you mix anything with your water.

☞ Rowe & Co. of Boston will commence in Market street to-morrow, a forced sale of bankrupt stock of Boots and Shoes.

☞ The infected steamer Winooski arrived at quarantine on Saturday.

— At the Royal Palace in Berlin forty thousand wax candles are instantaneously lighted by a single match. The wicks are previously connected by a thread spun from gun cotton, on lighting one end of which all the candles are lighted simultaneously, and thus the whole of the seven hundred apartments are illuminated at once.

— Pride goeth before a fall." It often goes before a waterfall.

STREET ETHICS.—When you tread on a lady's train, in the street, you are not required to apologize. You have a right to be in the street. So has the lady; but she has no more right to carry her train, with the expectation of having it respected, than she has to bring her cradle to Market Square and rock her baby in it. A train in the drawing-room, however inconvenient, is graceful and appropriate; and if you do not like it, you may keep out of the room. You must go into the street, you have a right there, and you have a right to step on the sidewalk, and if any foolish woman chooses to lay five yards of satin between your feet and the flags, it is at her risk, not yours.—*Providence Jour.*

We endorse all this, as to trains in the street; but we don't believe any article of clothing that is not convenient and comfortable to the wearer, can ever be really beautiful or graceful. All the grace the trail has, is brought down from the days when men were fools enough to wear petticoats, *togas* they called them then; and a short dress is as much more beautiful as it is decent and convenient. Fie upon your dirty trains, in the house or out. A horse wouldn't wear one, and would look like a fool if he did.

SENSIBLE.—When a laboring man toils six days, does he think what a confounded idiot he is to gamble and guzzle the proceeds of his week's labor on Sunday? Is he proud of his contribution to the horses, diamonds, dinners and *demi monde* of sports and gin-sellers. Reflect.

— What is the largest room in the world? The room for improvement.

—At an agricultural dinner the following toast was given: "The game of fortune—shuffle the cards as you will, spades must win."

Holloway's Pills and Ointment.—Cancer—Its days of "drilling operations" are no more. The discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer in its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. The Pills cleanse and purify the blood. Sold by all Druggists. —1wje22adw

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company, as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,209,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,000,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,-249,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred millions of dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $13,000. These sections then, as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and additional proof they would suggest that the Bonds now offered are less than ten million dollars on 617 miles of road, on which over twenty million dollars have already been expended:—on 330 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of over **Nine Per Cent.**

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st.,

A Column From the Portsmouth Journal.

U. S. COAST SURVEY,

NEAR PORTSMOUTH.

This survey, of which the Journal gave a notice late last autumn, it appears was not fully completed, owing to delays caused by uncommonly wet weather. Operations were resumed some weeks ago by a party directed by *Mr.* Hull Adams, Assistant U. S. C. S., the same gentleman who had charge last year. The tents are at present pitched at Wallis's sands, about four miles from this city.

We took occasion last year to say that the great accuracy and minuteness of detail of all the official U. S. Coast Surveys, will form in the present instance, a map of much value and interest to residents and property holders, and to the citizens of Portsmouth—the visitors at Hampton and Rye Beaches, &c. The whole comprises a belt some fifteen miles long, by about a mile and a half in width, stretching from Great Boar's Head and Hampton to the Peverly Hill Road, in the outskirts of Portsmouth, where begins the engraved survey of this harbor by the late Capt. Stansbury of the Top. Engineers, U. S. A.

That officer's labors we may add, have formed the basis of a truly noble map, in point of size and execution. It was sent officially several years ago in some half dozen sheets to Col. Macomb, U. S. Engineers, who had the whole carefully put together and framed at his office, for convenient reference, and where, we presume our citizens who are interested in the commerce of Portsmouth can view it. Mr. Adams' party, we learn, is advancing rapidly during the present favorable weather, but we should judge it will require both time and skill at the close, in joining accurately upon Capt. Stansbury's work, which dates back some twenty-five years, during which stations and landmarks may have altered and in part disappeared.

LAUNCH AT THE NAVY YARD.—On Wednesday next, July 3d, about noon, the first class frigate MINNETONKA, of about 3000 tons, will be launched from the ship house in which the Alabama was built, fronting New Castle bridge. We do not know the length of keel, but the house was extended one hundred feet to accommodate her.

PORTSMOUTH MAIL.—A fortnight since it was known that Hon. John Elwyn had given to a board of Trustees, of which Col. Albert Jones is Chairman, a tract of land about two hundred feet wide and perhaps a thousand feet long, extending from the South road to the South Mill Pond, opposite the Universalist Church, for the public use as a Common forever.

THE CITY ACCOUNTS.—We learn that quite a number of copies of this book are remaining at the City Clerk's office. Every citizen is entitled to one, and can have it on calling. They will not be sent around this year.

THE STATE POLICE LAW.

This, which will doubtless pass in our Legislature, provides that the Governor with advice of the Council shall appoint a State Constable, who shall hold his office three years, with a salary of $1200 per year, to reside at Concord. He shall appoint four Deputies for Hillsborough county, three each for Rockingham and Merrimac, and two each for the other counties in the State. The Deputies to receive $2 50 per day when employed. Their powers as constables shall extend throughout the State. They shall at all times obey all orders of the Governor in relation to the preservation of the peace, or to the execution of the laws throughout the State, and it shall be their duty to see that the laws of the State are observed and enforced; and they shall especially use their utmost efforts to suppress and prevent crime by the suppression of liquor shops, gambling places and houses of ill-fame.

This law must be approved by a majority of the legal voters of the State at town meetings in the several towns to be held on the first Tuesday in November next.

Maine licences no grog-selling, and her people have just decided at the polls that they will have Prohibition made effectual. Hitherto, though the law explicitly forbade selling, the penalty of disobedience was so light that it was made, mainly in the cities, have defied the law by selling, trusting that their profits would enable them easily to pay all the fines which might be imposed, and snap their fingers at Prohibition. The last Legislature changed all this; and now, the penalties of selling will seem too formidable to be braved by any but the most reckless. Should the law be sustained—as it probably will be—liquor-selling in Maine will be as stealthy and fugitive as gambling and no whit more respectable.

In Massachusetts, after a protracted searching investigation, the Legislature voted to leave untouched the present Prohibitory act, as vitalized by the creation of a State Constabulary—whereupon issue is joined, and the coming State Election will mainly turn on the Temperance issue. The friends of Prohibition seem entirely confident of success.

New Hampshire is following in the same track.

Surratt's trial is slowly progressing. The evidence so far, shows him to have been the busy man, with Booth, up to the "time" of the catastrophe.

Surratt is said to grow thin and pale and anxious, as the government surrounds him with a chain of evidence that threatens to sweep him to the gallows. It is evident that he was not prepared for the testimony that has been rendered; and how he will refute it, remains to be seen. The trial will drag on two or three weeks more.

THE TEMPERANCE QUESTION.—While Massachusetts has, by the House vote of 161 to 64, refused to adopt the *liquor license* project, Maine has added *imprisonment* to fine, at the discretion of the Courts. The question of imprisonment was submitted to the people, who approved by a vote, (though small,) of three or four to one. The subject of *enforcing* our prohibitory law, has come up, by petition, before our present Legislature.

Another disgraceful prize fight on the banks of the Potomac, below Washington. Twenty rounds, when one was unable to come up at time and lost. Also another at Fort Lee. Crowds of rowdies and a sprinkling of *gentlemen* attended, and thousands won and lost. A U. States law is needed.

Massachusetts has appropriated $20,000 for fishways and the supply of interior ponds and lakes with black bass and other varieties of fish. As of old time salmon and shad are destined to be caught high up in the Connecticut and Merrimac rivers.

SPEER'S SAMBUCI WINE.
Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated.

As a Diuretic, it imparts a healthy action to the Glands, Kidneys and Urinary Organs; beneficial in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.

The qualities of SAMBUCI are "*unitum in persona*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

N. B.—"*Unum bonum bonum magnum facit.*"

SPEER'S SAMBUCI is a pure Grape Wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and for delicate ladies and children.

Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.

For sale by Town Agents and Druggists.

CURIOUS PLACE FOR A BIRD'S NEST. The Salem Gazette relates that a blue-bird built a nest in one of the ventilator boxes of a car on the South Reading Branch Railroad, which travels regularly fifty miles every day, but is laid up every night at South Reading. The bird in due time deposited her eggs, sitting upon them regularly at night, but not of course when the cars were in motion. Last Thursday three young birds were hatched, but, unfortunately, a picnic on the following day required use of the car, which did not make its customary stay at South Reading on that night and two of them died in consequence of a lack of attention from the mother. The third, however, is living and doing well, although the employes on the road have occasion to turn the ventilator with a slam many times daily. The old bird has been seen, perched on the branch of a neighboring tree in South Reading, with a worm or insect in her mouth, awaiting the arrival of the train with her lonely child on board. The little fledgeling is now called a "bird of passage," and is thought to be the most interesting and welcome "dead-head" that now rides over the road by the season.

AN UNFORTUNATE BACHELOR, in the northern part of New Hampshire, who had made many unsuccessful attempts to get a wife, at last succeeded, by the irresistible temptation of a fifteen dollar silver watch, in inducing a high tempered old maid to marry him. The ceremony having been performed at the residence of the bride's father, the happy bridegroom proposed an immediate return HOME. "Home!" exclaimed the bride, "HOME!—This is MY home and you'd better go to YOUR'N. I agreed to MARRY you for the watch; but I wouldn't LIVE with you FOR A TOWN CLOCK!"

CHARITY.—I have seen a woman professing to love Christ more than the world, clad in a silk dress costing $75; making up and trimming the same, $40; bonnet (or an apology for one) $35; velvet mantle $150; diamond ring $500; watch, chain, pin and other trappings $300; total, $1100—all hung upon a frail dying woman. I have seen her at a meeting in behalf of homeless wanderers in New York, wipe her eyes upon an expensive embroidered handkerchief at the story of their sufferings, and when the contribution box came round take from a well-filled portemonnaie, of costly workmanship, twenty-five cents to promote their welfare. Ah, thought I, dollars for ribbons, and pennies for Christ.—*Exchange.*

—"Show me," says Charles Sumner, "a creature with erect countenance, looking to heaven, made in the image of God, and I will show you a man who, of whatsoever country or race—whether darkened by the equatorial sun, or blanched by the northern cold—is with you a child of the Heavenly Father, and equal with you in title and all the rights of human nature. You cannot deny these rights without impiety. And so has God linked the national welfare with the national duty; you cannot deny these right without peril to the Republic."

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and Reports and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *seven* rejected applications, and prosecuted APPEALS *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Late Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is found far superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from Five to Twenty Days.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
The Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth, and is the
Best Dressing for Ladies' Hair
Its use will at once free the head from Dandruff, Scurf and all Humors, especially *Salt Rheum.*
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

Portsmouth, N. H.

TUESDAY, JULY 2, 1867.

☞ In the House of Representatives, on Saturday, the only business done was the appointment of the following Special Committee on National Affairs: Hackett of Portsmouth, Hamlin of Dover, Staroe of Sunapee, Page of Warren, Bean of Sandwich, Whidden of Lancaster, Sanborn of Rochester, Davis of Warner, Stearns of Biedge, Clark of Gilford.

MAXIMILIAN SHOT.—A Washington letter of Sunday night says:

The Austrian Minister last night received a dispatch from the commander of an Austrian vessel which had been lying at Vera Cruz, stating simply that Maximilian had been shot at 7 o'clock on the morning of the 19th of June, and that Juarez had refused to surrender his remains to his friends. No other details are given, but the Austrian legation here fully credits the intelligence. It comes from an Austrian naval official, who dispatched a special vessel to the Southwest Pass with a telegram announcing the fact of the execution to Count Wydenbruck, the Austrian Minister. It has been communicated by the latter over the Atlantic cable to the Emperor Joseph of Austria, the brother of Maximilian.

This is confirmed by a dispatch of June 28, from Vera Cruz, by Commander Roe of the U. S. Navy, on board steamer Tacony. He says:

Maximilian was shot on the 19th inst.—Hord begged for his corpse for the Austrian captain, and was refused.

The City of Mexico surrendered on the 20th to the Liberals. Vera Cruz holds out on account of the Foreign Legion. Diaz orders no acceptance of its surrender.

WM. LLOYD GARRISON'S BREAKFAST, June 29.—A London special dispatch says Wm. Lloyd Garrison was honored with a public breakfast which was attended by 400 ladies and gentlemen. Mr. Adams was absent. John Bright in a speech complimented Mr. Garrison for his services in the cause of emancipation. The Duke of Argyle presented the welcoming address and expressed a hope that the attitude of friendly affection would be maintained by England and the United States. Earl Russell frankly avowed his former errors committed at the outbreak of the rebellion and of which Mr. Adams convinced him. Speeches were also made by Messrs. Garrison, Thompson and others. A letter from the Count of Paris was read, which eulogized in warm terms the services done by Mr. Garrison in the cause of humanity and freedom. Mr. Adams, the Minister of the United States, who was absent, also sent a letter, the tone of which was rather qualified and reserved.

Well, most men find their true level in the course of a lifetime—and Mr. Garrison, denounced and hated as he has been by very many, now sits down to an honorary feast with statesmen as well as reformers.

NEW HAMPSHIRE ITEMS.

—— Prof. Monroe Weed, of the new Pennacook Academy, Fisherville, died Saturday morning. His age was 68.

—— D. H. Goodell, of Antrim, has been awarded a bronze medal at the Paris exposition, for apple parer exhibited by him.

—— The burning of fireworks, blowing of horns, and making of bonfires, on the 4th of July, is forbidden by the authorities at Dover, Manchester, and almost everywhere, as they ought to be.

—— A correspondent of the Statesman says that one of the land locked salmon deposited in Newfound Lake last autumn, by N. S. Batchelder, Esq., was caught by some person fishing from the deck of the steamboat, on Monday, and immediately restored to the water. He had grown from a young ster, five inches long, to be thirteen inches tall, and was judged to weigh more than a pound.

—— On Sunday afternoon, near South Newmarket, on the Squamscot river, a party of eight persons were sailing, when the boat upset. Michael Cone, a laborer in the foundry, and a young lady living at Newmarket were drowned. The remainder of the company with difficulty escaped. Cone was a good swimmer, and it is supposed that he met his fate in attempting to save the young lady. Cone was a single man and about thirty years old.

DOUBTED. — The accidental death of Rev. Mr. Merrill of Plattsburg, on the Saranac river last Wednesday, while fishing with his sons, it seems is doubted. The Burlington (Vt.) Free Press says that discerning persons in Plattsburg do not credit the story, as the water where the drowning is said to have occurred is altogether too shallow to drown an active man; and that the transaction and report is believed to have been concocted to cover the voluntary disappearance of that gentleman, consequent upon returned investigations into the facts of an elopement scandal, which have been denied, but which the paper above named insinuates are fraught with suspicion.

[A later item states that his death has been confirmed by the finding of the body.]

— The Democratic Convention of Iowa was small and quite inharmonious, Mr. H. Clay Dean being one of the bitter dispatants.

— The new State capital of Nebraska is to be named Lincoln, in honor of the late President.

Local.

☞ It is very uncertain business, counting chickens before they are hatched—and this year, so we hear on all hands, it has not been much safer even when they were out of the shell—many old poulterers having but few hatched or losing them afterwards. One man out West, we notice, writing in an agricultural paper, says his turkeys did not seem to care about living, for out of four hundred, he had but twenty left, the rest having all left him. So also, of pigs, which this year have seemed scarce in this vicinity; and the anomaly has been presented of young porkers carried from town to country. One of the largest farmers in this region, out of about sixty litters, lost more than three-quarters by sickness, unaccountably, in a few weeks; while of two litters, numbering nineteen, at Somerby's only one died. And being at the nice place of Wm. S. Hadley, corner of Salem and McDonough streets, yesterday, we noticed a score or more of fine pigs of the best pattern to make good family porkers, were scampering about the premises, utterly oblivious of their fate—as indeed, who and what is not?

☞ We learn that the City Hotel in this city is to be renovated and and improved forthwith, and will be opened with Col Wm. S. Hadley as landlord,—one of the best and most popular hosts we ever had here. Men are scarce who know better "how to keep a hotel."

☞ A quaint bachelor acquaintance of ours, when he sees a bevy of gay young ladies fluttering along, is wont to exclaim, "They toil not, neither do they spin; and yet Solomon in all his glory was not arrayed like one of these." And we were reminded of this and him,—though perhaps rather irrelevantly, not to say irreverently—as we saw the polish Mr. Solomon Jenness (who succeeded Andrew Lowd in the barness business) put upon an old carriage top a few days since, making it to look almost like a new one. An article of this sort, to polish worn enamel leather and cloth, without stiffening or injuring it, is much needed; and we think this of Mr. Jenness' is the best we ever saw.

☞ We don't expect or desire a great celebration here on the Fourth—but the people will expect and ought to have at least a Concert from the Cornet Band on Market Square in the evening, in addition to the bells and guns of the day.

☞ The ladies of the Hampton Congregational Society hold a Strawberry Festival at the Town Hall, day and evening of the 4th, to aid in procuring an organ for their church. The ride thither is beautiful, the occasion will be pleasant, and the object is worthy.

☞ Commodore Farragut took with him in the Franklin among his midshipmen, the ten highest graduates of the class of '67 which graduated recently at the Naval Academy. This included Wm. M. Paul, a son of Joseph F. Paul, Esq., of Boston, (a native of York, Me, who formerly resided in Portsmouth,) who received his appointment to the Academy from Hon. A. H. Rice. Midshipman Paul graduated the seventh in rank in a class of eighty-seven.

☞ Hartz, with his wonderful feats, on Friday and Saturday evenings.

Communication.

Yellow fever has broken out in New Orleans. Gen. Butler ought to be perpetual Mayor of New Orleans, for he is black death on yellow fever. He made of New Orleans, while he ruled that town, one of the cleanest and healthiest places in the world, a fact that speaks loudly for his administrative power. It is denied, however, that the yellow fever is now at New Orleans.—*Traveller.*

"Give the devil his due,"—but isn't this nonsense as to Gen. Butler's being the sanitary saviour of New Orleans about stale enough to be dropped? The mortuary report of New Orleans for several years prior to the arrival of Gen. B., shows fully as clean a bill of health as during his administration. Is that due to him? I was myself a resident of that city before his advent, during his stay and after his exit, and must say I failed to see his improvement in the cleanliness of the city, except it might be immediately about headquarters. To the men who introduced the square-block pavement, thus rendering it possible to keep the streets clean, is due the freedom of New Orleans from its old-time scourge—

"YELLOW JACK."

REMOVING RAILS.—People who regard taking up the rails from North Weare to Henniker as an act of injustice, should remember that there was once a railroad direct from Concord to Portsmouth. Individual violence is not so much to be regretted or feared as a breach of the public faith by a legislative body.—*Statesman.*

☞ The old Washburn homestead house in Livermore, Me., was burnt last Saturday. Loss $10,000.

☞ Thermometer at noon Monday, in Washington, 90.

GOLD, Monday, 138.

— The Treasury strike at Washington has ended in favor of the supervising architect. Twenty-seven bricklayers are now at work, and a number of applications for work have been rejected.

Communication.

HAYING.—*Curing in the Cock.*—The late Judge Buell, of Albany, N. Y., I think was the best farmer in the United States. For over twenty years I put in practice his theory for making hay, and it is adopted in many parts of the country. Farmers who fairly test the new method will never return to the old. Never spread the grass the day it is mown, no matter what part of the day, or how heavy the burden, but cock it up green. This is termed "curing in the cock," or in other words, it undergoes the sweating process.—The next morning spread it as soon as the dew is off. By turning it the third time, when it will be more fully exposed to the drying air, it will be fit to get into the barn by two or three o'clock. It then has a greenish look, and a smell like green tea, and is worth two dollars a ton more than hay dried up in the old way. Why? *Because the juices are dried in;* which are the most valuable and nutritious part of hay. Judge Buell put the question—which is applicable to hay—why do you dry your herbs in the shade?

We have seen hundreds of tons of hay spoiled by laying in the swath or spread, over night, the dew falling upon it, or, as often happens, the rain falling for one or more days. Cocked properly by the new practice, the rain cannot penetrate, and it will not be injured for several days, because there will be an evaporation, which is a cooling process.—Chemists can make ice by evaporation. A good farmer in Massachusetts certified that under the new theory he had kept stacks of cocks five rainy days, and it was injured only a little on the outside. But in very warm, "muggy," wet weather, we know of no remedy except to open the cocks daily, long enough to let the steam escape, and recock. Otherwise it would mould or be injured. AGRICOLA.

NEW PUBLICATIONS.

FATHER AND SONS.—A Russian Novel.—Translated from the Russian by Eugene Schuyler, Ph. D. 12mo., cloth, $1.50.

The publishers state that this work has been issued upon its literary merits, without regard to the fact of its being in some sense a "curiosity." Purely as a novel, they believe it fit to rank with the best productions of our time. As a picture of Russian life and institutions, it of course possesses more value than any work yet published in America.

THE MAN WITH THE BROKEN EAR.—Translated from the French of Edmond About. 11mo., cloth. $1.50.

One of those peculiar novels based on scientific theories, in which M. About has been distinctively successful. The chief feature of the book is a humorous, though philosophical illustration of the fact that when a man dies, he will be apt to find it more comfortable to remain dead, than to return to life fifty years after his demise. Another interesting feature is a humorous contrast of the spirit of the Napoleonic era with that of the present age.

Copies of either sent by mail, postpaid, on receipt of the price, by Leypoldt & Holt, publishers, New York.

STORIES AND SKETCHES by our best authors. 12mo. 307 pp., cloth. $1.50.

A collection of fourteen sketches by nearly as many different authors. A pleasant companion for the railroad car, the seaside, or a leisure moment at home. Lee & Shepard, Boston, publishers.

J. H. Foster, No. 5 Market street, has all the above for sale.

☞ Lee & Shepard, Boston, have recently published a neat volume of 293 pages, entitled Little Brother and other Stories, by Fitz Hugh Ludlow. The other stories are, Fleeing to Tarshish, Little Briggs and I, and A Brace of Boys; all life-like and readable, written with ease and freedom; likely to be a popular book, for with a few defects there are many merits. For sale in Portsmouth by J. H. Foster.

☞ On Monday, in Boston, two Italians or Spaniards named Rose Noria and Salvador LaGrazid, were arrested and imprisoned for making and passing counterfeit five-franc pieces. They were armed with a revolver and a Spanish knife, and they fought but were conquered.

— Gen. Sickles has seized a Savings Bank in Charleston for refusing to pay principal and interest to some United States soldiers who were depositors before the war.

☞ For the cure of Neuralgia and other Nervous diseases, many eminent physicians have prescribed *Turner's Universal Neuralgia Pills* with the most satisfactory results. In thousands of cases it has effected permanent cures, and we are glad to call the attention of our readers who are sufferers from this very common complaint, to a remedy which comes to us so well endorsed that we cannot doubt it will prove efficacious in nine cases out of ten. It may be had of any druggist. daw

VAST QUANTITIES OF IVORY DESTROYED.—Thousands of teeth that might last a lifetime are lost every year, simply because the parties concerned either forget or do not appreciate the fact that SOZODONT, duly applied, renders the dental substance proof against decay. 7

A DEAR ARTICLE.—Common Soda mixed with poisonous substances, when bought for good Saleratus, is a very dear article. Fyle's Saleratus costs about the same, is worth three times as much, and is the best and cheapest in the world. Tell your grocers you want Fyle's Saleratus.—See that the name is on the package. 3

☞ The thousands of Consumptive persons who have been kept alive and improved by the use of SPEER'S Sambuci Wine is sufficient evidence of its great value. When used with a raw egg for a length of time, it often effects a perfect cure. Sold by Druggists. 6

MYSTERY.—"Mother," said a little four year old, "if a man is a saint, she's woman a mystery?" The greatest mystery in the world is so is, that any one will buy any other Saleratus but Herrick Allen's Gold Medal. It cures dyspepsia, strengthens weak stomachs, saves your teeth from decaying, saves one-half the quantity of shortening, besides it takes so little of the Saleratus to do its work. Try it. Most merchants sell it. Depot 114 Liberty Street, New York. 38

Beautiful Teeth.

SWIETENIA preserves the Teeth and Gums in a healthy state. Is endorsed by the Scientific Dentists in the profession. Prepared by Dr. M. LEVETT, a Dentist of over 30 years' practice in New York City.

Brooklyn, N. Y., Feb. 11, 1867.

I am delighted with the effects of SWIETENIA as a dentifrice and a wash for the mouth.—Prompted by curiosity, I subjected it to a few tests for acids, and found it free from deleterious ingredient. As a toilet companion, both for the sick and well I consider it a peculiarly refreshing luxury. S. H. OLMSTEAD, M. D.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portion of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the lungs when the system is filled and locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the vitiated blood to supply, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The lungs drink of this and the liver throws it to salomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his room every week day, 21 Hanover street, New York, and 33 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Prices of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other Watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTEND'T,
ALTOONA, PA., 15 Dec., 1866.

Gentlemen:—The Watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road.—As you are aware, we formerly trusted to those of English manufacture, but of somewhat lagged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham, Mass.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.,	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best materials, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

ROCKINGHAM HOUSE, Portsmouth,

On THURSDAY, July 4th, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skins, Joints, Dropsey; also Diseases peculiar to Males and to Females. Lost Complexion promptly restored. Most persons, somewhere from 15 to 80 have one or more bad fits of sickness. Cure them with only, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty three years ago she had consumption of the lungs, inherited, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a fit of "Nervous Chills," which I cured. Twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I have since enjoyed perfect health twenty-two and a half years; not a single show of lung diseases in all that time."

D. D. Benjamin, of Union, N. J., says: "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, being plastered up with phlegm, gross and acid dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

The Hon Demas Barnes says—"I sell more of Brandreth's Pills than of all others put together."

BRANDRETH'S PILLS are Sold by all Druggists, and at the Principal Office, Brandreth House, New York. Observe B. BRANDRETH on white letters on the government stamp on each box. je30dawlmsepn

REAR ADMIRAL GEORGE F. PEARSON, U. S. N., died on Sunday night, in this city. He was a native of this State, entered the Navy March 11, 1815, and thus had been in the service 52 years, of which 22 were spent at sea. He was the commandant at this naval station during the years of the late rebellion and civil war, discharging the arduous duties of that position to the general satisfaction of the department and the public: and in his long residence among us, he always sustained a high character for uprightness, integrity and kindness of heart.

☞ Not long since, Col. H——, a rather noted public character, died in the poor house of an adjacent town. During his abode there he had occupied a room with another elderly object of charity, and to the survivor the Superintendent made a proposal that he should dig the Colonel's grave. This the old fellow stoutly refused to do, saying: "Hang the lazy old critter, he's been loafing about here all the spring; why in the devil didn't he dig his grave then, if he wanted one dug?"

☞ In accordance with instructions from headquarters, Capt. J. H. Donovan has broken up the recruiting rendezvous in this city and removed to Trenton, N. J. Capt. D. proved himself a gallant officer during the war, and has proved himself a pleasant one since stationed here; but the number of recruits received did not warrant the longer continuance of an office here, one reason for which was they didn't advertise.

☞ Seven persons were sailing in a boat upon Great Bay, on Sunday last, when the boat was capsized by a flaw in the wind. Of the party two were drowned; a man and a woman. All the parties were from Newmarket and their names are unknown to us.

☞ Fireworks may be legally sold in this city, but by late action of the city authorities, all persons discharging or burning them, lay themselves liable to arrest. There is also a regulation prohibiting the discharge of firearms in the compact part of the city. It may be found in the advertising columns.

SEIZURE.—We learn that a seizure of liquors was recently made in this city, also at Newton, by the Detectives of the Internal Revenue Department, for a violation of the Revenue laws.

☞ An adjourned term of the U. S. Circuit Court was held in this city Monday, Judges Clifford and Clark presiding. No business of importance was transacted.

☞ Rowe & Co. of Boston will commence at store No. 29 Market street, this morning, a forced sale of bankrupt stock of Boots and Shoes.

☞ Gunner R. J. Hill has been detached from duty at the Navy Yard, New York and placed on waiting orders.

☞ See advertisement of Strawberry Festival at Rye Bach on the "Fourth."

SAVINGS BANK DEPOSITS.—The edition of the Political Manual issued for the use of the present Legislature contains a table of statistics relating to New Hampshire Savings Banks. From it we learn that the increase of deposits during the year reaches the large sum of $2,626,700. This increase is divided among the banks all over the State. Portsmouth gaining $81,687, Exeter, $14,167, Dover, $34,057, and Manchester, with her four savings banks, $1,341,760. This increase is at the rate of about $8,300 for every working day in the year. The resources of the savings banks of our State are $11,511,902, while the capital stock of our national banks is $4,635,000, or less than half the deposits of the savings institutions. Two banks show a decrease, Concord, discontinued, $9,470, and Newmarket, $2,249.

Holloway's Pills and Ointment.—Cancer.—The days of "brilliant operations" are no more. The discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer into its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. The Pills cleanse and purify the blood. Sold by all Drug gists. —1w je22daw

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company have now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its Six per cent. Thirty year bonds to the Company as the road is finished, at the average rate of about $28,350 per mile, amounting to $44,360,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same rate, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources of the line of road, $118,-416,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific road from passengers, mails, $118,-and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of *facts* fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended:—on 350 miles of this road the cars are now running, and the remaining 167 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an actual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

—The great fire in Portland cost the city of Hartford $600,000 for insurance—all on account of a fire cracker.

— A writer says that he has come to the conclusion that the term grass widows arises from the fact that their husbands are always roving "blades."

— Josh Billings truthfully remarks that "trying to live on the reputation of a dead grandfather is just about as enterprising as trying to hatch out rotten eggs under a tin weathercock."

— "A Distressed Mother" writes to the Allentown (Pa.) Democrat for advice, which she gets—thusly: "The only way to cure your son of staying out late o' nights' is to break his legs, or else get the 'calico' he runs with to do your house work."

— A literary paper in Paris having proposed for discussion the question, "What is a woman ?" a correspondent sent to the editor the following answer; "A woman is a small article of luxurious furnitnre, which ought not to make the journey of life without a label, inscribed 'Very fragile.'"

— A goose that sees another drink will do the same, though he is not thirsty. The custom of drinking for company, when drinking is indefensible and prejudicial, seems to be a case of the same kind, and to put a man, feathers only excepted, upon a footing with a goose.

— A lady says the first time she was kissed she felt like a tub of roses swimming in honey, cologne, nutmegs and cranberries. She felt as if something was running through her nerves on feet of diamonds, escorted by several little cupids in chariots drawn by angels, shaded by honeysuckles, and the whole spread with melted rainbows.

— A young officer in the House of Commons wore tremendous moustaches, on which one of the members said, "My dear fellow, now that the war is over, why don't you put your moustaches on the peace establishment ?" "Had you not better put your tongue on the civil list?" was the prompt and haughty retort.

— A gay old boy of sixty odd years, recently married in the city a blooming maiden not out of her teens, and on Sunday night last the young woman presented to her venerable but vigorous lord and master four children at one fell swoop—two boys and two girls. This is certainly a handsome little family to start with, and we are glad to learn that all are doing well, and it has been decided not to drown any of them.—*Portland Argus.*

— A freedman in Texas proved a claim of $150 for wages against his master, but a negro jury would allow him only $110, on the ground that they knew him to be "a trifling, lazy scoundrel," and not worth what his employer agreed to give him.—The negroes are very anxious to get on juries in Texas, and offer to perform the service by the year.

C. A. RICHARDS & CO.'S

CONCENTRATED

EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE

THAT

IT IS NOT

a mere dram-drinking beverage, but a TRUE, GENUINE and SCIENTIFICALLY PREPARED

MEDICINE.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now SAY

TO SAY ABOUT IT,

without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can't begin to tell what does not ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the

JUICES OF THE GRAIN,

combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER AND STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently

IT IS WHAT YOU WANT

when you have a bad cough, to cure it, when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM on, when it has become reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people

GAIN FLESH AND GROW FAT.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *entirely composed.*

This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is to be sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

CEREMONIES AT ROME.—A special cable dispatch from Rome says the religious ceremony in the celebration of the eighteen hundredth anniversary of St. Peter's martyrdom, and in reverence of St. Paul and the canonization of the twenty-five Dutch, French and Spanish martyrs in Japan as saints, was one of the most gorgeous witnessed in the world, since the days of King Solomon. The observances commenced with a general illumination of the city. St. Peter's shone like a great church on fire.

At 7 A. M., a grand procession of prelates, priests, monks and soldiers proceeded from the Vatican to St. Peter's. The Pope was carried on his throne. St. Peter's was magnificently decorated with cloths of gold, silver tapestries, paintings and 200,000 yards of crimson silk, lighted with many millions of wax candles. One hundred thousand people were inside the church, including the ex-King of Naples, Foreign Ministers, 500 Cardinals, Archbishops and Bishops, many thousand clergymen, friars and monks, nuns and soldiers from all parts of the world. The Pope celebrated the Gregorian mass in Latin and Greek. Two interruptions occurred, viz., the curtains of one of the windows took fire, which was promptly extinguished, and a man became crazed by the splendors and cut his throat. The Pope at once reconsecrated the church stained with the blood of the suicide. Listz composed the extra music for the grand mass, which was accompanied by a chord on the dome of St. Peter's and cannon at the castle of San Angelo. The observances will continue a week.

— Raimbaux, whose horse received the pistol ball destined for the Czar, has not only received a Russian and a French order for knighthood, but he is to get a title of nobility, and his wife has been presented with £12,000 worth of diamonds by the Empress of Russia. A good many could afford to have a horse shot on similar terms.

— A Kentucky correspondent of the Cincinnati Gazette has such a poor opinion of the loyalty of that State that he says "Jefferson Davis as a candidate for President to-day, would carry Kentucky over even such a mild Radical as U. S. Grant, by fifty thousand majority; and John C. Breckinridge, in a like contest, would beat the hero of Nashville and other hard-fought fields—General George H. Thomas—by even a greater majority."

TO CONSUMPTIVES.—The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a SURE CURE for CONSUMPTION, ASTHMA, BRONCHITIS, COUGHS, COLDS and all Throat and Lung affections. The only object of the advertiser sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, FREE, by return mail, will please address

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
It is the best remedy ever invented to stop the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
SELEE'S HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair prepar ations, and is to its injury.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never fails, and is perfectly harmless.

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 3, 1867.

IN THE SURRATT TRIAL, July 1, at Washington, Dr. Lewis McMillar gave some most damaging testimony against Surratt, and gave pungent replies to one of the puppies who act as counsel for the prisoner. McM. was surgeon of the steamer on which Surratt went from Quebec to Liverpool; and S. was introduced to him as Mr. McCarty by a priest named Lapierre, who appears to be a confederate.

This witness details Surratt's confessions, or rather boasts, made to him—about his connection with the rebels, shooting American soldiers, receiving $100,000 from the rebel Benjamin, &c.:

Witness said Surratt told him he had received money from Mr. Benjamin, Confed. Sec. of State; the amounts were $70,000 and $30,000; was in Richmond a few days previous to its fall; one day several of them were crossing the Potomac in a boat when they were pursued by a gunboat and ordered to surrender, &c.

Witness was asked to repeat this by the defence, and retorted by telling Mr. Merrick that he (Merrick) could understand it if he kept his ears open; he (McMiller) was not to be insulted as all the witnesses had already been insulted, and he thought to insult a witness was the act of a coward and a sneak.

Merrick asked if that was proper language for a witness to use.

The Court said it was not, but counsel must not worry and annoy the witness.

The witness said Mr. Merrick had said the other day that all the witnesses ought to be in the penitentiary, and he wanted it understood that he was as good as Mr. Merrick.

Witness resumed, and said that Surratt stated that he had frequently travelled to Richmond under the names of Harrison and Sherman. Upon reaching the coast of Ireland Surratt called me behind the wheel house and remarked that he saw foreign land at last, and putting his hand upon the pistol in his pocket, he said he hoped to live to see the day when he could return and serve Andrew Johnson as Abraham Lincoln had been served; he said it an English officer attempted to arrest him he would shoot him. I told him if he did that he would meet with very little mercy in England; he replied he knew that, but he would do it nevertheless, for he would sooner be hung by an English jury than a Yankee one, and if he went to the United States again he knew he would swing.

Mr. Bradley asked that the latter statement be repeated.

Witness was about to reply, when it was stated that he was not asked.

Witness said he could tell all that was necessary, and continuing his remarks, said Mr. Merrick was not at all dangerous—he was not afaid of him.

☞ A Halifax dispatch of Tuesday calls the "Dominion Holiday" of Monday, in that city, a "perfect failure." [We don't think there is much perfection in a failure, but let that pass.] The dispatch goes on to say:

"All the English, Irish and Scotch Societies refused to join the procession. There was much excitement in the streets, more than one-half of the shops were open, and flags were flying at half mast at various points. The Yankee, anti-Canada feeling is very strong here, as was manifested yesterday."

LEGISLATIVE.—A Concord item of Tuesday, in the Boston Journal says: A majority of the Railroad Committee will report this afternoon in favor of submitting all questions in controversy between the Manchester Board of Trade, the Boston & Maine Railroad and sundry petitioners on the one side, and the Concord, Manchester & Lawrence and Nashua, Lowell and Boston Roads on the other, to the Supreme Judicial Court for a legal decision thereon. A majority of the Committee will also recommend the postponement of the whole matter to the next Legislature.

AT CLEVELAND, OHIO, JULY 1, a train of tank cars, while unloading crude oil on the Atlantic and Great Western Railroad took fire, probably from a passing engine, and destroyed three cars with a small quantity of oil. The fire communicated to Backus, Williams & Co's refinery, which was supposed to be fire proof, by the burning oil running in doors. The refinery was totally destroyed. Loss $56,000, on which there is little insurance.

☞ Blackwood's Magazine for July completes the 101st volume of this interesting periodical. Furnished at $4 a year by the L. Scott Publishing Co., New York.

—The Portland & Kennebec Railroad, which has been in operation twenty years, has declared its first dividend of three per cent.

—The barkeeper who sued in the Superior Court at Springfield, Mass., for wages due, got a verdict in his favor. The claim was resisted on the ground that the plaintiff was engaged in an illegal employment.

— A member of the Select Council of Philadelphia was ejected from the meeting of that body Thursday afternoon for behaving in an unruly and indecorous manner, being at the time in an intoxicated condition.

A CALF RACE.—"The following was found on the wall of a country post office: 'Lost a red kaf. He had a red spot on I out his behind leggs. He was a she kaf. I will give three shillins to everibodd to bring him home.'"

Well, we know of a man who lost a red calf. It was some time ago—but after the above item, we can't keep the story any longer. It was a burning hot day in July —a bright Sunday morning; and the scene is laid in Newington and Greenland. Our friend E. is laying back on the shady piazza, with visions of a lazy day, when, presto, change! out scoots the calf, and down the road like smoke.

To harness the horse, and after him, took but a moment; but zounds, what time the young bovine makes. In almost no time he is at Greenland depot of the C. & P. R. R., then with a whisk of his tail, what is a mile of the "Ocean Road" to him; (which, *en passant*, is no road to the ocean at all, only towards it.)

Ah! now he takes to the fields—over the wall and far away towards the rich dense woods. Vain is horseflesh now, and idle the hope of crippled driver. Grindell himself couldn't follow that pace—and when cally gains that wood, what then, oh ye lovers of fancy stock, and those who delighted in the frisky gambols of sportive four-legged and strong-winded youth.

But see, ere he gains the copse,—what means this? A man, evidently of Irish extraction, comes out from yon little farmhouse, and with bare legs and head,—and showing a lusty pair of calves himself, which were to stand him in good need,—puts after the flying calf,—and strange to say, soon catches him too, and brings him back—both pretty well blowed, to where our astonished but delighted friend E. sits in his wagon.

Thank you, sir, says he,—Much obliged to you. What for? says Pat, puffing.—Why, for catching my calf! Catching *your* calf! replies Pat; do ye think I'd lave me baby alone in the house, to run after your calf like that? Faith, and didn't I see my calf run out o' the barn there, and over into the field—and didn't I after him?

E. thought he did run some, and began to think he saw an Irish bull; not to mention he might lose his calf after all. But after considerable debate, all three went to the barn, and there was the *other* calf, to be sure—and two of the four rode home. And since that day E. don't want to chase juvenile bovines, we believe.

NEW HAMPSHIRE ITEMS.

—— The dwelling house and barn belonging to Daniel Alton of Peterboro' were destroyed by fire Tuesday night.

—— Thirty young were graduated at Kimball Union Academy last week, twenty of whom have already passed a successful examination for admission to Dartmouth.

—— The house of Joel Elliot in Mason, was entered on Sunday night, 16th ult., by a ladder at a chamber window, and robbed of $2000 in government bonds, besides other valuable property.

—— The City Council of Nashua has recently passed an order establishing a public library in that city. The ordinance appropriates annually $1000 for the purposes of books, binding, &c., and also provides library rooms, book cases, furniture, lights, fuel and other contingences at the expense of the city.

—— The dwelling house of Samuel Dinsmore in the west part of Antrim, was recently entered by thieves in the absence of the family, and robbed of $400 in 7-30 bonds, $100 in money, a gold watch worth $100, and a certificate of bank stock for $400. The thief was arrested in Lowell and most of the money recovered.

—— A robber entered the house of Mr. Robinson in Greenfield a few nights since, and was discovered by Mr. and Mrs. Robinson at the foot of their bed. Mr. Robinson immediately yelled to his brother who was in another room, and sprang out of bed, when the thief jumped through the window and escaped.—Mr. Robinson had received about $700 a few days previous.

—— Rev. T. H. Miller is to preach at Fremont next Sunday.

—— A soldiers' monument 17 feet high, for the town of Sullivan, is to be erected in that place on the 4th of July, Rev. Dr. Barstow of Keene giving the address.

—— They are to have a Musical Academy, in connection with a private High School in Claremont. Of course it will accommodate both girls and boys, for there is not much "music" in a school for either sex alone.

☞ A dispatch from Montgomery, Ala., says that L. S. Berry, first Vice President of the late Republican State Convention, and eight other colored men of Mobile, have addressed an appeal to Gen. Swayne, setting forth the condition of the colored people of Mobile, politically and otherwise. They declare they are denied rights in courts, and many odious provisions of the State code, to all intents, remain in full force to their oppression. The Civil Rights bill has secured no practical good to the colored race, and is a dead letter.

☞ A boiler, used with an engine used for hoisting coal on the Gas Co.'s wharf in Boston, burst Monday afternoon, smashing the engine, knowing the engineer a rod or two, and scalding the captain of a vessel lying there.

GOLD, Tuesday, 138 1-2.

UNION PACIFIC RAILROAD.—376 *Miles open for Travel*; to Julesburg.—The telegraph has announced the completion of the road to Julesburg, 376 miles from Omaha, and the materials are nearly all on the ground to lay the track to the base of the Rocky Mountains, —141 miles further—by September next.—This is certainly very rapid work, but intelligent correspondents say it is well done, and that the road is well equiped; that its depots and stations are of brick and stone, and its locomotives and cars of the best. The U. S. Commissioners are also compelled to testify that it is in all respects a first class road before the Government will accept it. The business of this road is already surprising. The thousands of teams that once spent a summer in toiling over the prairies have transferred their loads to the rail track, and by autumn the locomotive will be at the base of the Rocky Mountains.

The Editor of Harper's Weekly remarks that "when the Union Pacific is completed, all other lines of railway will become, to a certain extent, its feeders. Along the entire route over the great Plains lateral branches will be constructed, which will pour into it their way-side contributions to an extent that cannot to-day be approximately estimated.—Already, with less than one-third of its length complete, it is earning several times its operating expenses, as officially stated. Such success is without precedent. When it reaches the already populous gold regions of Montana, Idaho and Nevada, the freight to and from those points alone is likely to be almost fabulous. And population follows the road as it extends. A town or village marks each stage of its progress. Who can calculate the quantity of way freight that the road is destined to carry for these rising communities? Who indeed can estimate the amount of passenger traffic alone?"

Our readers will perceive by reference to the Company's advertisement, that it offers its First Mortgage Bonds, paying six per cent. interest in gold to subscribers, at ninety cents on the dollar. These Bonds are a *first lien* upon the road, and are limited in amount to $16,000 to the mile.

The Company state their net earnings for the month of May, while only 290 miles of road were in operation, at $261,782—a sum, which after deducting operating expenses, is several times the interest on the bonds they are by law permitted to issue upon it. If the earnings are so large upon the way business, what may we not reasonably expect when the connection is made in 1870 with the Pacific Coast? We can see no reason why the First Mortgage Bonds of such a road are not a safe security, and they are 15 per cent. cheaper than Government bonds at the market rate.—Subscriptions are already large, and are received by banks and bankers generally thro'out the country.

— On Sunday last an assembly of professed church reformers met at Brooklyn, N. Y., for the purpose of instituting a more perfect church—a new Zion. The main principles evoked by a general discussion consisted of wholesale abuse of all existing churches and some abuse of the reformers present.

A SURE PRIZE.—Whoever gets a bar of Pyle's O. K. Soap draws a prize indeed. There is nothing like it, either for the laundry, bath or toilet. Sold by Grocers generally. 9

VAST QUANTITIES OF IVORY DESTROYED.—Thousands of teeth that might last a lifetime are lost every year, simply because the parties concerned either forget or do not appreciate the fact that SOZODONT, duly applied, renders the dental substance proof against decay. 7

☞ The thousands of Consumptive persons who have been kept alive and improved by the use of Spragg's Sambuci Wine is sufficient evidence of its great value. When used with a raw egg for a length of time, it often effects a perfect cure. Sold by Druggists. 6

— The ladies, individually and collectively, without a single exception, pronounce Herrick Allen's tield Medal Saleratus to be the best and most wholesome article in the market. They say it makes nicer, whiter and lighter Biscuit and Cake, and requiring less shortening than any other saleratus, and is much better to use with cream tartar than soda. Try it. Most of the Grocers and many of the Druggists sell it, and at wholesale by wholesale grocers. 39

A SAD AFFAIR.—At Middletown, Ct., the other day, a little girl named White was killed by having the wrong medicine administered to her. She was sick and the physician gave a recipe, which was sent to the druggist to be prepared. The clerk put up laudanum in place of rhubarb, the consequence of which was that after three teaspoonsfuls had been given the child, she was a corpse.

PIKE.—We are indebted to Capt. W. A. Sanborn for a fine specimen of this species of fish, fresh from Lake Champlain. Many people regard the pike and the pickerel as the same. Such, however, is not the fact. They differ in several respects. Both are excellent eating. There are no pike in the waters in this vicinity.—*Wolfeboro' News.*

LEGISLATIVE.—In the House on Monday, there was a debate on the bill providing that every person not having paid his poll tax for one year before an election, should be deemed to be "excused at his own request," and it was indefinitely postponed, 133 to 128.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person who has an ill-spent feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in the tripe, by this throw out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digesting coarse. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becomes torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes and lungs partakes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this loathsome condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets to a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases of Consumption commence from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with these hemorrhages, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and will receive calls from 9 to 10 A. M., and 2 till 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTEND'T,
ALTOONA, PA., 15 Dec., 1866.

Gentlemen:—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches at the cost of manufacture. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road.

As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

Including the married state, the single state, and all states of the human hair which are not in harmony with beauty. Of whatever undesireable stripe women's ringlets or man's locks or whiskers may be, the evil is remedied instantly by CRISTADORO'S HAIR DYE,

which is harmless as water and certain to produce a natural black or brown in five minutes.—Manufactured by J. CRISTADORO, 68 Maiden Lane, New York. Sold by all Druggists. Applied by all Hair Dressers. Jy1daw—1m

☞ STRUCK BY LIGHTNING, in its reality, is a terrible calamity, yet thousands of people are struck with the superiority of LEVERTON'S LIGHTNING HAIR DYE over all other preparations of the kind in the world.—Give it a trial.

M. S. Burr & Co, Geo. C. Goodwin & Co., Rust Bros. & Bird, Boston, wholesale agents.—Sold by all Druggists.

NOTICE.—I have used LEVERTON'S LIGHTNING HAIR DYE in my shop for four months, and find it without any exception, the *BEST DYE* I have ever used, and can safely recommend it to all who are in want of a good and reliable article. JOS. D. LLOYD, Hair dresser,

DR. S. S. FITCH,

Of 714 BROADWAY, NEW YORK, Author of the SIX LECTURES on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Dyspepsia, Heart Disease and all Chronic Diseases, will be at the

ROCKINGHAM HOUSE, Portsmouth,

ON THURSDAY, July 4th, and on the same day of the week every six weeks afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skins, Joints, Dropsy; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most persons, somewhere from 35 to 50 have one or more bad fits of sickness. Come to me wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty three years ago she had ulcerated lungs, and true, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I have now enjoyed perfect health twenty-two and a half years; not a single show of lung disease in all that time."

D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

Dr. Fitch's "FAMILY PHYSICIAN," a most excellent book in all families, 76 pages, 25 cents, sent free of postage to any address. Send no money until you get the book and approve it. Direct all letters for books or consultation to 25 TREMONT ST., BOSTON, MASS. je20—1y

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being flooded up with phlegm, grose and acid dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

The Hon. Demas Barnes says—"I sell more of Brandreth's Pills than of all others put together."

BRANDRETH'S PILLS are Sold by all Druggists, and at the Principal Office, Brandreth House, New York. Observe B. BRANDRETH in white letters on the government stamp on each box. je26dawlmapn

Local.

☞ As an exercise, the throwing of stones can hardly be considered of much practical value, the strain upon the muscles called in play being too sudden and too violent to be practiced without great caution. In the days of David, slings sometimes threw stones into the heads of men, but since his day "slings" have mostly been successful in depositing "bricks" in men's hats. So we return to our original theme—the throwing of stones by hand, as practiced by the youthful barbarians of the present day.

In case of an unexpected serenade by vagrant cats, the throwing of a few stone bouquets to the performers may be admissible, but in general, the throwing of stones is at the best a dangerous and therefore reprehensible practice.

A gentleman of this city finds great cause for complaint at this habit as practiced by the boys. A beautiful bird's nest in a tree in front of his residence seems to possess the power of inducing a meteoric shower from nearly every boy who passes, and as the meteors come from the earth towards the nest, the danger to glass and the general appearance of the building is great, setting aside the pleasure the occupants of the house have felt at having the birds domiciled upon their premises, and their regrets at having the leaves and young twigs broken from their shade trees.

Don't stone the birds, boys; they are a benefit as well as an adornment to any community,—and you are liable to arrest and fine for throwing stones in the streets.

☞ On Monday, as one of Jackson & Co.'s Express wagons was passing through Washington street, the horse started suddenly on being struck with the whip, broke the whiffletree and cleared himself from the wagon. Avoiding Mr. Adams's team, which was just emerging from his gate, the horse came into collision with Dr. W. H. Salisbury, who was passing,—knocking him down, bruising his face, laming his shoulder, and dislocating one of his fingers.

Not long since, as a party of gentlemen from this city were enjoying a drive upon the beach, the horses (a spirited span) took a sudden fright and cleared themselves from the vehicle. The driver retained his hold upon the reins and was drawn from the carriage, but although a fragile youth he retained his hold and shew the value of his long training with horses by bringing the frightened animals to a halt without accident.

PERSONAL.—Lieut. Fred. L. Dodge, U. S. A., left New York on Monday for San Francisco, where he was ordered for duty.

Mr. James Shaw, formerly of this city, has been appointed one of the Aldermen of Mobile, to replace those removed by General Swayne.

E. P. Nowell, Esq., editor of the American Odd Fellow, New York, has been spending a day or two with his friends in this city.

☞ This evening Prof. Ashley and other artists will give a varied entertainment at the Temple; also on the afternoon and evening of the fourth.

☞ The Funeral of ADMIRAL PEARSON will be at the Unitarian Church to-day at 5 o'clock, P. M.

Notice.

The funeral of Rear Admiral GEORGE F. PEARSON will take place on Wednesday, July 3d, at 5 o'clock, from Unitarian Church. The officers of the Navy, Army and Marine Corps are requested to join in paying military honors to our distinguished brother officer.

F. BAILEY, Rear Admiral,
Comd't of Portsmouth Navy Yard & Station.

☞ Charles O. Brockway, of whom we have heretofore spoken as being one of the most consummate rascals of the age, and who has been proficient in all the details of crime in its different characters—was sentenced by the United States Court in New York city on Monday, to serve fifteen years in the State Prison for counterfeiting.—Brockway is a native of this State, and his mother and father-in-law are highly respectable people. A photograph of him, shown us by a gentleman of this city, represents him to be a very good looking man, but of a treacherous and sneaking character. Bank vaults and other depositories for valuables will be comparatively safe in New Hampshire now—Brockway's regular annual summer tour this way necessarily being abandoned.

☞ We are informed that a little boy named Garland, seven years of age, while sliding on the balustrade of the stairway in Exeter Town Hall, on Monday, fell a distance of thirty feet, injuring him so severely that no hopes are entertained of his life.

METHODISTS IN NEW HAMPSHIRE.—The number of church members is 10,893, probationers, 1727; total, 12,620. There are 128 preachers on the list. In three cases advantage has been taken of a new rule, allowing ministers to be appointed to the same circuit or station for three consecutive years. The number of church edifices is 105; the value of these is estimated at $320,250. There are 53 parsonages, valued at $63,450. Sunday schools 129, with 1743 officers and teachers, and 12,580 scholars.

— A raft passed Memphis, Tenn., last week, which would, it placed on dry land, cover over one and a half acres of ground. It was composed of 527 tiers, averaging each fifty feet, and containing in all about 1,400,000 square feet of finely seasoned cypress.

Holloway's Pills and Ointment.—Cancer.—The days of "brilliant operations" are no more. The discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer in its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1265 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,320 per mile, amounting to $34,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them*.

The Government makes a donation of 12,960 acres of land to the mile, amounting to 20,022,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $98,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections of road now finished for the first two weeks in May were $112,000. These sectional earnings as the road progresses will soon more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered, are less than a million dollars per mile of road, on which over twenty million dollars have already been expended;—on 339 miles of this road the cars are now running, and the remaining 167 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

TEMPERANCE SONG.

Gushing so bright, in the morning light,
Gleams the water in yon fountain;
As purely too, as the early dew
That gleams the distant mountain.
Then take and sip, with eager lip,
The liquid crystal flowing;
Nor dare profane, with mixture vain,
A gift of God's bestowing.

Silently dwell, in their deep, cold well,
The waters to us given;
Reflecting the scene in their waveless sheen,
Of the blue expanse of Heaven.
Then take and sip, &c.

Quietly glide in their silvery tide,
The brooks, from rock to valley;
And the flashing streams, in the broad sun's beams
Like a bannered army rally.
Then take and sip, &c.

Not only here, of water clear,
Is God the lavish giver;
But when we rise to yonder skies,
We'll drink of Life's bright river.
Then take and sip, with eager lip,
The liquid crystal flowing;
Nor dare profane, with mixture vain,
A gift of God's bestowing.

The Chronicle.

☞ On Monday evening, in Boston, the congregation of the School Street Universalist Church held an informal but very numerous meeting to review the action of the Proprietors or Corporation, who had, by a two-thirds vote, advised Rev. Mr. Connor, the junior pastor, to resign his place.

In answer to questions by Dr. Miner, Rev. Mr. Connor stated that he believed Christ to be an infallible teacher, and his life to be pure and spotless.

Since the Free Religion Meeting, however, Mr. C. had told Dr. M. that he could not conscientiously resign the position which he held in the association formed that day —thus signifying that he believed in the views there presented, which styled the religion which they desired to band themselves together to promote, as one based on science, and putting aside the authority of the Bible—rejecting Christ's leadership and building up an absolute religion, which used to be called natural religion, in contradiction to revealed religion.

After much debate, it was, by a large majority,

Resolved, That the statements made to-night by brother Connor with regard to his belief in Christ are thus far satisfactory, and it would be unjust to the Society and to him to have his resignation accepted.—We therefore respectfully recommend to the Proprietors to reconsider their vote requesting him to do so.

Rev. Dr. Miner proposed a substitute resolution qualifying the terms of that passed in important particulars, but, after discussion, the one originally proposed was preferred by the majority, as above stated.

The attendance was large, and included many ladies, who sat out the proceedings, which concluded about midnight.

☞ The "Turf, Field and Farm" closes an obituary notice of the racing mare "Moonlight," the most promising and beautiful four year old on the American turf, thus:

"She sleeps in peace, after the stormy battle of life. And is this the end of the gallant spirit? Surely there must be something beyond the narrow present for one so great. Greatness is immortal, and immortality cannot die."

—If you wish to get into trouble, always keep a sharp lookout after your neighbors' concerns.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington under the Act of 1837.

No. 78 State street (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *three* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is decidedly superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from Ten to Thirty Days.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as by magic.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

THURSDAY, JULY 4, 1867.

ODE FOR THE DAY.

The following lines were written 33 years ago, by a gifted son of Portsmouth,—and published on the morning of July 4, 1835, in the Journal. They are republished now and here, *not* merely in memory of the day, but also of the writer, who was one of the victims of hardship among the everglades of Florida only a few years afterward.

Brightly beams the heavenly sun,
On our fair land to-day;
Sound the trumps and roll the drum,
To cheer him on his way.
Chime the ever merry bells,
Wind, wind the martial horn;
Tyrants tremble at the sound,
Fall and weep, and bite the ground.

Loudly peals the cannon's roar,
To usher in the morn,—
It minds us of the days of yore,
When Liberty was born.
Glorious cause! where Freedom bled,
And tyrants quailed, and foemen fled.

The iron troops have ceased to fight,
The gory spear is gone,—
Then let us, next to heavenly might,
Give praise to Washington.
He stretched his warlike arm to save
His country from ignoble grave.

And many a *soldier*, many a *chief*,
Joined fast their heart and hand;
And on, to the worn one's sweet relief
Then marched the patriot band.
Oh, never, never we'll forget,
The *gallant band of Lafayette*.

And who was there that did not rush
On to the battle-field—
While there was left a foe to crush,
Or single heart to yield.
For father, brother, strong though few,
Up to Columbia's standard flew.

The battle's o'er, the storm is down,
Our Eagle's wing is free;
It seeks no fawning smile nor frown
Of foe to Liberty.
Chime the ever merry bells,
Wind, wind the martial horn,
Loud peans raise, and joyful sing,
Our Eagle rides on his wavy wing.

LEGISLATIVE.—In the House, Tuesday, Mr. Wendell of Portsmouth, from the Committee on Railroads, reported a resolution recommending postponement to the next session of the Legislature, the petition of the Eastern Railroad in New Hampshire for a law fixing the compensation which the Concord Railroad shall pay for the use of the Eastern Railroad in Portsmouth. Adopted.

There was an earnest debate on the Bill for the Encouragement of Manufactures, giving the right of flowage to Manufacturing Corporations under certain conditions; and the bill was postponed to the next session, 152 to 110.

The bill incorporating the Epping, Exeter & Hampton Beach Railroad was postponed to next session.

The bill to aid in the construction of a railroad from Littleton to Northumberland was taken from the table, and Mr. Reding moved to amend by adding a section providing that the act should go into effect when the Supreme Court should decide the bill to be in conformity with the State and United States Constitutions. This motion was negatived, and the bill passed.

The Senate bill incorporating the Rockingham Ten Cents Savings Banks was read twice and referred to the Committee on Banks.

The Senate bill in amendment of the charter of the Portsmouth and Dover Railroad was read twice and referred to the Committee on Railroads.

An animated debate sprung up on the bill to prevent Railroad Monopolies, on the question of passage, or postponement and reference to the S. J. Court.

In the Senate, an act providing for a Superintendent of Public Instruction, read a third time and passed,—and an act in relation to laying out of highways, and an act to authorize cities and towns to furnish aid to disabled soldiers and seamen, were indefinitely postponed.

The Railroad debate continued on Wednesday morning in the House. The minority report was finally accepted and adopted by a very large majority, (without a division,) the rules suspended, and the bill to prevent Railroad combinations was read three times and passed. In the Senate, it was referred to the Railroad Committee.

☞ The Comptroller of New Orleans refuses to pay the officers of the city appointed by Gov. Flanders and the Military powers. He holds up Stanbery's opinion as his shield.

GOLD, Wednesday, 138 1-2.

AT LEWISTON, Me., July 2, Verrill was convicted of murder in the first degree for killing two women at Auburn.

— The gold fever is spreading through Western Texas. The San Antonio Herald hesitates to add to the excitement, but is constrained to say that there is all probability a gold mine within a few miles of that city.

— "I want to buy a sewing-machine," said an old lady, entering a shop. "Do you want a machine with a feller?" inquired the clerk. "Sakes, no; don't want any of your fellers about me."

— Industry and economy will get rich, while sagacity and intrigue are laying their plans.

A RACE IN THE WOODS.—Once upon a time, four sportive youths of Great Falls drove eight miles out into the country, gunning. They found a good place for hunting, but not much of a place for game. So, after getting sufficiently tired to feel they had had a good time, the boys started thro' the woods for the clearing, where they left their horse—taken from the carriage, and with harness on but bridle off, hitched to a tree. A man whom they met coolly inquired if that was their horse he saw loose just now? Goodness! they soon found out it was—for on reaching the tree, there hung their halter, but no horse at the other end of it!

Here was a go—day nearly done, eight miles from home, and the horse nowhere, or rather everywhere, for he had a mile of woods, and they could hear him putting through the brake like mad, though they had not yet got a sight at him, nor any other game, though they began to think their late informant as well as their lamented charger, was making game of them.

Presently Varney gets a glimpse of the flying steed, and with a shout, there he is, all rush for him, but only succeed in tumbling heels over head across stumps, or getting smartly rapped by limbs, or scratched in bushes. Good Lord, (that was the man's name—one of the crowd—his last name we mean) see him run! And they did see him run, to their heart's content, or satisfaction—no, conviction—and concluding after a while that they couldn't catch him, they decided to try *Dr. Shapleigh's* prescription, and turn him out into the road,—trusting to luck for some passer by to head him off.—So down go the bars, and out into the road the horse; with the dogs, who had been chasing all the while, in full cry. And the sorry, tired and hungry quartet of hunters plodded on after, with a pretty good prospect of an eight-mile tramp to supper.

But no,—before long a man with double team appears, and at their request, puts his long rig across the road, and finally their runaway is caught and carried back to their wagon at the but in the woods.

To be sure, he is brideless, but so good and kind is he known to be, that nobody thinks of doubting him, even after their late experience. So he is led back by the fore-top, and put between the shafts, and all feel safe and secure again. And here endeth the first lesson—of doubt as to the nobility of the horse kind in general, and especially this particular animal.

But the second is like unto it.

"'Twas for your pleasure you come here;
You shall go back for mine."

So, just as all hands were vowing how they would make him streak it home, and just as two of them had got the shafts into the lugs—out came one of the dogs from the hut, and seeing the wild-looking, unbridled steed, gives a jump and a bark at him. This was too much—"too big a boon"—and horre gives a jump too—out of the shafts, which fall at the feet of the late happy couple of out-riggers, leaving them in blank amazement and dismay; and away he goes through the woods again.

"Away went Gilpin, and away went Gilpin's hat and wig:
He lost them sooner than before, for why, they were too big."

It is very often said that there is no teacher like experience, though he is generally allowed to be a hard one; but we don't see that people learn much even by their own experience, and nothing at all from others'. Thus, our gallant and gay hunting foresters had to study this their lesson all over again the second time, before they learned it.

Our informant tells us it was a scene for Hogarth, when the horse left those shafts—the frisking of the delighted dogs, at the heels of the again rampant steed, the blank amazement and dismay depicted on the faces of the hostlers, and the mad efforts of that little six-footer to "stop him—head him off."

But head him off they couldn't and didn't, and after a second three-mile hurdle heat, through the woods, as before, they had to try the same desperate remedy as before—and luckily with the same pleasant result, only it was another teamster who stopped "the horse and his (would-be) riders" this time. *Now* we rather think Mr. Horse got a bridle; and with night just closing down on the scene, our heroes start for home, where they arrive in season for bed.

We believe the question as to whether their kind stranger informant in the woods, himself set their horse adrift, has never been decided; nor just who was most to blame for the second escape; but if our readers fail to enjoy this race, it is either because they don't relish a good joke so much as we, or else we have spoiled the story in the telling. At any rate, commend us to Great Falls woods for hunting, with that wagon load of sportsmen.

"And when they next do ride abroad,
May we be there to see."

— As Adams of Jaffa colony repute has yet many adherents in Maine, Mr. E. B. Mackenzie, one of Adams' returned victims, is out lecturing and exposing him.

— A woman was brought before a police court in Cleveland, Ohio, a few days since for drunkenness, who wore jewelry estimated to be worth $5000.

THE SURRATT TRIAL on Tuesday, was interesting, and was against the prisoner decidedly. Dr. McMillan testified to Surratt's confessing to him that he was in the plan with Booth to abduct the President, but that it was found necessary to abandon or change it. The witness said Surratt never told him that he was in Washington on the day of the assassination, nor had he stated to him what the abduction plan had been changed to. Surratt said that Booth telegraphed at Montreal to come to Washington, as it had been found necessary to change the plan, and that he (Surratt) was in Elmira, New York, on the Thursday preceding the assassination. Surratt also related to the witness a statement of his dropping his handkerchief in St. Albans, Vt., thereby corroborating the previous evidence in that particular.

Benjamin St. Marie was next put on the stand, and caused a sensation in the court room. Surratt seemed nervous on seeing him. He testified that Surratt confessed to him in the Papal States that he (Surratt) was in Washington and escaped from the city thoroughly disguised, on the night of, or the morning after, the assassination. After the witness made this statement he left the stand, the counsel for the prisoner, to the surprise of all, declining to cross-examine him.

Quite a scene occurred in the court house after the adjournment of the court, between Judge Fisher and Mr. Bradley, senior counsel for the prisoner. The latter approached the Judge in an excited manner and said he excepted to his remarks from the bench in an allusion to the way in which the prisoner's counsel had cross-examined the witnesses. Judge Fisher said he was too ill to enter into a controversy now. Mr. Bradley informed the Judge that if he (Fisher) were not sick, he would thrash him. Judge Fisher replied that he did not claim immunity from the threatened castigation on account of illness, and it is said squared himself for fight. The bystanders interfered, when Bradley defied Fisher to expel him from the bar. The Judge replied that he should not prejudice his case by doing that. At this stage young Bradley came rushing in, pushing the crowd aside, seeming to be making toward the Judge in a violent way, but by this time the Judge had been taken into an adjoining room, and Bradley Junior, seeking an interview, fully disclaimed the inference that he was intending to assault him, but was merely making his way through the crowd to see what was the matter.

[Bradley is evidently out of place in the Bar—deserves expulsion for his insolence, and kicks for his cowardly threat to a sick man—but the poor fool don't see how he damages his client's case.]

☞ Particulars of Maximilian's trial and execution are coming along.

Escobedo writes from Queretaro, "I have by the execution of these master traitors made terror the order of the day everywhere. I have imposed large contributions on the rich and confiscated their property and their all. Where I could not do it in person my delegates have strictly complied with my orders. I hope before closing my military career to see the blood of every foreigner spilt that resides in my country."

There is a report that Maximilian was shot in the face, and Mexican Generals in the back as traitors.

Both the Liberal and Imperial papers of Brownsville condemn the execution, and the Ranchero is in full mourning.

Berozabat, the Governor of Matamoras, had all the bells rung and rockets were fired on the receipt of the news of the execution. He also sent official information of the fact to Gen. Reynolds.

☞ A magnificent dapple gray stallion passed through Whitefield, New York, on Wednesday of last week, on route for Montreal. This horse was eighteen hands high, and weighed 1900 pounds. He measured two feet five inches across the breast, two feet eight inches across the hip, six feet around the neck where the collar is worn, and girts seven feet. His shoes were twenty-one inches across. He was imported from France by a gentleman in Montreal, with a view to improving the breed of Canadian draught horses.

— Two men who were hoeing corn in East Alton the other day, getting excited in discussing religion, the one knocked the other down with his hoe. Neither of them probably had a realizing sense of what true religion is.

— The Bangor Times says the wholesale price of butter in that city is 18 cents; for eggs, 20 cents. Potatoes are rising in price.

A SURE PRIZE.—Whoever gets a bar of Pyle's O K Soap draws a prize indeed. There is nothing like it, either for the laundry, bath or toilet. Sold by Grocers generally. 6

— Gold Medal Saleratus is making a great sensation among consumers, as they find their health depends upon its issue. It will strengthen weak stomachs, cure dyspepsia, save one-half in the quantity of shortening, make one eighth more Bread, Cake or Biscuit from the barrel of flour, and withal is perfectly healthy. Try it. The Grocers and Druggists sell it. Depot 119 Liberty Street, New York.

☞ The thousands of Consumptive persons who have been kept alive and improved by the use of SPEER'S Sambuci Wine is sufficient evidence of its great value. When used with a raw egg for a length of time, it often effects a perfect cure. Sold by Druggists. 6

ARREST OF AN ALLEGED MURDERER. At New York, July 2, Thomas Keally was arrested on the charge of being the person who murdered Col. O'Brein in Second Avenue during the draft riots in July, 1863. The officers claim to have in their possession strong evidence identifying the prisoner as the perpetrator of the deed.

IRELAND'S DECLINE.—At a recent meeting of the Cork Farmers' Club several of the speakers said that Ireland was going back fast, losing wealth as well as population. It was also stated that the Irish emigrants brought with them to the United States £17 for every man, woman and child on an average.

— William Ward, an engineer on a Wisconsin railroad, saved the life of a child a few days since by jumping off and seizing it just as the train was about to pass over it.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucous or slime. The rough serous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's unwrought Iceland moss dissolves this mucous or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver, wearing itself to cease to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchitis or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The divert all the venous blood to strain, and when it gets in a mortid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages are from this thick consolation of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts more bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

The above medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 750 parts. How they run under the hardest trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, PA., 15 Dec., 1866.

Gentlemen:—The Watches manufactured by you have given us use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road.—As you are aware, we formerly resorted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

DR. S. S. FITCH,

Of 714 BROADWAY, NEW YORK, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Bronchitis, Heart Disease and all Chronic Diseases, will be at the

ROCKINGHAM HOUSE, Portsmouth,

On THURSDAY, July 4th, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Files, Kidneys, Bladder, Joints, Dropsy; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most persons, somewhere from 15 to 40 have one or more bad fits of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "Fifty or sixteen years ago you have got a deed of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty three years ago she had ulcerated lungs, and true, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I have now enjoyed perfect health twenty-two and a half years; not a single show of lung diseases in all that time."

D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

Dr. Fitch's "FAMILY PHYSICIAN," a most excellent book in all families, 76 pages, 25 cents, sent free of postage to any address. Send no money until you get the book and approve it. Direct all letters for books or consultation to 25 TREMONT ST., BOSTON, MASS. Je29—1y

☞ Owing to the repairs now being made in the Episcopal Church, the funeral obsequies of Rear Admiral Pearson took place from the Unitarian Church on Wednesday afternoon. At the appointed hour a salute was fired from the navy yard.—The escort duty was performed by a battalion of marines, under Col. Jones, from the Navy Yard, and a company of U. S. Artillery, under command of Major Fuller, from Fort Constitution, with music by the Portsmouth Cornet Band.

The body was enclosed in a rich, plain casket, with the simple inscription:

"Rear Admiral GEORGE F. PEARSON,
Died July 1, 1867,"

on the plate. Draped with flags, and bearing his sword and insignia of rank thereon, the casket was borne in and out of the Church by a detail of United States sailors from the Vandalia; followed by the broad pennant of an officer of his rank, borne at half-mast on a staff. Following the hearse came a large number of officers of the navy and army, among them Gen. Gates and Rear Admiral Bailey. The funeral services were performed by Rev. Dr. Burroughs, assisted by Rev. Mr. Davies. The remains were conveyed to the Proprietor's Cemetery.

☞ The bells, guns and flags will constitute our whole public celebration to-day, so far as we are informed—except that it is a holiday for all, which is the best part of the whole, to those who know how to use it, and a curse to those who do not.

That the absurd, intolerable nuisance of bonfires, fire crackers, &c., about town is to be abated here as well as elsewhere, will be a relief to all who love to have things done decently and in order, or have any property to lose or in peril.

The Portsmouth Cornet Band we learn is to play at a picnic in Kittery to-day, but may be had for to-night, as usual. If the City neglects to secure their services this evening, funds for a concert on Market or Haymarket Square, or Rundlett's Mountain, could easily be raised by subscription, if some friend of the public, the band, and good music, like Dr. P. or Mr. H. M. C. would devote an hour to it this morning.—We know where one "fiver" is ready for them in any place.

☞ That the best laid plans of men are often futile, has recently had another proof in this city. A man hitherto employed on the Charlestown Navy Yard came to this city on a bit of a lark, and finally obtained a "chance" for work on this yard. His funds failing, and he not having yet become satisfied with riotous living, he wrote to his father for funds wherewith to return home; but the hard-hearted parent declined to furnish the needful.

After much cogitation, certain that he had at last hit upon a plan to secure the desired remittance, he telegraphed to his father something in this wise:

——— ———, The body of your son, ———, is lying at house No. — Blank street, in this city. DASH BLANK.

But the sequel was must unexpected.—Instead of the arrival of greenbacks sufficient to defray the expenses of forwarding the body to Boston, an early train from Boston brought the bereaved father and a sister, and with them a coffin, candles, and other articles which they had purchased, wherewith to "wake" the body. The astonishment of all parties may be imagined when they entered the designated house and found the young man seated at a table, drinking in a manner very unusual with dead persons.

☞ The U. S. steamer Minnetonka made a fine launch on Wednesday noon.—Notwithstanding the heat of the day, a large number of ladies and gentlemen visited the Navy Yard, and the steamer Pocataqua was literally filled with spectators—while the wharves and Peirce's Island on this side had many persons congregated upon them. The funeral of Admiral Pearson, so immediately following the launch, had a tendency to curtail the social festivities usual on such occasions, under the auspices of the officers of the yard.

☞ The amusements for to-day are not offered in great numbers. Ashley performs at the Temple, afternoon and evening.—There are Strawberry Festivals at Freeman's Saloon, Rye Beach, and at Hampton. Aside from these, riding and sailing offer the greatest inducements to "leave the comforts of a home."

☞ A little daughter of Mr. Charles E. Marden, aged about six years, was run over by a private carriage on Monday evening, on State street, and had one of her legs broken below the knee. No blame is attached to the driver of the carriage which caused the child's misfortune.

☞ We shall print no paper on Friday, of course.

☞ Auction of Fancy Goods, at store in Peirce's new block, by Betton & Co., commencing Friday afternoon, at 2 o'clock.

— The St. Charles Hotel, New Orleans, is now kept on the European plan.

HARTZ.—Persons in the habit of reading the New York papers will need no information as to this prince of deception, who is to perform here on Friday and Saturday evenings and on Saturday afternoon. Near the close of his long season of 250 nights at Dodworth's Hall, the N. Y. World said:

"He will have no successor. Hartz has a greater variety of illusions, successful experiments, mechanical problems and inexplicable mysteries than any professor of the art of magic and necromancy we have ever seen. Gentlemen wonder at him, and the fairer part of creation admire and extol him. It is certain that no similar artist has ever yet done so much in this city to amuse the public—no one has had such brilliant success and remained here so long. We shall regret the departure of so valuable a member of society.

☞ The Rockingham Base Ball Club of this city, go to Newburyport this morning, to play a match game with the Essex Club, commencing at 11 o'clock. They go under rather unfavorable circumstances, as several of their best players are absent, and they can get no ground for practice at home nearer than the Plains, and so get little or none.

☞ Mr. Wm. H. Foster of this city, has applied for a patent on a newly invented Steering Apparatus of his for vessels—which appears to be very simple and effective, and promises to be a benefit to sailors and himself, as we hope it will be.

☞ If you want to raise a good crop of Corn, Potatoes, Grass, Beans and vegetables of all kinds, use CROSDALE & CO.'S GENUINE SUPER-PHOSPHATE, the Standard Fertilizer. Sold by H. F. WENDELL, No. 70 State Street, Portsmouth, N. H. m9tf

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1665 miles, the United States Government issues its 30-year bonds, thirty-years bonds to the Company as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,000 to the mile.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources of the company (in capital), $118,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $13,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, but the completed road will be the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statements of facts will demonstrate the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars per mile of road, on which over twenty million dollars have already been expended.—on 300 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents to whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

WAR LYRICS.
Being a Duet between two *Fools* in a Garret.

SMITH.
From my forehead's dewy plain
I wipe the perspiration now,
And seize the thought and pen the strain,
"O, who will care for mother now?"

JONES.
How much you care, your silence shows,
About your relatives, or how
The old folks manage—I compose
"Wipe battle's damp from off my brow."

SMITH.
Ha! ha! you're never seen a fight—
But like myself have lived in clover;
The joke's a good one, let's indite
"Dear mother, when the battle's over."

JONES.
Yes—somehow fathers will not pay,
Nor even wives will briskly sell;
Here is a sweet maternal lay—
"Dear mother, I remember well."

SMITH.
Then when the warrior reaches home—
A lucky thought, this, by the by;
Say, let us make the sufferer sing,
"Dear mother I've come home to die."

JONES.
And if he should refuse to die—
(For too much dying makes it cheap);
Suppose we shift our plan and try
"Make mother rock her son to sleep."

JONES AND SMITH.
Still let us never quite forget
This rage for mother has an end;
And may we both remember yet,
Our uncle* is our constant friend.

*The pawnbroker.

— The Earl of Derby and other members of the commission of the Lancashire Relief Fund, established during the war for the support of the destitute cotton operatives of England during the occurrence of that calamity, have decided to transfer the balance of the fund, amounting to about £9000, for the relief of the South, and will forward the money to President Johnson for distribution.

— Mr. Thomas W. Conway, who has just returned from a tour at the South, reports the greatest excitement pervading all classes in New Orleans in regard to the reported removal of Gen. Sheridan by the President. Good men of all parties say that they hope the President will not prolong the agony of the South by making any new issue with Congress.

— A sensible woman who is going to Europe desires that when her husband's name and her own are published in the list of passengers, it shall be "Mr. —— and *wife*, *no lady, for he goes* abroad with his own lawful wife, and nobody else."

C. A. RICHARDS & CO.'S
CONCENTRATED
EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE
THAT
IT IS NOT
a mere dram-drinking beverage, but a PURE, GENUINE AND SCIENTIFICALLY PREPARED
MEDICINE.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a
MEDICINAL REMEDY,
specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have
TO SAY ABOUT IT,
without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can't begin to tell what does not ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the
JUICES OF THE GRAIN
combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to
NEW LIFE,
and a restored appetite, and then goes to make BETTER AND STRONGER
FLESH AND BLOOD.
One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry the lubricating and fattening effects to the lungs; consequently
IT IS WHAT YOU WANT,
when you have a bad cough, to cure it, when you have
CONSUMPTION OF THE LUNGS,
or heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM on, when it has been reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will
DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people
GAIN FLESH AND GROW FAT.

The reason for this is the
GRAND SECRET OF THE WHOLE MATTER.
It acts as a
STIMULATING FOOD
to the body, and helps Nature
THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *entirely composed*. This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a
STIMULATING FOOD,
and will build up and restore the powers of mind and body, while you become fat and happy.

Except as to convenient style, each bottle being consisted in a paper box. It is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

ENGLISH QUAKERS.—The Society of Friends recently held their yearly meeting in London. Their membership numbers 6474 males and 7312 females; total, 13,786. Besides these they reckon 3582 persons who habitually attend their meetings, but are not members of the society. It was stated that the standard of education among them now occupies a higher position than it has since the last half of the seventeenth century, when the number of "college-bred Friends" was larger than at any other period in their history. The meeting manifested its interest in the freedmen of the United States, and re-asserted the position of the Society with reference to war. The Friends have always refused to pay ecclesiastical taxes to the State church, and the goods of two hundred and ninety-one of them were distrained during the last year to pay charges to the amount of £2711 ($13,121.)

DANIEL DREW, a rich merchant of New York city, it is said, has established and endowed a Theological Seminary for the Methodist Episcopal church, which will cost him between two and three hundred thousand dollars. It is to be located at Madison, N. J., and he has purchased for it the magnificent estate of W. Gibbons, Esq., called "The Forest." The property includes two hundred and twenty-five acres, eighty of which are in the "Forest" proper, constituting a noble park. The buildings are large, elegant and commodious, and will soon be adapted and arranged for the institution. It is located in a beautiful country, on the Morris and Essex Railroad, twenty-eight miles from N. Y. city. It is to be opened the coming Autumn. Dr. McClintock is to be one of the professors.

A SENSIBLE MAYOR.—Many of the clergy of Cincinnati having united in a request to Mayor Wilstach for the stoppage of the Sunday cars, his Honor replied that street cars are the people's carriages, and cannot well be dispensed with, for the breath of fresh air they enable poor working people to take is all they get.

☞ A company of real Bedouins, who perform astonishing gymnastic feats, constitute the sensation in New York at present. Their visit to an editorial sanctum in that city brought forth the following notice from the editor: "Their proposition to stand on their hands and let the bollows of their feet be used as inkstands for the rest of the day, was declined with thanks. Having ascended to the topmost floor, they gravely nodded their turbans and departed for other climbs."

— A lady who is opposed to having whist played in her house, recently sent out invitations for a social party, and in less than she should be some mistake, added, "No cards."

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street. (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers in drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *fifty-nine* rejected applications, SIXTEEN APPEALS; *every one* of which was decided in *his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.—SAM. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

STAURDAY, JULY 6, 1867.

MAXIMILIAN.—Considerable pity is felt and expressed for the sad fate of the (falsely so called) Emperor of Mexico,—and some persons express indignation at the cruelty of shooting such a good man. Yet it is not fair to ignore the fact that Maximilian initiated the detestable policy of executing prisoners of war as brigands and robbers, and that he had put several Republican Generals to death before his cruelty was retaliated.

Letting all this pass,—what a poor foolish move it was for a man with a princely home and a princely income in Austria, to come to Mexico and try to sit on a shaky throne, whose chief support was the word of the greatest liar in Europe.

CONGRESS came together on the 3d of July, according to adjournment, and a quorum being present in each of the houses, they proceeded at once to business. In the House of Representatives, a resolution was passed, by the strong vote of 98 to 36, confining the business of the session to the reconstruction question.

Gen. Schenck succeeded in getting the House to take action on the claims of the Kentucky members elect to seats. It was evident that disloyal men, elected by noted disloyal constituencies, can not take seats in the Fortieth Congress.

Mr. Adams, a well known loyal man from a Kentucky loyal district, took his seat.

Mr. Schenck presented a protest of citizens of the Fourth Congressional district of Connecticut against the election of Wm. H. Barnum, alleging bribery and corruption. Referred to the Committe on Elections.

In the Senate, five bills amending the reconstruction act were introduced and ordered to be printed. Out of their various provisions no doubt a good strong bill will be constructed, and made so plain that Stanbery, Johnson & Co. can understand it.

☞A Liverpool, Eng., item of July 3, says:

Senator Sherman sailed in the steamship City of Paris for New York to-day. He denounces Attorney General Stanbery's opinion on the Reconstruction law as an attempt to annul the acts of Congress.

The Sir Morton Peto estate has gone into bankruptcy.

The United States colonists are suffering greatly in Brazil.

[They are rather *C rfed rate* colonists.]

IN THE SURRATT TRIAL, July 3d, the evidence bore heavily against the prisoner, who appeared depressed. The theory of the defence is an alibi, and they claim that they will prove Surratt's presence in Elmira, New York, on the day of the assassination.

[But the success of this lie seems very doubtful with the public, however it may be with the jury.]

It has been reported quietly for some time in official circles, says the Washington correspondent of the Boston Advertiser, that the military commission by which Mrs. Surratt was tried and sentenced, recommended her to the mercy of the President; and it has now been definitely ascertained that this report is true, and that the recommendation is in the handwriting of Hon. John A. Bingham, then Assistant Advocate General.

In the Surratt trial, the same correspondent says, the defence "bullied Weichman all they could, and finally provoked him into telling what he had before kept secret, viz.: that on the morning after the assassination Miss Annie Surratt said at the breakfast table, that the death of Lincoln was no more loss than the death of a nigger."

[The whole family appears to have been a nest of copperheads.]

☞ In the U. S. Senate, Wednesday, Mr. Sumner, in presenting petitions, argued against limiting the business to an amendatory Reconstruction act, and in favor of a long session if necessary. Mr. Wilson offered his amendatory bill. Mr. Sumner introduced a bill abolishing in all the States political distinctions on account of color.—Mr. Drake introduced a bill providing for the removal of civil officers in the Rebel States, for the appointment of successors by the District Commanders, and for the readmission of the States. A bill in explanation of the Reconstruction acts was introduced by Mr. Edmunds, declaring the military authority paramount in the South.—Mr. Frelinghuysen presented a similar bill, and a resolution was passed requesting the President to furnish copies of all instructions and correspondence under the Reconstruction acts. The Senate adjourned until Friday, agreeing in caucus to confine its work to the passage of a declaratory bill.

☞ It is now intimated at Washington, by President Johnson's so-called friends, that he will do nothing relative to the restoration of Southern civil officials, owing to the immediate contemplated action of Congress on the reconstruction question, which would speedily render any such step futile on the part of the Executive.

Local.

FIRES.—On the morning of July Fourth, Master John Davis, clerk with Mr. N. P. Thacher, discovered fire in a pile of rubbish back of Tebbetts' bonnet bleachery, in the yard common to buildings on Market Square, Market and Ladd streets. He procured a bucket of water, with which he extinguished it, as he thought; but everything was so dry that the fire rekindled from some stray spark, (or possibly from a firecracker heard to explode in that vicinity a few minutes after,) so that on coming to the door ten or fifteen minutes later he saw the pile blazing furiously. With considerable exertion the flames were quenched, and a serious fire prevented;—the quantity of inflamable material in the yard being quite large and in close proximity to the buildings.

About ten o'clock on Thursday evening, an alarm of fire was given, caused by fire in the brick store corner of Market and Hanover streets, occupied by Mr. Moses H. Tilton as a grocery store. The cause of the fire and the locality of its origin are unknown, as the whole length of the building seemed to be ignited when discovered.—Half an hour before the alarm was given there were no signs of fire or smell of smoke about the building. The whole inside of the building was burned, and all its contents destroyed, but the walls remained intact.

Mr. Tilton's loss is estimated at from $3500 to $4000, on which there is an insurance of $2600 at Harvey & Son's agency, in the Home of New Haven, and $500 with DeRochemont & Son, in the Lorillard.

In the rear of Mr. Tilton's store was a bar-room, kept by Thomas Freeman, who loses about $600.

The heaviest loss was in the destruction of hops, belonging to Mr. Frank Jones, and stored in the upper stories. There were 57 bales of Wisconsin hops, amounting to over six tons, and representing a value of over $16,000, on which there is an insurance of $8000 in DeRochemont & Son's agency, equally divided between the Phœnix, Niagara, Security and Lorillard companies. Hops being almost non-combustible, they did not burn up in this case, but are so charred and smoked as to be worthless. The cash value of the hops does not represent the loss to Mr. Jones, as it is almost impossible to replace this stock at the present time, from the fact that about all the choice hops not already in the possession of brewers, are are this exported from the country.

The building belonged to Mathes & Varrell, and was insured for $3000 in John Sise's agency; $2000 in the City, $1000 in the Ætna. There are two other stores in the block, which were both burned in the great fire of 1845 from the fact of having windows in the rear, while the scene of the present disaster having a blank wall in that direction at that time, then escaped with merely the charring of its rafters.

The goods in the store of N. F. Mathes & Co. were damaged by the smoke, which was particularly dense and penetrating, and an allowance will be made by the insurance companies having risks on the same.

Later in the evening, when the fire at Mr. Tilton's was well under, fire was discovered in the attic of house No. 23 Hanover street, rather widely known at one time as "the House of Blazes." This was promptly extinguished with very slight damage.—The lessee of the house feels confident that it was the work of an incendiary.

NARROW ESCAPE.—Mr. Josiah Morrison, brewer for Mr. Jones, entered the burnt building on Market street on Friday morning, to examine into the condition of the hops stored therin. Stepping upon a board in the flooring, (the upper side of which was fair and sound to view, but which proved to have been very much charred on the under side,) it gave way beneath his weight as it made of paper, allowing his body to pass through as far as his armpits, when his outspread arms fortunately arrested his further fall.

☞ The roysterers who took so much pains to discordantly inform "Annie, darling" that they had "sailed the seas over" for her, at each and every hour of the night preceding the Fourth, while passing the ranche where our "local" was trying to put in a good night's sleep, were remorselessly consigned by him to regions the seas under, (in fancy,) and he wishes to raise a doubt as to the veracity of their statement, as he doesn't believe any of them were more than "half seas over," or they could not have yelled so discordantly.

☞ The shower of Thursday afternoon, which was heavy here, was only sufficient to lay the dust in Manchester; though the wind blew down some trees there. At Boar's Head, Hampton, there was considerable hail, and a very little here.

☞ A large and beautiful Hawaiian flag was displayed on the fourth of July, from the residence of Albert R. Hatch, Esq., in this city, where C. Coffin Harris, Minister of Finance for Hawaii, is now a guest.

☞ Meeting of the Trotting Park proprietors at the Franklin House this evening.

☞ In portions of Rye and Greenland we notice the blighting traces of the canker worm—as ineffaceable of those of fire. As this nuisance is working eastward, it would be well for our citizens to protect their apple trees as far as possible before another spring, and thereby save their crop for two years, as well as preserve the appearance of their orchards.

☞ In the N. H. House of Representatives on Friday the State Constabulary Bill came up and further action was indefinitely postponed.

REMEDY FOR THE CANKER WORMS.—A correspondent of the New York Post advises the introduction of English sparrows as a remedy for those terrible pests, the canker worms. They should be provided with good bird houses and fed from October to May. They will become as tame as chickens, and will exterminate the whole race of tree worms. In proof of this, the writer says that last week one dollar reward was offered for every tree worm found in Union Park Square, and none could be found. They have been destroyed by the sparrows and blue birds domesticated there. The bird houses protect the birds from the storms, owls, hawks and cats, and are a great success in New York.

☞ A Washington dispatch says that much bitterness seems to be felt against Secretary Seward, who is now blamed for not writing a more peremptory letter to the Mexican government, demanding, not begging, that the life of the ex-Emperor should be spared. It is said that Secretary Stanton has expressed himself very strongly on the subject in private conversations, and has not hesitated to condemn Seward's course.

☞ Of the 127 Representatives present in the Capitol at Washington Wednesday, only four were called Democrats, unless the three rebels from Kentucky were called by that name. In the Senate, of 34 members, ONE was a democrat. Nobody should complain of this; they probably hoped there would be no quorum,—and did what they could to prevent one.

☞ A Memphis dispatch of July 3, says the Government wrecking boat Gen. Totten yesterday blew up the wreck of the Confederate gunboat Jeff. Thompson. She is now preparing to blow up the Beauregard. Both of these vessels were sunk in the battle off the city.

☞ Hon. Jacob H. Ela has been elected Secretary of the Strafford County Agricultural Society.

NEW HAMPSHIRE ITEMS.

—— H. C. Fisher had his pocket picked in Manchester depot, Wednesday. Loss $600 in bills.

—— The 4th was grandly celebrated at Manchester, in a social manner. Gov. Harriman gave a brief and pleasant offhand address.

—— A fire, cause unknown, at Sanbonton Bridge in the evening of the 4th, burnt three houses, five barns and a jeweller's shop.

GOLD, Friday, 139 1 4.

— The Chicago Republican counts on a wheat crop this year of 225,000,000 bushels, of which Illinois will produce one tenth.

— The Revenue cutter Active, built in Philadelphia, was taken on the marine railway at New Bedford owing to her leaking, when it was discovered that some scoundrel had bored her while on the stocks, filling up the hole with iron filings.

— In Johnsonville, Tenn., Friday, a drunken soldier rushed into the Store of Daniel Rice, flourished a pistol, demanded to know if there were any Yankees there, and finally shot Mr. Rice dead while he was trying to pacify him.

— In the list of Fenian prisoners captured at Dungarvan, Ireland, and imprisoned at Waterford, appears the name of Michael Green of Taunton. He was a deserter from the Confederate army, and was in the Fenian raid at Campobello.

— A man named John Hardley, employed as a card grinder, in the Boott Cotton Mills, Lowell, while about his work as usual, on Wednesday forenoon, his neck by some means became caught in a belt, he was carried up over the shaft, and his head completely severed from his body.

— Mr. Benjamin Green, of Phipsburg, Me., commited suicide on Tuesday by hanging himself, in his woolshed. He was a man about 58 years of age, in comfortable circumstances as to property, a professor of religion, an upright citizen, and much respected by all who knew him.

— Senator Sherman has cut short his stay in Europe in order to be present in his seat in the Senate during the present session of Congress. He embarked at Liverpool yesterday. Senator Sherman denouces Attorney-Gen. Stanbery's opinion as an attempt to annul the acts of Congress.

— The rents are so high in Louisville that eighty-four of the principal merchants on the chief business street have united in a petition to their landlords for a reduction. They say they have had ill luck in business during the past year, and cannot afford to pay the high rents.

VAST QUANTITIES OF IVORY DESTROYED.—Thousands of teeth that might last a lifetime are lost every year, simply because the parties concerned either forget or do not appreciate the fact that SOZODONT, duly applied, renders the dental substance proof against decay. 7

A SURE PRIZE.—Whoever gets a bar of Pyle's O K Soap draws a prize indeed. There is nothing like it, either for the laundry, bath or toilet. Sold by Grocers generally. 9

FACT.—As a culinary preparation, Herrick Allen's Gold Medal Saleratus is INFALLIBLE. It has greater advantages over yeast fermentation, and will make twenty-five pounds more bread or biscuit from the same barrel of flour, and much better. It retains all the glutinous starch and sugar that is in the flour, and from two and a half pounds of flour will make three and a half pounds of bread or biscuit, while the same quantity by yeast fermentation will make only a trifle over three pounds, and require more than twice the quantity of shortening, besides being much more unhealthy. Try it, and be convinced. 41

☞ The thousands of Consumptive persons who have been kept alive and improved by the use of SPEER'S Sambuci Wine is sufficient evidence of its great value. When used with a raw egg for a length of time, it often effects a perfect cure. Sold by Druggists. 6

— John Gleason, proprietor of a faro saloon in New York, has been fined $500 for swindling a boy out of several hundred dollars.

— A man was committed in New York, on Saturday, for pasting curb-stone advertisements along Broadway. His technical offence was "defacing natural scenery."

PROOFS OF THE SUPERIOR QUALITY
OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted to general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, PA., 19 Dec., 1866.

Gentlemen:—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but of a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principles, and to have every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card, guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against such impositions.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

DR. MILLER'S
Soothing and Healing Balsam,
or, Nature's Assistant.

IT HAS PROVED INFALLIBLE for Burns, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Felons, Boils, Carbuncles, Poisoning, Erysipelas, and Inflammation of the Eyes. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season, it will cure Inflammation of the Bowels, Dysentery, Kidney Complaint and Cholera Morbus. It will also cure Diphtheria, Dry Cough and Asthma.

This medicine is purely vegetable in its composition, soothing and healing in its influence, and may be given to any age or sex in perfect safety. It has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. For sale by all Druggists. C. D. Lee, Proprietor, [mh25—dawly a.) Springfield, Mass.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucous or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, at what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becomes torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes symphathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of Schenck's Seaweed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile, mixed through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the bull dozen. Mandrake Pills 25 cents per box.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered up with phlegm, gross and acid dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

Local.

"THE GLORIOUS FOURTH" passed off quietly in this city, and yet not the less pleasurable for its quietness. The usual explosion of firearms and crackers on the night preceding was obviated in a great measure—not so much through the stringency of police enforcement, as through the good sense of the multitude, who saw that the prohibition of such a time-honored course of *diablerie* was in accordance with the dictates of reason. Pertinacious solicitation on the part of the enthusiastic followers of ancient customs, and general observance on their part of the other regulations for the preservation of the public peace and property, obtained permission for a bonfire on Market Square, which was enjoyed accordingly. Stray reports of firearms and the like did not seriously impair the night for rest.

Following the sultry morning, the heavy shower in the early afternoon laid the dust, cooled the air and rendered pedestrianism more agreeable for the remainder of the day, though the fall of rain was so heavy as to leave the roads rather muddy for fast driving. At Hampton this shower was accompanied with a fall of hail of very large size.

Drunkenness was not particularly noticeable, though the destruction of spirituous liquors was hardly exceded by that following a raid of the State Constabulary.

In the evening music was furnished on Market Square by the Union Cornet Band, and the day closed with the fire on Market Street and a drizzly rain.

THE U. S. MARINE CORPS.—It has ever appeared somewhat strange to us that this branch of the public service should be generally spoken of in a flippant or slighting way, as an abnormal organization, belonging neither to land or water, and of no particular use upon either. The fact is that this arm of the service is very efficient, and their record during the Mexican war and through the late rebellion, most excellent. Perhaps their paucity of number has in some measure prevented a just recognition of their service, as the corps numbers less than a hundred commissioned officers of all grades; but we have a faint recollection of a little band under Leonidas, who more than twenty-three centuries ago held a mountain defile against a myriad of Persians until they were exterminated, and yet in all the intervening time the first sneer has not been raised at them because their numbers were few.

For discipline, for soldierly bearing, for proficiency in the manual, the Marine Corps is proverbial; while for excellence in the lesser details of neatness in dress and scrupulous exactitude in care of arms, they are second to no other body.

When in actual service, combining the drill of the soldier with the life of a sailor, "Jack" may *speak* slightingly of them, but we have been assured again and again by those in a position to know, that he *feels* in no such manner toward them.

The battalion of Marines from the Navy Yard, under command of Lieuts. Bishop and French, on the occasion of the late funeral of Admiral Pearson, elicited high encomiums from military critics, (of whom there are a hundred now to one six years since,) for their faultless execution of all evolutions required of them. So we say honor and long life to the Marine Corps—though they be but few, they shall not be found wanting when duty calls them.

☞ On Thursday night, as a carriage drawn by a span of horses was descending the hill on Lafayette Road, just this side of Sagamore Bridge, the pole of the carriage broke, frightening the horses, who cleared themselves from the harness, thus allowing the carriage to roll from the roadway and overturn.

The carriage contained First Asst. Engineers O. H. Lackey and R. S. Talbot with their wives, and though the whole party were more or less bruised, Mrs. Talbot was the only one to suffer severely—having the misfortune to have her collar bone broken.

The night was very dark, so that the occupants of the carriage were unable to decide whether the breaking of the pole frightened the horses, or the horses being frightened caused the breaking of the pole. So intensely dark was it, that a team a short distance in the rear had driven by the scene of the accident without discerning it. The dismounted party were brought to the city by carriages coming this way.

☞ On Friday morning as a cow being driven to the shambles was crossing Portsmouth Bridge from Kittery, despite the efforts of two men in charge of her, the vicious animal rushed upon a lady crossing the bridge, butting her against the railing, tearing her clothing and bruising her, so that the lady fainted from her terror and injuries.

☞ Hartz, the illusionist, telegraphed from Salem on Friday, that his appearance here must be postponed on account of his sudden and serious illness. So "now you see him, and now you don't."

☞ A board of naval officers, with B. F. Chandler, Esq., as clerk, are now at this station, on special duty, to examine Seavey's Island, and to report as to projected improvements there. From his long service as Civil Engineer at this Navy Yard, Mr. Chandler knows the needs thereof, and also the immense addition that may be made to the facilities of the same by a proper arrangement of the large island so recently added to it. But a portion of the Board having arrived yesterday, we are unable to give their names.

☞ We are informed that a boy named Muchmore, about ten years of age, while attending a picnic on the grounds of Mr. Wentworth, up the Piscataqua, on the Fourth, fell down the bank, a distance of about 15 feet, into the river. His nose was broken during his fall.

☞ The engine drawing the first train from this city to Boston on Friday morning, broke down this side of Greenland. It was run slowly to Salem, when it was disabled by the breaking of a rod, and the train was added to another there, making 17 cars which entered Boston a little over an hour late for the Portsmouth train.

☞ At a regular meeting of Piscataqua Lodge No. 6, I. O. of O. F., Monday evening July 1, the following officers were duly installed into office for the ensuing term, by M. W. Grand Master John M. Spring of Milford, N. H.: N. G., Benj. W. Curtis; V. G., Ira C. Seymour; R. Secretary, Wm. W. Cotton; P. Secretary, Oliver H. Locke; Treasurer, Isaac Dow; Trustees, James F. Shores, Jr., James M. Carr, A. Q. Wendell.

☞ A stray policeman, from parts unknown, and wearing his badge of office, disgraced himself by appearing on our streets in a state of intoxication on the fourth of July. Many persons supposed him to be an extra policeman put on for special duty; but such was not the case, and we would like to be able to give his residence, that the odium of his conduct might rest where it belongs.

☞ The match game of Base Ball at Newburyport on the Fourth, between the Essex Club of that city and the Rockingham Club of Portsmouth, was won by the latter by 42 runs. We have not room for details this morning.

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1868.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1665 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,256 per mile, amounting to $44,305,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,-416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the carriage of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sections are but a small part of the progresses will much more than pay the interest on the Company's bonds, and the through business over the only line between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended—leaving 250 miles of this road the cars are now running, and the remaining 137 miles are nearly completed.

At the present rate of progress on gold, these bonds pay an annual interest on the present cost of **Nine Per Cent.**, and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

— The proprietors of the Richmond daily papers have united in the decision that no more work shall be done on Sunday in their respective offices.

— The New York Express denies the statement of a Democratic contemporary that a man can be a Democrat and a supporter of impartial suffrage, and says there never was a greater mistake. It endorses the "white man's government" theory in its whole length and breadth.

— The new Haven Military Committee on the reception of the President said that "if dusty, residents are requests to sprinkle the route of the procession, *and be entirely clear of vehicles of every description.*" The advantage of having a college in New Haven is obvious.

— The stove pipe hat is in great danger. The inexorable leaders of fashion are bent upon abolishing it. The work proceeds by degrees, and consists in gradually lowering the crown and widening the brim until it becomes, according to the description, a "low, stiff sombrero, of silk-covered cardboard, with soft interior edges."

— The Minnesota farmers get up hunting parties to rid themselves of wolves, gophers, and other pests. There was a hunt in Rice County lately, which resulted in the killing of 7910 gophers, 1126 rats and 128 black birds. Wolves are troublesome in Faribault County, and a grand hunt is to take place soon.

— The Sultan of Turkey is prohibited, by the koran, from making a journey to an infidel country. But to allow the visit to *Paris this has been ingeniously explained* away by the Sheikhal Islam, who has issued a decree declaring that the soil of France will be regarded as Ottoman territory during the time the Sultan shall abide there.

— The Chicago lake tunnel is a grand success. It furnishes an unlimited supply of pure water, and the citizens are delighted.

— Speaking of woman's suffrage a contemporary says that the better portion of the women of America are quite content with their privilege of putting their chignons at the head of their polls, and have no desire to meddle with those privileges which are at present reserved for the use of the males.

— There is a wild sort of a legend connected with the Great Eastern to the effect that between the outer and inner frames or cases a smith and his riveter perished while at work, and their bodies have never been found. It is said by the sailors and shipwrights that the spectres of these two victims haunt the dark space between the outer and inner cases of the vessel.

C. A. RICHARDS & CO.'S
CONCENTRATED
EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a strong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE
THAT
IT IS NOT
a mere dram-drinking beverage, but a TRUE, GENUINE and SCIENTIFICALLY PREPARED
MEDICINE.

It *is* not, as many have been led to believe, nothing but good Rye Whiskey; it is a
MEDICINAL REMEDY,
specially designed for certain useful and beneficial purposes; which, any intelligent and thinking person can readily see, by reading what we now have
TO SAY ABOUT IT,
without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can't begin to tell what does *not* ail him. We SIMPLY AND PLAINLY say that "EXTRACT OF RYE" is nothing but
JUICES OF THE GRAIN
combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to
NEW LIFE,
and a restored appetite, and then goes to make BETTER AND STRONGER
FLESH AND BLOOD.
One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently
IT IS WHAT YOU WANT
when you have a bad cough, to cure it, when you have
CONSUMPTION OF THE LUNGS,
to heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM OR, which it has become reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will
DO THE WORK.
We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people
GAIN FLESH AND GROW FAT.
The reason for this is the
GRAND SECRET OF THE WHOLE MATTER.
It acts as a
STIMULATING FOOD
to the body, and helps Nature
THROW OFF DISEASE.
How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *ten times composed*
This, then, *is* the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a
STIMULATING FOOD,
and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered at a *reasonable* cost to rich and poor.

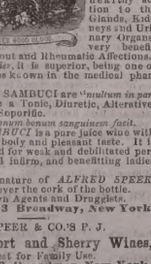
SPEER'S SAMBUCI WINE.
Prescribed by Physicians for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated.

As a Diuretic, it imparts a healthy action to the Glands, Kidneys and Urinary Organs, relieving Irritation of the Bladder, Inflammation, Gravel, Stone in the Bladder, Brick Dust Deposits, Mucous Discharges, Stricture, Pain in the Back, Loins and Groins.

As a Blood Purifier, it is superior, being one of the best alterative Extracts in the whole pharmacopœia.

The qualities of SAMBUCI are "*nullum in parvo*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Seporific.

N. B.—"*Vinum bonum bonum sanguinem facit.*"

SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefiting ladies and children.

Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of each bottle.

☞ Speaking of the magnitude of Irish emigration, the London Daily News says: T ose sections of the annual reports of the Emigrant Commissioners which relate to Ireland have for many years recorded the magnitude of the emigration from that country. They are becoming even more important now, for what they show us as to the decline of the natural increase of the population. They prove that the population of Ireland is not undergoing a mere numerical reduction, but it is attacked in its reparative principle, in its very root.

— A fine coat frequently covers intolerable ignorance, but never conceals it.

— An American complaining of the "infernal revenue system," said he could not put his boot on without a stamp.

— The impious Musselmans, who indulge in intoxicating liquors, notwithstanding the prohibition of wine by the Prophet, justify themselves by saying that only the juice of the grape was forbidden and that not a word was said against the use of rum, gin or whisky.

— Mr. Warren Nobles, of Montgomery, Texas, proposes a freewill offering to Jeff. Davis of one gold dollar from each of his many thousands of admirers in the North, as well as the South. The New Orleans Picayune considers Mr. Nobles' suggestion "inopportune," and adds: "It is not at all likely that Mr. Davis would sanction this freewill offering, and we are happy to believe that he is in no, immediate at least, need of pecuniary assistance."

— The Nashville Gazette thinks that it is about time to strike at the root of the evil "in the sad history of the past seven years," which evil is popular education.—Accordingly, it takes the ground against the common schools of Nashville. "Our school system has been a powerful engine," it complains, "for the dissemination of Puritanism." And it proposes to labor hard to withstand "the common school system, with its Yankee school-marms and its Yankee text-books."

— A Richmond letter says that the progress of registration makes it a foregone conclusion that the city will give a majority in the neighborhood of two thousand for the blacks. In Augusta, Georgia, the registration at the last dates included 938 whites and 2414 blacks; in Mobile, 995 whites and 1014 blacks; in East Baton Rouge, Louisiana, 600 whites and 2501 colored; in Concordia, same State, 63 whites and 1630 colored; in Copiah county, Miss., 459 whites and 319 colored; in Montgomery, Ala., 783 whites and 2113 colored.

— On Thursday afternoon, June 17, on the Fair grounds of the Springville Union Agricultural Association, in Erie county, New York, a thunder shower came up, and the people present sought shelter in the exhibition sheds. Suddenly the lightning struck one of these sheds, which contained men, women and horses. About a hundred persons were paralyzed in an instant, falling on their faces, and as many as fifty were rendered insensible for five or ten minutes, while about a dozen were seriously burned. Two horses were killed on the spot.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignment Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign Works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made *one hundred* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

The Daily Chronicle.

Portsmouth, N. H.

MONDAY, JULY 8, 1867.

In Congress, July 5, the resolution confining the Legislative business of the session to the amendment of the Reconstruction Act, was debated in the Senate and passed by a vote of twenty-three ayes to nine nays.

An effort was made to have the bills offered on reconstruction referred to a special committee on reconstruction, to act in concert with the special committee of the House on the same subject, but a majority of the Senators preferred a reference to the regular Committee on the Judiciary.

The House Resolution of thanks to Generals Sheridan, Sickles and Pope were received, but the opponents to the restriction resolution refused to have them considered, declaring that under the restriction resolution they could not be considered.

In the House the Speaker announced the Committee on Reconstruction, which may probably report a bill on Monday.

The House passed successively resolutions of thanks to Gens. Sheridan, Sickles and Pope, and a resolution was offered by Col. Shanks, virtually thanking Juarez for executing Maximilian, but Fernando Wood protested, denouncing the act as barbarous and the resolution disgraceful; the House refused to suspend the rules.

Gen. Shenck submitted the following, the reading of which excited considerable mirth:

Resolved, That the thanks of the House are due and are hereby tendered to the "Rev. Petroleum V. Nasby, P. M. at Confederate Cross Roads, which is in the State of Kentucky," and the Hon. Henry Stanbery, Attorney General, for their long, full and able expositions, made from time to time, of the views and policy of the President of the United States on the subject of Reconstruction.

The House adjourned to Monday.—Twenty members have returned to their homes, but can be summoned by telegraph when required. It is supposed that should the bill on reconstruction which is to be passed be vetoed by the President, the absent Democratic Senators and Representatives will promptly turn up.

☞ It is said that while the French Emperor, in grand style, was attending the grand Prize Distribution at the great Paris Exposition, he took the hand of Mr. Hughes, inventor of the Printing Telegraph. Just then Mr. H. handed him a fresh item from the Cable. It contained these words: "Maximilian is shot. His last words were Poor Carlotta." As he read the brief statement, he turned pale and trembled, as well he might, for his vain promise, and treacherous failure had first lured Maximilian and Carlotta from their European home, and then abandoned them as victims to Mexican rage and popular fury.

The 4th.—In Portland (remembering last year's fire) the day passed off very quietly. Hardly any crackers or fireworks were fired in the streets. Salutes were fired and bells rung at sunrise, noon and sunset. An oration was delivered at the Congress Square Church by Rev. E. C. Bolles. The Declaration of Independence was read by Master C. A. Bickford, and President Lincoln's Emancipation Proclamation by Miss Achsah Bachelier. There was no display.

At Washington, D. C., the day was celebrated by the Temperance societies with a procession and speeches, and by the Association of the Oldest Inhabitants with the reading of the Declaration of Independence and an oration. The only military parade was that of the colored Zouaves.

At Norfolk, Va., a large Republican meeting was held, and Fred. Douglas and other prominent speakers delivered addresses. Great enthusiasm was manifested.

In Richmond, Va., the negro societies paraded in full force. A large congregation of negroes including the Sunday School children, was addressed on Capitol Square by Gov. Pierpont. He also made short speeches to each of the societies as they passed the Governor's mansion. The County Court was closed by military orders.

The Fourth was celebrated throughout the Carolinas. Salutes were fired at sunrise, noon and sunset. At Charleston the colored citizens paraded the streets, displaying flags in profusion. At noon they passed in review in front of Gen. Sickles' residence. A state dinner was given in the evening to Gen. Sickles by Gov. Orr, at which many distinguished persons were present.

☞ Official accounts from Vera Cruz, Mexico, to the French consul at New Orleans, state that Vera Cruz was surrendered to the Liberals, June 27; and that Santa Anna was shot by them at Sisal, June 25.

☞ The Courts of Austria, France and England are indignant at the shooting of Maximilian in Mexico, and have gone into formal mourning. Orders have gone out from France suspending all French Consulates in Mexico.

Gold, Saturday, 138 7-8. Sent to Europe $1,512,000.

NEW HAMPSHIRE ITEMS.

—The Concord Statesman says the belief is somewhat prevalent that the notorious Shisborn, who escaped from the State prison last December, had an accomplice inside the walls, not clad in parti-colored garments.

—The vote in the House of Representatives indefinitely postponing the State Constabulary bill was 153 to 143—the Democratic members, with a single exception, voting for postponement. Thus, if all the Democratic members were present, they gave 127 nays, and 28 Republicans voted with them.

—The official count of the vote for Railroad Commissioner last March, is as follows: Scattering 8; George H. Pierce, Democrat, of Dover, had 32,646; Jesse Gault of Hooksett, the successful Republican candidate, had 36,320. From the town of Centre Harbor the name of George H. Pierce was returned, but no statement vote accompanied it. No return was received from the town of Berlin.

—The village of Sanbornton Bridge had a severe fire on the evening of the 4th,—and the disaster is supposed to have been caused by *fireworks*. Engines came from Franklin and Laconia, and helped save the rest of the village. George L. Peabody, one of the Franklin firemen, died from over exertion before reaching his home. He was a blacksmith, 40 years old, and leaves a family. John Gould of Sanbornton Bridge fell from a burning house and was badly injured.

[Can anything be more foolish and dangerous than the practice of celebrating great events by intoxicating drinks and destructive fireworks? And cannot people learn a lesson so plain?]

Summary of Legislative Doings.

Both branches have passed bills and resolutions incorporating the Portland, White Mountain & Ogdensburg railroad; establishing a State board of public instruction; providing for the commitment to the State Prison in certain cases of criminals under sentence of death; incorporating the Mount Washington Turnpike Co. and the National Savings Bank of Concord; enabling the Boston, Concord & Montreal railroad to assist in extending the White Mountain Railroad from Littleton to Northumberland; appropriating fifteen thousand dollars for the House of Reformation, and six thousand dollars for the State Prison, and a joint resolution in relation to citizens of N. H. imprisoned in foreign countries. The Senate Railroad Committee reported unanimously in favor of the House bill entitled "An act to prevent Railroad monopolies," which bill passed the Senate almost unanimously. This was the issue of the controversy between the Boston & Maine Railroad and the railroad lines from Concord to Boston via Nashua and Lowell. The passage of the bill through the Senate is a legislative victory for the Manchester Board of Trade and the Boston & Maine Railroad.

The House usury bill, providing that by consent of parties seven and three-tenths per cent. interest might be received has been indefinitely postponed by the Senate. All bills providing for changes in the laws regulating savings banks have been postponed.

☞ On the 4th, in Boston, an apothecary store on Boylston street was burnt, supposed by spontaneous combustion; loss $15,000, partly insured. In the evening at 9 o'clock, a great brick stable on Hawkins street was burnt. It was called the Boston Boarding Stable, and about 60 horses were within when the fire began. Seven of them were burnt; the rest were saved. Carriages, harnesses, &c., destroyed. Cause of fire unknown, supposed to be lightning.

☞ An ugly drunken negro named Joe Cross, celebrated the Fourth in Boston, by beating a white woman called Bridget Monk, who lived with him. He struck her on the head with a heavy junk bottle, which was shivered by the blows. When the officer came, he attacked him, but was arrested and handcuffed,—and then three other officers were called, and the four carried him off.

☞ At Rochester, N.Y., July 4, during the performance at the circus of Thayer & Noyes, Elias White, the Lion King, entered the cage of ferocious lions, when one of the males attacked him, felling him to the floor of the den and fastening his jaws upon his shoulder, inflicting severe wounds. The circus men went to the rescue with iron bars, and finally succeeded in rescuing Mr. White from the cage alive, but severely injured.

☞ Wednesday night a freight train on the Western Railroad, containing a large quantity of fireworks en route for the celebration in Boston, was thrown from the track by obstructions maliciously placed in its way. The train was wrecked and many of the fireworks destroyed. The railroad company offer $1000 for the arrest of the person who placed the obstructions.

☞ Ex Governor Smyth delivered an address at the great Temperance celebration, Fourth of July, at Harmony Grove, South Framingham, Mass.

Reported for the Chronicle.

The Match Game of Base Ball at Newburyport on the Fourth was won by the Rockinghams by 42 runs. The game was commenced at 11 o'clock by the Essex Club going to the bat. They were put out after scoring two runs, leaving Capron on the third base.—In this inning, Mr. Talbot of the Rockingham nine made a fine fly catch at third base. The Rockinghams then went to the bat and made twenty-seven runs before being put out. Before the close of this inning, Alley, the catcher of the Essex Club, was overcome by the intense heat, and play was suspended until he recovered. In the next inning the Essex boys retired with a blank score, and Holman saved the Rockinghams from a like fate by stealing home from the third base. In the fourth inning, Calvin L. Hayes, the catcher of the Rockingham nine, in leaping a fence while "going" for a foul ball, severely sprained his knee and was compelled to leave the field.—Fortunately Mr. Emery of the Rockinghams, who had been detained at home, arrived in season to take his old position at first base, Whittemore going to second base, and Rowell to the catcher's position. On the first strike Devereaux popped up a high fly, which settled in Emery's hands, as a bystander expressed it, "As easily as a fly into a tar bucket." In the fourth inning Talbot stopped a ball hot from the bat, with one hand, by leaping several feet in the air.

During the fifth inning, and when the Rockinghams had but one more "out" to make on even innings, a young deluge came down from the clouds, and players and spectators struck for shelter. After the shower the Rockinghams made twelve runs before the third out was made, and the game was called, the Rockinghams scoring 52 to 10 for the Essex on five innings.

The Essex nine played well, considering the fact that they had played together but two months, and with more practice will soon rank among the best ball players. The Rockinghams punished Tucker's slow pitching fearfully, and did some fine batting. Dow's swift pitching seemed to disconcert the Essex nine, as they could not strike the ball easily.—Whittemore at first base played finely in the absence of Emery, taking the balls sent him every time, the prettiest play on either side being a ball beautifully stopped by Rowell at second base and fielded to Whittemore at first base, which put out the striker. The Rockinghams returned, much pleased with their trip to Newburyport and their new acquaintances of the Essex Club.

In the Surratt Trial, on Friday, the prosecution closed their evidence, and the defence, who have not more than a dozen witnesses, expect to prove that Surratt was in Elmira, New York, and not in Washington, on the day of the assassination. One of the witnesses for the defence will swear that he dropped Surratt's handkerchief in St. Albans, Vt., by accident, having obtained it by mistake while he boarded at Mrs. Surratt's.

Judge Wayne, of the U. S. Supreme Court, died in Washington on Friday, July 5, aged 77. His death causes a vacancy on the bench which cannot be filled by reason of an act of Congress of last session prohibiting any appointment until the number of Justices is reduced to six. The death of Justice Wayne leaves eight on the bench.

— The Kansas State Record nominates Gen. Howard for President and Senator Pomeroy for Vice President.

— Gen. Swayne forwards an order which he has issued in Alabama, abolishing what is known as the State stamp act, and repealing the law forbidding the circulation of certain illustrated journals in the State, which was intended, it is stated, to prohibit the sale of Harper's Weekly.

☞ On the evening of the 4th, at West Roxbury, Mass., a young man named Thomas Clary, who had passed the afternoon in Boston with his three sisters, returned with them and had just left the cars, when two Irishmen came along and grossly insulted the Misses Clary, which caused their brother to remonstrate with them, when one of the Irishmen drew a knife and inflicted a mortal wound in the body of young Clary, immediately upon which both scoundrels fled. The sisters of the unfortunate young man were greatly frightened and with the greatest difficulty succeeded in reaching home (nearly a quarter of a mile from the station), with their brother, who was dead when they entered their house. From the description of the two men given by the Misses Clary, one of them was arrested.

☞ On Friday, at Washington, the Cabinet meeting was brief and unimportant.—The question of restoring the Southern officials, which was so actively discussed prior to the President's Eastern visit, seems to have been entirely abondoned since his return.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is insured by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8dawIn

TO CONSUMPTIVES.—The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which he will find a SURE CURE for CONSUMPTION, ASTHMA, BRONCHITIS, COUGHS, COLDS and all Throat and Lung affections. His object of the advertiser sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, FREE, by return mail, will please address

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simple in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 200 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTEND'T,
ALTOONA, PA., 20 Dec., 1855.

Gentlemen:—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them constantly on our line, and we consider them good and reliable time keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road.—As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principles, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed and signed guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are hundreds of counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any genuine Waltham Watches may be purchased of Watch Dealers throughout the country.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 86 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 2. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his twelve, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an affected throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectorations become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered up with phlegm, gross and acid dregs, indigestible meats, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all such impurities, and restore the purity and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

Local.

☞ One of the handsomest and most toothsome cuts of golden Salmon that we ever had the pleasure of assisting in the discussion of, was that sent us from the extensive fish market of Marston, Randall & Co., of this city and Boston, for the Fourth of July—according to the annual custom of George Marston. These splendid fish sold by this house, at this season of the year come mostly from Canada, and are kept in almost as perfect condition as though just from their sparkling native element. The lovers of this king of fishes, may nearly always procure the best the market affords, as above.

☞ Our neighbor Joy thinks the new Sewing Machine he advertises will be a joy forever; and perhaps it will — but the ladies should remember that he is moony just now, and though as well as could be expected under the circumstances, still there is some allowance to be made for any little extravagancies in this line—which (the lock stich) no doubt he is prepared to fight it out on all summer.

☞ The first Blueberries of the season, we are told, were brought in by Farwell's York Stage, and secured, as in years past, by A-very clever fellow, who favored us with a taste of their quality—but as he didn't want us to say anything about it, we won't, except that they were A-very nice treat, for fear it make him feel blue round the gills, and he berr'-ate us till all's blue.

POLICE COURT, July 5. — Jeremiah Murphy and others were tried for making a brawl and tumult. Jerry was the only one considered guilty, and sentenced to pay a fine of $2 and $4.80 costs.

Saturday, July 6.—Samuel Runnells, who hails from Portland, was charged with assaulting and otherwise maltreating Isabella Watkins. He was fined $5 and $4.80 costs.

☞ The U. S. Receiving Ship Vandalia, we omitted to mention, was decorated with flags, streamers and signals, on the Fourth, and, viewed from adjacent wharf or distant hill, presented a beautiful appearance.

☞ An insane contributor imagined himself drunk recently, because for a number of days he noticed that the hands of the North clock pointed to one hour, while the bell struck an hour numerically greater.—He was only convinced of his sobriety when informed that this incoherence of the city time piece had been noticed by many others.

☞ The popular feature of the celebration of the Fourth of July at Boston, was the Rowing Regatta. The weather was not very favorable to the races, a severe squall having arisen, which nearly put a stop to the sport. Among the entries for the six-oared boats, distance four miles, we notice the "Piscataqua," of Eliot. She is a mahogany shell, 44 feet long, and weighs 175 pounds. Crew, J. H. Staples (bow), S. A. Staples, C. F. Staples, E. Drake, L. T. Davis and E. A. Staples, (stroke). She had the second position, and was only beaten by the "well trained Harvards," (who had the first position), in 27 minutes 35 1-2 seconds. The Journal says "the crew of the Piscataqua pulled well and handsomely." They took the second prize of $75.

In the race for single scull wherries, distance two miles, the "J. Horace Kent" of Eliot, blue shell, 24 1-2 feet, 155 pounds, rowed by L. T. Davis, made excellent time —17 minutes 52 seconds,—but owing to drawing an unfortunate position Mr. Davis was beaten a few seconds, the contest being very close, and exciting a lively interest.—The Eliot boys intend to take the first prize next year.

☞ The noon train down on the 4th, over the Eastern Railroad, when between Gloucester and Rockport, run over a yoke of oxen, killing one, and throwing the new engine Great Falls from the track, and injuring it very seriously. The engine cost about $15,000, and has only been running a few days.

— Doubts of Santa Anna's death have been raised by the receipt in Washington of a letter dated Sisal one day later than the date on which it is reported that Santa Anna was shot. It says that he was then a prisoner one hundred and fifty miles from that place.

— Judge Mills of Tennessee addressed New York Union League Club on Monday evening on political affairs in his State. He said, were it not for Brownlow's militia it would be impossible for a loyal man to live in Tennessee. Yet there sometimes appear in Northern journals statements that Brownlow's militia is running riot throughout the State. Were it not for the militia there could be no election.

SCRAPS OF DAMAGE.—The upper story of Butler's bakery and some sheds in the rear, at Newburyport, were consumed by fire on Wednesday morning, caused by firecrackers. Loss covered by insurance.

A small cracker fire took place in Boston Thursday morning.

Thursday morning, while firing the salute for the town of Mansfield, Mass., Isaac Briggs had one of his arms blown off as he was engaged in loading the cannon. Mr. Briggs was an artilleryman during the war, and such was the sympathy felt for him by his fellow citizens that a purse of $1000 was promptly raised for him.

In New York, Catharine Baker, a widow, aged 38, was shot through the head and killed by a musket ball, while she was looking out of the window. The shot was fired from the street by some unknown person.

Thomas Scanlan, aged 13, was shot in the neck and killed by a pistol in the hands of Francis Strong, aged 15, while they were crossing on the ferry from Greenport.

There was a large gathering at Spy Pond Thursday. During the afternoon eight or ten East Cambridge men assaulted an Irishman and beat him severely. The man's wife was with him, and she was roughly treated. The assaulting party were all more or less intoxicated.

A severe thunder storm occurred about noon at Rutland, Vt. and four persons were struck by lightning; two of them are not expected to recover.

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 276 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now in hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, so now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues in Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,226,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,860 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the same already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are but one million per mile upon a line of road, on which over twenty million dollars have already been expended:—on 320 miles of this road the cars are now running, and the remaining 157 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of **Nine Per Cent.**
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

"HE SHOT ALL BUT ME!"—When Gen. Braxton Bragg commanded the army of Tennessee, one day, while on the march, he suddenly came upon one of the "rag-ged," butternut fraternity, who was just then busily engaged in plundering a garden. The General drew up, and in that clear, ringing voice, whose tones heard on the field of battle is not readily forgotten, called out, "To what command do you belong?" Butternut was caught; he recognized the General, and he knew the man he had to deal with. Assuming a green, gawky manner, he answered as follows: "Mister, I did belong to Mr. Bragg's company, but he shot all but me!" This was a little too much, and drawing his hat over his eyes and compressing his lips, the General rode on, and let the last man of his "company" live.

— Under the law of Louisiana, the Centenary College, located at Jackson, is required to teach twenty-two indigent students, to be selected from the several congressional districts, and, upon proper application, nominated by the Governor of the State.

— A wag belonging to the Atlanta bar propounded the following conundrum at the county court yesterday: "Why is child hooked and killed by a cow like a modern lady's dress?" In vain did the judge and officers of court endeavour to solve it. With a roguish, twinkle of the eye he said, "Because it's gored to death."—[Atlanta Era.

— Two very gallant sons of Erin, being just discharged from service, were rejoicing over the event with a taste of "the cratur," when one felt all the glory of his own noble race, and suddenly raised the pot above his head and said, "Arrah, Mike, here's to the gallantould 99th—the last in the field and the first to lave it."—"Tut, tut, man," said Mike, "ye don't mane that. You mane (and he raised his glass high, and looked lovingly at it), "here's to the gallant 99th—equal to none!" And so they drank.

— The annals of crime have fortunately but few parallels to the horrible disclosures which have just been made at Sheffield, England. It reads more like a novel than like a fact of real history that some members of a Trades Union should formally contract for the killing of men, or for burning their places of residence, or their workhouses, for no other cause than that they did not belong to the Union, and tried to keep other people from joining it. It is shocking to hear of a formal prize list for the most atrocious crimes; £15 for a murder, £10 for the blowing-up of houses, and so on. It would of course be unjust to hold the English Trades Unions in general responsible for these outrages; but the whole of the civilized world will expect from them a more energetic opposition than many of the Unions have heretofore shown to every form of lawlessness.—Tribune.

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is entirely composed. This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient form and quantity, being contained in a paper box, and each bottle be a foolish fancy price, but each bottle is not sold at a cost to rich and poor.

SELEE'S HAIR LIFE

Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.

It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.

This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.

Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.

It Kills Hair Eaters, which are so fatal to the roots of the hair. It contains no mineral or oil ever, which is found in most other Hair preparations, and is so injurious.

THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.

It is the purest, neatest, and most effectual thing in the market.

It never stains, and is perfectly harmless.

SPEER'S SAMBUCI WINE,

Prescribed by Physicians for

FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated. As a Diuretic it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic affections. As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.

The qualities of SAMBUCI are "unsurpassed," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Sedative.

N B—Vinum bonum bonum sanguinem facit.

SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and beautifying ladies and children.

Be sure the signature of ALFRED SPEER, Passaic, N. J., is over the cork of the bottle.

PREMIUM SEWING MACHINE.

One of the kind that a man can love,
That wears a shawl and a soft kid glove;
Has the merriest eye and the daintiest foot,
And sports the charmingest gaiter boot:
And a bonnet with feathers, ribbons and loops,
And an indefinite number of hoops.

One that can dance, and possibly—flirt,
And make a pudding as well as a shirt,
One that can sing without dropping a stitch,
And play the housewife, lady or witch,
Ready to give us the sagest advice,
And do up our collars and things so nice.

We like the sort that can laugh and talk,
And take our arm for an evening walk;
That will do whatever the owner may choose,
With the slightest perceptible turn of the screws;
'Tis the cleverest thing that ever was seen,
Our wonderful family sewing machine.

— Ladies of fashion starve their happiness to feed their vanity.

— The pleasure of doing good is the only one that never wears out.

— While Samuel Gregory, a Delaware Co. (Pa.) farmer, was mending a fence the other day, his old sow was chewing $1,700 of his greenbacks, which were in the pocket of his vest hanging on a bush near by. The latter job was effectually and hopelessly done.

— There has been a terrible land slide in Austria; forty acres of land in the romantic valley of the Multa, recently fell into the bed of a mountain torrent, carrying with them gigantic trees, immense boulders of stone and houses. The torrent was obliged to change its course. The whole country is desolate.

— A young lady now traveling in Europe gives the following account of the death of the Archdchess Mathilde, in a letter published in the Boston Advertiser: "She was smoking a cigarette in her parlor, and when some one came in she hastily put it behind her, and her dress, which was of light material, caught fire, and she was burned to death."

— A Georgia correspondent of the New York Herald says that the reconstruction of the South, so far as it relates to the sentiments of the people in General Pope's department, has been retarded six months by the disquietude occasioned by the opinion of the President's legal adviser, and there is no remedy except in more stringent measures, perhaps, than are included within the scope of the present programme.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from Ten to Thirty Days.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation will invariably stop the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It Kills Hair Eaters, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair prepar ations, and is so injurious.
The Hair Life is not a Dye, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1836.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. Portsmouth, N. H.

TUESDAY, JULY 9, 1867.

— Rev. S. M. Merrill of Plattsburg, late of North Adams, may be dead, but he wasn't drowned in the Saranac, as reported the other day. The suit of clothes which he had on at the time of his disappearance has been found in a culvert about two miles from the place of the accident, and identified by Mrs. Merrill, and the lady has also discovered that another of her husband's suits has been mysteriously abstracted.—*Exchange.*

If any one knows what the truth is about this man, he would do the public a favor by telling it as plainly as possible. The LIE has been bandied back and forward long enough. If his character can be cleared up, let us have the certificate: but if not, let him flee away to some place where there are no newspapers.

LEGISLATIVE.—In the House of Representatives the bill providing for a State Normal School was indefinitely postponed by a vote of 103 to 100. The majority and minority reports of the Committee on National Affairs were also indefinitely postponed. The bill amending the charter of the city of Manchester became a law with an amendment providing that the act be submitted to the Supreme Judicial Court for a decision upon its constitutionality. Among the provisions of the act is one stipulating that the check lists for voting in all the wards shall be made up by the Board of City Assessors. Both Houses adopted, with some amendments, the report of the committee appointed to revise, codify and consolidate the General Statutes of the State.

IN TENNESSEE, July 6, after a radical meeting at Franklin, which was attended by white and colored people, trouble occurred between negroes belonging to a Loyal League, and conservatives.

The Loyal Leaguers were advised by their friends to disperse. They marched back to their hall. By this time night had come on, and after stowing away their regalia, &c., they left the hall and returned to the public square, where a collision occurred.

It is alleged they were fired on by a party of Conservatives, a man named Cady, a livery stable keeper, firing the first shot.—The fire was returned.

There appeared to be a volley from the attacking party, and a scattering reply, resulting in the death of Cady, who was shot through the heart, and the wounding of 8 whites and 18 blacks, 3 of the latter mortally. Some of the wounded blacks are Conservatives.

On Saturday, one of the company of militia, stationed at Tullahoma, was shot and killed by DeWitt Bennett, a captain in the late rebel army.

The radical blacks were much exasperated and threatened to return and renew the fight, but Dr. Cliffs prevailed on them to desist. An official investigation will fix the responsibility for this murderous affair.

LONDON ITEMS.—An Austrian fleet is to be immediately dispatched to Mexico for the body of Maximilian.

Detachments of regular troops have been ordered by the English Government to Abyssinia to compel the King of that country to release the British subjects who have been held prisoners there for a long time.

The International Congress for the regulation of gold and silver coinage, now in session in Paris, has fixed upon the gold five-franc piece and its multiples as a base for a uniform currency in Europe and America.

The Portuguese Chamber of Deputies had passed a bill for the reform of the penal code and the abolition of capital punishment, and adopted the general budget.

In the English House of Lords, on the 24th, Earl Russell moved for an address for a Royal Commission to inquire into the subject of the established church in Ireland.—The motion was opposed by Lord Cairns.—Earl Derby said he was willing to consent to the appointment of a Commission to obtain information. He denied that the State had endowed any religious body in Ireland, and said there was no precedent for depriving one church of property for the endowment of another church. Earl Russell's motion was agreed to.

☞ On the morning of the 4th, in Boston, Edward A. Walsh, a foreigner, shot a young woman named Mary Sweeney, with a pistol, killing her instantly. He was a boarder, and she a servant, in the same house. He is in jail. Late in the afternoon, a couple of roughs knocked down an inoffending colored man, near the South Cove. A rowdy mob soon gathered; and officers Drew and Marion attempted to disperse them. Two roughs named Welsh attacked the officers, and by help from the mob knocked Marion down and threatened to killed him. Officer Drew had a revolver, and warmed them to exist. Edward Welsh replied by aiming to strike him with a knife. Drew fired; Welsh fell backward, and his friends carried him off, but he was since been arrested. Other police came on the ground, and finally beat off the half drunken rowdies.

THE COMMON OR PARK.—*Messrs Editors:* Now that the land is given, I think it may be presumed that Portsmouth some day will have what it has so long needed, a Common, or Mall, or Park, where the citizens may go for fresh air, and children may be carried from brick sidewalks and dusty streets, and have some chance to invigorate their constitutions. And since Cain saw fit to quarrel with his brother, the fashion seems to have been kept up and increased, in proportion as the number of mankind increases; and judging the future by the past, it may still increase; and if so, we must have fighting men, and they need a place to learn the art of war. And now for the *best* way to have it. First, there seems to be an additional and strong reason for moving the old Court House down to the south west corner of the lot where it now stands, so as to open the street to the pond. And then is is proposed by some to have a bridge across the pond, which will need abutments and grading of streets at each end. And here seems to be a chance for argument. It will be at the city's or public expense to build and keep in repair, and liable to damages to the owners of the pond, and probably cost more at the outset than the marsh at the upper end or around the pond could be bought for; and then keeping the whole in repair would seem to be fully equal to the advantage of it, and more or less danger as to some being drowned on private or public days.

Messrs. Editors, I wonder if it has ever occurred to the citizens of our healthy city that it is situated, in relation to Boston, as Newport or New Haven is to New York; but we are more than a hundred miles farther north, consequently so much the better for a watering place or to reside in in the hot season, for wealthy families who yearly and constantly leave the larger cities; and as these cities increase in size, the more likely they are to do it; and such people have the money, and usually spend it liberally at such places. And in laying out a common, why not take this into consideration, in addition to laying it out for ourselves?

It has been said that now Mr. Elwyn has taken the start, other wealthy gentlemen owning land around the pond, are ready to give a handsome allowance; and if they are ready to do so, would not this be sufficient, without a bridge, (which might do more hurt than good,) by having the walk around the pond, and a place of resort for ourselves and strangers. Boats or gondolas would be likely to come into use, and a bridge would much *abridge* the pleasure of sailing or rowing.

But the writer has the most liking for those institutions that are self-paying. He thinks the contrast between such and those that are always an expense, very great; and in first laying out a common in this city, he thinks it would be best to lay out a street from the Universalist meeting-house to Richards Avenue, and call it Pond or Mall Street; and then by mutual arrangement with the owners of the land abutting, sell house lots on the same, and see if the lots would not bring enough to pay the expense of a good-sized level Common, which might be easily made by sliding over some of the gravel of the high land to fill the gulches in the marsh above the pond, or the debris of the city might be constantly hauled there.

The Navy Yard and Beaches and Shoals are additional inducements for visitors to seek this as a place for summer recreation. B.

Remarks.—Some of B.'s suggestions are good,—among them that that Portsmouth might easily and profitably be made one of the greatest "watering" places in the country.—The natural facilities and advantages are unsurpassed, and the only lack is houses for public and private use; and the new Mall would be a great attraction.

In regard to a Bridge across the South Pond,—and the North too, as to that matter—this has been talked of for a generation or more, and the increase of value in property at the South End (as at the North) would soon pay for the expense. We are told that a charter for both already exists. But if anybody should object to the impeding navigation, why just "suspend" an arch over the South Pond. We consider the bridge—foot bridge only—as a vital point.

In regard to the road round the pond, we think no land here can be bought—it is all owned by wealthy gentlemen, some of whom have consented to donate it for the purpose, and others have the matter under consideration. But a dead "level" Common would be the last thing desirable.

The City will not be called upon to help pay for the proposed Mall at all, according to the present plan, but all will be done by private contributions of the sons and daughters of Portsmouth at home and abroad, who are amply able, and we think will prove their ready willingness when the time comes to call upon them. We hope to see a Portsmouth Mall sometime, but there are many obstacles to be removed or got around first.—[*Eds. Chr.*

MORMON NEWS.—The Salt Lake Vidette of June 15th, says on Sunday afternoon Brigham Young preached a lengthy sermon, boldly and openly announcing that Amasa Lyman, Orson Hyde and Orson Pratt had apostatized and were cut off from the church. Orson Hyde was chosen President of the Twelve Apostles last April.—Pratt is one of the twelve, and Lyman had been one of the apostles also. Young was severe on Hyde and particularly so on Pratt. He denounced the latter as an unbeliever and as now in possession of the devil.

NEW HAMPSHIRE ITEMS.

—— A new barn, 100 feet long, in Dunbarton, owned by Wm. C. Stimson, was blown down by the gale July 4th.

—— The Francestown Bank was broken into on the night of the 4th and the outer door of the safe completely demolished, but the burglars secured no plunder whatever.

—— The Good Templers of Kingston with those from Exeter and several other towns held a celebration at Kingston Plains on the Fourth. Everything passed off happily.

—— Six yoke of oxen, drivers and attendants, have been at work in a pasture in Durham digging up barberry bush roots for more than six months. They are hauled to mill, cut up and sent off to be used for coloring.

—— About half-past two o'clock, on the morning of July 4th, a shed adjoining the dwelling house of Mr. Richard Alley, situated one mile south of Newmarket village, was discovered on fire. No water could be obtained, and the house, barn and out buildings were entirely destroyed, with a portion of their contents. Loss $1,500.

EX-GOV. SMITH.—The Dover Enquirer well says:

"The New Hampshire Legislature did a very handsome thing in appropriating $1500 to defray the extra expenses of Gov. Smith during his administration. Mr. Roles of Ossipee (dem.) said that Governor Smyth had stated to the Committee on Finance, that he had actually spent, in his opinion, $1500 for travelling expenses and hotel bills, while looking after the interests of the State, at Washington, Boston, and other places. There had been $500 appropriated each year for contingent expenses while he was in office, but he had not drawn any of that money, and it remained in the treasury. Gov. Smyth had stated to the committee that if the House would allow the amount without material objection, he would like to have it; but he would rather not have it than have any contest over it in the House.

Mr. Walker of Concord, (rep.) stated that Gov. Smyth had been to Washington some ten or twelve times on business of the State, and had paid his own expenses; that it had been the custom with former Governors to repay themselves from the contingent fund, but Gov. Smyth did not feel quite clear that he could take that liberty.

Mr. Page, of Warren, (dem.) said he took special pleasure in advocating the passage of the resolution. It had been the custom to appropriate from $500 to $1000 a year for a contingent fund. He had found that Governor Smyth had never meddled with this contingent fund, which his predecessors had always drawn. He (Mr. P.) believed that he had been most scrupulously exact—more so than many others would have been under the same circumstances; and in compliment to that rare integrity, and in further compliment to the rare financial ability manifested by the late Executive, he hoped the resolution would pass. He felt that he was honoring himself and complimenting his constituents by giving his support to the bill.

Mr. Hackett (rep.) Mr. Sturoe (dem.) and several other members also spoke in favor of the appropriation. Mr. Sanborn (dem.) of Laconia, was not prepared to vote for the measure, and wished it laid on the table for further consideration. Mr. Barnard, of Canaan, said he too was a Democrat, and was willing to refund to Governor Smyth what he had paid out, so that he should lose nothing by having been Governor of the State, as he had satisfied, as a general thing, both the Democratic and Republican parties. (Applause.) The motion to lay on the table was rejected and the bill passed.

CONGRESS.—The House special Committee on Reconstruction agreed on a bill which provides that Military commanders of Districts shall not be removed except by sentence of court martial, by their own request, or by the Senate. It gives Military Commanders power to turn out all State, City and civil officers, and make appointments in their places. It declares that they shall not be hampered by constructive opinions issued by the Executive, and it empowers them to have oaths administered to third parties, where evidence as to parties claiming registration shall be received.

GEN. MEAGHER DROWNED.—A dispatch from Montana says, Gen. Thomas Francis Meagher, Secretary and Acting Governor of this Territory, fell from the deck of the steamer Thompson at Fort Benton, on the evening of the 1st, and was drowned.

☞ On the 4th, at Cincinnati, Charles Keeper, a prominent business man, shot himself dead, and leaves behind him property valued at $100,000. He was afraid of poverty.

At wholesale by all Druggists. 4g

— An editor speaking of complaints of readers that he doesn't publish all the local items they desire to see, justly observes that it is often their own fault in not sending the facts. He says he doesn't like to publish a marriage after the honey-moon is over, or the death of a man after his widow is married again.

— A Cable dispatch dated Florence, June 21, announced: "Startling intelligence has been received here from Rome. Dispatches report that 200 armed men had thrown themselves into the city, it was supposed with the intention of proclaiming a Republic. But the desperate attempt failed, and 40 of the revolutionists are now in prison." According to the accounts received in our latest European papers, 200 armed men crossed the frontier of the Papal States, and 47 of them were arrested, while the remainder were pursued by Italian troops.—It was, however, expected that a new attempt against the Papal States would be made after the close of the Episcopal Convention in Rome.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions. It is also an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it on any event. It was 40 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8dawlm

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, PA., 15 Dec., 1856.

Gentlemen:—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time keepers. Indeed I have a great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road.—As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time so correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton, Tracy & Co.	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
E. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best material, on the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

Penn'a Salt M'fg Co.'s Renowned
SAPONIFIER:
(Patents of 1st and 8th Feb., 1859,) OR
CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 21 pounds (quarts) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into this stir slowly the dissolved Lye, and stir strongly until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, and dissolve (or paste) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—*Be particular in asking for PENN'A SALT M'FG CO'S SAPONIFIER.*

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person consulting with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly what stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether there is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the first thing must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal, then the chills and night sweats will stop, and the expectoration becomes free and easy.

He keeps a full supply of medicines at his room, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Local.

PORTSMOUTH & DOVER RAILROAD.—The charter of this Road obtained of the Legislature of 1866, was cumbered with two obnoxious provisions, evidently put in to prevent the building of the road. The first required that the sum of $50,000 should be expended on the road before the first day of January, 1868, and that the road should be finished before the first day of January, 1871. The second prohibited "any sale, lease, bargain, agreement or arrangement for a sale or lease, present or future, of said franchise, said railroad or any part thereof," before the road should be fully constructed and completed for use.

These two provisions, with penalties of annulling the charter in whole or in part, have been found to be serious obstructions to the commencing of the work; and the Directors applied to the Legislature this summer for their repeal. The petitioners and their opponents were fully heard by a Committee of the Senate; the whole matter was argued by able counsel, and the result was that the Committe reported a Bill, not only repealing the obnoxious sections, but authorizing the lease of the road to any connecting road as well before as after its completion. This bill passed the Senate unanimously, and the House with less than twenty dissenting votes

We confidently expect to see this road, so important to this city and to Dover, completed without much delay.

☞ As we stated at the time of his death, it was designed to raise by subscription among the friends of Mr. C. D. Perry of this city, a sum sufficient to clear the homestead occupied by his family, of all incumbrances. The amount necessary, we think, was about $1000, most of which was raised by the exertions of Mr. Preston, with some other assistance; but we learned accidentally a few days ago, that there is still a balance of something like a hundred dollars still lacking, so that the matter yet remains open, and the funds collected are in the charge of Mr. Preston.

Of the $900 or so already contributed, most or all of it came from our own citizens; and the officers and employees of the Great Falls & Conway Railroad, on which Mr. Perry met his death at the post of duty, have not fulfilled their promise of aid in the matter, though there is still opportunity for them to do so, or for other friends who would enjoy aiding in the good work.

POLICE COURT, July 8.—Georgianna Johnson, for assault on Mary Spencer, was fined $2 and $4.80 costs.

A complaint of assault preferred against Wm. Bragdon, of York, by Elizabeth Washington, was dismissed.

A case of liquor-selling in contravention to the present law came up, and bonds were furnished for the prosecution of the case before the S. J. Court.

SINGULAR ACCIDENT.—The Lawrence American gives the following account of an accident which occurred on the 26th ult. to Charles H. Rowe, about seventeen years of age, son of Mr. Alex'r H. Rowe, formerly of this city, but now station agent at Lawrence:

While riding home from Lowell in a buggy, he attempted to disengage one of the reins from beneath the tail of the horse, reaching over the dasher for the purpose. The animal suddenly threw up his heels, one of them striking the young man in the throat just below the chin, and the other breaking his right collar bone, fracturing it in such a manner that it was driven into the lung, through which opening the air escaped beneath the skin over the chest. He was taken home to his father's house, Dr. Garland was sent for and the proper applications were made. The injury to the collar bone and lung was soon in a fair way of being healed, but the windpipe was so badly hurt that the patient found it difficult to breathe, and by Sunday morning the symptoms were so alarming that the operation known as *tracheotomy* was performed, the windpipe being opened and a breathing tube inserted. At the time of this operation the patient was utterly unconscious and without sensation, and of course neither chloroform nor ether was required. It was very successful, and there is now a very fair prospect of the recovery of the injured person. It is not supposed that the injury to the throat will be permanent.

☞ Barrett's Vegetable Hair Restorer, advertised in another column, besides being an excellent article for dressing the hair, we are told by a number of lady friends, is one of the best preparations for removing dandruff. Thacher is agent for it's sale in this city.

☞ Mr. Nowell's advertisement of the Howe Sewing Machine, is well worth reading.

☞ Wheat harvest has begun in Indiana, and the crop is said to be the best for years.

— The governorship of the Russian purchase has been tendered to Benjamin Stark of New London, lately a Democratic Senator from Oregon.

— At Rockport, during the squall on the 4th, a large tent belonging to the Methodist Episcopal Society, in which they were holding a fair, and built to accommodate some three or four thousand people, was completely demolished.

— Some of the Copperhead papers are complaining of the great expense of the registration in the South. Well, in Louisiana, where the work was finished, the President insisted upon its being continued for some months, at great expense, to oblige a few Rebels. Who is to blame?—*Tribune.*

☞ Holloway's Pills and Ointment.—Cancer.—The days of "brilliant operations" are no more. the discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer in its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. The Pills cleanse and purify the blood. Sold by all Drug gists. —iwje22adw

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 370 miles west of Omaha, Nebraska, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1655 miles, the United States Government issues Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first three months in the present year, being sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business on the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 370 miles of road, on which over forty million dollars have already been expended;—on 330 miles of this road the cars are now running, and the remaining 40 miles are rapidly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell only a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

A Column From the Portsmouth Journal.

ILLS OF SHOALS.—The season has now arrived when everybody wishes to make an excursion somewhere—for variety—for relief from care—for the general health—and to have a good *time*.

Now there is no more easy and desirable way for accomplishing these purposes than to step on board the good steamer Pioneer at half past ten in the morning, pass down our beautiful river to the ocean, and in an hour and a half land at the Shoals, take a good *dinner* at the Appledore House, and, if you cannot spend a day or two, leave at three, and be at home at half past four o'clock.

The steamer is in the best order and well managed by a skilful and gentlemanly commander. The Appledore House, under Messrs. O. & C. Laighton, is well conducted—the tables are furnished liberally with the luxuries of the season, under the supervision of Mr. Kibby, who is well known in this city. There appears to be a determination by the proprietors to make the Appledore House a first class hotel. Visitors from abroad are now beginning to flock in. Accommodations are ample for a large number.

THE GYPSIES.—This clan of thirty or forty Bohemians, who were located in Portsmouth a month or two since, have arrived at Bangor, where they are busy in telling fortunes. They have an excellent outfit for travel—seven large covered wagons, drawn by handsome horses.

About THIRTY THOUSAND passengers passed over the Eastern Railroad, to and from Boston, on Monday last week, but notwithstanding the enormous travel and the confusion consequent upon a public day, not a single accident occurred. This road is most admirably managed by Superintendent Prescott.

THE DOMINION OF CANADA.—The confederated system of government of the British American provinces came into operation yesterday, and a vice-royal executive, with popular suffrage, takes the place of monarchical direct rule. The members of the new government were to be sworn into office early in the morning, which was to precede a day of universal rejoicing—by special requirement—although it is understood that the popular feeling would not be in any respect a unit in cheerfully hailing the advent of the new state of things. The programme for the day at Montreal (and it would probably be in the main respect similar in other cities of the Dominion,) included a great military display, a proclamation of the Queen's warrant, firing of salutes and other descriptions of rejoicing. The Dominion would go into existence under the following royal warrant dated May 22, 1867 :—

BY THE QUEEN.

A Proclamation for uniting the Provinces of Canada, Nova Scotia and New Brunswick into one Dominion, under the name of Canada.

Whereas, By an act of Parliament, passed on the 29th day of March, 1867, in the thirtieth year of our reign, entitled "An act for the union of Canada, Nova Scotia and New Brunswick, and the government thereof, and for purposes connected therewith," after divers recitals, it is enacted that, 'it shall be lawful for the Queen, by and with the advice of Her Majesty's Most Honorable Privy Council, to declare, by proclamation, that on and after a day therein appointed, not being more than six months after the passing of this act, the provinces of Canada, Nova Scotia and New Brunswick shall form and be one dominion under the name of Canada, and on and after that day those three provinces shall form and be one dominion, under that name accordingly;' and it is thereby further enacted that 'such persons shall be first summoned to the Senate as the Queen by warrant, under her Majesty's Royal Sign Manual, thinks fit to approve, and their names shall be inserted in the Queen's proclamation of union.' We, therefore, by and with the advice of our Privy Council, have thought fit to issue this our royal proclamation, and we do ordain, declare and command that on and after the first day of July, one thousand eight hundred and sixty-seven, the provinces of Canada, Nova Scotia and New Brunswick shall form and be one dominion, under the name of Canada.

ANOTHER RECKLESS SEA EXPEDITION.—The little Baltimore yacht John T. Ford sailed from Fortress Monroe for Havre, France, on Tuesday. The crew consists of two men and a boy, C. W. Gould, Captain; John Shaney, mate; and E. Murphy, dock hand. She is built after the manner of a whale boat, and fully stocked with cured provisions, the limited conveniences on board allowing no cooking apparatus, a small lamp being used for the boiling of coffee and tea. Twenty or thirty fathoms of line attached to a heavy drag in order to make the vessel heave to in a storm, with small sails made from a limited amount of canvas, and far more limited sleeping accommodations, constitute a description of the craft, which is only two and a half tons measurement.

BOLD ROBBERY.—The Beverly Citizen says that on Thursday night the residence of Mr. William Endicott on Rantoul-street was entered by a couple of thieves who visited the sleeping room of Mr. Endicott and took his gold watch which lay on the mantel piece, a small sum of money, and a pair of gold bowed spectacles. They also entered the room of his daughter, and took a box of jewelry, &c. abstracting all that was valuable. Every room in the house was entered, except one, in which the silver ware was kept. The noise caused by their operations awakened Mr. E. and the robbers hearing him decamped through the front doorway. The entrance was made through a chamber window, by means of a ladder, the marks of the bare feet of one of the rascals being seen on the window seat.

The President and his party are at home again, after enjoying free dinners and making queer speeches in return. Mr. Seward and the President don't seem to agree on some points. Seward goes in for everything that joins us, and Johnson thinks we have got more territory now than we know how to take care of.

Peaches costing $15 per dozen, and grapes purchased at a dollar a pound, graced the table on the occasion of the President's harbor excursion last week.

NEWBURYPORT.—The Brazilian Minister visited Newburyport last week, and was the guest of Rev. J. C. Fletcher. On Friday, Mr. F. gave his guest and a party a trip up the Merrimac river to the Laurel Ground. Speeches were made here, among others, by Dr. Weissland of Salem, who was one of the company. The Mexican Minister, also, made a handsome little speech in broken English, in which he said this was being offered a foreign mission, he had chosen the United States above all other countries. He complimented Mr. Whittier as a poet who belonged, not to this neighborhood only, but to the world; and said he had read one of his poems in Brazil entitled 'the cry of the lost soul;' and he had even written it translated into beautiful Portuguese verse by the Emperor of Brazil himself, for that monarch found time amidst the affairs of State to study the literature of America, and Whittier with Longfellow were his favorite poets.

A CLERGYMAN WITH THE GOUT.—It appears that Rev. Mr. Spurgeon has been suffering from the gout. He was better at last accounts, and recently delivered two sermons in the open air at the little hamlet of Peppard, about six miles from Reading. Upward of three thousand persons assembled from surrounding towns and villages. Mr. Spurgeon alluded to his illness in the course of his remarks. He had had the gout in his left leg and he had preached standing on the other. He had not had the gout in his tongue, and he was not aware that the people preached with their legs. He supposed that he should have the gout pretty often, for he was his father's eldest son, and inherited his good qualities. He was thankful to say that the gout had not caused him to relinquish a single ministerial duty.

— Pereire is President of 12 or 15 joint stock companies in Paris, whose aggregate capital is $748,000,000. His influence may be imagined.

— An Indianapolis letter says that the writer, a few day ago, met an armless man in the depot there in faded army blue.—Fourteen years ago he was worth $200,000. He fought and was wounded in the rebel army at Antietam; afterward he joined the Union army and lost his arm in Tennessee. Now he is dependent on public charity for a dinner.

— Mr. Bradley, counsel for Surratt, has distinguished himself throughout the trial by an offensive manner of examining witnesses, and by insubordination in his dealings with the Court. But a few months ago, it will be remembered, he called a Judge a liar in Court. Yesterday this ill-tempered advocate, after leaving the Court in which he had been properly reprimanded, made an attack upon Judge Fisher—especially brutal as the Judge has for several days been almost too sick to take his seat on the bench. Mr. Bradley's proper place seems to be the prize ring, in which he might legitimately obtain that celebrity as a shoulder-hitter, which he improperly seeks at the bar of justice. A man may either be a great lawyer or a great pugilist; he cannot easily be both.—*Tribune.*

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no Nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.
Prepared by N. P. SELEE, Melrose, Mass.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to prepare their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

No. 22 State street, Boston.
o9eodly JAMES A. DUPEE, JAMES BECK, HENRY SAYLES

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 10, 1867.

☞ Senator Wade has written a letter saying that while he does not remember the precise words he used in his Kansas speech, he is perfectly sure that he said nothing about the division of property, or the unequal distribution of it, or even that it might be remedied by legislation.

We have seen the statement (in a coppery exchange) that the correspondent of the New York Times, a Republican (?) paper, could not make such an error; but we have known a reporter in Boston, who reported Theodore Parker, in one sermon many years ago, as saying the exact opposite of what he DID SAY. We heard the sermon, and it was afterwards published. We also read the report, and know that it was grossly and totally untrue.

In the sermon, the preacher defended the morals of trade in Boston, expressing his belief that there were ten honest and fair bargains made, to one that was unfair,—but said some friends who were traders, thought the proportion should be *reversed*, to tell the truth —and then he added, if this were so, then the traders were more cabbages, and not flowers, &c.

The reporter caught the cabbage phrase, and in the next morning's Bee he reported Mr. P. as representing that the morals of Boston trade WERE so bad that traders were cabbages, &c.

As this happened to be the only sermon we ever heard from that preacher, we used to receive all subsequent reports of his sayings with some grains of allowance. And we allow a little something now, on account of the fact that Wade is a radical, and that the Times is, or was, Johnsonian, and its reporter is not infallible. U. T.

IN CONGRESS, on Monday, July 8, both houses considered Reconstruction bills. It is probable that each will pass a separate bill, and a committee of conference will then agree upon such a measure as will pass both houses.

There is a disposition in each House to take action on Mexican affairs, and quite a batch of resolutions offered on the subject. It will require adroit management on the part of Senator Sumner and Gen. Banks, who are at the head of the Committees on Foreign relations, to prevent Congressional action that will do no good and may do as diplomatic damage.

Brooks and Wood, both of New York, offered two of these.

The House, 100 to 24, passed a resolution introduced by Gen Butler, for a select committee of five members to inquire into the assassination of President Lincoln, with power to send for persons and papers, and to report a bill granting amnesty and pardon to such persons as may have been connected with the conspiracy, who may testify against others.—It is hoped this committee will consider itself authorized to do what the Judiciary Committee has declined to do: inquire into the truth of the rumors and revelations implicating President Johnson with the assassination plot. Strange as it may seem, there is much evidence, not yet brought out, including a copy of all the writing in the much talked of diary, which copy was made by Lieut. Col. Conger, while coming up on a steamboat to Washington with the body of the assassin, and what was found on it. The Speaker announced as the special committee, Butler, Shellabargar, Julian, Ward and Randall.

A bill was introduced to remove district and circuit court terms from Exeter to Manchester, N. H. It was read twice, and referred to the Judiciary Committee.

A report made by Mr. Dawes to the House from the Committee on Elections in reference to the case of the Kentucky members, states than no person who had been engaged in the rebellion, or given aid and comfort to it should be permitted to be sworn as a member, but that the disloyalty of constituencies or the illegality of elections were matters that pertained to a contest in the ordinary way, and should not prevent the person holding the certificate from taking his seat.

RELIEF FOR THE CRETANS.—A letter from Dr. S. G. Howe of Boston to the Secretary of the Greek Relief Committee, dated Athens, June 13, contains an account of what has been done by the Doctor with the money and clothing contributed from this country up to that time. It required some time for him to form any idea of the number and condition of suffering Cretans, as hundreds and thousands of them had left the island and are now scattered all over Greece. He estimates, however, that as many as 12,000 are entirely dependent upon outside aid for food and clothing. Their wants for food have generally been supplied so as to prevent starvation, but they are in pressing need of more food, clothing and medicines. He had distributed a box of clothing which had arrived from Boston, and it was received with the greatest gratitude. The Doctor will confine his efforts principally to looking after the wants of those who have not left Crete, but have fled to the mountains and beyond the reach of the enemy. It is highly desirable to prevent the people from leaving the island, if possible.—He earnestly appeals for further assistance from Boston and America, and the Greek Consul at No. 30 Central wharf will receive and forward to Dr. Howe at once any articles that may be sent to him for the relief of the Cretans.

— The steam ram Dunderberg, recently sold to the French Government, took her departure from New York on Thursday for Cherbourg, where she is to be turned over to her Imperial purchaser.

NEW HAMPSHIRE ITEMS.

—— Ferdinand Pickering of Winchester, was killed on the evening of the 2nd inst., on the Ashuelot Railroad track, by a train coming into Keene.

—— A large barn belonging to a Mr. Green in Winchester, was destroyed by an incendiary fire on the morning of the Fourth. It contained six tons of hay, three cows, one horse, and a number of pigs, all of which were consumed.

—— In Londonderry on the 4th, a boy was severely wounded by the wad of a gun which was fired by another boy. The gust of wind in the afternoon, overturned the tent where the Methodist society were having a picnic, tore up some trees by the roots, broke them, and did various mischiefs.

—— In Holderness, on Wednesday, July 3, some men employed in the plumbago mine near Squam Mountain, saw four black bears eating strawberries in a field about two hundred rods distant from the mine. The workmen were unarmed, and the animals escaped before weapons could be obtained. Two of the bears were old ones and the remaining two cubs. It is supposed that they had their den last winter in a forest not far from the enclosure where they were seen. Farmers in Holderness, Campton and vicinity report that a considerable number of their sheep have been killed by bears since the opening of spring.

The Navy Department in Washington has received a letter from Commander F. A. Roe of the U. S. steamship Tacony, informing the Department that, in compliance with a request from the commander of the Austrian man-of-war Elizabeth, he addressed a letter to President Juarez, asking him to give up the body of Maximilian. It appears that the Mexican Government has refused the request, and we now learn by cable that the Austrian Government will immediately dispatch a fleet to demand the body. All the European Governments show the most intense excitement, and it can hardly be doubted that but for the United States a new and formidable combination of European Powers against the Republican Government of Mexico would be formed.—*Tribune.*

No doubt this is true; but the United States still live, and the Confederacy is dead, though the "powers" tried to keep it alive.—The existence and power of the United States form a very strong BUT,—and European crowned heads will be careful not to dash themselves against it.

ACCIDENT TO A BRAKEMAN.—Rufus Tilton, a brakeman in the employ of the Boston, Hartford & Erie Railroad Corporation, fell from the cow-catcher of a locomotive, at Southbridge, Mass., Saturday afternoon, while endeavoring to uncouple the same from a freight car, breaking his left arm and severely injuring one of his legs. Sunday the arm was amputated above the elbow. Mr. Tilton is about 25 years of age, was formerly conductor of a freight train on the same road, and belongs in Raymond, N. H.

☞ One Wm. T. Bartlett, a broker in Brattle street, Boston, being a married man, is now in custody there because, as is alleged he ran off with several thousand dollars' worth of jewelry belonging to Federbee & Co., and also with a young unmarried woman named Alice A. Bartlett. At Niagara Falls, they were registered as "W. T. Barry and wife."—They were arrested at Buffalo, and brought back by State Constabulary Detective Wade. $2000 worth of the jewelry was found in his personal baggage—and the female baggage has gone home to her friends.

☞ Official dispatches received by the Government show that it is not improbable that serious complications may arise out of the conduct of the Mexicans in taking Santa Anna off the Virginia and insulting the American flag. Gen. Grant received dispatches also, showing that the Mexicans, elated with their recent triumphs, have acted most offensively toward American officers and soldiers along the Rio Grande. The official source from whence this news comes fears that if the Mexicans continue in their course there will be an outbreak.

JOHN A. KING, ex governor of New York, a venerable and honorable man, died July 8, at his farm on Long Island, aged 80.

IN THE SURRATT TRIAL on Monday, at Washington, witnesses for the defence gave in their testimony, which was continued on Tuesday.

SOUTH CAROLINA.—Gen. Sickles has postponed registration in his District until Congress has decided as to who may and who may not register.

IN TENNESSEE, Monday, 8, Gov. Brownlow issued his expected Proclamation for keeping order on Election Day, the first Thursday in August, and giving directions to the militia. It is said the Conservative leader, Judge Gantt, and his associates, have publicly backed down from some of their extravagant purposes, so that no collision is now expected.

— Santa Anna is said to have been 75 years of age—and some doubts are now expressed about his death.

— Ida and Ella Snow, twin daughters of Harvey Snow of Mattapoisett, nearly four years old, were poisoned to death last week by eating friction matches.

— It is suggested that while the courts in Europe are mourning over the fate of Maximilian, they include in their cause for grief the fact that they are his murderers.

☞ The General Association of Massachusetts met at Greenfield, June 25, and its proceedings are sketched in the Congregationalist. The State Conference has now been united with the Association, so that hereafter it will be composed of ministers and delegates. The Association passed resolutions on Temperance, one of which rejoices that the efforts to repeal the prohibitory law were frustrated, and thanks the legislators who stood up for the law, and the Temperance Alliance whose fidelity gives the triumph. Three or four ministers spoke in favor, none against the resolutions. The vote was unanimous in favor; and the Congregationalist remarks that it "looks very much as if the testimony given before the legislative committee last winter, that 'the weight of the denomination is against a prohibitory law,' were apocryphal in its character."

[Truly it does look so; but then the men who gave the testimony might see double.]

☞ A committee of the citizens of Charleston waited on Gen. Sickles recently, to protest against the execution of his order stopping the sales of liquor there. The General replied that his purpose in issuing the order was to curtail the consumption of ardent liquors in irresponsible bar rooms, so as to avoid any danger of riot or disorder in the district during the registration and following elections. He said that he believed that in Charleston all these things might be avoided, and that the municipal officers and police would in all cases be sufficient to preserve the peace.—This, however, he thought, would not be the case in the country districts, and he could make no exception in favor of the city. He said that the measure was intended to be a temporary one, and would be in force several months.

— Henry J. Church, representative from Litchfield, Conn., in 1866, and this year Democratic judge of probate and town clerk, was detected last week in stealing money from Mr. E. J. Hurlbut. He owned up to having taken large sums before, paid back $1500 and left town.

— The President, on the 5th inst., accepted the 11th section of forty miles of the Union Pacific Railroad, and ordered the bonds and patents for lands to be issued to the company. The previous section of forty miles was accepted by the President on the 10th of June. Within one month this company has received from the Government, bonds to the amount of $1,280,000—the subsidy given for the construction of eighty miles of railroad.

— The Washington correspondent of the Philadelphia Inquirer says that if both Houses will agree to adjourn to October, the impeachment question will not be called upon, but the report and testimony will go before the people at once. Should an October session be denied, then impeachment will be pressed to a square vote, the yeas and nays called, and the Republicans will be compelled to go upon the record, for or against.

Most of the Grocers and many of the Druggists sell it. Depot 112 Liberty street, New York.

THE AUBURN MURDERERS.—The Lewiston (Me.) Journal of Saturday says that Verrill, convicted last week of murder, still reaffirms his innocence of the awful crime of which he has been found guilty. Harris, his associate in the crime, on Wednesday was again confronted under circumstances of especial solemnity, and after being informed that to charge the crime of murder upon Verrill, unless he was really concerned in it, was a crime worse, if possible, than the original murder, and that if he had accused Verrill falsely he had better now confess the whole truth, reiterated that every word of his confession is true and that he has no word to change.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their homes, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8dawim

PROOFS OF THE SUPERIOR QUALITY OF THE
AMERICAN WATCH
MADE AT
Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily keep in order and repaired than any other watches in the market. They are simpler in structure and therefore younger and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 200 pieces, while in an old English watch there are more than 700 parts. Their watches can be subjected to hard trial watches can have, is shown by the following letter:—

PENN. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTEND'T,
ALTOONA, PA., 15 Dec., 1866.

Gentlemen.—The Watches manufactured by you have been in use on this railroad for several years by our engineermen, to whom we furnish watches as part of our equipment. There are now some three hundred of them in service on our line, and we consider them good and reliable time keepers. Indeed I have great satisfaction in saying your watches give us less trouble, and have on the whole proved much longer without repairs than any watches we have ever had in use on this road.—As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Repectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:—

Appleton,	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company, to be of the best quality, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

Special Notices.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 30 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get the lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faithly performing its offices is only occasioned by the debility of the stomachs nerves and their various branches, by being plastered up with pilegm, green and vile dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

Local.

☞ Messrs. Charles Main and Ezra H. Winchester, of the well known house of Main & Winchester of San Francisco, left this city, with their families, last week, for New York and California. They have been living at their farms just out of the city, for a couple of years, and their departure is much regretted by a large circle of old friends and new acquaintances here and wherever else they have visited during their stay at the eastward. These gentlemen are widely known as proprietors of one of the most extensive saddlery establishments in this country or the world, and well deserve the success they have met, for the enterprise, energy and integrity they have ever displayed. May continued prosperity attend them, and may circumstances permit and induce their speedy return "home."

☞ Among the acts passed by the Legislature, is one reducing the valuation of the Poll from 240 to 150 dollars. The poll tax for a few years past has been the hardest of all taxes to pay. Not less than fifteen hundred persons in this city are taxed for a poll only; the poll tax the present year is 5,26, and the average price for a days labor must be something less than two dollars. So that more than two and a half day's work is required of the laboring man to pay his poll tax alone. Under the new law, an assessment of two per cent. will make the poll tax three dollars; should the assessment be one per cent. the tax will be 1,50. The reduction of the value of the Poll will decrease the total valuation of this city, about two hundred thousand dollars.

EASTERN RAILROAD IN N. H.—The annual meeting of the Stockholders of this corporation was held in this city on Tuesday, when the Board of Directors of last year, viz.: Messrs. Benjamin T. Reed, Robert W. Hooper, Geo. M. Browne, W. H. Y. Hackett, Wm. Shackford, were re-elected. At a meeting of the Directors the officers of last year were re-elected, viz:. B. T. Reed, Pres.; John B. Parker, Treas.; Wm. H. Hackett, Clerk.

PORTSMOUTH, G. F. & C. R. R.—The annual meeting of stockholders of this Road was held in Portsmouth on Tuesday. The report of the operations of the road show a good year's business has been done. The following gentlemen were chosen Directors: George M Browne, Ichabod Goodwin, W. H. Y. Hackett, Geo. W. Burleigh and B. T. Reed.

At the Directors' meeting Hon. George M. Browne was elected President; J. B. Parker, Treasurer, and Wm. H. Hackett, Clerk.

PORTSMOUTH ABROAD.—The Davenport (Iowa) Gazette mentions "the sale of the old Spencer farm in Valley City of that State, belonging to Mr. George W. Fernald, (formerly of Portsmouth,) for $9000 —$7000 cash, and ten acres of land lying immediately north of East Davenport, which is transferred at $200 per acre.—The farm includes 135 acres of excellent land, with a river front. There is a large dwelling of ten rooms, and two tenant houses, two barns, and an orchard of 500 trees, mostly in bearing. Mr. Churchill evidently got a bargain, even if he does not get that "nice little six months' old baby," which he claims was in the trade,"—but which Mrs. F. (a Portsmouth girl) doubtless claims as personal property.

The Pittsburgh (Penn.) Daily Dispatch gives an account of the opening of the Alleghany Valley Railroad to Brady's Bend, —where, by the way, there are quite a number of Portsmouth people residing— Mr. John H. Haines being manager of a great iron company, and Mr. Samuel Gray John E. Townsend and others in the same employ. At the opening banquet, public thanks were given to Mr. Haines for his hospitality.

☞ In the Legislature, July 5, on the discussion of the proposed amendment to the City Charter of Manchester, as reported in the Concord Daily Monitor, Mr. Reding of Portsmouth said that frauds in his city were not confined to one party, and that "the day after one election 200 men from one ward were not to be found, and it is believed that they were imported for election purposes."

This will be news to us here at home. If Mr. Reding is correctly reported, he has made an extraordinary statement. Will he or somebody else who knows, tell us in what ward and at what election these mysterious voters appeared, how they voted, and what became of them the day after election.

☞ "Strawberry Corner" is the name now applied to the old Melcher building occupied by Carter's saloon, corner of Congress and Chestnut streets, from the large quantity of that favorite berry disposed of there. We are informed that the sales of berries at that corner on Monday amounted to a thousand boxes—840 thereof being strawberries. From sample boxes we are prepared to testify to the good quality of Charlie's strawberries and blueberries. A dozen lucious peaches, ripened in Col. March's hothouse at Greenland, form an attractive ornament to Mr. Carter's show of small fruits.

POLICE COURT, July 9.—A complaint entered against Albert C. Pickering for an assault upon F. W. DeRochemont, jr., with a pole, was *not prosd.*

☞ The compositors in the Chronicle Office desire to return their thanks to Mr. Avery, of the Piscataqua House, for the liberal supply of superior pop beer which he was so thoughtful as to send them on one of the hot days recently. It was Conner's best.

☞ Attention is called to an advertisement in our auction column, offering for sale two houses on Langdon street, a very pleasant part of the city, a house on McDonough street, and five building lots on Islington street. A good chance for investment.

☞ Rev. Charles Burroughs, D. D., of this city, has been appointed a Trustee of the N. H. House of Reformation.

☞ The beautiful linden tree, in Linden Street, off Daniel, is now in full bloom and rich fragrance.

☞ London dispatches of Monday say the Government announces that the sixpenny postage between America and England will be put into operation about the first of January, 1868.

It is said that the Emperor Napoleon charges the Church party of Mexico with the death of Maximilian.

[He may as well divide the charge between them and himself. His own ambition and folly are fully equal to all other causes of the catastrophe which has befallen poor Max and his Empire.]

☞ Sixteen thousand men are now at work on the San Francisco end of the Pacific Railroad.

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company have now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to the 100th meridian, United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,350 per mile, amounting to $44,308,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the section already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts following the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than one million dollars per mile of road, on which over twenty million dollars have already been expended:—on 330 miles of this road trains are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

THE ROMAN ZOUAVES.—When France withdrew the soldiers from Rome, the Pope was obliged to create an army, and the weakness of his position was illustrated by forming a foreign legion, composed of representatives of all nationalities, speaking as many tongues as were spoken when the gifts of language were distributed at the building of the tower of Babel. The United States contributed Surratt and St. Marie, who are now figuring at Washington. The Zouaves to which they belonged are very restless, but the officers, who are French, recently compelled the Minister of War to dismiss Lieutenant Mousty, who connived at the escape of Surratt. It is said the Pope himself interfered, but the Zouaves turned a deaf ear to all his sermons. Fortunately, however, for the Pope, this corps is rapidly dwindling away, for when detachments are sent in pursuit of brigands, they desert, return to France, and escape punishment by enlisting in the French army.

— If you let a man poll your nose to-day, when will he do it again? Why next tweak of course!

— The miner is happiest when his "Triumphs are ore."

— There is a man living in Auburn, Me., who is boarding, and who is required to sleep in the attic. He says he sleeps so high he can hear the Apostles snore.

— From the West comes the cry "Farm hands wanted." The enormous crop now almost ready for the harvest will require, to properly secure it, more hands than can be procured in the West, at this time.

— Nearly all the large cities of the country—Philadelphia, New York, Cincinnati, St. Louis, Brooklyn and others—have recently been discussing the question of an increased water supply, the rapid growth of all these cities having made an increased supply necessary.

— The Courrier de Lyon relates that a great disaster has occurred at Modena, the typographic establishment of the Immaculate Conception having been destroyed by fire. Religious books, considered to be worth 175,000 francs, were consumed by the flames.

— It is said that after the attempted assassination of the Czar, a touching scene took place on the Emperor Napoleon's return to the Tuileries. The Empress knew nothing of what had occurred. At her entrance into the apartment the Emperor told her as briefly as possible. Her Majesty turned pale, and it was thought for a moment that she would have fainted, but tears soon relieved her agitation.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have

TO SAY ABOUT IT,

without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can't begin to tell what does not ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the

JUICES OF THE GRAIN

combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER AND STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently

IT IS WHAT YOU WANT

when you have a bad cough, to cure it, when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVERTASKED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people

GAIN FLESH AND GROW FAT.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when if they knew it the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *correctly composed.* This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and nourish the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered as a reasonable cost to rich and poor.

As a Tonic, it has no equal, causing in an appetite and building up the system of the most debilitated.

As a Diuretic it imparts a healthy action to the Kidneys, Bladder and Urinary Organs; and is peculiarly beneficial in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopœia.

The qualities of SAMBUCI are "*multum in parvo*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

N B—Vinum bonum bonum sanguinem facit.

SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.

Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.

THE ONLY INSTRUMENT WITH WHICH CATARRH

Can be successfully treated is the

Nasal Irrigator.

It is also very efficient in stopping Bleeding at the Nose. For administering medicines or liquid food to invalids it is unequaled, as by its aid this can be done without raising the patient's head from the pillow, and without possibility of soiling the clothing. For sale at

KING CAUCUS.—Some of the remarks about a late Senatorial Caucus, are not very complimentary. Perley, the well known Washington correspondent of the Boston Journal, closes a letter with the following paragraph.

"What a pity that a full report of what was said on the obligations of King Caucus cannot be published for general circulation, accompanied by a report of the caucus action which led the last Baltimore convention to repudiate Hannibal Hamlin, and to nominate Andrew Johnson. "By their fruits ye shall know them."

— A Portland paper says that the police of that city declare the Fourth to have been the "hardest day they had seen" for five years.

— The English Secretary of Legation at Lisbon says all port wine hitherto exported for the English market is largely mixed with brandy, and is composed almost as much of elderberries as of grapes.

— It has recently been discovered that manufacturers of sewing silk, in order to increase the weight, soak it in sugar of lead. Women are very apt to hold a thread of silk in the mouth, and the lead thus introduced into the system acts as slow poison.

— A valuable bed of umber, a mineral paint, has been discovered at Ferdinand, Dubois county, Ind. The deposit is extensive and easily worked, and the quality excellent. Umber has hitherto been found only in very limited quantities in this country.

— Mr. and Mrs. Moore of London, who take a great interest in the blind, have with great success taught a large number of blind women to use sewing machines. Quilted satin petticoats and gauze dresses are as well finished in every detail as if sight guided the workers' hands.

— Gov. Throckmorton, of Texas, in a recent communication to the Executive of Louisiana, recommending a certain gentleman residing in Dallas county, Texas, for the appointment as Commissioner of Deeds for Louisiana, addressed his communication as follows: "To his Excellency, or any other man, Governor of Louisiana."

— A funny correspondent of a New York paper says he has been seeing the King of Egypt's State scowboat, now lying in the Seine at Paris, and that the second larboard oar, a highly polished (black) and intelligent informant, gave him to understand by signs that General McClellan was studying the strategic capabilities of the Red Sea, with a view of preventing a crossing—whether of the Israelities or of Pharaoh he could not quite make out.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges JOHN TAGHART."

Portsmouth, N. H.

THURSDAY, JULY 11, 1867.

CONGRESS ON RECONSTRUCTION.—In the U. S. Senate, Tuesday, July 9, the speakers were Senators Trumbull, Wilson, Conkling and Howe, who generally confined themselves to legal points, although Mr. Wilson made some interesting statements based on what he saw on his recent tour at the South. In his opinion ninety nine out of every hundred State officials in the States recently in rebellion are disloyal; and had they all been legislated out of their offices last winter as he then advised, the friends of reconstruction would to-day be really a hundred thousand stronger than they are now.

In the House, after Messrs. Brooks and Wood had opposed the bill, Judge Bingham replied with telling effect, demolishing their factious opposition. Mr. Eldredge responded in a few remarks, and then Thad. Stevens closed the debate, stating that the President had exceeded his power and that the law was defeated, denouncing Jeff. Davis as the murderer of Union prisoners, and approving the punishment meted out to the piratical invaders of Mexico.

Two amendments were then adopted—one punishing attempts to prevent the act by fine or imprisonment—the other denying that the disqualifications of applicants for registry can be removed by executive pardons. The main question was put and the bill was adopted; yeas 119, nays 31.

The Judiciary Committee passed a resolution, which will be reported the House, stating that it will be impossible for them to make a report on the impeachment question before the 16th of October.

MAX & Co.—There are some details given of the execution of Maximilian, Miramon and Mejia. None of the prisoners were bound or blindfolded, nor was any indignity offered them. Maximilian, before being shot, recapitulated the causes that brought him to Mexico. He denied the authority of the court that tried and sentenced him, and hoped his death would stop the further effusion of blood in Mexico. Just before he was led out for the execution he called to the sergeant of the guard and gave him a handful of gold, and requested as a favor that the soldiers would aim at his heart. His last words were, "Poor Carlotta." Five balls entered his breast, but these did not kill him immediately, so two other soldiers were ordered to shoot him in the side, and in this manner he was dispatched. Much dissatisfaction and grief was manifested by those who witnessed the sad scene.

Miramon read from a paper which he had written, that the only regret he felt in dying was that the Liberals should remain in power, and that they should point out his children as the children of a traitor. Mejia make no address, but he met his fate quietly and bravely.

The sword of Maximilian was presented to Juarez by Escobedo in the government palace.

☞ The U. S. House of Representatives requests the President to send down an account of the proceedings in Cabinet meeting upon the Stanbery opinion. It is said that he will deny its right to do so, though he has no desire to conceal.

[The Cabinet is a body unknown to our Constitution, which makes the Senate the President's advisory council. We never used to hear much about the Cabinet, until the disgraceful scene in Gen. Jackson's Cabinet, which he broke up because the wives of some members would not associate with Mrs. Eaton! Now we often hear of the Cabinet, whose members have to associate with Andrew Johnson,—and in case they don't do his bidding, we hear of a fuss.]

☞ Last Tuesday, Madame Juarez, wife of the Mexican President, accompanied by Senor Romero, Mexican Minister at Washington, and her suite, arrived at New Orleans and sailed for Vera Cruz in the U. S. Revenue Cutter, Wilderness, which was detained to carry Madame J. to Mexico.

The Austrian soldiers in Mobile and New Orleans are to be given transportation home, or permitted to settle in this country, just as they choose.

☞ The Mexican Legation at Washington has received official information from the Government of Yucatan, that General Santa Anna landed at the port of Sisal at Gen. Pierpo's invitation, and while there he was arrested. The statement that he was forcibly taken *from* the Virginia seems therefore to be unfounded,—and *that* sensation may now subside.

☞ A bill has passed the Connecticut Legislature providing that a murderer shall not be hanged in less than twelve months, nor upon a day beyond eighteen months after the time of his conviction.

— Selim Willis of Wickford, R. I., in setting a fish net along the Quansett shore a few nights since, was attacked by a shark, which, after a quite severe fight, he killed and carried into Wickford. The fish was seven feet and four inches long and three feet in circumference.

Communication.

WOMAN SUFFRAGE.—There are many advocates in our Republic, in favor of conferring the right of suffrage upon women. We have hitherto considered the idea as rather chimerical, but did not doubt but that they would vote more correctly than men, in favor of freedom and equal rights. Women's rights are more highly respected and protected in England and the United States than any other country. In reading the recent able debates upon this subject in the English Parliament, we freely confess some change in our opinions. Facts are stubborn things. Seventy-three members of Parliament recorded their names in favor of conferring the franchise on women, and it was predicted that the time would soon come when women would enjoy equal rights. We also notice that the reformers, expressing the popular voice, are making rapid progress in conferring the elective franchise upon a much larger proportion of men. When universal suffrage shall be secured, the proud aristocracy of England, as in this Republic, will go down forever. Mr. Mill was the ablest and most eloquent advocate of woman's rights. It is said, "He never before made so grand a speech, either in matter or manner." He said, "The time has come when, if women are not raised to the level of men, men will be pulled down to theirs," and there should be no taxation without representation. In some of our States, the right of women to hold their estate and their earnings independent of their husbands, is secured.—Many are wealthy. Ought they not to have some voice in the enactment of laws for their protection? We trust that England will not go ahead of this free country in enacting a code of free laws. But should the right be conferred, we at present think that females should be allowed to hold their election meetings at a different time from that of men, without the noise and party jargon of the latter. This subject is worthy of mature consideration, and we should divest ourselves of past prejudices. REFLECTOR.

AN ALLEGED CLERICAL DEFAULTER. A Washington dispatch to the Post states that "a searching investigation has brought to light a defaulter in the person of Rev. C. C. Hutchinson, late Indian Agent of the Ottawas in Kansas. The Commissioner of Indian Affairs, upon information received by him, sent an agent to look into the matter, and the result is that Hutchinson is deficient to an amount exceeding thirty thousand dollars for moneys received from the sales of Ottawas trust lands."

FASHIONS AT SARATOGA.—Burleigh says in a late letter:

If one wants to find the "place where two seas meet" he can come to Saratoga.—The rage on the one hand is for long dresses. Trains are common, and drag by the yard on the floor, and sweep the crossings equal to a new broom. The dresses with trains are very full. On the other hand the rage is for short dresses made of the most costly material. These do not reach below the ankle. They are scant in material, and look as if the wearer was in a sack. So odd and uncomely do these short dresses appear that, in spite of one's self, one has to turn and look after the wearer. They make tall ladies look short and short ladies look dumpy, and nothing but the lightness of the thing gives this style of robe the least chance for a season. Bonnets have absolutely no style—one cannot tell, usually, whether a lady has on a bonnet or not. All sorts of style and material and trimmings are put on.

A HARD HIT.—A few days ago, at a dinner at the Merchant Tailors' School in London, Mr. Disraeli made a speech to the effect that American politics were no guide to those of England. "America," he said, "was a colony, and had no great national traditions to keep her straight, as we have; and then, of course, she had boundless lands, &c., &c." Mr. Adams, the American Minister, was sitting opposite to him. Mr. Disraeli declares in private that he never saw him. Be this as it may, Mr. Adams got up, and with much dignity but evident annoyance said, that "if America was a colony, then she had the traditions of the mother country. But if she was not a colony, but a great nation, she had the traditions of her founders, and her founders were Englishmen who left England because they were dissatisfied with English institutions." Mr. Disraeli thus suddenly got a rap he did not expect.

☞ The argument that the Rebel States no longer need military government has had many refutations, to which are added the murderous attack upon a peaceable procession of colored men at Franklin, Tenn., and the disclosure of the condition of Texas, in the Republican convention of that State. The delegates from many counties report that justice is a farce, and that the lives of Union men are in perpetual danger. The son of Mr. Ritchie, one of the delegates, was recently murdered for no other reason than that he had served in the Union army,—and his murderer lives in safety. That Governor Throckmorton refused to interfere in this case confirms the necessity of the policy Gen. Sheridan has adopted in Texas.—*Tribune.*

☞ In the British House of Lords, Tuesday evening, Earl Derby strongly denounced the action of the Mexican Government in putting Maximilian to death, but he made no disclosures as to what measures the Government intend to adopt in regard to Mexico.

☞ Part 65 of the Rebellion Record, illustrated with portraits of Gens. Mahone and Humphreys, is received from the publisher, D. Van Nostrand, New York.

BALDERDASH.—A jolly copperhead editor, seeking to point a moral on the fate of the invader and usurper, Maximilian, tells his readers that, had President Johnson listened to the radicals and had Jeff. Davis tried and executed, that neither he, nor Sumner, nor Wade, nor Butler, "could have monopolized the disgrace of such an act; but it would have rested upon the United States as a nation, *involving in the contumely and shame every man, woman and child in her borders, and transmitting the taint of infamy to generations yet to come.*"

On this the Charlestown Advertiser remarks, If the highest crime known in law, treason, is not to be punished with death, will this Solon please tell why he is in favor of capital punishment, and why he does not join Wendell Phillips and the no-hanging party of Massachusetts? We are told every day that we can afford to spare the arch traitor, which perhaps is true, and that his release on bail was an act of clemency which is not true, but yet neither saved his life; the real fact in the matter, and that to which Davis owes his life, is our national weakness. He was spared because the government had not sufficient nerve to hang him; and those who look to European opinion for approval of our conduct will find that, though the press of those countries approve the release of Davis, that is not the way *they* are in the habit of managing home affairs; and also that, while they may approve the *act*, because neatly dovetailing to their prejudices, they will yet heartily despise the *actors* for their weakness.

COLLECTING PEW RENTS.—A Montreal letter writer gives the following description of the novel method in which the Congregational Church in that city levies and collects its pew rents. Perhaps it would be well to try it in some of our New England churches. The writer says:

"For instance, if two men should indicate a desire to make that church their place of worship, they would have choice of all the vacant pews. Then each man would be asked to name the sum which he could afford to give weekly toward the expenses of the church. If one could pay a dollar and the other ten cents, well and good; the word of each man is the standard of his ability. In the pews are linen bags or envelopes, with the occupant's name and the number, in which he is to place his weekly offering. The house is free to strangers, but this plan 'allocates' the regular attendants, and avoids one great objection to free seats. The deacon informed me that the plan was 'incomparably more successful' than the old one of renting pews. Men who could not give ten dollars a year could give twenty cents a week very easily. Besides, they aim to have all the children weekly contributors to the church. Little and often is the motto. When the congregation moved to their present place of worship, the families of the parish were allowed to select their seats in order, the oldest first. The deacon remarked that the only difficulty met with was, a family not as liberal as they ought to be had now and then one of the best seats, to the discomfort of some one else paying much larger, but on the whole he was enthusiastic over the success, after a trial of several years."

EFFECT OF DISAPPOINTMENT IN LOVE. A young man named Pelton, residing in Somers, Ct., visited Springfield, Mass., on the Fourth, and while at the house of a friend, drank half the contents of a four-ounce bottle of laudanum. He died at 3 o'clock Friday morning, having lived thirteen hours after taking the dose. He was somewhat intoxicated at the time, and laboring under much mental excitement caused by disappointment in love.

— A New Orleans newspaper has information that President Johnson, Marshall O. Roberts and Santa Anna have formed a co-partnership to oust Juarez, take possession of Mexico and distribute all the railroad and canal franchises that may by that time remain in that distracted country.

— The failure of Geo. A. Wicks & Co., dry goods dealers, in New York, the Tribune says, is one of magnitude, and calculated in its details, as reported in the street, to throw discredit on dry goods paper, unless of high character. The liabilities in the United States are placed at $2,500,000, on which a dividend of 40c. or 50c. is expected. This house, like a large number of firms, has been depleted by losses on its stock, aided by enormous store rents ($52,000 per annum), with corresponding private and store expenses for clerks, etc. Among the largest losers are city banks holding their paper, which up to a recent date has been in high standing.

A NATIONAL BENEFIT.—Perhaps nothing more effectually conduces to the general welfare than the introduction of Fyle's Saleratus, that insures comfort and promotes health. Sold by grocers everywhere, with his name on every package. 10

THE FAIRIES OUTDONE.—The Princess, in the Fairy Tale, drop pearls from her mouth when she opened it, but whoever uses that talisman of science, SOZODONT, will have a mouthful of pearls that will never drop out, darken, or decay. 8

☞ Females at this season should not fail to use Spear's Purified Wine. Physicians recommend it as a strengthening and blood purifying tonic. Sold by Druggists. 1

KIND WORDS.—Kind words! how cheap, indeed, and yet how very dear. Kind words are Heaven's sweet angel messenger. So is Herrick Allen's Gold Medal Saleratus earth's sweet messenger to all who love a good, nice, light, white Biscuit. You had better throw your flour away and go hungry, rather than use any other. Call for Herrick Allen's, and have no other; it is harmless as flour. Try it. Most everybody sells it. Depot 112 Libbey street, N. Y. 4s

☞ Gen. Sickles has addressed a long letter to Senator Trumbull, in which he states that he has decided not to begin registration in his district till Congress determines who shall be registered, and expresses the hope that Congress will extend the time of registration to October or November. He details many objectionable features of the present instructions under which commanding officers are now obliged to act, and suggests certain remedies.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Sea-sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. 3yddawlm

Special Notices.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally engaged WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills; without the use of the instrumenter; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of the medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents a box.

THE

UNION PACIFIC RAILROAD CO.

Are now constructing a railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to the western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1867.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is completed, at the average rate of $23,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, and bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,240,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the section already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific will be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended—on 250 miles of this road the iron are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, and the issue of the Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall Street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

FLIES IN AMBER.

Picked out for the Chronicle.

— He that is not above an injury, is below himself.

— The stone that lies not in your way, need not offend you.

— A good conscience is to the soul what health is to the body.

— The tear of sensibility is the most honorable characteristic of humanity.

— Some have been thought brave because they were afraid to run away.

— Where there is no conflict, there is no conquest; and where there is no conquest, there is no crown.

— Virtue maketh men on earth famous, in their graves illustrious, in the heavens immortal.

— A man that keeps riches and enjoys them not, is like an ass that carries gold and eats thistles.

— The utmost we can hope for in this world is contentment; — if we aim at anything higher, we shall meet with nothing but disappointment.

☞ According to the Memphis Avalanch one of the managers of the Southern Asylum Lottery had his eye teeth cut the other day by a smart operative of the "female persuasion." A sharp featured lady called on him for her prize—a house and lot—which she was sure her ticket had drawn. It was impossible for the official to explain; she wanted her house and lot or her money back; nothing else but that would satisfy her. Finally she declared she would expose the whole concern to the Mayor; they all looked like rogues, and she was astonished she had ever let them have her money. To get rid of her the ten dollars were handed over, and it now turns out that she is nothing but an imposter and never had a ticket in the lottery at all.

— Quite a number of persons out West have lost large sums of money by holding their wheat after it had reached very high figures. One man in Wisconsin lost $8000 on five thousand bushels.

— They have a steam gong in Fall River, the sound of which is heard seventeen miles distance from that city. The sound of one of these instruments, two miles off, of an early morning, has never appeared to many in the west part of the city to be very cheerful music.

— Eight-hour laws have been passed in three states—New York, Illinois and Missouri; and the Nation truly says: "These laws simply prohibit men from working more than eight hours unless they wish or agree to do so, and are, therefore, of about as much value as an act permitting the working-man to have roast turkey and pumpkin pie for his dinner when he thinks he can afford it."

— The laying of the corner stone of a new Tammany Hall, in New York, was celebrated on the fourth. President Johnson and Secretary Seward wrote letters of a merely formal character. Montgomery Blair sent one charged with his usual bitterness against the Republican party since he was retired from Mr. Lincoln's Cabinet. S. S. Cox delivered the principal address, whose statesmanlike tone may be judged from his saying of the district commanders that "when they fail to extend the market for Boston crackers and the sphere of Boston crotchets, they will be discarded."

SODA WATER.—Priestly was the first who impregnated water with carbonic acid gas. This was about the year 1767, or one hundred years ago. He found that fixed air could be liberated from chalk or marble by the action of oil of vitriol, and he contrived apparatus for impregnating water with its own weight of gas, and thus manufactured the first soda water ever used. He ventured to recommend the use of a gas, as a beverage, which produced the most deadly effects when breathed into the lungs. A gas which is deleterious to inhale, is healthful and grateful when received into the stomach. This is a curious physiological fact.

LEATHER.—A tanner in New York is experimenting in tanning cat-fish skins, which it is thought will make good leather. The cat-fish of the Western waters, it is said, sometimes weigh from one to two hundred pounds. It is time that our rat skins were beginning to be utilized. At the present enormous price of gloves, our inventors and manufacturers ought to be equal to doing something with our undeniable plethora of raw material in the shape of rats. Rat catching for the glove makers is a great business in Paris and other European cities.—Our rats want reconstructing, badly.

— In Buffalo, a few days since, a poor woman and her daughter were prostrated by the heat, and inquiry elicited the fact that they had started from the central portion of New York State with the intention of walking all the way to Idaho, where they had relatives living.

— The Junction (Kansas) Union claims that the white limestone of that region has its peculiar advantages. A citizen inhabiting a house of this material wanted an additional door. "A hole was punched through, a cross-cut saw was inserted, and a door made just as a carpenter would through a pine siding."

— The following notice is posted in two places in New Hartford: "I here by depose and say that I, Judge Lyman of Lawful age did hear Martin Wilcox tell his Boys to Stone my Rooster off his Grounds and they stoned the Noble Bird like Stephen of Old times, Even unto Death and he lies in my Compost heap Somebody must pay for the damage."

— A young lady bought a new basket at St. Louis the other evening for picnic purposes the next day. Before she left the store, the basket, with a card bearing her name attached, was stolen. The next morning the basket, with a baby in it, was found at the door of a respectable citizen with the card still appended, and the young lady was called upon for an explanation, which she readily gave, and was dismissed from the awkward position.

— Many years since, in California, old Judge C —— kept a little dead fall, as they call a rum mill out there, a few miles above Marysville, and made frequent trips to San Francisco, to deposit his "hard earned" savings and lay in a fresh stock. One night he sat up late, imbibed much, and assisted at a "little game of draw." An hour after going to bed he awoke, and, to his horror saw a robber staring at him through the window near the foot of his berth. Judge dodged back; robber dodged back. Judge peeped; robber peeped. Judge put hand under pillow, drew out "Navy," and fired—through a looking glass! the trade price of which was an even $25. The robber did not again appear; the Judge did not treat.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from Ten to Thirty Days.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It Kills Hair Eaters, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

FRIDAY, JULY 12, 1867.

REGISTRATION IN LOUISIANA.—Under the new order of Gen. Sheridan the registration is progressing feebly and with no animation. More whites are being registered in proportion to the blacks at present than heretofore. An order will be promulgated to-morrow directing the Board of Registration to proceed to select suitable persons for commissioners of election and make other provisions for the holding thereof. Out of 111,543 persons registered in Louisiana, there have been only 37,420 whites against 74,116 blacks.

AGRICULTURE IN EGYPT.—The expansion given to the cultivation of cotton in Egypt, caused by the prices created by the war in this country, has proved anything but advantageous to that ancient "granary of the world." Attention was diverted from the growth of cereals to such an extent that, from being a large exporter of grain, Egypt has had to become an importer. This was expressed by the Pasha when the British Cotton Association sent their Secretary to pray him to promote the cultivation of cotton. "Prices alone," he remarked, "will prove a sufficient stimulus without any effort on my part; but God forbid that I should ever see the abandonment of the ordinary succession of crops for the production of cotton, to the exclusion of those products on which we subsist." In some places famine ensued. The value of land was quadrupled; wages rose; laborers earned so easily that they become indolent, and luxury sprung up, which displayed itself in a demand for white slave girls, costly pipes and other hurtful oriental extravagances. Meanwhile the land, from a succession of cotton crops, has become impoverished, and a long time will be required to restore the country to its normal condition. Cotton, however, has long been and must continue to be a very important production of Egypt. The cattle murrain, which commenced in Egypt before it proved so severe a scourge in England, destroyed the first year eight hundred thousand head of horned cattle. In Lower Egypt almost every animal was destroyed, and it will take years to restore the number of animals.

— The nationality movement among the Sclavi in Eastern Europe has recently led to a demonstration which involved a direct threat against Austria and Turkey. The leaders of the several Sclavic tribes of Austria and Turkey—with the exception of the Poles— went to a Pan-Sclavic Exhibition in Moscow, and in very emphatic terms appealed to Russia to assume the patronage of the Sclavic interests in both countries. The Austrians, in particular, desired Russia to obtain for them as great an autonomy as possible. It is intended to promote as much as possible in all Sclavic countries the study of the Russian language, which is henceforth to serve as the common bond of all the Sclavi.

DR. LIVINGSTON'S REPORTED DEATH. Some of the papers have published an extract from the Times of India, stating with great particularity the alleged facts of Dr. Livingston's death. The extract in question was dated May 23; but an extra of same paper of date June 14 contains the following letter, which tells an entirely different story:

"One of the missing sepoys, 21st regiment native infantry, or marine battalion, who accompanied Dr. Livingston's expedition, returned this day from Zanzibar. News has been received from the doctor. He was alive and well, and the bavildar, 21st regiment native infantry or marine battalion, and the Nassic boys, were with him. S. THACKER.

Comm'dg 21st regiment native infantry."

THE PRESS IN ITALY.—The increase of the number of newspapers published in Italy since it has become a free state has been very large. New journals are constantly springing up, and at Florence there are already eleven papers which are issued every day in the week. Other places are equally well supplied, in proportion to their population, and the advantages of free and independent discussions of domestic and foreign questions can not fail to be seen in the future of Italy.

LONDON ITEMS.—June 10, an important diplomatic note from the Russian Cabinet, in regard to Ireland, had just been published. It is addressed to the Ambassadors of Russia at Washington, London and Paris. They are requested to call the attention of the governments to which they are respectively accredited, to the existing state of affairs in Ireland, and are instructed to represent that in the opinion of the Russian Cabinet the condition of Ireland invites a joint inquiry on the part of the government of Russia, France and the United States in conjunction with that of Great Britain.

— *Punch* calls Disraeli "the Sphynx of the age," and an American contemporary says he is "a lineal descendant of Judas Iscariot."

Communication.

The first of the series of Moonlight Excursions to the Sh—Smith's Isles took place on Wednesday evening. The good steamer Pioneer left her wharf at precisely eight o'clock, having on board a party of ladies and gentlemen numbering a hundred or more, all bent on having a good time. The Cornet Band accompanied them and discoursed most excellent music. There was also some very fine singing by a Glee Club whose names we were unable to learn. One young gentleman distinguished himself by delivering an oration which was vociferously applauded by his admiring hearers. The trip was a delightful one in every particular. The nearly full moon shone over the water, causing it to glisten like silver, and putting to shame the many lesser lights of man's invention. The scenery, as all know, is very fine down the river and one need not travel hundreds of miles to enjoy themselves when they can find so many pleasant places near. The sea was very calm and none experienced the pleasures of sea sickness. As the boat passed Fort Sullivan the garrison from the Wincoski gave the party three rousing cheers, which were answered by the Band playing the Star Spangled Banner. The Excursionists returned at 11 o'clock, all declaring that they had passed a pleasant evening and agreeing to go again soon. No person need have any fears of trusting themselves on the Pioneer, as she is much stronger than ever before, and sails with no perceptible jar or trembling motion. P.

— A dispatch announces that General Prim, the noted revolutionary leader, who has been for some time an exile from Spain, has landed in the province of Catalonia. Though nothing definite is known of his destination, fears are generally entertained in Madrid that his sudden appearance in Catalonia is but the precursor of an insurrection in the province.

— A Denver correspondent reports that General Hancock, in one of his councils with Satanti, Chief of the Kiowas, made the latter a present of a major general's coat, buttons, straps, etc. A few days later Satanti, with a few braves, rode up in plain sight of Fort Dodge, and presuming on his official rank, gobbled the Government herd of cattle and decamped.

— A young man from St. Louis, who had recently fallen heir to an estate worth a quarter of a million of dollars, was drowned at Oconowoc, Wis., while attempting to save a boy who had got beyond his depth.

— A French Canadian woman named Marie Bussiera died at Brampton Gore, near South Ely, Canada, on the 29th of June, at the extraordinary age of 114 years, having been born while Canada was a French colony, in 1753.

THE MORMONS OF UTAH, the Tribune says now number one hundred thousand, and the missionaries are constantly recruiting all over Europe. In one ship last week there arrived at New York over 400 Mormon emigrants, consisting of laborers, matrons, wives without limitation, and children in abundance, but more numerous than all these were the well-shaped and pretty buxom young maidens. It is said that a host of their brethren and sisters are on their way hither per steamer, to arrive soon.

— Butler Evans, the leading Shaker at Lebanon, N. Y., says that he foresaw trouble a few weeks before Mr. Lincoln's death, and wrote to him to come and stay among the Shakers a few weeks. The letter is now on file in the State Department.

☞ Major Rathbone, of the regular army who was in the box in the Theatre when President Lincoln was assassinated, resigned his commission on Wednesday, at Washington.

NEW HAMPSHIRE ITEMS.

—— On Wednesday last week Walter, son of Charles W. Rollins, Esq., of Rollinsford, aged about 10 years, was accidentally shot in the thigh by another boy of about the same age. The wound, at first, was not considered dangerous by the surgeon, but lockjaw supervening, caused the death of the little sufferer on Monday.

—— Governor Harriman has approved all the acts of the Legislature, but he approves one, increasing the pay of the members at an expense of $20,000, under protest.

—— We are glad to learn that the generous citizens of Farmington, without distinction of party, turned out and gave our new Secretary of State, Hon. John D. Lyman, a cordial and enthusiastic reception on his arrival home after his election.

—— In Henniker, on the 4th, a whirlwind took up about a ton of hay from a field, and carried it off to parts unknown.

—— G. M. Brooks, hailing from Boston, is in jail at Manchester, for breaking and entering a house in Bennington. Artemus Sylvester, Jr., of New Ipswich, has got into the same jail for abusing his wife.

—— Hiram Keene, of Canaan, failed on the 24 inst. for $45,000. He kept a country store and dealt in all kinds of goods and country produce. Twenty-eight runners were there to see him on Saturday for their principals, who were his creditors.

☞ About twenty years since, a young man left Scotland and went to Canada. Afterward he removed to New Hampshire where he became an influential and popular lawyer and prominent politician. Fourteen years ago his sister, a very worthy and intelligent girl, emigrated from Scotland to this town. Ever since her arrival in this country she has tried to ascertain the whereabouts of her brother. A few days since she saw his name in the proceedings of the Legislature of New Hampshire, and immediately went to Concord and visited the State House As the ladies' gallery was full, she was invited to take a seat in the body of the house. Soon after being seated she saw a member rise and come near where she was sitting to speak to some one. She very soon had an opportunity to say to him, "Is not this Willie?" He looked her in the face and recognized his own sister Maggie. The gentleman referred to has been a member of the New Hampshire Legislature three successive years, and at the present session was candidate for Speaker. He has been equally anxious as his sister to know about his relations, but since his departure he could learn nothing of them, although he has frequently written to them. The parents have been dead several years. The gentleman visited town to see his sister, the past week, and seemed overjoyed in the reunion.—*Lawrence American.*

— The Charlottsville (Va.) Chronicle says:

"We have not one particle more respect for the Northern Democracy than we have for the Republicans. They got us into our troubles, and basely abandoned us. And they are doing us infinite injury now by obstructing the settlement of reconstruction. They use us merely as so much political capital, and are no true friends. But whether friends or foes, they have no power, and are a perpetual nuisance. We have got to make terms with the Republican party—they are the government, and will be for a good many years."

DANCING.—Horace Greeley thus speaks of dancing: "We believe dancing, mainly by small neighborhood parties, without parade or dress or either expansive adjuncts, restricted to three hours at any one assemblage, closed long before midnight, and rigidly guarded against all access of stimulating beverages, might be most admirable recreation, securing the approbation and countenance of the religious and sedate; but conducted as it is, probably exhausts more than it renovates, and corrupts more than it improves."

WHAT IT COSTS TO KILL AN INDIAN.—Estimates made at Gen. Grant's headquarters show that the present expenditures in prosecuting the Indian war are fully one million dollars per week. Thus far since the trouble began, every Indian killed has cost the Government one million dollars and the lives of about ten white men.

ITALY.—There are 11 daily papers in Florence; new independent papers are springing up all over Italy; and free schools on the New England plan, are gaining in numbers and power.

— A barrel of new beer, in a cellar at Lockport, burst a few days since, hoisting the keeper, an Irish woman, to the ceiling, demolishing everything in range. The lady picked herself up and mildly remarked, Och, bad luck to the man that put the torpedy in the barrel.

— After more than two months the London tailors on strike have come to their senses, and propose an arbitration. The master tailors have replied that they know of nothing requiring arbitration, and very sarcastically explain that the best relations exist between them and the men in their employ. This means, of course, that the places of the eight thousand men who struck have already been supplied, and that the masters defy the strikers.

— The Paris Pays prints a theory of its own relative to the disinclination of England of late years to interfere in the affairs of the Continent of Europe. Formerly she considered herself perfectly safe in her seagirt isle, and in consequence, the writer says, put herself prominently forward, not being afraid of reprisals. But at present that a landing can be effected on her shores with mathematical precision by means of iron-cased steamers, she thinks the most prudent course is to change her policy accordingly.

A NATIONAL BENEFIT.—Perhaps nothing more effectually conduces to the general welfare than the introduction of Fyle's Saleratus, that insures comfort and promotes health. Sold by grocers everywhere, with his name on every package. 10

THE FAIRIES OUTDONE.—The Princess, in the Fairy Tale, drops pearls from her mouth when she opened it, but whoever uses that talisman of science, SOZODONT, will have a mouthful of pearls that will never drop out, darken, or decay. 8

☞ Females at this season should not fail to use SPERR'S Sambuci Wine. Physicians recommend it as a strengthening and blood purifying tonic. Sold by Druggists. 1

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. Its use always brings a smile to the household; it keeps them in health; it helps make the weak strong, and saves hundreds from that dreadful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty st., N. Y. 46

— They tell of one of the unterrified at Bridgeport, Ct., who was especially eager to see the Presidential party, exclaiming, as he rushed up to the car, "I don't care shucks about Johnson; it's Parson Nasby that I want to see."

WHAT EVERY ONE WANTS.

A good, reliable medicine that will bear hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions: and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. JyStuwlm

Special Notices.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 Hanover street, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and he uses for his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an aggravated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of consumption, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Local.

VICIOUS DOG.—On Wednesday evening as a lady was passing the corner of Middle and Congress streets, a black and tan dog, (said to belong to a little Bradford boy at the West End,) flew out at her, but being kept at a distance by her clothing, made a jump at her arm, caught a silk sacque by the sleeve and tore the garment from her person. Rather an unpleasant adventure for a lady, to say the least.

☞ Rev. T. W. Huges, of the Baldwin Place House for little Wanderers, Boston, will preach in the Middle street Baptist Church on Sunday morning next, at the Methodist in the afternoon, and at the North in the evening. A company of interesting children will accompany him. Our readers will be highly gratified no doubt, to hear what is being done to save the suffering and neglected children of New England, through the agency of this noble institution. Among those who have been benefited by the above institution, are some from our own city.

☞ A very pleasant party enjoyed the moonlight trip to the Shoals on Wednesday, and the fine music of the Portsmouth Cornet Band. The Band were again in attendance last evening, and the managers are determined to make these low-priced excursions popular. Fifty cents cannot be better expended than to take a trip this evening, when the third excursion will take place if the weather be favorable.

☞ On our first page this morning, we give an interesting obituary of a copperhead paper in Massachusetts. Probably no one of these sucklings of treason has ever been kept alive in New England or the North, except "by hand"—and all have died and must die unless sustained by pap of some sort. Beyond question, the one which has so long amused, because it had not influence sufficient to disgrace, this vicinity, has always been a heavy drain on the pockets of its "patriotic" and disinterested owners. In its best days, the "Democrats" so called, as a party, were not swift to support newspapers; and the small portion left of them are still more lax.

☞ A correspondent of the Charleston Mercury, who has been travelling at the North, represents the Connecticut Democrats as saying that "the South seceded without cause, but now has abundant cause for revolution, and ought not, by any acquiescence, to virtually indorse the radical measures." He says he tells them in reply, "If there is to be any revolution, you must kick it up among yourselves. The man who has his hand in the lion's mouth, if a sensible man, will do nothing to irritate the animal."

☞ It is said the five men who broke out of the jail at Augusta, Me., on Sunday evening, committed burglaries at Sydney, by breaking open several stores and supplying themselves with clothing, provisions and arms. On Tuesday morning they were seen near Waterville and fired at, but returned the fire and fled to the woods, where they were surrounded so that their escape was not very probable.

IN CHELSEA, Mass., Thursday, the ground was broken, by the Mayor, for the introduction of Water from Mystic Lake, via Charlestown. There were imposing ceremonies; among them, the Children of the Public Schools, led by Mr. John P. Payson, sung an original Ode to the tune of Hail Columbia, aided by the Band. The ode was written for the occasion by B. P. Shillaber.

☞ Two steamers were burnt at St. Louis Wednesday evening, loss $55,000. Insured for $32,000.

GOLD, Thursday, 138 3-8.

— The Wisconsin State Journal is rather "sarkastic." It says that the State is better represented in the United States Senate now than it has been for a long time past, as Senator Howe is present and Senator Doolittle is absent.

IN CONGRESS, July 10, there were some debates on confiscation; and as the death of Mr. Denison, of the House, was announced, both houses adjourned.

— In the vault of a beautiful little church at Weybridge, in the vicinity of London, lie the remains of King Phillipe of France. In the same vault were laid more recently the remains of his Queen, Marie Amelie; and there should be no scruple on the part of Napoleon, after what was done in the case of his uncle, in providing that their remains be brought to France.

— Dull times are prevailing in financial circles in Richmond. Two business houses closed on Monday, and it is rumored that the three principal hotels will have to close for want of paying patronage. Three stores in every block, on an average, are for sale or to rent.

— The Leicestershire (Eng.) Chamber of Agriculture, after long deliberation, has declared against intellectual improvement among the agricultural class, on the sole ground that they would be rendered less efficient as laborers. It therefore opposes the education of the children of agricultural laborers.

☞ At St. Louis, Wednesday, a convention of Millers and Flour Merchants was held. Delegates from Kentucky, Indiana, Illinois and Missouri were present. The object of the convention was to form an association for procuring statistics of stocks of flour and wheat in different parts of the country, and other information valuable to the trade, in order to protect themselves against false reports.
[In other words, it is designed to keep up the prices, if possible.]

— Out in Indiana a wife of sixteen summers has presented her husband, aged eighteen, with three fine boys.

— Two noted New York pickpockets, named James Dolan and John Gray, were detected at their work in Paris, and were sentenced to *three years imprisonment* and five years *surveillance*. If they had been arrested in New York they would have got three months in the county jail or been let off on straw bail.

— The delegates to the recent Republican Convention in Texas report that in many interior counties the lives of Union men are in constant jeopardy, and no political meeting can be held. The civil authorities are in league with murderers, and justice is a farce. Some members travelled by night, and then secretly, to escape being waylaid. Until Congress empowers the Military Commander to remove disloyal officials, free speech cannot be secured.

— There is considerable excitement in Western Virginia, and in Ohio, opposite that State, respecting recent discoveries of silver in Jackson county, West Virginia.—Jackson county is about thirty miles below Parkersburg, and about twenty miles above Pomeroy. The ore is said to contain ninety-four per cent. of silver and six of copper.

— Bernard Duffy, proprietor of a tenement house in New York, has been sentenced by the Court of Special Sessions to four months' imprisonment for refusing to put a fire escape on his building.

— A father of three sons and five daughters was asked what family he had. The answer was, "I have three sons and they each have five sisters." "Mercy!" replied the interrogator, "sich a family he maun have!"

Holloway's Pills and Ointment.—Cancer.—The days of "brilliant operations" are no more. The discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer in its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. The Pills cleanse and purify the blood. Sold by all Druggists.

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.
The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
or
Ninety Cents on the Dollar.
This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company have now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, work is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific Railroad of California, 1000 miles west of Omaha, on or before January 1st, 1870.
Means of the Company.
Estimating the distance to be built by the Union Pacific Company at 1560 miles, the Government issues its Sixper cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $23,250 per mile, amounting to $44,208,000.
The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*
The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,062,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.
The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which fifty millions more than twenty-five millions at most will be required.
The cost of the road is estimated by competent engineers at about one hundred million dollars, exclusive of equipments.
Prospects for Business.
The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the entire line for the first two weeks in May were $118,000. These sectional earnings as the road progresses will naturally more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.
Value and Security of the Bonds.
The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds are offered at no less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended—on 390 miles of this road trains are now running, and the remaining 127 miles are nearly completed.
At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.
Subscriptions will be received in New York by Continental National Bank, 7 Nassau st., Clark, Dodge & Co., Bankers, 51 Wall street, John J. Cisco & Son, Bankers, 33 Wall street, and by Banks and Bankers generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

As Good as the Best.
The PIANO FORTES of HALLET, DAVIS & CO. have never been excelled. The subscriber has sold and used them for many years, and they have proved equal in all respects to any other make, and superior to most. A splendid new 7 octave instrument, fresh from their mint, may be seen at his new Music and Painting Room, Mercantile Library Building, over Mr. J. H. HEAD'S store, which is for sale at the manufacturer's price, and which our friends and the public are invited to call and examine. T. P. MOSES.

IN MEMORIAM.

OBT., in this city, on Saturday the 25th ult., THE ESSEX STATESMAN, .E four years.

"The good die young."

Peacefully,—almost unnoticed by its anxious attendants,—this child of hope and brightest promise has passed away. So quietly did it sink to rest, that some time elapsed before the sad event made itself a reality to the public mind. On Sunday following, no notice seems to have been taken of it in our several pulpits, over whose thunders and blunders it kept so watchful an eye, but on Monday, the 17th, the church-bells gave forth their gladly solemn sound, and a general feeling of relief prevailed that the little sufferer had gone to rest.

We cannot let this suggestive event pass by without a word of sympathy for its little circle of mourners. It was a bright little thing, and talked very plain for one of its years. Born with an obvious displacement of the heart, nobody expected it to live long. Yet, though thus early lost, it lived long enough to follow its venerable grandmother, the BOSTON COURIER, to the grave, and to lift its little voice in feeble echo of its more wealthy and influential relatives in New York, who acknowledge the WORLD as their head, though they do not publicly recognize a family connection with the Flesh and the Devil.'

Its career, though brief, covered an eventful period. Its lines had not fallen upon pleasant places, but upon stormy times, and the rough, radical blasts of rock-bound Essex were too much for it. Twice, during its short span, it seemed to see light through the gathering darkness. There was ground for hope that the Emancipation policy of Mr. Lincoln might divide the irresistible Union Party of the North. Again there was a gleam, when Mr. Johnson's early veto messages approached the same result. But now, all is gloom,—hopeless, rayless, impenetrable. The nigger is good as the rest of us, while he behaves as well,—we have sold our birthright, and upset our pottage, and nobody hopes for anything, anywhere, any more.

"Thinking is nothing but a waste of thought, And naught is everything, and everything is naught."

Happy little fellow, to be spared the unveiling of such a future! He was well born and counted well-to-do people among his godfathers. For a while he gave great promise. To have been connected with the Statesman was to be eulogy and epitaph. Upon the shoulders of this infant Hercules, were to be hoisted into positions of influence and honor, scores of politicians already as dead as the Nemean Lion. Its puny little voice was to arrest the American Nation in its headlong abolition course. Its tiny fist was to be the last defence of Freedom and the refuge of radicals from the fury of the mob. Anon, teeth began to appear, and bad humors to break out, and some of those who welcomed its advent no longer loved it. Yet not all forsook it, for many thought such humors better out than in. It snarled incessantly, yet its ebullitions were overlooked, seeing they were as harmless as the bark of Cerberus chained, or the hiss of a hydra that is fangless.

Under these afflictive circumstances, death came to its relief. It has been gathered, not ultimely, to its fathers in that old political grave which swallowed the Federal Party after the war of 1812, and which ever yawns for unsuccessful opponents of their government in a successful war. By its demise, painful to contemplate, but not without its compensations, several worthy citizens who have passed sleepless nights in trying to save it, are now relieved from that melancholy duty, and enabled to devote their time to less arduous and, we trust more remunerative labors.

"Bright bud,—farewell!
'Tis mercy thou wert ta'en 2"

LYING.—In a sermon last evening on the subject of "Lying," replete with illustrations, the preacher stated that he knew a person who owned and rented twenty-five dwelling houses, which paid him 15 per cent., and still the owner swore he was not liable to a Government income tax.—*Boston Transcript, Monday.*

— The King of Bavaria has signed the new Zollverein Convention, which places the supreme management of the commercial affairs of the South German States as fully in the hands of Prussia as this power has already control of their military forces. All the South German States are said to be wholly agreed on the subject. Some of the Paris papers violently deny the right of the South German Governments to conclude such alliances. But the French Government appears not to move at all in the matter.—*Tribune.*

C. A. RICHARDS & CO.'S
CONCENTRATED
EXTRACT OF RYE.
THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,
WOULD ONCE AGAIN ANNOUNCE
THAT
IT IS NOT
a mere dram-drinking beverage, but a TRUE, GENUINE and SCIENTIFICALLY PREPARED
MEDICINE.
It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a
MEDICINAL REMEDY,
specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have
TO SAY ABOUT IT,
without any long, high sounding words, such as some other men use to make a big show, a patient, until he can't begin to tell what does not all him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the
JUICES OF THE GRAIN
combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to
NEW LIFE,
and a restored appetite, and then goes to make BETTER AND STRONGER
FLESH AND BLOOD.
One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently
IT IS WHAT YOU WANT
when you have a bad cough, to cure it, when you have
CONSUMPTION OF THE LUNGS,
to heal and build them up again. So much for those troubles
Now, if you want an article to FEED THE SYSTEM or to build it up when reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will
DO THE WORK.
We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people
GAIN FLESH AND GROW FAT.
The reason for this is the
GRAND SECRET OF THE WHOLE MATTER.
It acts as a
STIMULATING FOOD
to the body, and helps Nature
THROW OFF DISEASE.
How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *truly composed.*
This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a
STIMULATING FOOD,
and will build up and restore the powers of mind and body, while you become fat and happy.

OUR DOG.

BY PRENTICE.

It is necessary to own a dog. Why, it is difficult to tell, but everybody, at some time in his life has taken unto himself a dog.

Our dog Nip made himself at home immediately after his arrival at the house.—There were no intermediate stages of backwardness with him in his intercourse with the family, or in his assuming the direction of a large portion of affairs relating to the household. He is a small dog, but very lively. His natural condition seems that of motion. He concentrates within himself the activity of three or four ordinary dogs.

His first act, soon after coming to live with us was to take charge of the back door mat. He seemed to regard it as his own exclusive possession. He had his ideas with regard to its place and use. We preferred that it should remain where the cleanliness of the household might be best promoted. He preferred it in the back yard. It stayed in the back yard. The whole household toiled in vain to keep it where it was supposed to belong, dragging it time after time up the back stairs, all to no purpose.—When such a dog as Nip chooses to devote his whole life to keeping a door mat in the back yard it is difficult to contend successfully with him. When he thought we had become resigned to his disposition of the mat he became dissatisfied and tore it in pieces. He was dissatisfied because we were resigned. He wished to do something provoking. He loves actions of this kind. There was an inoffensive old broom which, having been discarded from the house, was used to sweep the back stairs. This he set upon and tore also to pieces. The broom never did him any harm It would not harm anybody. But its total innocence and inoffensiveness provoked him. Good nature is often provoking.

He has access to the cellar. He rules there. It was a very quiet and orderly cellar previous to his coming. If it be so now, it is according to canine not human views of order and neatness. He was furnished with a heap of old clothes for a bed. These have been torn up and dragged in every direction. He has no use for a bed. His time is too precious to be devoted to sleep. There are holes to be dug in the bare cellar floor, and anything accidentally hung up within his reach must be torn down. The kindling wood must be scattered about.—Old newspapers falling in his reach must be torn to shreds. In his eyes the general appearance of the premises is much improved by these bits of torn newspaper. He monopolizes the morning paper left at the door, and it is often found lying ignobly in one corner of the yard covered with dirt, "gone to the dogs." He shows a great contempt for newspapers.

Nip is a great pet. That is what he was given us for; something on which we might expend our spare care and sympathy. Nip more than "fills the bill." He is always performing some aggravating and mischievous action so that we never forget him—never.

He mines. The back yard is fitted with numerous excavations and heaps of dirt.—He buries bones in one place, and then digs large holes elsewhere, pretending to be looking for them. This is the only shadow of excuse made for any mischief committed. As for eating, he bolts a meal in ten seconds. Yet it is a satisfaction to see that this aggravating little brute cannot thus outrage nature with impunity, as evinced by his occasional bodily contortions consequent upon an overloaded canine stomach.

We have a rooster. Before Nip's arrival he was a haughty and consequential rooster in his own estimation, and that of his several wives. He issued his pronunciamentos daily, claiming the allegiance of his hens, and boasted in long speeches concerning the completeness of his authority over the yard and hencoop. But Nip has taken all the conceit out of him. Daily he chases him in abject fear before his subjects. He has chased him from the high pedestal of his former dignity. Adding injury to insult, he has torn out the most glorious of his tail feathers. It is pitiful to see a rooster so completely demolished both in appearance and dignity. He runs after the hens also. Not from motives of gallantry does he this, but to humiliate more thoroughly the dejected, tail-ridden rooster. Our persecuted fowls have scarcely a place in which they may lay their heads—or their eggs in peace.

He has contests with an old tin pan carried on with great noise and fury. He idealizes this pan into some terrible monster, and idealizes so successfully that the combat is more real than imaginary. The contest goes on over the whole yard, the combatants swaying backward and forward, but Nip always comes off victorious. We could dispense with his dragging this utensil up the steps and letting it roll down again. In his estimation the dramatic effect may be very powerful, but the peace of the family is not at all increased by the clangor. It must be very gratifying to fight an opponent so terrible, to be at times almost overcome, and yet to be ever certain of victory.

The most provoking characteristic of this animal is, that punishment when inflicted has no effect on him. He is often turned out of doors in disgrace, but he ignores this as punishment entirely. He refuses to be regarded with disapprobation. His manner speaks thus to us as he noisily scratches at the door for re-admittance, or looks impudently in, his paws resting on the sill of a low window: "O, you needn't look so cross. You like all these pranks of mine after all. You couldn't get along without me. I am the Punch of the household. Did'nt I make a nice mess of the contents of your work-basket? I can do so again if you will only let me in."

He has occasionally been whipped, but seems to feel no shame an account of the castigation, and, the operation over, always resumes his usual frisky manner. He has an admirable command of temper and bears no malice. This disposition heaps coals of fire upon the heads of those whom he causes to loose their tempers. To one's conscience it says: "There, you've lost your temper, haven't you? and you a human being but little lower than the angels, and I nothing but a dog, and a little dog at that. Feel any better for that kick you gave me? It shall not make any difference in our relations. I am still your affectionate Nip, as full of mischief as ever. Loss of temper causes remorse, both for our weakness in losing it, and for mean acts committed while laboring under such loss. Were Nip but possessed of a nature full of stupid, ugly antagonism, causing him to seek revenge in snarling, biting, or a fit of sulks more or less prolonged, there might be some degree of compensation in our anger. But his persistent good humor and inevitable forgiveness is very aggravating. He comes off victorious in these soul conflicts, and covers us with shame to be beaten by a dog.

Nip after all is a positive benefit. Although he at times annoys, yet he amuses and instructs. Dog nature is worth studying as well as human nature. And in the comparison between the two, the latter has sometimes cause to blush.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 13, 1867.

IN THE U. S. SENATE, July 11, Senator Sumner made an able speech on Reconstruction, in which he blamed Pres. Johnson for usurping power that did *not* belong to him, and Congress for not using fully and plainly the power which *they have* over this subject.

As several of the amendments advocated by Mr. Sumner were brought forward it was evident that they would have been adopted rather than defeated, had not a majority of the Republicans obeyed the edict of King Caucus which prohibited them from voting for any new legislation.

The Senate finally passed the Reconstruction Bill, 31 to 6.

In the House, after a debate on Impeachment and Adjournment, the motion to have a provisional session on the 13th day of November was adopted by a vote of ayes, 94—nays, 50—not voting, 26.

In the course of the debate Mr. Pike said he did not believe the House should hasten its session one day in reference to impeachment. The country wanted peace. So far as concerned the person in the White House, it seemed to him that after having destroyed him politically, the only question now was whether they should mangle the corpse.—(Laughter.)

The Committee on Commerce was instructed to inquire to the cause of the decline of the ship-building interest in America, and how far such deppession is attributable to Congressional enactment, and how far it may be removed by legislation.

Mr. Schofield sent up to the Clerk's desk and had read a letter from Professor Agassiz, characterizing as a villianous calumny the paragraph attributing certain views to him in reference to the negro race.

[The paragraph was handed all round the copperhead press, as a choice morsel for the refreshment of the faithful]

Mr. Stevens offered a resolution directing the Judiciary Committee to report at this session the evidence relative to impeachment, and moved the previous question.

The House refused, and Mr. Wilson of Iowa, moved as a substitute that the Judiciary Committee have authority to have printed the usual number of copies of testimony, 1550, in time to be laid on the desks of the members on the first day of the next session, moved the previous question, and the main question was ordered—yeas 84, nays 45.

Mr. Stevens remarked that he was willing to abandon the matter, and moved to lay the resolution on the table. Agreed to.

In the evening session of the House, M. Boutwell moved to accept the reconstruction bill just passed by the Senate as a substitute for the House bill, but Thad. Stevens objected, as did Gen. Farnsworth, insisting that the Senate bill should be referred to the Committee on Reconstruction, and after debate it was so referred, 74 to 49.

THE REASON WHY.—A member of the legislature,—one who voted for the State Constable bill,—informs us that the outside pressure or influence in favor of the bill, was very slight indeed; that the petitions for the measure were not numerously signed; and that no evidence was presented of a general or strong desire for such a law, by the great body of the people, or even by a large portion of professed temperance men. If a strong effort had been made outside, he thinks the measure would have been adopted,—and may be, another year. In the meantime, we may see how Massachusetts and Maine get on with their laws and their officers.

GOLD, Friday, 139 1 8.

— In Providence, on Tuesday, a snake, said to be of the copperhead species, and about fourteen inches in length, was found in a bunch of bananas.

— The Journal of Chemistry says the State of Massachusetts wastes more than $50,000 yearly by destroying confiscated liquors, instead of distilling them and saving the alcohol. And the topers WASTE more than $500,000 in drinking pernicious liquors, which do much damage with no great amount of good.

— A Leavenworth paper, in urging enlistments in a Kansas regiment about to be raised to fight Indians, says: "The service will last for three or four months only, and will be a source of health, pleasure and profit to all who enlist."

— A Connecticut paper states that a farmer in Buxton built a barn thirty-two years ago, and put in a crop of hay. This spring was the first time the last of it was disturbed, the call being so loud that the last of it had to come out. It is as sweet and bright as any ever brought to market.

— The Congregationalist and Recorder, discussing the recent revival of zeal among the Unitarians, says:—"Our church attendance is insignificant when compared with the outside multitude, and unless some speedy and thorough measures are adopted to remedy the evil, the prospect before us is far from pleasing. Evidently places for worship, and men to preach are demanded; not dismal, unattractive, charity-looking place, not dull, impractical, "good but stupid" preachers; but as far in the opposite direction as in the power of men and money to provide. Now this is what our Unitarian friends are proposing to do, and in fact are doing, and they have set us an example which we shall do well to follow."

Local.

☞ A young man in this city, who had his buggy packed for a picnic on the 4th of July, had the misfortune to have his horse scared by torpedoes into smashing up his carriage and spilling the stores—among which was a bottle of brandy actually for a sick lady. This incident the hand organ newspaper improves, (so we are informed by the owner of the team referred to,) to the attempted injury of the cause of temperance,—by stating that the said driver is a Good Templar and has been loud in favor of a State Constabulary—both which statements, we are desired by him to say, are entirely untrue, and without other foundation than that writer's desire to hurt the temperance party all he can. The gentleman does not profess total abstinence, nor belong to any temperance organization, and has never entertained or expressed any opinion as to a State Police,—but is unwilling that any imputed action of his should by any possibility tend to the injury of any good cause. So he desires us to say thus much.

NEEDED IMPROVEMENTS.—Some of your correspondents, Messrs. Editors, have seemed to oppose the new Mall, lest it might entail some expense upon the City. A short-sighted idea, truly, when such an expense is to furnish a breathing-spot that shall go far to aid all who enjoy its benefits, to live the longer to enjoy their earthly goods.

But since the public-spirited men who have this matter in charge, (and who will doubtless receive more praise from posterity for their efforts, than from the present generation,) are not contemplating asking any aid from the City, allow me to suggest an idea by which the City, at a small expense, could not only materially add to the beauty of the Mall, but also establish forever a much larger breathing-spot in the northern portion of the city.

The North Mill pays tax on a valuation of $6000, the South Mill on a valuation of $2600. One good steam engine has a capacity for grinding double that of both mills combined. Suppose the City were to buy both mill privileges? We should have two such ponds as no city on the continent can boast, in place of two great cess-pools that are year by year becoming more obnoxious to all abutters thereon, and more detrimental to general health.

As a fresh water pond shrinks, the sun dries up the vegetable debris deposited around its edges; but in our two ponds, which once acted as the natural lungs of this community, the tide dampens all refuse matter twice a day, thus rendering efficient aid to the sun in its putrefaction of all substances liable to decomposition.

Were the tide gates removed, every flood and ebb would bring a great mass of pure water and wash out these ulcer-spots of our community, improving the city's beauty, and lending added zest to the life of its inhabitants.

When charters were granted for these mills, it was imperative necessity that demanded them. Now the times are greatly changed, and we may hope to see this matter rectified in our generation. M.

☞ Lieut. George F. Hunting, U. S. A., who has been stationed at Fort Constitution for two years past, has received orders from Gen. Grant to report at Hilton Head, S. C., for duty. During Lieut. Hunting's sojourn among us,—by his extremely courteous manner and genial disposition, he has won many friends, and we are sure he has not made an enemy. He is a man of fine genius; real mental and moral worth, with great modesty, and seeks not to parade himself before the public. By his leaving, Gen. Gates will lose an excellent officer. Maj. John R. Wynck has been ordered to the vacancy of Lieut. Hunting. We believe the transfer has been made at Lieut. H.'s request. A.

Communication.

Dear Chronicle.—Why cannot some field be found for the Rockingham Base Ball Club to play on? People complain of our not "doing anything," but how can anything be done by a club that has to walk four miles to play a game, and then finds only two or three of its members on the ground! A club cannot play without something to play on. A field is of the first importance, and if we can only get the field that we had last season, we pledge ourselves en masse, that any man, woman or child, who steps upon the mowing field, shall meet with condign punishment.

In despair, R. B. B. C.

☞ A County Convention of the Representatives of the towns in this County, will be held Tuesday, July 30, at the Court House in Exeter, to take decisive action on maintaining a County Farm. A very important meeting. Members will be paid for travel and attendance. Every one should be there.

☞ New Orleans now has a line of five steamships to Liverpool. Among the names of dignitaries present at the festivities on the occasion of the first appearance of the Pantheon (the fifth of this line) in the Crescent City, we notice that of Mr. Thos. A. Adams, President of the Board of Underwriters, formerly of this city.

☞ Friday was the first dogday of the season. Gummy, sticky, muggy enough it was. Not very good hay weather; and there is much "down" too.

☞ There is talk of immediately establishing a Boot factory in this city. Hope it will be done.

THE STATE PRISON.—The Report of the Legislative Committee on the prison, strongly recommend immediate attention to Ventilation of the cells, which is extremely deficient and faulty;—and suggests, in accordance with the physician's advice, "the necessity of an entire change in the size and general arrangement of the cells." The prison, now 50 years old and more, doubtless needs rebuilding and remodeling.

The Report speaks very favorbly of the Chaplain, Rev. Sullivan Holman, and of his labors and influence among the convicts. Of the Warden they say:

From familiar interviews with the Warden, JOSEPH MAYO, Esq., from the testimony of his officers, and that of the convicts, of whom we have made extensive and particular enquiry, we are happy to state our conviction of his rare qualifications for the responsible office he holds. Gentlemanly, affable, kind, humane, yet firm in maintaining the government of the Prison, he has gained the respect, the veneration, the confidence and the affection of its unhappy inmates, no less than of those associated with him in the management of the institution. The convicts feel that he is their friend; that they have his sympathies; yet, that he is the appointed minister of the State to execute its laws, the penalties of which they have incurred.

The happy effect of this combination of kindness, sympathy and firmness,—a very marked feature of the government at the Prison,—is very apparent in the general demeanor of the convicts. In shops, they work industriously, earnestly, and with seeming cheerfulness. Their obedience to orders is prompt and implicit; their marches to and from their workshops to their cells with all the orders and precision of a well disciplined military company.

The culinary department is well managed. The cooking room, its furniture all its appendages, are clean and wholesome. Good bread, meats and vegetables are furnished in abundance, varying in kind and methods of cooking from day to day. Great pains are taken to promote cleanliness in all parts of the Prison premises; in the workshops, the halls and the cells.

NEW HAMPSHIRE ITEMS.

—— Two burglars broke open the Suncook Depot, Tuesday night, but were discovered before they got the money drawer open. One of them was soon arrested; the other swam across the river and went to Manchester, but was caught there: and both are in Concord Jail.

—— Adjutant General Natt Head of New Hampshire, the brick maker of Hookset, is visiting the United States Military Asylum at Chelsea, for the purpose of making preparations for the manufacture of brick from clay found in that vicinity. A project is in view of enlarging the accommodations of the inmates by the erect on of a brick hospital building, &c. The asylum numbers about 200 inmates.

—— Captain George W. Watson died at his home in Kensington a few days since. He had followed the sea from boyhood, and upon the breaking out of the rebellion, accepted a captaincy in the volunteer navy. An exchange relates that on one occasion a steamboat of which he was in command was attacked in a small river by some rebel artillery-men. There was no guard upon the boat, and the frightened deck hands fled below to escape the flying missiles. Capt. Watson seized an axe and cut the lines, and then brought the gun on deck to bear upon the rebels, and they were thus kept in check while the boat was got safely off. He was fifty-three years of age at the time of his death.

INDIANS.—Late Arizona advices represent the Indians as troublesome at Prescott and Magenburg, stopping the mail and running off the stock. They had been pursued by a company of cavalry and infantry. The Indians attacked the soldiers, causing them to retreat, and following them all night, keeping up a constant fire.

The troops were compelled to kill all the prisoners taken, and also part of their stock to prevent their falling into the hands of the Indians.

☞ The Maryland petition to Congress, asking it to pass laws securing suffrage and establishing a national militia system, without regard to race or color, and excluding those who took part in the Rebellion, was signed by 12 000 persons.

☞ The reported attack on Fort Wallace by the Cheyenne Indians, is the old story revived, of what happened 15 or 20 days ago. No new attack has been made.

A NATIONAL BENEFIT.—Perhaps nothing more effectually conduces to the general welfare than the introduction of Dyle's Saleratus, that insures comfort and promotes health. Sold by grocers everywhere, with his name on every package. 10

THE FAIRIES OUTDONE.—The Princess, in the Fairy Tale, drops pearls from her mouth when she opened it, but whoever uses that talisman of science, SOZODONT, will have a mouthful of pearls that will never drop out, darken or decay. 8

☞ Females at this season should not fail to use SPEER'S Sambuci Wine. Physicians recommend it as a strengthening and blood purifying tonic. Sold by Druggists. 1

IMPORTANT.—The fact cannot be too often stated, or too strongly urged upon the public, that the purity of the Saleratus in the market is not only VERY UNHEALTHY, but actually a slow poison, causing teeth to decay, and bringing on disease generally. Thanks to science, skill, perseverance and energy, that the man still lives who invented Horrick Allen's Gold Medal Saleratus, which has and is still doing such great wonders in the culinary department. We say that one trial will convince the most skeptical that there is none other to be compared with it. Most of our Merchants have it for sale. Their depot is 112 Liberty street, New York. 47

FROM THE PLAINS.—An Omaha despatch says that Saturday morning some soldiers from Fort Laramie went to Rafferty's ranche, five miles distant, and demanded whiskey, and because they were refused, threatened to burn the ranche. They then made a second demand for whiskey, and being again refused they attacked the storekeeper and one of their number was shot. The soldiers then formed in line and fired several shots at the ranche. Subsequently the Provost Marshal, with 50 soldiers, arrested the occupants of the rancho and took the desks and safe out of the building. The safe was afterwards robbed and the building burned by the soldiers. The proprietor estimates his loss at $60,000. A court martial has been convened to examine into the matter.

Indian depredations are again reported on the Platte river. Lieut. Kidder of the 2d cavalry, with ten men and a guide, who left Fort Sedgwick on the 29th ult., with despatches for Gen. Custar, have not been heard from since. Fears are entertained for their safety.

☞ Engiehardt's distillery in New York was burnt Thursday night; loss $50,000.—A fireman was killed.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colds, Spasms, Vomiting, Cramp, and Sea-sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. *Sold by Druggists. Depot 56 Cortlandt street, New York.* Jy3d&w1m

Beautiful Teeth.

SWIETENIA preserves the Teeth and Gums in a healthy state. It endorsed by the Scientific Dentists in the profession, and used by Dr. M. LEVETT, a Dentist of over 30 years' practice in New York City.

Brooklyn, N. Y., Feb. 11, 1867.

I am delighted with the effects of SWIETENIA as a dentifrice and a wash for the mouth.—Prompted by curiosity, I subjected it to a few tests for acids, and found in it no deleterious ingredient. As a toilet coupanion, both for the sick and well I consider it a peculiarly refreshing luxury. S. H. OLMSTEAD, M. D.

Penn's Salt Mf'g Co.'s Renowned
SAPONIFIER:
(Patents of 1st March 1859,) OR
CONCENTRATED LYE!
Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan, 5 pounds of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water and melt with a gentle heat until the soap is *all dissolved*, then pour into tubs to cool. When cold cut into bars, which will be fit to use in about ten days.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor at No. 26 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with thousands or any disease tending to it is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five Dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near you and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure the consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered over by phlegm, gross and acid dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

Local.

☞ The Girls' High School was uncomfortably crowded on the occasion of its annual exhibition, on Friday afternoon. The schoolroom was lavishly decorated with evergreens, flowers and flags, while the blackboards around the room exhibited a dozen large drawings of fruit, flowers, birds, &c., executed in colored crayons by pupils of the school, under guidance of the teachers as to enlarging in proper proportion, some of the sketches being decidedly meritorious.

The exercises were quite varied, but in one respect there was great similarity exhibited, and that was in the thorough conversance of the pupils with each branch of study in which they were examined. In the department of languages the school will bear comparison with many an institution arrogating to itself a more advanced position and where this branch of education is made more a specialty. In gymnastics, although a good knowledge of the various exercises was evinced and excellent time was observed, yet the peculiar grace of movement so noticeable in persons wearing the gymnastic dress, was greatly impaired by the fetters placed upon the limbs by the usual female costume.

The salutatory address, by Miss Mary W. Towle, and the valedictory, by Miss Frances N. Goodall, were both happy efforts, and elicited warm commendation.

The exercises were agreeably diversified by singing, which branch of education has been gratuitously taught for several years, by Mr. A. Pearson, in both High Schools.

The award of the Haven Medals was as follows, the names marked with an asterisk being those of the fortunate ones to whom Lot awarded the medal which Merit had declared a guerdon equally belonging to several:

Anna F. Mathes.

Short addresses were made by Hon. E. A. Stevens, Hon. M. Bufford, Rev. Dr. Burroughs, Rev. G. M. Adams, Rev. I. F. Waterhouse and W. H. Rollins, Esq. The exercises closed with prayer by Rev. Mr. Adams.

The exhibition at the Boys' High School takes place this morning.

☞ Mr. John H. Raitt of this city, employed in the machinist gang at the Navy Yard, met with a serious accident on Friday forenoon. A large propeller shaft was being blocked up on the lathe-bed, preparatory to finishing, and Mr. Raitt had his right arm under it. Several men were using a lever to move the ponderous mass, but misunderstanding Mr. Raitt's directions, allowed the shaft to descend upon his arm, crushing bone and flesh in so fearful a manner that he will probably lose the forearm.

☞ On Friday the horse of Thomas Brackett, Jr., backed with a cart from the old Arsenal on South street down to near the South Mill—Brackett being in the cart, and said to be somewhat intoxicated. Backing against the railing on the easterly side of the bridge, the team broke it down, and team and driver fell a distance of about ten feet into the dock, cutting the horse badly and breaking Brackett's collar bone.

☞ We regret to hear that Hon. H. D. Walker of this city, while operating a mowing machine a day or two since, fell with his hand on one of the knives, (or scissors,) and received quite a severe cut at the junction of the thumb with the fingers; and but for the team instantly stopping, he must have been seriously if not fatally injured.

☞ We are so frequently indebted to Laws' Express for favors in the way of papers in advance of the mail, that we do not pretend to acknowledge the service on every occasion,—but it is none the less appreciated.

☞ It was Mr. George H. Marston, and not George W., who entertained the yachtsmen a few days since—so the latter informs us. Our typos gave the wrong initial.

☞ Gov. Swann of Maryland, alarmed at the earnestness of the Maryland Republicans in their representations to Congress of the condition of affairs in that State, arrived at Washington Thursday and visited Congress. He ought to be alarmed: his treachery and duplicity are about equal to those of his kindred spirit in the White House.

IN CONGRESS, June 12, the House Committee on Reconstruction agreed on what is virtually a new reconstruction bill of fourteen sections, embracing the most radical features of the Senate and the House bills carefully remodeled.

LICENSING.—The Town Council of North Providence, R. I., at their meeting on Monday last, voted, six to one, to grant licenses to sell spirits. The prices of licenses are to be $200, $350 and $500.

—A correspondent of the N. O. Picayune says, "Captain S——, of Houston, was declared disqualified for registration because he had been an alderman in Houston in 1837, years before Texas had anything to do with the United States."

Holloway's Pills and Ointment.—Cancer.—The days of "brilliant operations" are no more. The discovery of Holloway's Ointment dispensed with the necessity of the knife, which frequently endangered the life of the patient.—Thousands of females have been cured of cancer in the breast by the medicating action of Ointment and their lives spared to their families.—The salve follows the cancer in its tortuous winding, and imperceptibly but thoroughly and painlessly eradicates it from the system. The Pills cleanse and purify the blood. Sold by all druggists. —1w je22 d&w

CARD-WRITING.—Mr. J. A. Burton, an adept in ornamental penmanship, has taken quarters in the Post Office, where he shows a beautiful lot of samples of Card-Writing, which excite the admiration of all. He executes an exhaustless variety of pleasing designs with great rapidity and apparently without effort, making what might be considered as quite an elaborate drawing in two or three minutes. We never saw his equal, and he cannot fail to secure orders in abundance.

THE
UNION PACIFIC RAILROAD CO.
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Nebraska, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $25,600 per mile, amounting to $44,268,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a first Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,300,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred millions of dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the last three weeks in May were $153,000. These sectional earnings at the present progress will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts and figures is ample for the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than one-half the cost per mile of road, on which over twenty *million* dollars have already been expended:—on 330 miles of this road the cars are now running, and on 647 miles of road, on which over twenty *million* dollars have already been expended:—on 330 miles of this road the cars are now running, and on the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these Bonds pay an annual interest on the present cost of
Nine Per Cent.
and it is believed that on the completion of the road, the Company can sell its Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail, from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

THE OLD FASHIONED CHOIR.

I have fancied, sometimes, the flesh-bent beam
That trembled to earth in the patriarch's dream,
Was a ladder of Song in the wilderness rent,
From the pillow of stone to the house of the Blest,
And angels descending to dwell with us here,
"Old Hundred," and "Corinth," and "China" and "Mear."

All the hearts are not dead, not under the sod,
That those breaths can blow open to Heaven and God.
Ah, "Silver Street" leads by a bright golden road,
O, it is not the hymns that in haste or the mood—
But those sweet hammered psalms in the old fashioned choir,
To the girls that sang alto—the girls that sang air!

"Let us sing in his praise," the minister said,
All the psalm-books at once fluttered open at "York."
Sunned their dotted wings in the words that he read,
While the leader leaped into the tune just ahead,
And politely picked out the key note with a fork,
And the viscious old viol went growling along,
At the heels of the girls in the rear of the song.

I need not a wing—bid no genii come,
With a wonderful web from Arabian loom.
When the world was in rhythm and life was its rhyme;
Where the streams of the years flowed up noiseless and narrow,
That knew if there floated the song of a sparrow;
For a sprig of green carraway carries me there,
To the old village church and the old village choir.

When clear of the floor my feet s'owly swung,
And timed the sweet praise of the song as they sung.
Till the glory salient from the afternoon sun
Seemed the rafters of gold in God's temple begun!
You may smile at the manals of old Deacon Brown,
Who followed by scent till he run the tune down,
And the dear sister Green, with more goodness than grace,
Rose and fell on the tunes as the stood in her place,
And where "Coronation" exultingly flows,
Tried to reach the high notes on the tips of her toes!

To the land of the leal they went with their song,
Where the choir and the chorus together belong.
O, be lifted, ye Gates! Let me hear them again—
Blessed song, blessed Sabbath, forever, amen!

SEEKING STRAWBERRIES.

BY B. P. SHILLABER.

Deep the joy, in summer weather,
Seeking strawberries together—
Sue, and Jane, and I, and Dick,
'Mong the tangled hassocks thick.

Well the secret haunts we know
Where the biggest berries grow;
Watched them start in blossoms fell,
By the brook within the dell.

Happy, careless girls and boys,
Full of merriment and noise;
Carlo, mad with joy as we,
Sporting round us merrily.

The bobolink, with cherry tone,
Carolled from his swaying throne,
Scarcely moved to see us pass
By his home within the grass;

And the chipmunk on the wall,
Startled by our shout and call,
With rounded eyes looks wildly out
In wonder what 'twas all about.

The breezes blew, and odors sweet,
Crushed up from flowers at our feet,
Gave us a greeting as we sped
To the ruddy strawberry bed.

Blissful days, how near you seem;
Like the pageant of a dream;
A blessed vision faded soon—
Remembrance of a joyous June.

Years have rolled their length away,
Since that pleasant summer day,
When, hidden in their secret nook,
We sought berries by the brook.

Later, wandering far and wide,
Strawberries sought I we every side—
Strawberries evermore our aim—
Strawberries of another name;

Happiness, or fame, or wealth,
Social ties, or place, or health,
But the effort has alloys
Never known to girls and boys.

What was sportive play is toil,
And the hard, reluctant soil
Yields no more the rich excess
Of our early joyousness.

But with hopeful hearts we go
Where diviner berries grow;
Trustful, gathering what we may,
Till our closing summer day.

Then, when pales the golden west,
Will we sink to peaceful rest,
Without murmur, fear or sigh,
Jane, and Sue, and Dick and I.

LATEST FASHIONS.—Under this head the Natchez Courier says, "Black ladies at the gate, sending for the white woman of the house, to know if she don't want to buy blackberries. The fashion can be seen exemplified any day in Natchez."

The same paper gravely informs its readers that "a man has been sent to jail in Providence, R. I., for going to sleep in church."

THE PRINTER'S LITANY.—From want of gold, from wives that scold, by sharpers "sold"—preserve us.

From foppish sneers, mock auctioneers and woman's tears—deliver us.

F om stinging flies, from coal-black eyes, and babies' cries—protect us.

From seedy coats, protested notes, and leaky boots—protect us.

From creaking doors, a wife that snores, and all such bores—defend us.

From shabby hats, and torn cravats, and fiying brick-bats—save us.

From landlords' hand, a greedy band now inefisting our land—preserve us.

From a "solid take," which is our fate sometimes to partake—henceforth deliver us.

From making "pi," which does annoy and temper try—prevent us.

ECHOES.—Of what has heaven given us equal share? Air.

What does a rumor often do when it flies? Lie.

Which is the loveliest flower that grows? Rose.

Whose children are we apt to think the sweetest flowers? Ours.

— Somebody says the ladies' pet animals are West Pointers.

— To remove tan from the face, dissolve a little magnesia in soft water, beat it to a thick mass, spread it on the face and let it remain a minute or two, then wash off with castile soap and rinse with soft water.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Reversed decisions in American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *seven* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART,
Boston, Jan. 1, 1867.—3tawly

VOL. XXXI. PORTSMOUTH, N. H. MONDAY, JULY 15, 1867. No. 12.

The Chronicle.

JAMAICA.—The present Governor of Jamaica, Sir John Peter Grant, is meeting with considerable opposition from the planters, in consequence of his efforts to have justice done to the blacks. Under former governors the complaints of the negroes against the various officials have generally been treated with silent contempt, no matter how well grounded those complaints may have been. Gov. Grant has lately given orders for the prosecution of collectors of dues who have taken illegal fees from the people, and he has signified his intention of instituting strict inquiry into every case where the officials are charged with improper treatment. So marked a change from the conduct of former governors must necessarily produce considerable feeling on the part of those who have been accustomed to regard the black inhabitants of Jamaica as having no rights which white men were bound to respect. The result of Gov. Grant's course thus far is that the large planters are doing all in their power to embarrass the Executive, while the negroes support him and are doing their best to make his administration successful. Additional taxes have been levied to get the treasury of the island into a healthy condition, after the abuses of Gov. Eyre's administration, and the negroes are paying their taxes and are generally giving evidence that they appreciate an administration which is based on the common principles of justice. Such a course as Gov. Grant is taking is new and novel for Jamaica, and he certainly deserves much credit for the moral courage he has shown in endeavoring to correct the abuses that have long characterized the government of that island.

ARRESTS.—Rev. Mr. Willett, City Missonary of Brooklyn, N. Y., states that of the whole number of persons arrested in that city, one-half are taken up apparently for no other purpose than to swell the police returns. Very nearly 75,000 persons are reported as having been arrested last year for drunenkness. This terrible array of numbers represents 400 "revolvers," or "bummers," who are constantly rotoating between the gin-mill and the jail. A rivalry exists, Mr. Willett tells us, between the members of the police force as to which shall make the most arrests, for promotion is likely to depend on it, and the 400 wretched bummers affords them an opportunity of making the coveted reputation of "vigilance."

THE PERILS OF WRITING A CRAMPED HAND.—It is related of Mrs. Loudon, the celebrated botanist, that previous to the publication of one of her important works on the subject of botany, she was very anxious to see and examine some remarkably fine beech trees which grew on a property belonging to the late Duke of Wellington. In order to have this wish gratified, the lady wrote a polite note to the Duke, but as the writing was very indistinct, he read, instead, "I am very anxious to see your famous old breeches;" and the name, C. J. Loudon, he mistook for C. J. Loudon, the signature of the Bishop of London.—"Dear me," exclaimed the Duke, "I must speak to Sir Robert Peel about this; I am afraid that poor old London must be growing foolish. Perhaps," said his Grace, after a moment's pause, "he may mean my Waterloo pair; at all events I'll send them." With this new light on his mind, the "Iron Duke" rang the bell for his valet, and said to him, "I wish you to pack up all the othes I wore at Waterloo and send them to the Bishop of London with this note."

The note ran thus: "Dear London, I cannot understand the earnest wish which you express to see what you call my 'famous old breeches,' but as I suppose you must mean the Waterloo pair, I send them forthwith, and remain, yours truly, Wellington."

Greatly amazed was the Bishop when he received the bundle and the unaccountable communication which accompanied it.—"Well," said he, "this is very, very sad,—the poor old Duke must have gone quite crazy. I must go and talk about it to Sir Robert Peil." And he did go to Sir Robert Peel's, where he met the Duke of Wellington, who had also gone there for the express purpose of speaking about the Bishop.

—A curious trial of strength occurred in Buffalo on Thursday last. There was a dispute as to the relative strenth of two tugs, and it was decided by attaching a strong hawser from the stern of one to the other, and then at a given signal each endeavored to pull the other backwards.—The winning, and of course strongest, tug, dragged the other off captive.

—The Richmond Whig says of the Republican party that "it dominates over the whole North, it rules every department of the Government, it has the army and the navy, and is marked by every trait that defines supremacy. How is it at the South? It has all the colored population, all the original Union men, and is hourly gaining accessions from the Confederate ranks."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray hair to its original color in from TEN TO TWENTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth, and restores it where it has fallen out.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is highly injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never fails, and is perfectly harmless.
Prepared by N. P. SELEE, Melrose, Mass.

Portsmouth, N. H.

MONDAY, JULY 15, 1867.

☞ On Friday evening, at Charlestown, Mass., there was a disturbance in the Warren Division of Sons of Temperance at their regular meeting. After the meeting, just as the assemblage was leaving the hall, one of the "Sons" said something offensive to another, and the latter made a reply to the effect that he would "settle somebody's hash if they didn't mind their own business." The blow was soon struck, and when others interfered to separate them, the fight became general. There were fifty or sixty in the room, among them a number of women, —who tried to break up the fight,—and one of them received a blow which prostrated her, another had her cheek and lip badly cut, another fainted, and two or three rushed into the street crying murder. The fight lasted nearly twenty minutes, during which time one of the combatants drew a knife, and a couple of young men received cuts upon the hands in attempting to take it away from him. Information was sent to the police as soon as possible, and when this fact became known the affray was speedily and voluntarily brought to a close.

[Had this occurred in a bar room, or a street, Uncle Toby would have supposed that most of the actors were drunk. As it is he supposes the Son who was first offended, was not very sober nor true to his pledge:—and he advises the Warren Division to surrender their charter, close their room, and hide themselves. They can do no good hereafter, as an organized body.]

CONGRESS, Friday, July 12.—The Senate devoted the day to debate.

The House passed the day in debate on the amended Senate Reconstruction bill.—A large majority of the Representatives were evidently determined to have a vote, and they forced action on amendment after amendment until the bill was finally perfected and passed by a vote of yeas 113, nays 32. The House then determined to have a night session to appoint a Committee of Conference if necessary.

When the Senate met at half-past seven in the evening, the bill with its amendments was reported from the House. A motion to refer the bill and amendments to the Judiciary Committee was lost by a vote of 13 yeas to 10 nays.

Mr. Edmunds moved to non-concur and to refer the bill, as amended, to a Joint Committee of Conference. Mr. Sumner resisted. Mr. Hendricks opposed the reference, hoping to defeat the bill, but the Senate, by an almost unanimous vote referred the bill. The Committee of Co ference named on the part of the Senate are Messrs. Trumbull, Edmunds and Hendricks.

Meanwhile the House met at 8 o'clock, and after having passed one hour in discussing several unimportant matters, the Reconstruction bill was brought up. On motion of Gov. Boutwell the House insisted on its amendments, and referred the bill to a Committee of Conference. The Speaker named Messrs. Thad. Stevens, Boutwell and Holman.

Mr. Holman moved to suspend the rules, to enable him to introduce a bill providing that the widow, minor children, or parents, in the order named, of any soldier who shall have died after being honorably discharged, shall be entitled to receive additional bounty.

The rules were suspended and the bill read three times and passed unanimously.

Both houses adjourned at half past nine.

AVENGERS.—A New York dispatch of Saturday reads thus:

It is said two fillibustering expeditions to Mexico to avenge Maximilian's death are *rapidly* filling up in this city. Similar organizations are also in progress in Buffalo and New Orleans.

The expedition has been organizing for a long time. At first it was their intention to seize Maximilian in Queretaro and demand a heavy price for him from either Juarez or Austria; but on the news of his execution they changed the scheme to one of vengeance. The ranks are filling up *slowly* however.

[This is a remarkable dispatch, stating at one end that the expedition fills up *rapidly*, and at the other that it fills *slowly*. The fillibusters also are rather remarkable people; first conspiring to *sell* Max, and recently to avenge his death.]

☞ The Biddeford Journal says, a week ago last Tuesday a little son of Mr. Arthur Verril, of Biddeford, aged 7 years, got on board the cars, and the conductor of the train, supposing that he belonged to some of the passengers, carried him to Boston.—The Chief-of-police took him to the city crier's, where he was given a bowl of bread and milk, after which the little chap said he wanted to go home, and ran out of the open door. The police were immediately notified, but the most vigorous search did not find him until the next morning, at an almshouse five miles from the city. During the night he had strayed that distance, and was found by the roadside "dead drunk," some scoundrel having answered the boy's petition for water by plying him with liquor.—He was taken back to Boston and advertised; which advertisement reached the father, who recovered the boy.

Local.

ONE OF THE SONS,—a prodigal, degenerate son of Portsmouth,—has turned up in New Orleans. A late number of the New Orleans Republican contains the following account of him:

Jacob L. Dennett, who was convicted of forgery in the first district court, and who appealed his case to the supreme court, where the conviction was affirmed, finding he has reached the end of the law, has written a curious letter to General Sheridan, which we give below, with the proceedings upon the letter.

Dennett is in the habit of getting into the meshes of the law, and then retaining a lawyer and giving him for a fee a forged check. His conviction was upon a check he forged on Jacob Barker, and with it paid his lawyer, John R. Holland, Esq; but instead of defending him, Holland properly appeared as the prosecuting witness in the forgery case.

The letter is as follows:

"I have been in the Union army seven years, three of which I have been captain in the volunteer army stationed in this city. I am a native of Portsmouth, N. H., and am well known by Brigadier General Totten and Major General Mower, who at one time was colonel of my regiment, the 11th Missouri. I wish on this condition—which I am ready at any time to do, provided I can have my sentence commuted to the parish prison, and not send me to the state prison and ruin me forever—I am willing to expose certain parties in this city and bring them to justice. I would apprise the commanding general that these parties are counterfeiters of the $20 legal tender notes of the United States currency. I will furth er agree to turn up two well executed plates of $50 denomination and a large sum of money, all made in this city. This, General, is hard, to have to expose my friends, but, sir, I must do so in order to save myself from a state prison and so blast my hopes and ruin me forever. I trust, sir, you will send some responsible parson to have an interview with me."

General Sheridan transmitted the same to Governor Flanders, as coming under his executive clemency, by whom it was referred to Attorney General Lynch, by whom it has been returned to the executive office with the annexed indorsement:

"This man is a hardened criminal, a liar, and a forger. I would not believe any statement made by him. I have heard at his trial, proof that he has been in the habit of sending for attorneys to defend him, alleging that he had large sums of money in the hands of different persons, and promising large fees for his defense. His statements in this respect were all false. If Dennett is in possession of information which would tend to the detection and punishment of a gang of counterfeiters, let him disclose that information to the proper authorities, and thereby establish a claim to the clemency he seeks. Then his application could properly be considered. At present I think it would be against the public interest to entertain his proposition. I decline to act in this matter unless Dennett unconditionally discloses to me or some other officer the information referred to in his petition. I have no faith in the truth of his representation that he possesses such information."

To whom this Dennett will next turn in his vain endeavors to be let loose to prey on the community, we are at a loss to conjecture.

☞ We understand that A. J. Stimpson, Esq., late Naval Storrkeeper, has been appointed by the Secretary of the Navy, U. S. Detective for the Navy Yard.

☞ The F. W. Baptist Society of Manchester will take an excursion to the Shoals to-morrow.

☞ A horrible crime occurred in Harrison County, Indiana, on Monday. A man named Kemper, his wife, two daughters and three sons, murdered a man named J. Robey, by hurling stones at him. The murder was brought on by a law suit which resulted adversely to Kemper. All the parties have been arrested except two of the sons, who are still at large.

At Laconia, Ind., two brothers named Kingsley fought each other with weapons until both were fatally injured.

CHINA AND JAPAN.—China correspondence says the last reports of the number and progress of the rebels in the interior were greatly exaggerated. A British man-of-war was dispatched to the Pewlew Islands and her officers beheaded the native King for having put to death an English ship captain trading to his territory.

The citizens of Yokohama, Japan, had repaired the damage sustained by the last great fire. The rice trade continued to entail heavy losses on the speculators.

— The most wonderful labor-saving contrivance is to be the Pennsylvania Agricultural College. The students will be taught farming without learning to work.

— A man who was once on a journey, said he never liked to see the tables covered with books and newspapers where he stopped at night; said he, "I can never find any whisky at such places."

— Through the whole South the earliest vegetables and the first spring chickens are brought into the towns by the freedmen.—"And they save their money to buy them a farm to lead a different life."

— Horace Greeley says that he lost $1200 by the Fawks steam plough failure in Illinois, but he still expresses the belief that within ten years land will be ploughed twenty inches deep at a cost of $1 per acre.

— The Atlanta Era says that "from all the lights before us, we are perfectly satisfied that Georgia will go thirty thousand for Reconstruction, the articles of Ben. H. Hill to the contrary notwithstanding."

☞ "Three cheers for the ladies," called out a gallant volunteer attendant cavalier at a crowded public meeting, who wanted seats for the trio of dear creatures whom he was desirous to serve. The astonished presiding officer, too gallant himself to ask any questions or to cause any delay on such a topic, and at such a moment, responds, "three cheers for the ladies,—are you all ready?"—and the shouts come with a will, till the old hall echoes again. Meanwhile, the ladies have to stand, but presently the *chairs* are brought and all is well.

So we are disposed to give three cheers for the great Furniture House of Haley, Morse & Boyden, of Boston—who (no doubt through the suggestion of our old friend and correspondent, Thomas M. Jackson, who has for some time been in their counting room) a few days since sent us by express what is at once one of the most convenient, elegant and desirable Chairs we ever saw. It just fits us. It is of black walnut, upholstered with green enamelled cloth; has castors, so you can roll it and yourself round anywhere; has a high back, so you can "lay back" at will, and is furnished with spiral springs or hip joints, so a feller can tip himself back a bit, without digging holes in the floor with the posts, or staving the plastering by resting against that, or tipping over backward till his head strikes or he "catches himself," or his feet take the under side of the table in his flight or fright. This chair also has arms on which to rest your arms, and is fitted with a screw like a piano stool, so your can raise or lower the seat.

Take it for all in all, we ne'er have looked upon its like; and the only trouble with it is, like the place we carried it to—it is so attractive that we never want to leave it; and if we don't turn up for business on any occasion, it may be said of us, as Horace Greeley said of his old, worn-out green jacket, "*His jacet,*" or with more exactitude and less ambiguity in our case, "here he sits," for

"In such a frame as this
Our willing soul *would* stay,
And sit"—

The immense establishment of the manufacturers referred to, is advertised in these columns, and their notice will be found to contain mention of a novelty in the upholstery line, as great as our chair is good. Once more we give three cheers for Haley, Morse & Boyden, and may Tom Jackson long continue their prophet (profit.)

DREADFUL INJURIES.—The Laconia Democrat gives a detailed statement of an accident in that place on the morning of 4th by the premature discharge of a cannon, burning and injuring Arthur Smith and Samuel Burnham of West Romney, and badly burning the right hand and wrist of Patrick H. Roan, of L. These parties, with others, were firing a salute, using an old rifled army cannon, and after using it for a time it became foul, and in clearing a cartridge from the gun which would not readily explode, some fire was left in the gun, and in putting in a new cartridge it exploded while Burnham and Smith were engaged in ramming it home. Burnham was blown down the hill fifteen or twenty feet, and his clothes stripped from his body. He was badly burned in the face, (his eyesight being destroyed on the spot,) and both hands, the left side from the lower ribs to the knee. His thumb on the left hand was split of some three inches, and badly mangled. He had 125 square inches on his person burned and blown full of coarse powder. There is no probability of his recovering his sight.

Mr. Smith was burned on the stomach and face, with a compound fracture of the lower jaw, and the protrusion of the end of the broken bone or bones, a bad wound on the side of the throat, and the tongue badly injured. Smith's sight was not destroyed at the time of the accident, but may be from subsequent inflammation.

— Steamer P. S. Bell was capsized in a squall, and 7 persons were drowned in the Waccasnaw river, S. C., July 5, viz: Capt. Garrison, W. L. Daggett and lady, and four negroes.

— A correspondent of the Country Gentleman says that the corn-planting machines in use in Illinois, though operating well when new and on land in good order, are liable to clog and leave the work badly done. An improvement needed by which the driver shall have warning when the kernels cease to fall into the furrow.

— At Chelsea, Mass., Friday, a train over the Eastern Railroad struck a carriage which was crossing the track and completely demolished it; injuring a lady who was in it so badly that she died shortly afterward, and severely injuring a gentleman who was with her.

WE ARE IN THE MIDST OF A REVOLUTION.—No more premature decay of the teeth.—SOZODONT renders them indestructible. Nay, more, it makes the enamel as white as Parian marble, and the breath as odoriferous as "the sweet South breathing o'er banks of violets."—Neither the teeth nor the gums can become diseased, if it is used daily. 9

A NATIONAL BENEFIT.—Perhaps nothing more effectually conduces to the general welfare than the introduction of Pyle's Saleratus, that insures comfort and promotes health. Sold by grocers everywhere, with his name on every package. 10

☞ Physicians recommend SPEER'S Sambuci Wine as the best for females, weakly persons and invalids. Sold by Druggists. 3

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your bread or biscuit yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more bread and biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it. 48

A NOMINATION.—Perley, writing from Washington Friday, says:

"Gen. Grant was nominated for the Presidency in the House to day by W. E. Robinson of Brooklyn, who declared that the General will be elected by the Conservatives, and that the Radicals will attempt to impeach him within three months after his inauguration. If Mr. Robinson had been better acquainted with the political views of Gen. Grant, he never would have intimated that he would accept a Democratic nomination, or be found in opposition to the views of the most radical Union Republicans. The General does not propose to fight it out on a copperhead line."

MEXICO AND HONDURAS.—Vera Cruz correspondence says a sack of that city by the foreign troops, when they were to evacuate, was only prevented by the exertions of the American and British Ministers and their man of-war.

British Honduras correspondence says numerous families from the Southern States had arrived and were settling upon land purchased from the government.

☞ A freight and cattle train near Gardian, Ill., being out of time, ran into a passenger train Thursday night; three men were killed, and many cattle; three passenger cars and the baggage and express cars were burnt.

☞ The Committee of Conference between the two Houses of Congress had not agreed on Saturday at noon.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and wherever who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8dawlm

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man of understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and carry off bile. It likewise purifies the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! As the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a vitiated condition, it must produce jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. Bile in the lungs of the system very often ends in pulmonary consumption

The circulation of the blood is conducted in this manner: The heart sends it through the arteries down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the almost pure blood flows back and through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of sicceration while that important organ, the liver, is diseased. And for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the view through the lungs, and on the basis of which is morphia or opium in some shape, which locks up the liver in-tead of relaxing the secretions, a tone to the whole stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 37 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also by the supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 00 the half dozen. Mandrake Pills 25 cents per box.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered over with phlegm, gross and acid dreg-, indigestible meats, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

The Hon. Demas Barnes says—"I sell more of Brandreth's Pills than of all others put together."

BRANDRETH'S PILLS are Sold by all Druggists, and at the Principal Offices, 241 Broadway, Home, New York. Observe B BRANDRETH in white letters on the government stamp on each box. Je30dawlmepn

☞ The annual exhibition of the Boys' High School took place on Saturday forenoon. The day was most favorable for the occasion, and the spectators experienced little of the discomfort attendant upon the exhibition the day previous. The school-room was decked with flowers, but not so profusely as was the young ladies' school—the greatest ornament being the entire class of young ladies who had graduated the evening before. The exercises were varied and interesting, but we give the programme without comment, except to say that the same regard to thoroughness seems to mark the efforts of the teachers in this school as in the girls' department:

Singing—"I live for those who love me"	
Valedictory Address,	Pray.

The award of Haven Medals was made as follows:

FOURTH CLASS.

Mathematics.—Edwin LaForrest Holbrook.
Latin.—Merit Victor Webster.
Scholarship and Good Conduct.—William Peirce Pray, Frank Wallace Robinson.

THIRD CLASS.

English Composition.—Frank M. Hatch.
Good Conduct.—Joseph N. Odiorne.
Mathematics.—James F. Seuter.

SECOND CLASS.

Application, Deportment and Improvement in all studies pursued.—John Wm. Laws, George W. W. Walker.

The graduating class, nine in number, received their diplomas as follows:

Frank Augustus Colley,
John Haher,
Edwin La Forrest Holbrook,
Charles Moses Lord,
Benjamin Abbott Parker,
William Peirce Pray,
Frank Wallace Robinson,
James Sutton Walley,
Merit Victor Webster.

It was a little surprising that in the singing the boys should have surpassed the girls, but such is the fact. The opening quartet was a very beautiful little piece, and remarkably well executed.

Short addresses were made by Messrs. Stevens, Burroughs, Spalding, Bufford, Berry, Kellogg, Robinson and Penhallow, and some of these gentlemen recalled pleasing and humorous reminiscences of schools in days gone by. The exercises were closed with a benediction by Rev. Dr. Burroughs.

☞ An express messenger, (a native of this place) wrote from Freeport, Ill., to his friends in this city, that recently they had several times a car load of strawberries, and that one farmer has 150 acres devoted to this delicious berry; some of them grow to a great size. He speaks favorably of the crop prospects in that State.

☞ Private George B. Griffith has been appointed hospital steward to Co. I, 3d U. S. Artillery, and ordered to report to the commanding officer at Fort Constitution, for duty.

IN BOARD OF ALDERMEN, on Thursday evening, it was voted to build a reservoir in the Court House yard, to be filled from the South Mill Pond.

The City Marshal's quarterly report of fines, arrests, &c., was accepted.

A communication from Wm. Claggett, relative to the spring at Spring Hill, was accepted and laid on the table.

POLICE COURT, July 11.—Thomas Gray, a marine, for intoxication was fined $3 and $3 86 costs, in default of which he was sent to the House of Correction.

Patrick McGuire for a like offence, received the same sentence. Not being in funds, Patrick was also forwarded to the H. of C.

NAVAL.—Commander James S. Thornton has been detached from duty as inspector of supplies at this naval station, and ordered to duty as equipment officer at this yard.

Second Asst. Engineer Wm. S. Neal has been ordered to special duty connected with the trial of the machinery of the Pascataqua,

ENDURANCE.—Bowling is a fine, healthy exercise, and tends to develope the "muscle"—and it certainly requires some of the latter to roll over four hours without stopping to rest. We learn that four of our citizens, two sheriffs and two shipbuilders, accomplished this feat at Rye Beach on Thursday, rolling thirteen four-handed games in succession. The alleys belong to Mr. G. H. Jenness, and are the finest to be found in this vicinity. "Buggins" is a patron of, as well as contributor to, the press, and advertises in every paper in Rockingham County.

Local.

SARATOGA SPRINGS.—Bureligh says, all parties are now convinced that to have a brisk season many hotels are needed. People don't come to Saratoga for quiet. They want the crowd, the excitement and the fashion. Saratoga, therefore, at present is exceedingly dull, and will be till the new great hotels are in full blast.

Great exertions have been made this year to make the races excel all other seasons. Some twenty horses of fame are already here. One hundred and twenty in all are to take part in the races.

The races are to last six weeks.—Saratoga will be crowded with a class of guests who are not celebrated for their love of water from any spring.

The company at Saratoga is not large but nine out of ten seem to be Jews and Jewesses.

In this place the Hotel of the Lelands is almost entirely occupied by this class of persons, with a sprinkling of Cubans and Italians.

The business of burglary and pocket-picking seems to have been monopolized by the women this season. Several rooms have been entered and valuables taken away, and it has come to light that the rogues are women. They are very expert and bold.

A new Methodist Congregation has started on the Free order. They were too noisy and boisterous for the Old Line Methodists, and have set up for themselves. Their shoutings can be heard for blocks. They wear the plain costume of Quakers, and intend to establish a primitive church in this gay and festive place.

FIRE IN CONCORD.—About 1 o'clock Saturday morning a fire broke out in a shed in the rear of the building next north of the American House. There was a light wind from the northwest. In a few minutes the Main street wing of the hotel was on fire, and in two hours the edifice was burnt to the ground; also about half of the next building (three stories) north, the remainder being nearly ruined. This next building was formerly called the Emmons House. Loss $24,000.

The fire is supposed to be of incendiary origin. At 3 o'clock another was set in a wood closet in City Block, corner of Main and Warren streets.

☞ On Friday morning after the 'Fourth,' Mr. King S. Hill, of Kennebunk, left Biddeford, Me., at half past four in the morning to return home, and when about three miles out in Kennebunk woods, he was accosted by two men in masks, who pinioned his arms and gagged him and then robbed him. No clue has been discovered of the robbers.

—A delegation of New York Democrats, marshalled by Hon. Samuel A. Cox, are at Washington, counselling the Democrats of all parts of the country to unite at once, irrespective of the action of the Conventions, and nominate Gen. Grant for the Presidency.

Holloway's Pills.—Indigestion, Stomach and Liver complaints. The medicines will cure the most confirmed cases of dyspepsia and disorders of the stomach and liver. They have restored more suffering dyspeptics to actual and permanent health than all the other ephemeral "specifics" united. They have stood the test of fifty years' experience. They increase the appetite, invigorate the stomach and purify the liver. In bowel complaints they are equally effectious, and for sick and nervous headache they stand unrivalled. THE

UNION PACIFIC RAILROAD CO.

Are now constructing a railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

Ninety Cents on the Dollar.

This road is already completed to Julesburg, 276 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,256 per mile, amounting to $44,208,990.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,240,000; but the full value of the lands cannot now be realized

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $13,000. These sectional earnings on the road progressing will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and no additional proof they would suggest that the Bonds now offered are less than ten million dollars on 617 miles of road, on which over twenty million dollars have already been expended;—on 320 miles of this road the cars are now running, and the remaining 297 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of Nine Per Cent.

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

A SMALL WARBLER.

BY SAM'L W. DUFFIELD.

We find the following quiet little poem in the Round Table:

A little bird with the blackest eyes
Sits on a twig and nods at me;
Very merry he seems to be,
And wise.

I wish I knew what the fellow thinks,
Saucily shaking his cunning head—
Whether it cannot all be said
By winks.

I wish I were of the craft as well,
Careless of morrows which come too soon,
Hearing the tales a golden noon
Can tell.

For I should tarry among the leaves,
Breathing no other than balmy air,
Seeing my harvest everywhere
In sheaves.

And then I should tax my brain no more,
Think though the snowflakes chose to fall,
Knowing I have beyond them all
A store.

GRANT ON SHERIDAN.—Wilkes' Spirit of the Times gives the following in an account of a recent visit to Washington:

"Gen. Grant, on the occasion referred to, had introduced to the three persons who were present, the subject of Gen. Sheridan's late dispatch in relation to the Attorney General's opinion, and, with a view of justifying its style, explained that it was in the nature of a personal dispatch to him, (not intended as an official response to that opinion,) and consequently not intended for publication. 'Nevertheless,' said the General, 'I read a copy of it in the newspaper before I received the original, and am curious to learn how such a result could have come about.' The General then went on to say that Sheridan's dispatch was almost in the nature of a confidential communication, and that it was characterized by an easy frankness, which was a leading feature of Sheridan's character. He was, consequently, sorry to see that the papers were making such a noise about it; but attributed the fierceness of the attack in Louisiana to the fact that Sheridan was not in any of the 'rings' down there, and that they consequently hated him heartily, and therefore fell upon him all together. Warming with his subject, Gen. Grant further remarked that the public did not thoroughly understand Sheridan. He had popularity enough, it was true; in fact all that a man could desire, but not *appreciation*. He was a much broader man than was generally supposed. He was usually regarded merely as a brave off-hand, downright fighter, with not much calculation, but he was in reality a man of fine judgment, and fully capable of handling, under any circumstances, all the armies the United States ever had together." This was said with great animation, and, after a moment's pause, was repeated with an increased emphasis."

☞ Senator Williams of Oregon recently said in a speech that he believed the ten Southern States would accept the Congressional plan; that before the next Presidential election they would be represented in the Congress of the United States, and at that election in the Electoral college; and that a majority of them would vote with the Union party of the nation for its candidate for President—that invincible Union General, Ulysses S. Grant.

— The Methodist Church South does not accept the situation. The Methodist has the following:—

While Generals Longstreet and Jeff. Thompson, of the rebel army, are advising the people of the South to accept the terms of restoration offered by Congress, the better interest is manifested in the Methodist Episcopal Church, South. We have already cited the recent address of the southern Methodist bishops. The New Orleans Christian Advocate is as bitter as the bishops, and is doing its utmost to keep alive the feeling of hostility to the Government. In speaking of the registration of voters in Louisiana, it says:—"The question of emancipation or slavery sinks into comparative insignificance beside the fact, that the Constitutional Government of the United States has passed away, and, instead thereof, like the beast in Daniel, there emerges from the sea a *United States Empire*."

— Ex-Governor John A. King, of New York, on the Fourth of July, in compliance with the wishes of his friends, consented to deliver an oration at Jamaica, and said: Life is all before you, but old men like me are passing away." Before concluding the remarks which he intended, he was prostrated by a stroke of paralysis. He was at once removed, unconscious, to his home, where he died three days afterwards.

C. A. RICHARDS & CO.'S
CONCENTRATED
EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE
THAT
IT IS NOT
a mere dram-drinking beverage, but a TRUE, GENUINE and SCIENTIFICALLY PREPARED
MEDICINE.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a
MEDICINAL REMEDY,
specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have
TO SAY ABOUT IT,
without any long, high sounding words, such as some doctors use, to mystify and bewilder a patient, until he can begin to tell what ails or ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the
JUICES OF THE GRAIN
combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to
NEW LIFE,
and a restored appetite, and then goes to mak BETTER AND STRONGER
FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs, consequently
CURE IT IF YOU WAN.
when you have a bad cough, to cure it, when you have
CONSUMPTION OF THE LUNGS,
to heal and build them up again. So much for those troubles.
GAIN FLESH AND GROW FAT.

Now, if you want an article to FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will
DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people
GAIN FLESH AND GROW FAT.

The reason for this is the
GRAND SECRET OF THE WHOLE MATTER.
It acts as a
STIMULATING FOOD
to the body, and helps Nature
THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by selling to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey over spring, fountain or distilled water, is the use of that of which Extract of Rye is *en truly compound.*

This, then, is the whole story. EXTRACT OF RYE will do you more good at once by feeding the system with a
STIMULATING FOOD,
and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold as a foolish fancy price, but offered at a reasonable cost to rich and poor.

UP IN THE BARN.

Old Farmer Joe steps through the doors,
As wide to him as gates of Thebes;
And thoughtful walks about the floors
Whereon are piled his winter stores,
And counts the profits of his glebes.
Ten tons of timothy up there,
And four of clover in the bay;
Red top that's cut, well, middlin' fair,
An' bins of roots, oblong and square,
To help eke out the crops of hay.
A dozen head of cattle stand
Reflective in the leaf-strewn yard;
And stalks are stacked on every hand,
The latest offering of the land
To labor long maintained and hard.
Cartloads of pumpkins yonder lie—
The horse is feeding in his stall,
The oats are bundled scaffold high,
And peas and beans are heaped hard by,
As if there were some festival.
At length Old Farmer Joe sits down—
A patch across each of his knees;
He crowns his hat back on his crown,
Then wipes his hands—so hard and brown—
And like a farmer takes his ease.
"How fast the years do go!
It seems, in fact, but yesterday,
That in this very barn, we three—
David, Ezekiel and me—
Pitched in the summer loads of hay!
David—he sails his clipper now;
And Ezekiel died in Mexico—
Some one must stay and ride to plow,
Get up the horse and milk the cow—
And who, of course, but little Joe.
I *might* have been—I can't tell what!
Who knows about it till he tries?
I might have been the richest spot
Where money is more easy got—
Perhaps beneath Pacific skies.
I *might* have preached like Parson Jones;
Or got a living at the law;
I might have gone to Congress, sure;
I might have kept a Water Cure;
I *might* have gone and been—oh, pshaw!
Far better is it as it is;
What future waits him, no man knows.
What he has *got*, that *sure* is his;
It makes no odds if Locke *have* viz,
Or politicians come to blows.
Content is rich and something more—
I think I'd heard somebody say;
If it does rain, it's apt to pour;
And I am rich on the barn floor,
Where all is mine that I can raise.
I've plowed and mowed this dear old farm,
Till not a rod but what I know;
I've kept the old folks snug and warm—
And lived without a twinge of harm—
I don't care how the storm might blow.
And on this same old farm I'll stay,
And raise my cattle and my corn;
Here shall these hairs turn wholly gray;
These feet shall never learn to stray;
But I will die where I was born."
And Farmer Joe pulled down his hat,
And stood upon his feet once more;
He would not argue after that,
But, like a born aristocrat,
Kept on his walk about the floor.

—*Thomas Lackland.*

TEXAS MANUFACTURES.—The Houston correspondent of the New Orleans Picayune says:

The Eureka Mills in this city are now turning out 1200 yards a day of splendid 7 1-4 oz. osnaburgs, which they are selling by the bale at 17 cents, gold. Their domestics, 34-inch, of fine quality, almost up to 10 Stato A, they sell at 16 1-2 cents, currency. They have demonstrated that they can, on all heavy goods, make a good profit and undersell the New England factories. Labor is about the same as in New England, living is cheaper, and cotton costs six cents less per pound here than there, to say nothing of the cost of getting the goods back. It will be wonderful if a little more demonstration of this sort does not turn us into a manufacturing people. Indeed, the Eureka Mills are now increasing their productive capacity to 2000 yards per day. The Concordia Mills, at Hempstead, are turning out considerable cloth. The City Mills, of Houston, now nearly erected, will by next January produce 3000 yards per day. The Star State Mills at Huntsville, are producing about that now.

ROME.—The foreign papers contain accounts of the gathering of the Catholic clergy at Rome preparatory to the celebration of the eighteenth centenary of St. Peter. On one day the steamers from Marseilles are said to have landed 3000 priests, 40 bishops and a cardinal, besides 300 lay catholics. The Spanish episcopate arrived in a frigate bearing a cross at her masthead. The English, American and Mexican prelates were in strong force. But the glories of all, in the opinion of the Italian spectators, paled before the representatives of the Oriental churches, the Greeks, Syrians, Maronites, &c., "whose magnificence and strangeness of attire, dark complexions and flowing beards" are said to have excited astonishment wherever they went.

—"No ke" is appended to marriage notices in Kansas.

— When James I heard that Ben Johnson was living in great poverty in an obscure place in London, he sent the poet £10 to relieve his necessities. Some of the courtiers remarking on the smallness of the dole, the king said it was enough "for a man who lived in an alley."

— Robert B. Toombs, who carried Georgia into the rebellion, writes a letter announcing his determination to do all in his power to reorganize the Democratic party in his State. He adds: "I regret nothing in the past but the *dead* and the *future*, and I am ready to use the *best means* I can command to *establish the principles for which we fought.*"

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
IT KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

TUESDAY, JULY 16, 1867.

HARDSHIPS OF POLICEMEN.—In Boston, at 1 o'clock last Sunday morning, Officer Richardson of the 1st Police was called to No. 23 North Margin street to quell a disturbance, and on entering found himself in a chamber where were twelve or fifteen persons of both sexes engaged in a general drunken fight. As soon as Mr. Richardson made his appearance, the attention of the belligerents was directed toward him, and numbers overpowered him for the time being, and during the affair some of the party succeeded in throwing him backward across a bedstead rail and wrenching his billy from him. They beat him most unmercifully over the head and face with the billy and with their fists, besides jumping on his body when he was prostrate. Notwithstanding, Richardson succeeded in freeing himself from the crowd, and took two of them, Michael Doyle and Mary McKenny to to the Station, where he was the first to make known the facts. These two miscreants were locked up; and Richardson, being very badly hurt, was taken to his home in a carriage.

Several officers were detached early in the morning to pick up the rest of the assaulters, but not finding them in that particular tenement, they visited an adjacent habitation, and found eight of them huddled together in a small room, prepared to make resistance—which they found was useless. The officers, without ceremony, seized seven men and a woman, bearing Irish names, and took them to the station, where they were locked up to await further investigation. One or two of these are the same who, in 1863, were sentenced to ten years hard labor in the State Prison as participants in the "Draft riot" of that year, and have the unenviable name of being rough customers.

We remember a case in this city some years ago, where a police officer was called in to interfere with two men of the above class, who were fighting in a room; but when he went in both attacked him, and to save himself he had to knock one of them down with his billy. For this he was arrested, and by Dogbery justice was sentenced to imprisonment.

Our advice was then, and is now, to policemen, when such a set are fighting one another in a room, let them fight it out, and the next day, or after they have got through with their fight, arrest all that are left alive, or worth arresting. One decent person's life is worth a dozen of such.

MEXICO.—The Emperor of Brazil wishes to enlist in his army as many French and Austrian soldiers as he can, from the late Imperial army of Mexico. Quite a number of them have enlisted with the Liberals, including a very fine musical band. The Liberal government declare void all land grants, concessions, &c., granted by the empire. All foreign representatives except the American Consuls are leaving. The French Minister is not yet suffered to leave.

It is also stated that the letter or proclamation purporting to have been issued by Escobedo against forigners is a forgery.

☞ On Sunday in Philadelphia, the Germans in attendance on the Sangerfest spent the day in recreation. The excise law was partially suspended. In the German quarters, lager beer and wine were to be had in profusion, and the National Guard Hall was opened after 9 o'clock.

Nearly 40,000 persons visited the Hall during the day, and there five or six excursions of the Philadelphia societies in honor of their guests. The mayor and police promised not to interfere with the Sangerfest, even on Sunday.

FROM BUENOS AYRES.—New York, July 15.—Buenos Ayres dates to May 27th state that the Cholera has disappeared, and restrictions imposed on commerce have been removed. In forty days the epidemic carried off 16,000 persons.

Gen. Asboth, U. S. Minister, is dangerously ill.

The feeling in favor of peace with Paraguay is rapidly becoming universal.

MILITARY CHANGES.—A Washington dispatch says that the President has been considering the expediency of removing General Thomas from the command in Tennessee, and putting General Rousseau in his place. The plan looks to superseding General Sheridan by General Thomas, and it has been so seriously discussed as to occasion a letter of protest from General Thomas. Secretary Stanton and General Grant previously opposed both changes.

— A few of the merchants of New York, whose enormous store expenses and extended business relations have carried them beyond the bounds of financial prudence, are unable to meet their engagements, and stoppages have consequently taken place. A large importing house suspended payment Wednesday.

— The Bangor Times says that at a running match at Houlton, on the 4th between two horses, the leading horse fell and broke his rider's arm. The other horse, unable to turn or clear himself, fell on the prostrate horse and his rider, breaking the latter's leg and crushing him so that it is thought he will not recover. The driver of the second horse also had his arm broken and suffered other injuries.

NEW HAMPSHIRE ITEMS.

—— In the upper part of this state, the storekeepers pay farmers 17 cts. per pound for excellent butter.

——Last Sunday, at Bradford, Mrs. Helen M. Cheney was thrown from a carriage while going to church, and instantly killed.

IN THE U. S. SENATE, Saturday, the Conference Committee reported the Reconstruction bill, which passed, 31 against 6. [This is nearly the same as the Senate bill.]

Mr. Sumner moved to suspend the rule of Friday, that he might call up his Universal Suffrage bill.

The motion was ruled out of order, as it could not be made without a day's notice.

Mr. Sumner gave such notice for Monday.

The House bill making appropriation for carrying out the Reconstruction measures was read twice and ordered to be printed.

Mr. Thayer introduced a bill for the permanent location of the Indian tribes in a territory to be set apart therefor between Missouri River and the Rocky Mountains. Ordered to be printed.

In the House, the select committee on the treatment of Union prisoners of war was authorised to sit at such places as it may deem proper.

Mr. Munger moved suspension of the rules to offer a resolution extending the inquiries of that Committee to the treatment of rebel prisoners of war, the cause of the suspension of the cartel of exchange, etc.

A debate took place. Mr. Butler courted investigation as one of those who were engaged in the negotiations for the exchange of prisoners during the war. The House refused to suspend.

Mr. Washburn of Wisconsin asked leave to offer a preamble and resolution expressing belief that the Rebel prisoners of the United States were in no instance treated otherwise than with kindness and humanity, and that this House will entertain no resolution which implies to the contrary, unless accompanied by a responsible charge that they were treated otherwise.

Mr. Eldredge objected; but the House suspended the rules and passed Mr. Washburn's resolution, 108 to 16.

Mr. Stevens presented the report of the Conference Committee on the Reconstruction bill, which was agreed to, and an appropriation to carry out the bill, (of $1,675,000,) was introduced and passed.

NEW BOOKS.—Orange Judd & Co. usually send us something practical in the book line. We have now before us two of their new books. One entitled, "Squashes. How to grow them. A pratical treatise on Squash Culture. By James J. H. Gregory, Marblehead, Mass." This is only a 30 cent book, but contains valuable hints and suggestions.

The other is a handsome, bound volume of 244 pages, price $1.50, entitled, "Draining for Profit, and Draining for Health. By Geo. E. Waring, Jr., Engineer of the Drainage of the Central Park, New York. Illustrated." It is a carefully written, well digested work, in eleven chapters, showing why lands should be drained; the manner of making drains; how to take care of them; tools for draining, and how to make tiles; and at the the close, Reclaiming Salt Marshes; Malarial Diseases; and House Drainage and Town Sewerage, in their relations to the public health. These latter chapters should be read by every city officer, and might be read to advantage by every intelligent citizen.

Both books are sold in this city by J. H. Foster.

☞ Broughton & Wyman, Publishers, New York city, announce a valuable forthcoming work, in one large octavo volume, entitled The History of the Great Revpublic, from the Discovery of America to the present time; its Colonization, Independence, Development, Emancipation and future mission, considered from a Christian stand-point; by Jesse T. Beck, D. D. With twenty-seven fine steel portraits. Sold by subscription only.

The design is manifest from the title, and the execution is favorably noticed by scholars who have examined the manuscript.

☞ Messrs. Beal & Hooper, the great manufacturers of furniture, whose extensive and well-filled wholesale and retail warerooms are on Haymarket Square, Boston, have opened a branch house in New York, at No. 460 Pearl Street. Their manufactories are at Charlestown, Mass.

☞ The Boston Herald states that Rev. Rowland Connor, the junior pastor of the School street Church, has resigned, in accordance with a vote of two-thirds of the proprietors.

☞ Demorest's Monthly for August is promptly at hand, in all its charming completeness. $3 a year. For sale by J. H. Foster and Batchelder & Co.

☞ The Lady's Friend for August is received from Deacon & Peterson, publishers, Philadelphia. For $2.50 a year they furnish an excellent magazine for the ladies.

☞ The Journal de St. Petersberg alludes to the Russian note in regard to Ireland, which was published last week in the English papers, and pronounces it a sheer fabrication.

☞ A large sale of Army clothing and equipage is advertised to commence in Boston this day.

— C. F. Meister, a well-known watchmaker of St. Louis, drowned himself on the 9th inst. For a long time he had been laboring to invent or construct a clock that should immortalize his name and win the admiration of mankind. This desire so fastened itself upon his mind that he became partially insane.

SANTA ANNA.—It is said at Washington (probably by those who have an interest in the price of gold) that Santa Anna is to be fully protected by this Government in his mission to Mexico, and any refusal to surrender him on board the Susquehanna will make matters rather disagreeable for Juarez. *Per contra*, Sec. Seward officially declares that the Virginia was not in government employ, that Santa Anna was using false pretences, and that he landed voluntarily, against the protest of the Capt. of the Virginia.

The latest reliable advices from Santa Anna are that he had applied to his financial agents at Havana to raise funds for his ransom, which he hoped to effect. It is not thought at Washington that he has been shot, as has been reported.

PERSONS ABOUT TO TRAVEL ABROAD are interested in the announcement made in our advertising columns to-day by the Bank of the Metropolis, in regard to funds on the other side of the Atlantic. This institution, at No. 39 State street, Boston, has made arrangements with the leading banking houses in the chief cities of Europe, Asia and Africa, to honor their circular letters of credit. This arrangement will not only be found cheaper, but more convenient, than the usual methods of obtaining credit and funds abroad. These advantages are fully set forth in their advertisement, to which special attention is directed.

SHOE BUSINESS.—There have been several shoe buyers in town during the week, but they come rather to price goods than to buy much, and sales have been made to only a limited amount. The present prospect is that shoes will be higher rather than lower. The price of stock and wages are stiff, and there is little prospect of either falling much at present. The sales for June were unusually small, amounting to but about $183,817; the corresponding month last year, $188,708. Indications are that there will be a good trade this fall, although it would be impolitic to get a large stock of goods on hand.—*Haverhill Gazette.*

TARDY JUSTICE.—At its present session the Connecticut Legislature has found time to attend to the petition, presented regularly for fifteen years, of Henry M. Manasseh, who has been confined in the State Prison since 1851, on a charge of murdering Barney White at Colebrook, and has granted him pardon. The real murderer of White died many years ago, and on his death bed confessed that he had testified falsely against Manasseh to save his own neck, but for some reason Manasseh's petition has always before been rejected, and only now, when an old broken down man, is he permitted again to enter the world.

SLAVERY EMANCIPATION IN BRAZIL. The emancipation movement has gone so far in Brazil that the Emperor Don Pedro II., in his recent speech at the opening of the Brazilian Chambers, gave utterance to the following sentence: "The servile element of the Empire cannot fail to merit opportunely your consideration, acting in a manner to care for the *high interests attached to emancipation*, by respecting actual property, and without giving a profound shock to our main source of industry, agriculture."

☞ It is reported that Mr. Boutwell, in view of certain questions which have arisen in the impeachment investigation, a short time since addressed a letter to Mr. Bishop, the eminent writer on commercial law, asking:—First, whether, in his opinion, an indictable offense or positive statute law is necessary to the impeachment of a civil officer; and second, whether a civil officer can plead that in violating law he was acting for the public good, as a bar to impeachment. Mr. Bishop has returned an opinion in which he stoutly maintains the negative of all these propositions.

☞ On Saturday, at Paris, the corner stone of the new Protestant church for the accommodation of American residents and visitors in this grand capital, was laid, in the presence of a large concourse of spectators. At the conclusion of the ceremony the United States Consul at Paris, John C. Nicolay, Esq., gave a dinner at which all the principal American citizens now there and several eminent European friends of the United States were present. In the evening there was a tasteful display of fireworks in honor of the occasion.

☞ One hundred ships were lost in the White Sea by the breaking up of the ice. Orders have been despatched from the British Foreign Office to the Consuls at Copenhagen and Stockholm, and to St. Petersburg, with instructions to put themselves in communication with the government authorities of Sweden and other places northward in order that all immediate assistance should be sent to the shipwrecked crews.

WE ARE IN THE MIDST OF A REVOLUTION—No more premature decay of the teeth.—Sozodont renders them indestructible. Nay, more, it makes the enamel as white as Parian marble, and the breath as odoriferous as the sweet South breathing o'er banks of violets.—Neither the teeth nor the gums can become diseased, if it is used daily. 9

A NATIONAL BENEFIT.—Perhaps nothing more effectually conduces to the general welfare than the introduction of Pyle's Saleratus, that insures comfort and promotes health. Sold by grocers everywhere, with his name on every package. 10

☞ Physicians recommend SPERR'S Sambuci Wine as the best for females, weakly persons and invalids. Sold by Druggists. 2

— It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light biscuits as that article always makes. If any one has any doubts on that subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it. 49

Communication.

PUBLIC ROBBERY.—The Independent Democrat and the N. H. Patriot unite in the opinion that but a few of the members of our present Legislature are qualified to discharge the responsible duties of Legislators. That body is altogether too numerous, and is fast increasing under the present ratio allowing 160 voters to elect a Representative.

It appears that the present Legislature has established a salary for the members, and in violation of a law of long standing fixing the pay of each member at $2 per day, has taken out of the public treasury about TWENTY THOUSAND dollars! The members who voted for, or sanctioned this outrage, or in other words, robbery, ought never to be re-elected. They already begin to feel the public indignation. It is pretty clear that the members who took more pay than the old law allows, are liable to suits by the State to recover the surplus money back. A JURIST.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will do no hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions: and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8dawlm

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from the system. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause disorder, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a sick and miserable man, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries, and the veins return it to the heart. If any of the impurities in its progress; then the stream of blood flows backward through the veins, and passes by the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is deranged. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough remedy, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, gives a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A voyage would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 38 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. IMPORTANT FOR INVALIDS.—The weakness of the stomach and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered up with pepsine, gross and acid drugs, indigestible meals, offensive drinks, or other matters which remaining too long assume a disordering quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and regulate the blood, and should be used by those who, having lost, are in pursuit of health.

POLICE COURT, July 15.—Timothy Regan, for brawl and tumult, was fined $3 and $3.86 costs.

Catharine Regan, for brawl and tumult, was fined $3 and $3.86 costs.

A complaint against S. A. Avery, agent, for continuing a billiard room without license, was dismissed.

A complaint was also made against said Avery, for violation of the Sunday ordinance in keeping open his saloon on that day. He was sentenced to pay a fine of $10 and $5.40 costs, from which he appealed, and gave bonds in $30 for the prosecution of his appeal at the October term of the Supreme Judicial Court.

[Mr. Avery is now keeping a small hotel, the Piscataqua House, of which his saloon is but one room; and we cannot see why he should not be allowed to keep open, the same as other hotels.—Ed. Chron.]

☞ The regular advertised price of the Daily Chronicle is $12 per year,—and of the Weekly N. H. Gazette $3 per year; and we will not settle at the *advance* prices of $8 and $2, unless the subscriptions are actually paid in advance, or at least when bills are sent. Will all concerned please take notice of this? Who ever heard of a bank or broker allowing a discount for terms which were not complied with?

☞ The desirable residence of Mr. J. H. Head is advertised at auction next Saturday. Also other valuable real estate, tomorrow.

☞ The movement among the whites of Virginia to organize a Republican party continues to be pushed with vigor. A meeting was held in Buckingham on the 8th, participated in by several prominent "Confederates," which approved the call of the coming Republican State Convention. The Richmond Whig says: "The Albemarle fever is *contagious*, and threatens to become an epidemic." It adds:

"It must now be manifest to every reflecting man that the Republican party will carry Virginia; that it will have the Convention; that it will frame the Constitution, and elect the State officers and the Representatives in Congress, and that no opposition of ours can avail against it."

☞ At Lancaster, Pa., last Saturday, the boilers of the Fulton Cotton Mill exploded early in the morning. One of the boilers was thrown into the mill and the other carried over the square. The north end of the building was demolished. David Hatch, the engineer, was found dead. The body of an operative, Valentine Myers, was taken out of the ruins crushed and mangled. Superintendent Plumber was mortally wounded, and has since died. Several male and female operatives were scalded.

GOLD, Monday, 139 1-4.

— The discovery of a volcano in the Cedar Mountain of Colorado is reported.—A volume of steam about three feet in diameter issues from its crater.

— Major Rathbone, a son of ex-Senator Ira Harris' present wife by her first husband, and a daughter of Mr. Harris by his first wife, were married last week at Albany.

— Several students of the Wesleyan University at Middletown, Conn., were expelled for riotous proceedings about the college buildings and campus on the night of the Fourth.

— Among the jewels in the Swiss department of the French Exposition is a very handsome beetle, with diamond eyes, enameled wings, glittering with precious gems. You touch a spring and he raises his wing sheath and shows a watch, possibly half an inch across.

— A dissatisfied couple in Cleveland, Ohio, quarreled the other day, when the husband converted his property into cash, intending to separate altogether and leave the city the next day. He deposited $4500 between the cloth and lining of his vest, where his wife found it in the night. She substituted an old almanac and they next day took different trains, he going to Toledo in blissful ignorance of his loss, and she to her friends in Indiana with the money.

— Butter sold at St. Albans on Tuesday at twenty-five cents per pound, choice lots bringing twenty-six and a half cents.

— The Washburnes have already commenced to build a new homestead on the site of the one recently burned at Livermore, Me.

— Maximilian's last order to Europe was for 2000 nightingales, to be purchased in the Tyrol, and sent to Mexico.

— It is said that Lopez, who traitorously surrendered Queretaro, Mexico, to the Liberals, was assassinated afterward, and his blood-money taken by the assassins.

— Aaron Sweet, the negro candidate for Congress in the Cheraw (S. C.) district is prosecuting his canvass with great vigor, and is quite confident of success.

— A lad in Toumeytown, Conn., strayed away with a militia company on the Fourth, and wandered in the woods for five days, living on green whortleberries. He was dreadfully emaciated when found.

— The Springfield Republican says a telegram has been received in North Adams announcing that Rev. S M. Merrill, recently reported drowned in Plattsburg, N Y., has been seen and recognized at Detroit.

— In New York fourteen buildings were set on fire by crackers and fireworks on the Fourth, and in Philadelphia twenty buildings were set on fire by the burning of fireworks and the discharge of pistols on the same day.

— The Republicans of Maryland, without distinction of color, have signed a memorial earnestly praying Congress at its present session to pass a bill abolishing all distinction in suffrage on account of race or color throughout the Union.

— A Washington dispatch says that Attorney General Stanbery has sworn before the Impeachment Committee, that he did not write the veto of the reconstruction bill last spring. It was written by Black.—Stanbery wrote one, but the President rejected it because it was so mild.

— A Committee appointed by the Connecticut Legislature to investigate the accounts of Gabriel J. Coite, the State Treasurer last year, who was charged with having realized $100,000 from unlawful commissions in the sale of State bonds, have made up their report and entirely vindicate him. His accounts are straight, but they were improperly audited, which probably led to the unpleasant rumors concerning him.

Holloway's Pills.—Indigestion. Stomach and Liver complaints. The medicines will cure the most confirmed cases of dyspepsia and disorders of the stomach and liver. They have restored more suffering dyspeptics to actual and permanent health than all the other ephemeral "specifics" sold. They have stood the test of fifty years' experience. They increase the appetite, invigorate the stomach and purify the liver. In bowel complaints they are of almost miraculous efficacy, and for sick and nervous headache they stand unrivalled. THE

UNION PACIFIC RAILROAD CO.

Are now constructing a railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

Ninety Cents on the Dollar.

This road is already completed to Julesburg, 276 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, with the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,035 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,200 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $81,848,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not probable more than twenty-five millions more must will be required.

The cost of the road is estimated by competent engineers to be about one hundred mill on dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the last two weeks in May were $1-3,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty millions of dollars have already been expended;—on 339 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of the road of about

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and reserve the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 32 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

A Column From the Portsmouth Journal.

LEGISLATIVE COMPENSATION.

One act of our Legislature should receive the condemnation of every citizen in the State—that resolution by which they increased their own pay to double the amount allowed by the statute.

The wording of the Constitution was evidently intended to have the compensation of members of the Senate and House so regulated, that, while they had power to fix the pay of a future year, they had no power to fix the pay of a future year, they were to be "compensated for their services by a *law made* for that purpose." It does not say by a law they may make, but it is by a law already made that they are to be compensated. Without such restriction, the members of the General Court may vote themselves twenty or fifty dollars a day, resist the Governor's veto, and bear away their prize.

It is rather surprising that the yeas and nays were not taken on the question, that those who acted uprightly in the matter might have left their record. It is but a matter of justice that the State Treasurer should publish the names of those who refused to take more than the statute allows. It is a poor excuse for those who opposed the pillage of the State Treasury from principle, to afterwards argue, "as you are determined to steal the apples, I may as well come in for my share."

Gov. Harriman justly rebukes the proceeding in the following terms:—

I have signed all the Acts and Resolutions which have been presented to me for my approval and signature, but have approved, with reluctance, the Joint Resolution fixing the compensation of members of the Legislature and Executive Council.

Did I not believe that a disapproval would cause the reassembling of the Legislature next week, I should deem it to be my duty to withhold my approval on the grounds following, namely:

1. Because it provides a rate of compensation greater by nearly one hundred per cent. than is provided in sections 18, 19 and 20 of chapter 244 of the Compiled Statutes, and greater by twenty per cent. than has ever been paid to the members and officers of the General Court and Executive Council.

2. Because the duration and labors of the session have not been of that unusual and extraordinary character which demand extraordinary compensation, involving an additional expense to the State of nearly twenty thousand dollars.

3. Because such compensation as is provided for in this Resolution is inconsistent with the policy of retrenchment and economy which the Legislature, as well as the Executive, had hitherto commended and exacted.

4. Because the burdens of taxation which weigh so heavily on all our people should be mitigated rather than aggravated by their servants, when the exigency which created those burdens has passed.

5. Because the compensation which is fixed in excess of the rate which you have provided for the compensation of future Legislatures in the "Act revising and consolidating the General Statutes of the State."

CITY GARDENS.—Portsmouth has several extensive and well cultivated gardens, which are not only a treasure to those who own them, but also to those who are favored with an opportunity to visit them. We might speak of those of the Havens, the Ladds, the Joneses, &c. but will refer only to the last into which we have looked, that of Rev. Dr. Burroughs, covering about two acres. It was formerly the property of Gov. Langdon, who on the south side of the garden had a canal for floating a gondola, from the dock to his wood house. Since owned by its present occupant that canal has been filled up, and is now in a high state of cultivation. In the centre of the garden is an arched walk of nearly a hundred feet covered with grape vines—and the fine disposition of the choice fruit-trees, rose-bushes, shrubbery, flowers, and the desirable family vegetables, gives an idea of how much beauty nature is capable of affording, when aided by a nurturing hand, and gives some force to the old remark, that "he who causes two blades of grass to grow where one grew before, does more for the world than the whole race of philosophers," &c. The improvement made by the new iron fence in front of the mansion, makes *Pleasant* street still more worthy of the name.

The opening of an avenue from the front of the house to the pond, and a foot-bridge to the future common, will make Dr. Burroughs' seat the pleasantest in the city.

STRAWBERRIES have been very abundant this season, and have maintained good prices, averaging 30 cents per box. We know of no garden in the city that has yielded better for its size than that of Mr. Francis W. Ham. He has sold about $50 worth, over 175 boxes, besides supplying his own family during the season. In the right localities and with proper attention their culture pays well.

THE LINDEN.—This beatiful tree is now in full bloom. The best specimen in Portsmouth is on the Gardner premises, near the corner of Mechanic and Hunking streets. They may also be seen in Linden avenue, near Jaffrey place, Daniel street, They may also be found in several other localities.

MOCKING BIRDS.—The largest collection of these choice birds ever offered in Boston is now for sale at the Natural History Store of Charles G. Brewster, 16 Tremont-street.

TUFT'S COLLEGE.—The degree of D. D. was conferred on Rev. Elbridge G. Brooks of New York city, and that of A. M. on Timothy G. Seyter, Principal of Dean Academy, Franklin, Mass. They are both natives of Portsmouth.

C. A. RICHARDS & CO.'S
CONCENTRATED
EXTRACT OF RYE.
THE Proprietors of this popular article, finding it necessary to make a wrong impression from the public mind regarding the real merits which they claim for it,
WOULD ONCE AGAIN ANNOUNCE
THAT IT IS NOT
a mere dram-drinking beverage, but a PURE, GENUINE and SCIENTIFICALLY PREPARED
MEDICINE.
It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a
MEDICINAL REMEDY,
specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have
TO SAY ABOUT IT,
without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can begin to tell what does not ail him. We simply say that "C. A. RICHARDS' EXTRACT OF RYE" is nothing but the
JUICES OF THE GRAIN
combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to
NEW LIFE,
and a restored appetite, and then goes to make BETTER AND STRONGER
FLESH AND BLOOD.
One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and lettening effects to the lungs; consequently
IT IS WHAT YOU WANT,
when you have a bad cough, to cure it, when you have
CONSUMPTION OF THE LUNGS,
to heal and build them up again. So much for those troubles.
Now, if you want an article to FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will
DO THE WORK.
We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people
GAIN FLESH AND GROW FAT.
The reason for this is the
GRAND SECRET OF THE WHOLE MATTER.
It contains
STIMULATING FOOD
to the body, and helps Nature
THROW OFF DISEASE.
How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity of fusel oil that of which Extract of Rye is *entirely composed.* This, then, is the whole story. EXTRACT OF RYE, will cause you to throw off disease by feeding the system with a
STIMULATING FOOD,
and will build up and restore the powers of mind and body, while you become fat and happy.
It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

No. 78 State street (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers for the procuring of Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided in *his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a person of more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.
EDMUND BURKE,
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications in all, but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges JOHN TAGHART."

The Chronicle.

LOVERS IN A CELLAR—RECONCILIATION AND MARRIAGE.—He usually quiet town of Burnside has been considerably disturbed during the past few days, owing to a little matter of love and romance which not unfrequently stirs up communities when unwilling parents seek to dictate terms to love smitten daughters or attentive wooers. It appears that in this rural retreat lives a lass of fair form and comely face, whose charms have attracted the liveliest admiration of a young man living in the city of New York.

He has pressed his suit with unrelenting persistency, and it was not strange that the object of his affections should at last relent and speak the kind word he was dying to hear. But the course of true love never does run smooth, or words to that effect; and that this courtship should be no exception to the general rule, the "old man" poked his nose into the affairs of the happy couple, and thus stirred up the disturbance aforesaid.

Precisely what the difficulty was it matters not. Certain it is that the parient talked loud and in a manner which didn't exactly please the young love makers, whereupon, one fine day recently, the daughter suddenly disappeared, and the New York lad was also among the missing. This was a conundrum the old man could not answer, but he wasn't inclined to give it up, and so aroused the neighborhood to his assistance. Scouting parties were sent out, and at last it was believed the hiding place of the truant lovers had been discovered.

It was confidently asserted by one of the special police that he had positive information they were domiciled in the house of a respectable citizen. This led to a visit by interested parties to the house in question, but the inmates sweepingly declared that they had not seen the runaways. The story was not credited, however, and the next step taken was to have a legal process issued by which the premises could be searched.

Fortified with this, the two valient heroes started on their mission, and went through every nook and corner. At last they were rewarded with success. Down in the cellar, seated behind two barrels of apples, and shielded by wash tubs and other furniture, were the happy pair, inocently enjoying the repose which their escape from an enraged parent afforded.

The girl was at once restored to the paternal mansion, and the young man was held on the charge of seduction; but a few hours after, he had compromised with the old chap by some marvelous means, and it is now said that the heart of the father has relented, and he gives cordial assent to the matrimonial noose which was fastened around the necks of the rural lass and the city beau on Wednesday afternoon. Such is life. The latest news from Burnside is—"All quiet on the Pequonnock."—*Hartford Post.*

MODEL COMPOSITION. — The Essex Statesman says a boy in South Danvers wrote the following composition upon his native town:

"South Danvers is in the United States. It is bounded by Salem and reaches to Middleton. Its principal river is Goldthwaite's brook, which empties into Salem Harbor. Its principal lake is the mill pond, which is dry in the summer. Its principal productions are leather, onions, the South Church and George Peabody. South Danvers has many religious sects, among which are the Orthodox, who worship their minister; the Spiritualists, who worship everything, and the Unitarians, who worship nothing."

TRAINING THE TOMATO.—It does not pay to let the tomato vines trail on the ground.—The fruit decays and don't ripen. Brush, cuttins and planted poles make a pretty good rover, is a clean, cheap and excellent support. The vines may be tied to a single stake if pains are taken to pinch off the side branches and lead up a central shoot. This is a French method, and is said to be successful. Trellises of various forms will suggest themselves to every tomato grower. A pile of stone laid around the plant would be excellent, for it would keep the fruit and also radiate a good deal of heat to the plant. The tomato is a native of torrid climes and requires heat. The stone-pile would admit of the plant taking a natural growth. Grass, straw, or boards will answer—at any rate something under the vines to preserve the fruit. A small shrub, having many limbs, may be stuck into the ground by the side of a plant, and it will afford a good support.—*Farmer's Home Jour.*

— The Russian government has ordered one hundred thousand rifles of the Berdan patent from the Colt Firearms Company at Hartford, Ct. It will take a thousand men two years to fill the order.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from Few to Thirty Days.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

Portsmouth, N. H.

WEDNESDAY, JULY 17, 1867.

CONGRESS. — On Monday the Senate and House were obliged to remain in session several hours while the Reconstruction bill, passed on Saturday, was recalled from the President, passed again with the words previously omitted, and sent back to the Executive mansion. Meanwhile the President fired his first gun by sending in some documents called for, accompanied by a message in which he intimated that if the United States held the Southern States as conquered provinces, the General Government will become liable for their State indebtedness. This extraordinary proposition was emphatically denied by Senators Sumner, Cameron and Howard, while Senator Johnson expressed his regret that the President should have expressed such an opinion.

The Senate declined to pass the bill hurriedly passed by the House, virtually pardoning 75,000 deserters from the Union armies; and not only restoring them to their political rights, but giving them the same bounty, back pay and pensions as those who stood by the flag. The bill was referred to the Committee on Military Affairs.

The House passed, by a vote of 76 yeas to 38 nays, a resolution directing the Committee on the Judiciary to inquire and report whether the States of Maryland, Delaware and Kentucky have State governments republican in form.

Both Houses concurred in reducing the appropriation asked for reconstruction to one million of dollars, and then passed the bill.

FROM MEXICO.—A letter from the City of Mexico to the New York Herald says Prince Salm Salm will not be executed. His wife is with him at Queretaro. She is said to have tried to bribe the guards of Maximilian to permit him to escape, but was detected and placed in confinement.

The Liberal Government has renewed its warfare against the Church. The priests in the City of Mexico are not allowed to wear their long robes and peculiar hats, and General Baze has issued a decree confiscating all the remaining convents saved up to 1863, giving forty-eight hours' time to vacate the same. He also sent a squad of soldiers to the cathedral and completely stripped it of every particle of gold and silver found in the vast edifice, even to the chalices. A short time before the surrender the priests in charge took out a large part of the precious metals, including the massive gold chandeliers, railings, alters, &c., and secreted them.

A BAD RIDE.—Last Sunday afternoon a man living a few miles out of Boston took his wife and five children, four of whom are under twelve years of age, and with a neat carryall and fine horse, treated them to a ride into the city. During the afternoon the man became intoxicated, and shortly after nine o'clock at night, by his drunken driving, threw his horse down in Exchange street. A good policeman took the whole concern to the station house, where the man was uproarious, made violent demonstrations, and threatened the utter annihilation of the Police generally and the officer who interfered with him particularly. He was at length placed in a cell, and his wife and children were comfortably provided for in the Lieutenant's private room, while the team was put up at the City Hotel stable. In the morning the miserable fool and his unfortunate family were suffered to depart. The woman was thankful to the police; the man, "too stubborn to acknowledge his error." We dare say he is not one of "those fanatics who aim to deprive the people of their liberties."

— The Washington correspondent of the Philadelphia Inquirer says that a movement has been quietly organized there among some of the Republican members, to put Sheridan forward as a Presidential candidate.

— A Mrs. Chamberlain, of New Haven, dreamed the other night that her son, 11 years of age, was drowned, and was so impressed thereby that she would not allow him to go with her to South End by boat on Thursday, but sent him in the omnibus. Soon after his arrival there he was drowned while bathing.

— Statements have been going the rounds that General Sickles had compelled the recent marriage of a white man named Thornton, in Fayetteville, to a negro woman. The last Fayetteville News, alluding to the matter, says that the whole affair was done under no compulsion by the military or any other agency. An order was granted by General Sickles, giving permission and authority for the marriage to take place, but it was coupled with an express disapprobation of the step to be taken.—[The permit was an act of official duty. The advice, or disapprobation, was gratuitous, and not very important in itself, in his place, perhaps, judicious in Gen. S.]

NEW HAMPSHIRE ITEMS.

—— The Concord Monitor says it has not yet seen the first member of the New Hampshire Legislature who voted for a per diem of $4; everybody was opposed to the proposition, but somehow no one thought of asking for the yeas and nays.

—— The whole number of petitions sent to the Legislature for the appointment of State Constables to enforce the prohibitory liquor law was seventy-four. The aggregate number of names upon the petitions was about 5200.

—— The body of a man about 50 years old was found in the Merrimac river, three miles below Manchester, last Saturday, by some lumbermen. It had evidently been in the river several weeks. The body was dressed in a heavy woolen-mixed ribbed overcoat, a blue dress coat, ribbed woolen mixed pants and vest, and under the pants a pair of blue duck overalls were used as drawers.

—— The Concord Monitor gives the following particulars of the death of Mrs. Cheney. Last Sunday, Mr. Charles D. Cheney and Helen M., his wife, started from the house of Windsor Abbott, in Bradford, where they lived, to go to church. The horse had hardly got out of the door-yard, when he suddenly threw his head around, as though stung by a bee, and at the same time commenced kicking with both hind feet, breaking the dasher, which frightened him so that he started to run.—The road was very steep, and in holding the horse one rein broke, which brought the animal to the side of the road, and overturned the carriage. Mrs. Cheney's head struck a stone wall, and her neck was broken instantly. She was not more than 15 rods from the house. Mr. Cheney held on to the horse, and was not seriously injured. Mrs. Cheney was 24 years and 6 months old, and had been married less than a year.

☞ A Washington letter of Monday says Ex-Governor Smyth of New Hampshire is there attending a meeting of the Executive Committee of the National Soldiers' Asylums. The three Asylums in Maine, Ohio and Missouri are full to overflowing, and at each new buildings must immediately be erected.

☞ Last Sunday, at New York, a riot took place at Elm Park, between a party of Germans and the police, in which the latter were driven off, and the former remained without further molestation. The drinking of free lager, in violation of the excise law, is the alleged cause of the affair.

☞ It is reported from Washington that it is very difficult to keep a quorum of Congress present; and that Gen. Grant has expressed himself strongly to prominent Republicans in favor of an efficient reconstruction act.

☞ Mr. W. B. Spooner corrects a budget of errors made by "Burleigh" about the liquor laws of New York. B. states (to our great surprise,) that New York had been living under a Prohibitory law ever since Gov. Clark's administration, (ten years since;)—but it appears THAT law was passed in 1855—and declared unconstitutional by the Court of Appeals, March 1856—and a *License* law was passed in 1857, and "is still in existence in all parts of the State except the Metropolitan District of New York, where it was superseded by the present Excise law a little over a year since."

If I am rightly informed, Burleigh is quite as wide of the mark when he represents the "strict Sabbatarians and high-toned professors" as opposed to the Excise law. A friend in N. Y. writes that it was born in the Sabbath committee, was cradled by the "strict Sabbatarian and high-toned professor," and by them it was introduced to many of the best friends of prohibition, and with the aid of the latter and some of the tax-payers, it was carried to the Legislature. * * * At that time the Methodist Conference, sitting at Sing Sing, sent a deputation to Albany to secure its passage. As I am informed, they and the Sabbatarians and strict professors, and some friends of prohibition, reasoned thus: Under the decision of the Court we cannot have prohibition; and if we can have no more, give us a quiet Sabbath by prohibition from Saturday night until Monday morning. And all the quiet, and order, and sobriety which Burleigh represents as prevailing on the Sabbath, when New York is as quiet as a country village, when the police have nothing to do but to "yawn and kick their heels for want of exercise" —all this exists under a law of Prohibition which exists from Saturday night till Monday morning.

☞ In the Chronicle of Tuesday morning it was stated, (as copied from the Boston Herald of Saturday,) that Rev. Rowland Connor had resigned his place as pastor of the School street church in that city. But by the Traveller of Monday evening it appears he has not resigned, and does not intend to do so, unless compelled,—"though he has been requested not to occupy the pulpit again." A legal meeting of pew owners is notified to be held Tuesday evening, July 30, to take action in the premises.

— The Nantucket farmers complain of the drouth. They are hastily cutting their grass, to save it from withering up. The first crop is large, but unless rain soon comes, that of rowen will be small.

CABLE ITEMS.—A Dublin dispatch of July 15 says, Reports from the County of Mayo and the adjoining district of Connemara represent that the destitution and suffering of the inhabitants are becoming extreme in consequence of the famine in that part of the Island.

A prominent Fenian, supposed to be Gen. Farrell, was arrested in London, Sunday night, and been sent to Dublin for trial.

A man named Selveria, claiming to be a citizen of the United States, was recently arrested in Paris, at the request of the Portuguese government, and sent to Lisbon. The American Minister at that place has made a demand upon the Government for the release of the prisoner and for his return to France in a Portuguese man-of-war.

The Russian Government has sold the St. Petersburg and Moscow Railroad to Messrs. Baring Brothers and Hotingeur.

At Paris, the trial of Berezouski for his attempt to assassinate the Czar of Russia has resulted in a verdict of guilty, with extenuating circumstances, and he has been sentenced to imprisonment at hard labor for life.

A DEED OF DARKNESS.—A Worcester contemporary says that about thirty years ago there was considerable excitement in Royalston, caused by the sudden disappearance of a pedler whose name was not known. Owing to a large amount of goods being found in the possession of the man with whom he lodged on the night of his disappearance, it was surmised that he was murdered by him. A thorough search was made for the body, but no trace of it could be found. A few days ago the town was again startled by the confession of John Flagg of Troy, N. H., on his death-bed, he being the man who was suspected at the time of the pedler's disappearance. In his confession, Flagg criminates a man residing in Royalston at this time, and says that after murdering the man they threw his body into a well, but fearing it would be discovered, at the time of the search they removed it.

FIGHT WITH INDIANS.—A letter from Fort Wallace, Kansas, dated June 29, giving an account of an Indian attack on Pond Creek station three days previous, in which four soldiers were killed, seven wounded and one missing, says that during the month of June fifteen men were killed and twelve wounded in the vicinity of Fort Wallace. Also that during the same time $100,000 worth of property belonging to the Stage Company had been taken or destroyed by the Indians between Clark Bluff and Lake Station, distance 180 miles.

WE ARE IN THE MIDST OF A REVOLUTION.—No more premature decay of the teeth.—SOZODONT renders them indestructible. Nay, more, it makes the enamel as white as Parian marble, and the breath as odoriferous as "the sweet South breathing o'er banks of violets."—Neither the teeth nor the gums can become diseased, if it is used daily. 9

— More than one-half the diseases of the human system are caused from the use of impure Breadstuffs; and as Saleratus and Soda are the essential properties for using, it becomes doubly necessary to be watchful. Herrick Allen's Gold Medal saleratus is the only perfectly healthy article to be relied upon. Try one paper and you will be convinced what we say is true. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty street, New York. 10

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Inventor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York.

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of these pills perfectly perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensable necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and quite for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, but all impurities in its progress, return by the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible for consumption, scrofula, erysipelas or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that regular physicians have no cure for consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphine or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 2 P. M. He gives advice free, but for a thorough examination and use of the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being inclined up with phlegm, acids, and other crude matters, indigestible meats, offensive drinks, or other matters which remaining too long assume a corroding power.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

Samuel H Pook, Asst. " "
William Roberts, Chief Engineer.
O. H. Lackey, 1st Asst. "

The recent change at our Navy Yard, making each bureau complete in itself, has made some change in the employees. The principal bureau, that of Yards and Docks, has been organized as follows:

Wm. E. Babbitt—Asst. Civil Engineer.
John Christie — Clerk to Commandant.
Chas. E. Plaisted—2d Clerk to Commandant.
F. W. Rhoades—Chief Accountant.
W. W. Palfrey—Clerk to Civil Engineers.
F. D. Locke—2d " " "
E. G. Peirce, Jr.—Inspector and Receiver of Stores.
G. W. Towle—Clerk of Rolls and Muster Clerk.
John S. Stodder, Clerk to Executive Officer.

☞ Mr. Wm. C. Babbitt, Assistant Civil Engineer at our Navy Yard, is an eminently practical man in that line, having for eleven years held that position on the Charlestown yard, and having command of that department in the interim between the resignation of Engineer Billings and the assignment of Engineer Hastings to that yard. He has also constructed a number of railroads in the South, particularly in Georgia. To his qualities as an engineer should be added his courtesy as an official and his affability as a man.

☞ Ex-President Pierce is spending the season at his new summer residence at Little Boar's Head, near Rye Beach.

GOLD, Tuesday, 140.

— The wheat harvest is in progress in Missouri and a heavy yield is reported. The corn crop looks well and is more extensive than in any former year.

— The Catholic Priest at Northampton has sent a petition to the Pope for the privilege of using the Protestant version of the Bible in his church.

— A drunken engineer on the Chicago, Burlington and Quincy Railroad lately made the trip from Avena to Oswego, at an expense of $30,000 of the company's property. Nobody, not even the engineer, who deserved it, was killed however.

— Recently the houses of Enoch G. Currier and Albert Russell, in Newburyport, were entered and robbed. Last week a box of broken silver was found in Beverly, and some of it was identified by Mr. Russell as his property. This is expected to lead to the arrest of the burglars.

— A statement was recently made that the Military Commission which condemned the assassination conspirators united in a recommendation to the President that Mrs. Surratt be pardoned. This is in part erroneous. A majority of that Commission recommended that her sentence to death be commuted. This paper has never been seen by the President, nor had he heard of it until recently.

DEATH OF BISHOP SCOTT.—Rev. Thomas Fielding Scott, Bishop of the Protestant Episcopal Church in Oregon and Washington, died suddenly at New York on Sunday morning, of Panama fever, which he had contracted on the voyage from the Pacific coast, whence he arrived on Friday.

— A piece of roofing slate, any thin flat stone, or even a shingle, placed under canteloupes, water-melons, &c., will prevent the ground from extracting the flavor from the lower part of the melon, and also considerably hasten its ripening.

— A dispatch from Omaha states that three thousand Chinese have already settled in Boyce county, Idaho, and that still more are on their way. The farmers of Boyce county are raising good crops of wheat this year, and it is hoped the territory will soon become self-sustaining.

Holloway's Pills.—Indigestion, Stomach and Liver complaints. The medicines will cure the most confirmed cases of dyspepsia and disorders of the stomach and liver. They have restored more suffering dyspeptics to actual and permanent health than all the other ephemeral "specifics" united. They have stood the test of fifty years' experience. They increase the appetite, invigorate the stomach and purify the liver. In bowel complaints they are equally efficacious, and for sick and nervous headache they stand unrivalled. Foreclosure of Mortgage.

I, GEORGE APPLETON, depose that on the seventh day of February, A. D. 1867, I made a deed of A. W Hammond and Moses Lovering, I made a peaceable entry upon three tracts of land, with the buildings thereon, situate in Salem, in the County of Rockingham and State of New Hampshire, on the road leading from Lawrence to Atkinson. One of said lots is bounded as follows, viz: Beginning on the easterly side of said road, by land of John Taylor; thence running Easterly by land of said Taylor to a stake and stones; thence Northerly by land of said Taylor; thence Easterly by land of said Taylor to the corner of the said; thence Northerly by land of O. & al. Taylor to land of Little; thence Westerly by land of said Little; thence Southerly to a stake and stones; thence Westerly by land of Roswell to the road aforesaid; thence Southerly by said road to the bound first mentioned, with buildings thereon.

One lot called the "Orchard" bounded as follows viz: Beginning on the easterly side of said road by land of John Merrill at a stake and stones by said road; thence running Easterly by land of said Merrill to land of John Taylor; thence Northerly by land of said John Taylor, as the wall now stands to land of said Taylor; thence Southerly by land of said Taylor to the road aforesaid; and thence Southerly by said road to the bound first mentioned.

One tract with a barn thereon, situate on the west side of said road and bounded as follows, viz: Beginning at a stake and stones on said road by land of John Downing; thence running Westerly by land of said Dowling and land of of one Taylor to a stake and stones; thence Southerly by said brook and land of Moses Bailey and one Foster to the corner bound of land of said Merrill; thence Southerly by land of said Merrill to a wall by an oak stump; thence Easterly by land of said Merrill to said road; thence Northerly by said road to the bound first mentioned.

All of said lots contain about one hundred and twenty acres more or less, and the above premises as is referred to in a mortgage deed from Rosanda Crooker to Brickett Bradley, dated August 28th, A. D. 1850, and recorded in Rockingham Records of Deeds, Lib. 384, Fol. 124, to which reference may be had, conveyed to me in mortgage by Henry Crossley, by his deed, dated August 28, A. D. 1865, recorded in the Rockingham Registry, volume 407, page 406, for condition broken and for the purpose of foreclosing the right in equity of said Crossley to redeem the same, and at the same time publicly declared the purpose and object of my said entry and of the possession so taken.

GEO. APPLETON.

We, Andrew W. Hammond and Moses Lovering, severally depose that we were present and witnessed the proceedings stated in the foregoing affidavit, and that the facts therein stated are true.

THE

UNION PACIFIC RAILROAD CO.

Are now constructing a railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the city of New York, at the rate of

SIX PER CENT. IN GOLD,

Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has under contract sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to the Pacific connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1666 miles, the United States Government issues its Six per cent. Thirty-year bonds to the amount of $16,000 per mile, and the average rate of about $28,256 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,022,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,-044,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now made by the railroads running to the Union Pacific on the sections already finished for the first two weeks in May were $18,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts demonstrates both the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than one half the cost of the 367 miles of road, on which over twenty million dollars have already been expended;—on 330 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and reserve the right to withdraw the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

o23 JAMES H. THOMPSON.

Morning Chronicle.

THE END OF NAPOLEON'S PLOT.—If any one imagines, says the New York Evening Post, that republicans are not respecters of persons, let *him* read the wails of some tender-hearted journals over the execution of Maximilian, an Austrian archduke, brother of the Emperor of Austria, cousin of the Queen of Spain and the Kings of Italy and Sweden, and relative, near or far removed, of most of the emperors and kings of Europe; and having read these wails and laudations and fierce denunciations, let him turn to the files of the same journals in 1859, and read what they said about the hanging of John Brown, related to no crowned heads, with no royal or aristocratic blood in his veins. The comparison, in some cases at least, will be instructive.

Or let him hunt over the more recent files of these journals for wails and lamentations over the execution of several Mexican Liberal generals and other officers, by the order of Maximilian. He will have to hunt a good while, and will find very little.

War, as General Sherman wrote to the Mayor of Atlanta, is necessarily a cruel and brutal thing. It is no joke. He who begins a war must not complain if he suffers by it. Maximilian appears to have been a brave-going fellow. It is not recorded that he whined about his fate. He met it manfully. He had committed a terrible error and a grave crime. His ambition was excited by the crafty French Emperor, and we have heard that something more than ambition was at the bottom of his confederacy with Napoleon. It is said that Maximilian was heavily in debt, and that he was promised his debts should be paid if he went to Mexico in the interest of the Jecker bond speculators. Those wretches could afford to pay a large sum for the chance of having their bonds recognized and paid. It is pleasant to think that they at least have lost.

The execution of Maximilian is one of the severest blows Napoleon has received since he became Emperor. It is a slap in the face. It shows his incompetence, and emphasises his failure before the monarchs of Europe, the very class whom he has most assiduously courted, and whom he has this year for the first time been able to gather in his capital. He had caused them to forget for a time that he was an adventurer, but they will now remember it again, to his utter mortification.

Americans will do well to remember, when their sympathies are appealed to in behalf of Maximilian, that the plot in which he was engaged as chief actor under Napoleon, was a plot against our own country. The conquest of Mexico was but a secondary object of this great conspiracy of European despotism; it was conceived in hostility to the United States; it was begun when Napoleon and Maximilian were sure that our Union would be broken to pieces; it was understood, from beginning to end, by Jeff. Davis, to be a diversion in his favor; Davis corresponded with Maximilian, and his agents intrigued with Napoleon.—Gen. Grant, always clear-headed, declared that the expedition of Maximilian was only a branch of the Southern rebellion; and that the best way to deal with the Mexican question, upon the surrender of Lee and Johnson, was to march an American army across the Rio Grande and drive the French and Maximilian out of the country.*

The execution of Maximilian was needed to warn royal adventurers against such attempts as his upon this continent; and to make the adherents of despotism in Europe understand that their schemes must not extend to America, and that they have no business there.

[*We understand that he at one time had 75,000 veteran troops in Texas under General Sheridan, for the purpose of going into Mexico to drive out the French, but this movement was prevented by the timorous and obsequious policy of Sec. Seward. *Portland Star.*

ELOQUENT PASSAGE.—One of the finest things Geo. D. Prentice ever wrote is the inimitable passage:

"It cannot be that earth is man's only abiding place. It cannot be that our life is a bubble cast up by the ocean of eternity, to float a moment upon its waves and sink into nothingness. Else, why is it the high and glorious aspirations which leap like angels from the temple of our hearts, are forever wandering unsatisfied? Why is it that the rainbow and cloud come over us with a beauty that is not of earth, and then pass off to leave us to muse on their loveliness? Why is it that the stars which hold their festival around the midnight throne, are set above the grasp of our limited faculties, forever mocking us with their unapproachable glory? And finally, why is it that the bright forms of human beauty are presented to our view and taken from us, leaving the thousand streams of our affections to flow back in an Alpine torrent upon our hearts? We are born for a higher destiny than of earth. There is a realm where the stars will be spread out before us like the islands that slumber in the ocean, and where the beautiful beings which pass before us like shadows, will stay forever in our presence."

— Noah was probably the first person who went to sea for fear of being drowned.

— The man who "couldn't stand it any longer," has taken a seat, and now feels quite comfortable.

— We may safely affirm the great mass of human misery to have been caused by ignorance of the means of happiness.

— Prof. Arnold of Oxford, speaks of the cable as "that great rope with a Philistine at each end of it talking inutilities."

— Gen. Grant's ancestors came from Scotland; that explains the fact of his "scotching" the rebellion.

— Petroleum shares are defined by Pope —not the General—as "parts in one stupendous hole."

Daily Morning Chronicle

VOL. XXXI. PORTSMOUTH, N. H. THURSDAY, JULY 18, 1867. No. 15.

The Chronicle.

☞ According to the Pall Mall Gazette, an English journal of high character, the business of horse racing as conducted in that country, is not very elevating in its tendencies. It says the plea that the object of races is to improve the breed of horses is absurd, since all that a race-horse can do is to make an immense effort which there is no use in making; that racing engenders shameful, systematic, and extravagant gambling; and whereas a horse-race was once a simple way of testing the merits of horses, since it became an institution, it has produced a useless set of men and animals, and a public school of gambling and vice.

— Parisian belles are dyeing at an awful rate. Olive brown is the tint.

— A church is to be erected in London to commemorate the abolition of slavery, and to be at the same time a memorial of President Lincoln.

— It is announced that the first year's revenue from the Atlantic Cable will amount to four hundred and fifty thousand pounds sterling, or within fifteen thousand pounds of the original cost of the last laid cable.

— One or two "Conservative" organs are very busy picking out a colored candidate for the Vice Presidency of the Republican party. They will have work enough to get a respectable *minority* vote for their candidates, no matter of what color they are.

— It is said that the Vigilance Committee of Johnson county, Missouri, which was organized some time ago to rid the county of lawless desperadoes, has itself become a band of outlaws, and is wreaking private vengeance and committing the very crimes it seems to punish.

— The wheat crop of the United States is said by experienced farmers and dealers in the west, to be the largest crop ever grown in this country, and it is estimated at the enormous amount of 225,000,000 bushels.

— Louis Napoleon has ordered M. Monnier, the tutor of the Prince Imperial, to teach him in history only the dates and principal facts, and says that he will explain to his son the meaning of the events as he understands them.

— The Lewiston (Me) Journal says a sturdy little fellow four years old was travelling up the street the other day in a very independent and don't care-a-tive manner, when he was met and accosted by a young lady who knew him. The little urchin deigned no reply, which caused the young lady to remark, "Why, Charlie, don't you know me?" Young America very dignifiedly responded, "I don't know anybody, I'm a policeman."

American and Foreign Patents.

E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1836.

No. 78 State street, (opposite Kilby street,) **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States: also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on over *three hundred* applications, SIXTEEN APPEALS; *every one* of which was decided in *his favor* by the Commissioner of Patents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Late Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
WM. D. BISHOP,
Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHAAR."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared *superior* to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf, and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the most neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 18, 1867.

☞ There is something very remarkable in the almost invariable failure of the numerous attempts at assassination of national rulers. In recent times only two rulers have fallen victims to assassination—the Duke of Parma, who, in 1854, was stabbed with a pioguard in the abdomen; and Abraham Lincoln who was shot by Booth on April 14, 1865, in the Washington Theatre; the murderer in each of these cases making good his escape,—while in almost all the unsuccessful attempts, the would-be assassin was caught—no doubt because in case of failure there would be so much less confusion and excitement to cover the desperados' escape.

A FACT FOR TEMPERANCE.—In training athletes for great efforts they never allow them to drink ardent spirits. Tom Sayers, the famous fighter, was once asked by a gentleman — "Well, Thomas, I suppose you use plenty of beefsteak, London porter and pale ale?" The boxer replied: "in my time I have drunk more than was good for me; but when I have business to do there's nothing like water and the dumb bells." After retiring from "business" he took to drink and died a sot. Cold water made him a Samson; alcohol laid him in his grave.

THE POOR PRESIDENT stands to day before the country, in a position which is at once pitiable and ridiculous. Perley, the correspondent of the Boston Journal, gives the following items from Washington, dated Tuesday night:

Last week the President assured several gentlemen that he should promptly veto the Reconstruction bill within twenty-four hours after he received it, but he is now inclined to give his legal advisers more time, and meanwhile, he denounces Congress. This morning he told a Democratic Congressman that he would willingly resign his position as President could he but enter the Senate again and meet the leading Radicals in debate.

While waiting for the message, Congress will probably perfect legislation providing for the appointment of a Commission to treat with the hostile Indians, and to assign them lands where they will be undisturbed. It is undeniable that the Indians now at war with the whites have been treated very badly, and that hunting grounds reserved to them by treaties have been encroached upon.

The impeachers are in council to devise some way by which the subject can be taken from the hands of the Judiciary Committee, and the House brought to a square vote on the question of impeachment.

— The Trades Union developments in England grow more astounding. On the 3d instant a man came upon the stand at Sheffield and confessed that he threw a can of powder into the room of a fellow workman, which exploded, set the house and clothes of the family on fire, burning one woman to death, and grievously wounding another. For this job the man was paid $30, and was very angry because they would not give him $5 more. He and those who hired him allowed an innocent man to be tried for this murder, and would have allowed him to be hanged, they admitted, if he had been found guilty.

BETTING.—The Court of Exchequer in London has decided a case of some importance to betting men. A person named Savage backed certain horses for a place in last year's Derby, and deposited the amount of his risk with the defendants (Madder and another.) The bet was won, but being unable to obtain the amount won, or even the sum deposited, Savage brought an action to recover the latter. The court decided that the money so deposited is irrecoverable. [That is to say, as the whole transaction is illegal, so is every part of it.]

— Recently a Milwaukee police officer was detailed to take an insane man to an asylum. The man went along quietly until the end of the journey was reached, when, instead of being delivered to the officers of the asylum, he very quietly delivered the astonished officer, who, before he had an opportunity for an explanation, found himself locked up in a cell, and was told that a strait jacket awaited him if he made any demonstrations. It was some time before the officer could get his story believed and exchange places with the lunatic, who went off boasting of his skill in outwitting his keeper.

— The Newburyport Herald mentions having met a farmer one day last week, who was groaning in tribulation. To a friend who asked how his health was he replied,—'A little nervous.' 'What is the matter?' was asked. 'My grass,' he responded, 'I don't see how I can raise help to properly care and care for it. We have the biggest crop the earth ever bore.'

— Claiborne C. Herbert, a prominent Texas politician, was killed on Friday night July 5, at Columbus, Texas, by a man named Speers, in a bar-room fight. Speers was afterward killed by the Federal guard while making his arrest.

ROXBURY SCHOOL WHIPPING CASE. Judge Wheelock rendered his decision in the case of L. M. Chase, the principal of the Washington school, who has been tried for assault and battery upon the son of Councilman Anthony, in whipping him for throwing stones in the street on the way home from school, about four weeks ago.

The Court, after referring to the cases cited by the counsel in the case, and commenting upon their application to the case in question, said:

"Suppose the boy Anthony had been caught and brought before me, and I had found him guilty and then sent him back to the teacher to be punished, what would the public say?" Judge Wheelock further stated that it is the bounden duty of the teacher to talk to the scholars and reason with them; and that every moral principle cannot be enforced by the lash, but the teacher must do it by example and precept. In justice to Mr. Chase, the Court said that "I saw during the trial, that the desire of the teacher was to do his duty. He simply committed an error, and not purposely or with any wrong intent. Nor do I think the Marshal acted otherwise than, what in his judgment, was for the best interests of the boy."

The decision was that technically the defendant was guilty,—but the Court would lay by the case on file, unless the defendant wished to carry it up to a higher Court.—He expressed that wish, was fined $1 and costs, and appealed.

We think the appeal was of no consequence,—and that the man who brought the suit has done his boy great injury in so doing. He deserved the punishment, and though illegally inflicted, he was served right.

— The Minerve, a Montreal paper, says: "A Protestant minister, whose letter is under our eyes, originated the idea of assassinating President Lincoln. The Confederate agents in Canada, whose answer we also hold, declined the proposal, and the minister then resorted to a private attempt. It need be, we could give his name, the place where he is at present residing in one of the Northern States, in a city well known, where he occupies an important post and is respected."

This is a strange story, and its truthfulness extremely doubtful. If it be true, however, the editor of the Minerve is an accessory to the murder, unless he divulges the secret he holds to the proper authorities. The story looks like an attempt to turn away public attention from Surratt & Co. in Washington.

☞ Advices received at New Orleans from Texas state that, owing to the occasion made by the execution of Maximilian, a reorganization of the Order of the Knights of the Golden Circle had taken place, under the title of the "Order of Maximilian," and reliable information is in the possession of parties at New Orleans, as to the number and extent of the organization, which is stated to exceed ordinary supposable numbers. General Sheridan expresses the utmost confidence in the vigor and activity of General Reynolds to prevent invasion in any numbers. The whole Mexican scheme to avenge Maximilian is in fact a concoction of ex-confederates and fillibusters. Neither the officers nor soldiers of the United States army manifest any sympathy with the movement, and nearly without exception both justify Juarez in the execution of the ex-Emperor.

ROME.—Reports from Rome represent the Papal Government much alarmed by the menacing attitude of the party acting under the leadership of Garibaldi. Many batteries around Rome are being restored and put into effective condition, and it is stated that the Pope has made an appeal to the Emperor of France for the protection of the Holy See.

In response to an appeal from the Pope for assistance in repelling an anticipated attack on Rome, the Emperor Napoleon has warned the King of Italy of the threatened movements of Garibaldi. The batteries formerly erected by the French around Rome, and not the old Roman defences, are to be rebuilt and strengthened for defensive operations.

ARIZONA.—Late Arizona advices state that the Colorado river is so high that the breakwater at Gilla was flowed over, causing the entire destruction of Arizona City, only two buildings remaining uninjured on the Fort Yuma side. The flood has completely wrecked the Overland Mail Co.'s quarters. The Quartermaster warehouse at Fort Yuma was destroyed by fire; loss $300,000. The Arizona mail courier has been killed by the Indians.

— At Danbury, Conn., last week a young man named Ezra Bennett, working for Hall & Sea, found a hand grenade among some old iron, and was foolish enough to drive a red hot piece of iron into the hole. The shell happened to have some powder in it, and of course an explosion was the consequence. His left hand was blown to atoms, almost, rendering it necessary to be amputated at the wrist.

— Twenty-five thousand less people ride in the Paris omnibuses on Fridays than other days, owing to the popular superstition that Friday is an unlucky day.

☞ Certain piano makers in this country, who are more sure than other people generally, not only that theirs are the best instruments in the world, but that all others are worthless or nearly so—have been blowing and banging for some time about certain medals, &c., received in Paris, at the great Fair—where, as in most such cases, those who strive and work for premiums may generally get them.

The Boston Commercial Bulletin,—which like rare old Ben Johnson, is a good hater of pretence and toadyism—has a capital hit at this nonsense, in a series of pretended dispatches from Paris, (perhaps, after all, as real as the others,) about the great "hand organ excitement," which, at intervals of 15 minutes, stats that

The great muddle of the Exhibition has been awarded to Chingaring, Whangaway & Co.

The Emperor paused in front of the American Department, and asked significantly if the house of Chingaring had any title. He was informed that Col. Tom Chingaring, friend of the Gudefellahs, was the only titled member of the house.

Mr. Chingaring has been decorated by the Emperor with the ribbon of the Legion of Bummers! Vive l' America!

Mr. Whangaway has been created a Son of Malta by Napoleon, with the title of G. T. J. A. Hail Columbia!

The Hand Organs of Chingaring & Co. and Whangaway Bros. have just commenced a grand trial of skill before the Committee on Musical Instruments.

The Committee on Musical Instruments have been carried to the Lunatic Asylum.

The Emperor has commuted the death sentence of six condemned criminals, on condition of their hearing the "testimonials" of Chingaring and Whangaway.

WEST INDIES.—On the night of the 3d inst. the town of Basseteua, St. Kitts, was destroyed by fire. All the business portion of the place and most of the dwellings and churches were reduced to ashes.

The U. S. steamer Peoria relieved the people by giving sea-stores, and went to Antigua for help.

The Governor of Antigua immediately dispatched a provisioned vessel to St. Kitts. Five lives were lost during the fire. Large quantities of provisions and sugar ready for shipment were consumed.

ATTEMPT TO BRIBE A WITNESS.—The Montpelier (Vt.) Freeman makes the following statement in regard to an attempt made by Surratt's counsel to bribe a witness for the prosecution to swear falsely:

"Mr. Hobart, one of the conductors on the Vermont Central Railroad, was a witness in the trial, called by the prosecution, and identified Surratt as the person who passed north from Burlington to St. Albans, in April, 1865, after the assassination.—This identification, in connection with other testimony of the prosecution, was important, and bore heavily against Surratt. After Mr. Hobart had returned to Vermont, he was summoned to Washington again as a witness for the defence. When he saw Mr. Bradley, Surratt's counsel, the lawyer with much palaver informed him that $1500 was no account to the defence if they could prove that it was not Surratt who passed over the road from Burlington to St. Albans, as Mr. Hobart had formerly testified.

Mr. Bradley thoughtfully volunteered to aid Mr. Hobart's recollection, not only by this little item of $1500, but by informing him that the individual who did pass over the road was a gentleman then in Baltimore, who would be in Washington on the following morning, when Mr. Hobart could see him and "identify" him, and be prepared to correct his former testimony accordingly. Mr. Hobart informed Mr. Bradley that there was not money enough in Washington to hire him to "identify" anybody, and that he had no doubt of the correctness of his former testimony. The next morning however, a gentleman accosted Mr. Hobart in Willard's hotel, and proceeded to inform him that he was the gentleman who passed over the road; but he had learned his lesson so poorly that he made several mistakes in dates and other particulars. Mr. Hobart gave this person distinctly to understand that he remembered Surratt and didn't remember him; and Mr. Bradley shortly afterward informed Mr. Hobart that the defence shouldn't use him as a witness."

AN OLD BOURBON.—Ex-Governor Johnson has written a letter advising the people of Georgia not to accept the terms of the Reconstruction acts, but advises every man who can do so to vote with a view of defeating what he terms a "scheme for our degredation and overthrow of republican government."

— Tite butes air a luxury, iuazmutch az thay kause a fellef 2 forget awl hiz other mizeries.

WE ARE IN THE MIDST OF A REVOLUTION.—No more premature decay of the teeth.—SOZODONT renders them indestructible. Nay, more, it makes the enamel as white as Parian marble, and the breath as odoriferous as "the sweet South breathing o'er banks of violets."—Neither the teeth nor the gums can become diseased, if it is used daily. 9

RADICALISM becomes a virtue when directed against our own evil habits, so does the radical detersive qualities of Fyle's O K Soap prove a blessing to those who employ it for the cleansing of the body, clothing and abode. No family should be without it. All first class grocers sell it. 11

☞ Physicians recommend SPEER'S Sambuci Wine as the best for females, weakly persons and invalids. Sold by Druggists. 3

— More than one-half the diseases of the human system are caused from the use of impure Breadstuffs; and as Saleratus and Soda are the essential properties for using, it becomes doubly necessary to be watchful. Herrick Allen's Gold Medal Saleratus is the only perfectly healthy article to be relied upon. Try one paper and you will be convinced what we say is true. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty street, New York. 50

— During a recent thunder-storm at Middletown, Conn., a large tree standing twenty-five feet from the river, just below the city, was taken up, with its roots, and at least thirty cart loads of earth, carried across a road, out over the river seventy feet from shore, and there set down squarely upon its roots, in twenty-five feet of water. Twenty feet of the top is above water.

— An Elmira widow frightened a burglar who was trying to enter her house a few nights since by emptying her wash bowl on his head from an upper window.

— Two one-armed organ grinders got into a dispute at Hartford a day or two ago, when one of them seized a lager beer glass and broke his companion's skull with it.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Cramp, and Sea sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions: and only as a external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Recent Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who once have it in their houses say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended upon. Only 50cts. and $1 per bottle. Sold by druggists. Depot 56 Cortlandt street, New York. Jy8dawlm

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Disordered Liver and its many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, mixed and circulated in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints, more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, building and repairing its progress, then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphin or opium in some shape, which locks up the liver instead of relieving the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the stomach, clear up the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his room every week, 32 Hanover street, Boston, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times of his celebrated Mandrake Pills, Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

IN THE SURRATT TRIAL at Washington, Tuesday, the Boston Advertiser's correspondent says:—

"The most important feature of the day's proceedings was the evidence of Cameron, called to impeach the testimony of Surgeon McMillan of the vessel on which Surratt escaped to Europe; and the most important fact in relation to this witness, is, that he was pardoned by the President on the 4th instant, at the intercession of Bradley, the prisoner's counsel, that he might be used as a witness for Surratt. This fact has been known for some days, and was brought out in cross-examination to-day. Cameron is a Maryland rebel who studied for the ministry, received a deacon's orders, ran the blockade and entered the Southern service in the summer of 1861, remaining a persistent and indefatigable rebel till the end of the war. He was a protestant and says he turned Catholic out of gratitude to the Pope for recognizing the confederacy. He held a chaplain's commission and seems to have been active in doing any dirty work that came to hand, using his chaplain's position as aid and shield from first to last. He was a notorious blockade runner; he belonged to Morgan's guerillas and furnished the St. Albans raiders and robbers with their commissions. He has been in the Old Capitol Prison, and, while in Europe, wrote articles bolstering up the rebel cause. He has, it is understood, been indicted for stealing, and takes such an interest in getting Surratt clear, that since his return to the United States, six weeks ago, he has not been to see his wife and children, who live but ninety miles away, and whom he has not met for nearly four years. For this man, coming within one of the excepted classes of the amnesty proclamation, has been pardoned by the President since the defence began presenting their case, solely that he might appear as a witness against the government. The greater part of his testimony was a direct contradiction of that given by Surgeon McMillan, and no one but rebel sympathizers will believe a word he said."

Foreclosure of Mortgage.

I, GEORGE APPLETON, depose that on the seventh day of February, A. D. 1867, the owners of A. W. Hammond and Moses Lovering, I made a peaceable entry upon three tracts of land, with the buildings thereon, situate in the town of Hampton, in the County of Rockingham and State of New Hampshire, on the road leading from Lawrence to Atkinson. One of said lots is bounded as follows, viz: Beginning on the easterly side of said road by land of John Taylor; thence running Easterly by land of said Taylor to a stake and stones; thence Northerly by land of said Taylor to a stake and stones; thence Easterly by land of said Taylor to the corner of the wall; thence Northerly by land of O. & L. Taylor to a lot of Littlej; thence Westerly by said land of said Little; thence Southerly to a stake and stones; thence Westerly by land of Roswell to the road aforesaid; thence Southerly by said road to the bound first mentioned, with buildings thereon.

One lot called the "Orchard" bounded as follows, viz: Beginning on the easterly side of said road by land of John Merrill at a stake and stones by said road; thence running Easterly by land of said Merrill to land of John Taylor; thence Northerly by land of said John Taylor, at the wall he now stands to land of Caleb Taylor; thence Southerly by land of said Taylor to the road aforesaid; and thence Southerly by said road to the bound first mentioned.

One tract with a barn thereon, situate on the west side of said road and bounded as follows, viz: Beginning at a stake and stones by said road and by land of John Downing; thence running Westerly by land of said Downing and land of one Taylor to a stake and stones by "Frost-thence Brook"; thence Southerly by said brook and land of Moses Bailey and one Foster to the corner bounds of said Merrill; thence Southerly by land of said Merrill to a wall by an oak stump; thence Easterly by land of said Merrill to said road; thence Northerly by said road to the bound first mentioned.

All of said lots contain about one hundred and twenty acres, more or less, meaning the same premises as is referred to in a mortgage deed from Rosanda Crocker to Brickett Bradley, dated August 28th, A. D. 1859, and recorded in Rockingham Records of Deeds, Lib. 884, Fol. 121, to which reference may be had, conveyed to me in mortgage by Henry Crossley, by his deed, dated August 26, A. D. 1865, and recorded in Rockingham Registry, volume 407, page 406, for condition broken and for the purpose of foreclosing the right in equity of said Crossley to redeem the same, and at the same time publicly declared the purpose and object of my said entry and of the possession so taken.

GEO. APPLETON.

We, Andrew W. Hammond and Moses Lovering, severally depose that we were present and witnessed the proceedings stated in the foregoing affidavit, and that the facts thereinstated are true.

THE
UNION PACIFIC RAILROAD CO.

Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of
SIX PER CENT. IN GOLD,
and
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 376 miles west of Omaha, Kansas, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the cost of the road to be built by the Union Pacific to be 1665 miles, the United States Government issues its Six per cent. Thirty-year bonds to the Company as the road is finished, at the average rate of about $28,350 per mile, amounting to $44,268,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,902,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,-416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $153,000. These sectional earnings as they extend progress will much more than pay the interest on the Company's bonds, and the through business over the entire line between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statements must be fully demonstrative of the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 747 miles of road, on which over twenty million dollars have already been expended:—on 336 miles of this road the cars are running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds pay an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the Bonds.

Morning Chronicle.

LOUIS NAPOLEON.—Rev. Henry W. Bellows, in his last Paris letter to the Liberal Christian, thus sketches the Emperor:

"Louis Napoleon, born 1808, has a poor walk and an uninteresting presence. He looks care-worn and cold, anxious and reserved. His complexion is pallid and his expression depressory. His hair is fast turning grey. There is nothing to excite enthusiasm in his look or manner. In private he is reported as mild spoken, amiable and of quick intelligence; but his face is both impassive and unpromising. All the portraits flatter him.

THE VICTIM OF FASHION.—(Jones has been telling Robinson one of his splitting stories.) Robinson—"Ya-as—it's very funny!" Jones—"Then why the deuce don't you laugh?" Robinson—"My dear fellah, I would with pleasure, but I daren't display any emotion— these trousers are so tremendously tight!"

BREAKFAST TO MR. GARRISON.—A brief cable dispatch announced the fact on the 29th ult., that a public breakfast was tendered to Wm. Lloyd Garrison at St. James Hall, London. Upwards of five hundred persons, it appears, participated. The chairman (Mr. Bright) delivered an eloquent address in which he reviewed the early labor and sufferings of Mr. Garrison, and the Duke of Argyle moved the presentation of an address.

— As a result of the Fenian movement, the United States will this year gain an abundant supply of the most valuable emigrant labor from Ireland.

— Of a pair of sleeve buttons, ninety years old, the Columbus Sun says: "What a history these buttons could tell, of joy and woe, trial and happiness, bright dreams and days of sorrow, if they could speak." Yes indeed; they could speak many things, but, alas! buttons have no tongues. If they were only buckles.—*Mobile Times.*

— A Brooklyn friend who has great faith in Catechism, and teaches it with a pertinacity that would challenge the admiration of a Luther or Calvin, was putting the youngest of four through a course one day, when the question came up: "Who tempted Eve?" The little fellow, after a few moments' thought, with a air of confidence exclaimed: "It is the gentleman who lives in hell; I've forgotten his name."

— A kind-hearted and witty clergyman entering the house of one of his elders one morning, found the old man unmercifully whipping one of his sons, a lad about fourteen years old, and at once commenced interceding for the boy. The deacon defended himself by saying that the youth must be early trained in the way it should go—"it was best to make an impression when the wax was soft." "Ay," said the pastor, "but that don't hold here, for the *whacks were not soft.*" The deacon let the boy go.

C. A. RICHARDS & CO.'S

CONCENTRATED

EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE THAT IT IS NOT

a mere dram-drinking beverage, but a PURE, GENUINE and SCIENTIFICALLY PREPARED

MEDICINE.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have

TO SAY ABOUT IT,

without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, until he can't begin to tell what does ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the

JUICES OF THE GRAIN

combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER AND STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently

IT IS JUST WHAT YOU WANT,

when you have a bad cough, to cure it, when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVERTAXED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many testimonials that it has been the means of making people

GAIN FLESH AND GROW FAT.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been frightfully deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *entirely composed.* This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

SPEER'S SAMBUCI WINE.

Prescribed by Physicians for FEMALES, WEAKLY, PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system with the most debilitated. *As a Diuretic* it imparts a healthy action to the kidneys and Urinary Organs; and as a Medicinal in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the best alteratives known in the medical pharmacopoia.

The qualities of SAMBUCI are "*multum in parvo,*" being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

N. B.—Unum bonum bonum sanguinem facit.

SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.

Be sure the signature of *ALFRED SPEER,* Passaic, N. J., is over the cork of the bottle.

SHORT WALKING DRESSES.—When short dresses for street wear were introduced, we were rejoiced, and considered it a matter for general congratulation. It is to be feared, however, that the moral and physical advantages of this useful and sensible fashion will be all lost in its abuse.

The short, narrow skirt suggests an altogether quiet and somewhat restricted style of costume, not specially beautiful or graceful, but neat, cleanly and perfectly adapted to its use. The annoyance of having always to carry about with one an immense mass of material and draw it after one in shape of a dirty trail, is so great that it was only reasonable to suppose women generally would eagerly accept an opportunity to rid themselves of it without being considered unfashionable or eccentric, and so they did. But vanity, and the habit of doing the most foolish things because other people do them, has been too much for the majority of American women, young and old, and they have bedizened and beflorbloweed the short dress until it has lost its best characteristics, and has become a parody upon itself.

As we have intimated, the beauty of the short dress consists in its convenience, its simplicity, its neatness, its cleanliness and its adaptation to its specific uses. But when it is made of light, flimsy material, when it is cut into all sorts of fantastic shapes, when it is overloaded with trimming, and the narrow skirt accompanied by huge, flowing sleeves, the sentiment of the dress is destroyed, and apart from economical or utilitarian considerations, it is bad because inartistic and out of harmony with itself.

The short dress is not a mere matter of fashion, it is capable of being made one of the most efficient aids in the physical regeneration of American women, and we sincerely hope they will not rend it at last ever, even though she should be the one employed by the gracious and graceful Empress.

There is another fact in connection with short dresses, which ladies as yet do not clearly or generally understand, and that is the necessity for having a hooped skirt, designed expressly for them. The majority of women cannot get out of the habit of buying only one hooped skirt at a time, and they usually select one that they flatter themselves is medium in size and shape and will suit all occasions; but on the contrary it suits none at all. It is too long, and not the right shape to wear with a short dress, and not long enough or rightly shaped to give any support to a trained dress.

But two hooped skirts at once, one specially designed for a short dress, the other for indoor wear, there is no danger the fashion will be worn out before the skirts; and the additional comfort would pay for extra outlay, even if you had not two skirts instead of one.

At an evening entertainment lately, we noticed some short dresses, and though made of rich material (one of white silk), they looked shockingly out of place. In fact, the more effort there is made to give an appearance of "dress" to short costumes, the worse they look. In the drawing-room, they are totally out of place, and in white materials, with wide sleeves, make their wearers look like Chinese mandarins, rather than the pretty *spiritualle* women they would be in a proper dress.—*Jennie June.*

— A young gentleman, or an elderly one, after having paid his addresses to a lady for some time, "popped the question." The lady, in a frightened manner, said, "You scare me, sir." The gentleman did not wish to frighten the lady, and consequently remained quiet for some time, when she exclaimed, "Scare me again."

— Mrs. Chibbles has great ideas of her husband's military powers. "For two years," says she, "he was a lieutenant in the horse-marines, after which he was promoted to the captaincy of a regular squad of sapheads and minors."

— Cigars, which have until now been made by hand, may hereafter be made by machinery, at a considerable saving in cost, if we can believe reports. A cigar making apparatus has recently been invented in Germany and patented in this country, which can, it is said, turn out one hundred and fifty thousand cigars a week. One of these machines is now in operation in Detroit.

— "What brought you to prison, my colored friend?" "Two constables, sah." "Yes, but I mean, had intemperance anything to do with it?" "Yes, sah, dey was bots of 'em drunk."

— The Metropolitan police authorities of New York have drawn up a petition to the Constitutional Convention, asking that no further appropriation be made for sectarian purposes by the State, and that a clause be inserted in the Constitution to that effect. The State pays $129,000 a year for the suppression of religious institutions.

— A lady in Madison, Indiana, has recently married her fifth husband. Could a greater compliment be paid to the sterner sex?

☞ A Fenian Picnic at Buffalo, to be held Wednesday, has caused uneasiness on the Canadian frontier.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

Portsmouth, N. H.

FRIDAY, JULY 19, 1867.

CONGRESS, Wednesday.—In the Senate, Mr. Wilson introduced the following amendment to the Constitution, which was ordered to be printed and tabled:

Article —No distinction shall be made by the United States among citizens on their civil or political rights on account of race, color or previous condition.

Mr. Sumner called up the following bill: *"Be it enacted, etc.*, That in the District of Columbia no person shall be excluded from any office by reason of race or color, and all laws making such distinction are hereby repealed." It passed 25 to 5, and went to the House, where Mr. Judd proposed to amend by inserting the words "entitling colored men to be selected and to serve as jurors," which was agreed to. On motion of Mr. Schenck the bill was referred to the Judiciary Committee, with leave to report at any time.

On motion of Mr. Grimes, the Senate voted to adhere to its amendment to the bill for the relief of deserters—so the bill went back to the House, and the House receded.

In the House, Mr. Julian asked leave to offer a resolution declaring that the doctrine avowed by the President in his message 15th inst., that the abrogation of the rebel States binds the National Government to pay their debts incurred prior to the late rebellion, is at war with the principles of international law, and a deliberate stab at the national credit, abhorrent to every sentiment of loyalty, and pleasing only to the vanquished traitors by whose agency alone the governments of the said States were overthrown and destroyed.

Mr. Burr objected and the rules were suspended, 78 to 18, and the resolution introduced.

Mr. Julian moved the previous question, and modified the resolution by adding after the word "traitors," allies and sympathisers.

The previous question was seconded, and the resolution adopted by a strict party vote 100 to 18.

Mr. Butler rose to a personal explanation in reference to an article in the National Intelligencer, commenting on Mr. Eldredge's statements some days since that the rebel Commissioner of Exchange, Ould, had offered to deliver up without equivalent 20,000 Union prisoners of war, sick and wounded, which offer had been refused. He contradicted the statement and sent to the Clerk's desk and had read letters and telegrams which had passed on that subject in the fall of 1864.

Mr. Covode offered as a question of privilege the folowing preamble and resolution:

Whereas Andrew Johnson, President of the United States, did on the 4th of July, 1867, at the request of the council of John H. Surratt, caused to be issued to Stephen F. Cameron, of the rebel army, and one of the most notorious violaters of the laws of war, full pardon for all crimes, in order that his credibility might be increased as a witness to aid in the exculpation of said Surratt from participation in the murder of Mr. Lincoln, thus showing his sympathy with the men who murdered the President, therefore be it

Resolved, That the Judiciary Committee be instructed to examine into the foregoing charge and report the evidence to the House in the first week of the next session, together with all the evidence in the impeachment case.

Mr. Covode remarked that he had put the language of his resolution in the mildest form. (Laughter.) He could have made it much stronger.

After debate the resolution was agreed to and the preamble rejected.

Communication.

☞ The Constitution of New Hampshire declares that "no charter of pardon granted by the Governor with advice of Council, before conviction, shall avail the party pleading the same, notwithstanding any general or particular expression contained therein, descriptive of the offence or offences intended to be pardoned."

The Constitution of the United States declares that the President "shall have power to grant reprieves and pardons for offences against the United States, except in cases of impeachment."

If a State Governor has no right to pardon prior to a conviction, what reason can be assigned for vesting a higher authority in the President? Should there not be a conviction first? We refer to the N. H. constitution merely to show what was the prevailing sentiment in some sections or States in 1795, when it was not supposed the pardoning power would be abused.—Congress has passed a measure which renders pardons, before conviction, of little avail. Until since the war, there have been few instances of the pardoning power, prior to conviction, being exercised by any President. D.

☞ A Washington letter of July 17th says, "Congressmen are mortals, and they do not fancy being kept here day after day in this hot weather, while Jeremiah S. Black is conjuring up arguments for the forthcoming Veto Message. Several Representatives who have heretofore opposed impeachment, declared to-day that if Mr. Johnson persists in thus opposing the action of Congress, it may be advisable to depose him at once."

NEW HAMPSHIRE ITEMS.

—— The New Hampshire Statesman says the per diem and mileage of the State Legislature is regarded not as compensation, but as subsistence while in the public service; for if it is regarded as compensation, then the service of some members is very inadequately compensated, while some others could earn no more, if so much, at their usual avocations at home.

—— The Ordination of Mr. Charles C. Watson as Pastor of the Belknap Church, Dover, took place Thursday evening, July 11th. Rev. E. N. Hidden, Moderator, T. S. Robie, Scribe. Exercises: Invocation and Reading Scripture, T. S. Robie; Introductory Prayer, Sylvanus Hayward; Sermon, B. F. Parsons; Ordaining Prayer, A. Tobey; Charge to the Pastor, A. S. Walker; Right Hand of Fellowship, J. P. Watson; Address to the People, J. B. Thornton; Concluding Prayer, R. S. Stubbs; Benediction, by the Pastor.

THE SURRATT CASE.—The Washington correspondent of the Philadelphia Press says the prosecution in the Surratt case expect during the coming week to prove that Miss Olivia Jenkins, who testified Saturday that she did not give a photograph of Booth to the officers of the Government when she was arrested after the assassination, and that she was not examined by them at that time, swore to point blank falsehoods in those statements. They will prove that she took from between two pictures in her photograph album, where it was ingeniously concealed, the first likeness of the assassin which came into the hands of the Government. They will also prove that Miss Anna Surratt was cognizant of the fact that Payne was one of the conspirators, and consequently that she knew something of the conspiracy itself. Recent evidence discovered by the Government leads to the belief that some startling disclosures will be made this week.

PRESIDENT OF HAYTI.—The Jamaica Gleaner of the 24th ult. publishes news of the election of a President for Hayti, which event took place at Port-au-Prince on the 16th of June, when Gen. Salnave, for some time past Protector of the Republic, was chosen for a term of four years, to terminate in May, 1871. No other candidate was brought forward, and Salnave was unanimously elected, to the satisfaction of the whole community, he being very popular. The limitation of the term of office to four years is one of the reforms introduced into the constitution by the party that compelled Geffrard to abdicate, as under the old constitution the Presidency was for life. Tranquility prevailed throughout the country.

— Letters have been received in New York from Santa Anna. He had the whole city of Campeachy for his prison. In other words he was a prisoner on parole. He writes as if in no fear that his life was in danger, and seemed very secure, at least of the immediate future.

— The New York Post states that on Monday afternoon a police officer of the Seventeenth Precinct brought to the station Dr. George B. Emerson of Boston, who was suffering from mental derangement. He was taken before Justice Hogan, and committed to the city prison for examination.

— The New Orleans Times says Mr. Seward has addressed a letter to Governor Flanders of Louisiana, asking for an impression of the State seal and copies of the official sign manuals of the Governor and Secretary of State, for the use of the State Department at Washington. Gen. Sheridan's appointee is thus officially recognized by the administration.

— The Portland Argus says that two wrecking vessels are still engaged at the scene of the Bohemian disaster, and valuables are frequently brought to the surface, as well as iron, &c. A large roll of silk was secured the other day which was almost as good as new, it having been protected from the water by a huge piece of iron.

— In regard to George E. Goodrich of Pittsfield, who has been arrested for embezzlement of the funds of the Berkshire County Savings Bank, the Springfield Republican says that until quite recently he had been considered as a most exemplary young man, his only fault being an excessive liking for fashionable society and an inordinate fondness of dress.

— In Indianapolis, Ind., last Friday, the Criminal Court decided, in the case of a negro ejected from a street car, that a street railroad company is a common carrier, and has no right to forbid any one entering the car. So long as a person pays his fare and behaves, he is entitled to a seat in the car, without respect to age, race or condition. Heretofore colored people have been compelled to ride on the platform with the driver.

THE PROPER INDIAN POLICY.—Major General Hazen has written a letter to U. S. Senator Henderson, stating what he deems the proper policy of the government in the present condition of Indian affairs. The document substantially recommends as thoroughly practicable, a plan to assign to each tribe a certain tract of land, compel it to occupy it, and prevent all intercourse with white men, except such as are sent among them as teachers. He would place the control of Indian affairs in the hands of the Freedmen's Bureau, thereby securing an honest administration, and would then supply to the various tribes religious and other instructors, agricultural implements, domestic animals, and such rations and clothing as might be necessary. For two or three years the cost would be considerable, but after the lapse of that time the tribes would have gained sufficient knowledge of agriculture to make them self-supporting. The only care of the Government would then be in keeping the Indians at home. This could be done by promptly punishing such as should prove refractory, and a sufficient number of troops could be recruited from those who are peaceably disposed, to form a vigilant and effective police. Gen. Hazen says:

"To make war upon the Indian as a punishment, leaving him to retaliate at his leisure, can never bring about benefits commensurate with costs or the public requirements. Our Indian wars, so far, are scarcely more than a series of mutual retaliations, and can be little else till a fixed plan, having for its object the final settlement of the whole Indian question, is adopted. This plan should comprehend all the Indians of the country, and should be adopted everywhere simultaneously. There could then be no playing from hand to hand by the professed peaceable to the actual hostile, as is now the case. We might still for a few years have trouble with those across the borders of Mexico and the British Possessions, but we would soon have a reliable corps of friendly Indians who could attend to all such bands. The reservations should be well removed from the borders. We are now in a position to command these people, and should no longer *ask* for peace, which they will not give us, but require it. They are not numerous, nor difficult to reach, as is generally supposed."

GREAT NAVAL SHOW IN ENGLAND.—On Wednesday, July 17, the great naval review in honor of the visit of the Sultan of Turkey took place off Spithead, and was the most magnificent spectacle ever witnessed in English waters. High winds prevailed from the northwest, tending to increase the interest and excitement of the occasion, though to some extent interfering with the comfort of the passengers. The entire squadron numbered 80, including ships, yachts and tenders. The squadron mounted 1100 guns, and the naval portion alone represented a capacity of 106,000 tons, and nominal power engines of 28,000 horses.

A thousand vessels filled with spectators were within seeing distance of the grand pageant. Queen Victoria and suite were present in the royal yacht Victoria and Albert. His Majesty the Sultan and suite were on board the royal yacht Osborne. Ismail Pacha, Sovereign of Egypt, and suite, were on board the Helicon.

The Prince of Wales, both Houses of Parliament, the Lords of the Admiralty and the members of the Government, were also present. The shores of Gosport and the Isle of Wight were lined with myriads of people, who witnessed with eager attention the evolutions of the fleet including a mock battle.

A royal salute was fired, and the yards of the ships manned in honor of the royal visitor. At 9 o'clock at night the entire squadron was illuminated, presenting a very picturesque appearance.

—"Be thou chaste as ice and pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the merchants have it.

— A San Francisco paper says that the steamer Vanderbuilt has been laid up at Mare Island Navy Yard and will probably never be put in commission again. WHAT EVERY ONE WANTS.

A good, reliable medicine that will be soon hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Cramps, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions: and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified to, and their certificates can be seen at the Doctor's depot, 70 Chambers street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle. Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 66 Cortlandt street, New York. Jy8dawlm

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies and Ills which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which DR. SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. All of these are absolutely necessary to the full and proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain, or other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the strong, healthy blood goes back over through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while the important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which is sure to check the flow of reason ing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, (from 9 A. M. to 3 P. M., and from 9 A. M. to 12 P. M. on Saturdays,) to 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being plastered up with phlegm, gross and acid dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality.

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

The Hon Demas Barnes says—"I sell more of Brandreth's Pills than of all others put together."

BRANDRETH'S PILLS are Sold by all Druggists, and at the Principal Office, Brandreth House, New York. Observe B. BRANDRETH in white letters on the government stamp on each box. Je29dawlmapn

DUTCHER'S LIGHTNING FLY-KILLER will certainly exterminate these pests, if its use is persevered in. Beware of bogus Fly-Papers, which some dealers keep because they can get it for nothing. Don't be swindled. Ask for DUTCHER'S, which is sold by all live Druggists.

Local.

☞ The Portsmouth Boot and Shoe Company are preparing to manufacture fine Boots for men on a large scale, in the building corner of State and Washington streets, long occupied by Mr. Harratt as a grocery. The new Company is composed of Messrs. J. C. Carr and T. S. Nowell of this city, and an experienced manufacturer from Massachusetts. They commence under the most favorable auspices; and every well wisher for the city will desire that the experiment may be as successful to the proprietors, as it can hardly fail to be beneficial to the business of the place.

☞ The means of getting to the Shoals are now better than ever before. The little steamer Pioneer is much improved, and is in charge of one of the most prompt, attentive, genial and pleasant men you would meet in a year's travel—Capt. Baker.

When arrived at Appledore, also, the attractions are greater than ever — the House and surroundings are much improved, and the management of things inside is in keeping with the same, and will be satisfactory to all reasonable people.—Commend us to Appledore—it is unique in itself—there is no place like it. A sunset and sunrise there is as good as if one were really at sea—and such calm and quiet is nowhere else to be had. Among the most recent modern improvements, are two spleudid new billiard tables. It does look a little queer to see,—instead of one of the old sea kings coming up to take your baggage ashore, or a mermaid rising to assist the ladies in their toilet—to see a nice horse and cart come down to the beach for trunks.—But so we go, and go well, too.

Poor little Gosport has seen hard times of late. War and fire press her sore, and the Star of that island does not seem to be rising. Mr. Caswell, of the old Atlantic House, still keeps a small hostelry there, and receives visitors as pleasantly as ever. No visitor to the Shoals should fail to visit Gosport.

A LEVIATHAN OF THE DEEP.—Mr. John Caswell brought into his fish market on Thursday, a prize in the shape of the largest halibut we remember to have ever seen here. The fish measures ten feet in length, seven and a half feet in girth, and weighs 310 pounds. It was caught by Mr. C. from a small dory, between Boar's Head and the Shoals, and is very fat and nice.

Epicures will do well to be on hand at Caswell & Co.'s fish market early this morning, when this monster fish will be cut up, for their selection of its choice cuts.

☞ On Thursday, four sailors from the steamer Winooski disported themselves in a free fight on Water street. "Stripped to the buff," in true prize-ring style, they presented anything but a pleasing appearance after a few minutes—smeared with blood and dust. An officer succeeded in obtaining a cessation of hostilities between these men of war, and they (promising more peaceful behavior,) were allowed to return to their ship.

POLICE COURT, July 17.—John Hill, a sailor, was fined $1 and $3,86 costs, for being drunk.

John Sutter, another tar, was similarly mulcted for a like offence.

☞ The steamer Pioneer is to run to the Shoals Saturday evenings, and return Monday mornings. Plenty of chance for "sermons in stones, and books in the running brooks," there, eh ?

☞ Some grumbler, or stickler for the proprieties and congruities, long ago pointed out the folly of calling ladies' skirts in modern times, or almost any times, petticoats—little coats. So we now desire to ask, where is any longer the significance of calling the chignon, as now worn, on top of the head, a water*fall?* Does water ever run up hill? Call it a pompon or a waterspout, if you will; but never a waterfall, until it does fall again.

☞ The eleventh Annual Report of the Board of Trustees of the N. H. House of Reformation, is a very interesting document, not only to all citizens of this State, but to all lovers of mankind. This institution is eminently worthy of the greatest encouragement and most tender fostering care of the State.

☞ In New York city, Thursday evening, the distillery of Jacob Bochem, in East 26th street, was destroyed by fire, with several adjoining buildings. One hundred barrels of whiskey were stored in the distillery. Loss about $100,000; partially insured.

☞ Peterson's Magazine for July is received and for sale by the dealers in periodicals. The cheapest of all the popular magazines for ladies; published at $2 a year by Charles J. Peterson, Philadelphia.

☞ The lawyers of the defence, in the Surratt Trial, have examined nearly all their witnesses;—and the argument is yet to come. The judge and jury are to be pitied.

— A gentleman can marry any lady of his acquaintance—*if he pleases.*

GEN. MEAGHER.—A passenger from Fort Benton explains how Gen. Meagher came to be drowned. He was engaged in a quarrel on the 1st inst., with an Irishman who had insulted him. The excitement seemed to render the General delirious, and at 10 P. M. he stole from his bed and fell overboard.

GOLD, Thursday, 139 1-2.

— A couple of young ladies have just arrived at Saratoga from Havana. They are known as the "Charms of Cuba," and wear diamonds to the value of $250,000.

— Among the toilet articles which the Sultan has brought with him into the countries of the infidels is an immense tank of Nile water. His highness is forbidden to bathe in anything less sacred.

— A Mr. Rice of Fredisburg, Ind., was stung by a bee on the upper lip on the 3 1 inst., and though a remedy was speedily applied he became speechless in half an hour, and soon after was a corpse.

— A paper sent to the French Corps Legislatif shows that the French expenses in Mexico were $30,000,000 francs. This is a nice little bill for an enterprise which has proved so signal a failure.

— A new use has been discovered for crude petroleum. Saturate rags with it and put them in rat holes, and the rats will leave the premises. [So we should think; and if you touch the rag with a lighted match, the premises will leave too,—in a blaze.]

— The New York Times suspects that "Maximilian's Avengers" are a parcel of discreditable and mercenary humbugs.—Their main object is to levy contributions upon each other, and none of them in this vicinity will ever get within a thousand miles of Mexico for the purpose of avenging Maximilian or any other man.

— The South London Press says that the lady who gave Mr. Spurgeon £20,000 to erect an orphanage has since ordered her plate to be sold for the same object; and Mr. Spurgeon asserts that the donor has thereby "set an example to all believers who have surplus and unused gold and silver which ought to be put to better use than lying wrapped up in a box."

— A Boston paper says, It is stated that the fact that a basket of peaches being likely to cost a dollar and a half for freight alone from Delaware, will be likely to cause an artificial scarcity here during the season. And the same paper adds: According to the report of peach growers there is to be quite a famine in the article of peaches this summer, and yet the preparations for canning and distillation were never so great. Their grumblings and their actions do not coincide.

THE
UNION PACIFIC RAILROAD CO,
Are now constructing a railroad from
OMAHA, NEBRASKA,
westward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their
FIRST MORTGAGE BONDS,
having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, free of taxes.
AT
SIX PER CENT. IN GOLD,
AT
Ninety Cents on the Dollar.

This road is already completed to Julesburg, 276 miles from Omaha, Nebraska, and is fully equipped, and trains are running regularly over it. The Company has now on hand sufficient iron, the contract for which is now passing from the eastern State of the Rocky Mountains, 141 miles, which is under contract to be done September 1st of this year, and it is expected that the Pacific road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., early in 1869.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1565 miles, the United States Government donates, per mile, twenty-year bonds to the Company as the road is finished, at the average rate of about $28,250 per mile, amounting to $44,200,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special act of Congress are made a first Mortgage on the entire line, the bonds of the United States *being subordinate to them.*

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $20,000,000, making the total resources, exclusive of the capital, $108,416,000; but the full value of the lands cannot now be realized.

The Authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipments.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $13,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company confidently submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 617 miles of road, on which over twenty million dollars have already been expended—on 300 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold, these bonds are an annual interest on the present cost of
Nine Per Cent.,
and it is believed that on the completion of the road, like the Government bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and reserve the right to advance the price at their option.

Subscriptions will be received in New York by CONTINENTAL NATIONAL BANK, 7 Nassau st., CLARK, DODGE & CO., Bankers, 51 Wall street, JOHN J. CISCO & SON, Bankers, 33 Wall street, and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained.—They will also be sent by mail from the Company's Office, No. 20 Nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, and who will be responsible to them for the safe delivery of the Bonds.

EXTRAORDINARY OCCURRENCE IN SCOTLAND.—A Scotch paper relates the following:

"An extraordinary occurrence took place in the Chalmers Memorial Church, Grange, Edinburg, on Sunday. Dr. Bonar, the minister, took for the subject of his afternoon discourse the unclean spirits described in the twelfth chapter of St. Matthew.—The afternoon was very warm, and in the course of the service a number of poor people fainted. One girl, in attempting to leave the church while the chapter was being read, fell in a fainting fit and was carried into the vestry. The occurrence caused some bubbub among the congregation, and several of the members, including Doctor Duncan, professor of Hebrew, left their seats to wait upon the poor girl.

In the course of a few minutes, and while a hymn was being given out, Dr. Duncan came out of the vestry and asked in a loud voice if there was a medical gentleman present. A gentleman who was understood to be a doctor therepon rose and proceeded to the vestry. Certain members of the congregation afterwards began to move to and fro in order to make inquiries respecting the sufferer, and not a few left the church altogether. Still the service proceeded in as orderly a manner as was possible amid such uneasiness and excitement, and Dr. Bonar in due course of time began to preach on the devils.

A singular result followed. When the reverend gentleman was about half way though his sermon, a gentleman seated in the centre of the church became ill, and apparently fainted. Some appearance of confusion ensued, but Dr. Bonar called out to the people to be calm, and a number of them, though in a state of great alarm, at once resumed their seats. Still persons continued to pass out of the church, and the whole congregation was restless and inattentive.

Dr. Duncan then stepped up to the pulpit and had some private conversation with Dr. Bonar, who, after a few moments' pause, closed the book before him, and addressing the congregation, said it would perhaps be better to say nothing more, but simply engage in prayer. It was perhaps quite true, he continued, as Dr. Duncan had suggested, that Satan was there tempting them with these interruptions, and that he was angry at being spoken against.—The reverend gentleman then engaged in prayer, and after he had finished, a hymn was sung."

— A gouty gentleman was one night sitting alone by his parlor fireside, when a well dressed man came very civilly into the room and said, "Sir, I observe your servant has just gone to the ale-house, and has carelessly left your street door open. Now, how easy it would be for any rascal to come in and blow out these two wax candles, thus! and thus! and run away with this heavy pair of silver candlesticks," which he accordingly did, without waiting for a reply.

☞ Kittredge & Co's turpentine works in South Boston, were burnt Tuesday afternoon; loss $4500; no insurance.

CONCENTRATED

EXTRACT OF RYE.

THE Proprietors of this popular article, finding it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN announce

IT IS NOT

a mere dram drinking beverage, but a PURE, GENUINE AND SCIENTIFICALLY PREPARED

MEDICINE.

It is not, as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have

TO SAY ABOUT IT,

without any long, high sounding words, such as some doctors use to mystify and bewilder a patient, but the can't begin to tell what does not all ready know, viz: SIMPLY PLAIN AND TRUE that "EXTRACT OF RYE" is nothing but the

JUICES OF THE GRAIN

combined with a certain oily, fatty and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER AND STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its lubricating and fattening effects to the lungs; consequently

IT IS WHAT YOU WANT,

when you have a bad cough, to cure it, when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now, if you want an article to FEED THE SYSTEM OK, when it has become reduced by sickness or by being OVERTASKED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of saving people

GAIN FLESH AND GROW FAT.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is only composed.

This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and sustain the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box, and is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

EXCAVATIONS AT POMPEII.—A correspondent, writing from Naples, April 2, says:

"On last Friday there was an excavation in the presence of the Minister of the Royal Household, when a wonderful discovery was made. It was a kitchen that was disinterred, and on one of the *fornelli*—small square holes or fireplaces, such as are in use of the present day, and are fed with charcoal—was found a copper vessel, supported by a tripod. The vessel or saucepan was hermetically closed, and incrusted all over with *lapilli*, so that it required considerable force to open it. But how great was the surprise of those present to find that it was nearly full of water! The interior of the vessel presented no signs of oxidation, so that no one hesitated to taste the water, when it was found perfectly sweet and good. Pompeii, then, which has enriched us, after the lapse of nearly two thousand years, with jewels and paintings, and sculptured marbles, which has almost supplied our tables with bread and honey, eggs and figs, and a variety of other luxuries, has now slaked our thirst with water deposited in a vase so far back as the reign of Titus, and by one of the victims, perhaps, of the fires of Vesvius. How curorious are these revlations of the inner life of a people long since mouldered into ashes!"

— The proprietors of a London suburban cemetery advertise that theirs is the only one where the dead of the modern Babylon can find complete repose.

—In New York seamstresses make shirts for sixty cents a dozen, and strange to say, that pay will not support their extravagance. By strict economy they might each lay up fifty dollars in about thirty thousand years.

— The Poughkeepsie Eagle says that unless some action is taken in the matter, the public may soon expect to hear of a terrible disaster on the Hudson river, resulting from dangerous trials of speed between steamboats running from Albany to New York. Hardly a night passes that the "floating palaces do not rush by Poughkeepsie at a fearful rate of speed, each striving for the lead. Many bets are made on the passage of the different boats. This wanton trifling with human life is outrageous, and if not at once stopped the travelling public should shun the Hudson river steamboats as they would certain destruction.

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for Restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the roots, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

Portsmouth, N. H.

SATURDAY, JULY 20, 1867.

☞ The descendants of the Anglo-Saxons are well known to be the most inveterate smokers of the human family. While six swarthy Aborigines content themselves with sharing the whiffs of one pipe, six pipes will scarcely keep one Yankee in steaming operation. At a late analyzation of all classes of tobacco at the Academy of Science in Paris, it was announced that American tobacco contained eight per cent. of nicotine, a deadly poison; Havana tobacco contains three per cent.; and Chingarora tobacco, grown in the Indies, contains no nicoline whatever. The natives of the Indies are constant smokers of the Chingarora, and never suffer the ills which follow the use of tobacco of other climes.

It is calculated that the entire world of smokers, snuffers and chewers, consume 2,000,0000 tons of tobacco annually, or 4,480,000,000 of pounds weight, —as much in tonnage as the corn consumed by 10,000,000 Englishmen, and actually at a cost sufficient to pay for all the bread-corn in Great Britain. Five and a half millions of acres are occupied in its growth, the produce of which, at two pence per pound, would yeld £37,000,000 sterling.

The time would fail to tell of the vast amount of smoking in Turkey and Persia. In India all classes and both sexes indulge in this practice. The Siamese both chew and smoke. In Burmah all ages practice it, —children of three years old, and of both sexes. China equally contributes to the general mania; and the advocates of the habit boast that about one-fourth of the human race are their clients, or that there are certainly one hundred millions of smokers.

NEW HAMPSHIRE ITEMS.

——The people of Rochester are desirous that town may become the shire of Strafford County. They offer to expend $40,000 on buildings for the courts and offices.

—— The Congregational church at Barnstead Parade, was organized on the 9th inst., by a council of which Rev. E. Cogswell of Northwood, was moderator.

—— Joseph Chase of Stowarstown is in Lancaster jail, charged with the crime of rape on his own daughter, 16 years of age. C. has been in the State Prison for arson, and should go in again, never to come out alive.

—— An Ecclesiastical Council met at South Seabrook, July 9, and there assisted in the organization of a Congregational church. Rev. Dr. Fiske, Rev. Dr. Spalding, Rev. W. A.McGinley of Newburyport, Rev. A. Peabody of Seabrook, Rev G. M. Adams of Portsmouth, and Rev.E. A. Rand of South Boston, participated in the public services.

☞ At the recent commencement of Dartmouth College, the following honorary degrees were conferred:—That of Doctor of Laws upon Hon. John Wentworth of Chicago, Prof. Dixi Crosby of Hanover, Prof. Dennis H. Mahan of West Point, and Hon. Timothy Farrar of Roxbury, Mass.—That of Doctor of Divinity upon Rev. Wm. H. Lord of Montpelier, Vt., Rev. Alvan Tobey of Durham, and Rev. Geo. W. Gardner of Charlestown, Mass. Among those honored with Master of Arts is Gov. Harriman, also John L. Thompson, Samuel E. Pingree. Wm. C. Sturoc, John T. Muggridge, Wm. L. Gaylord, Thomas Whipple, Frank Moore, Leonard S. Parke, Sam'l W. Thayer.

C. C. WOODMAN, Esq., a lawer of Boston, committed suicide by shooting himself, at the Hoffman House, New York city, Tuesday night.

— Mr. Aiken, who acted as counsel for Mrs. Surratt in her trial before the Military Commission, has been appointed a clerk in the Treasury Department.

— The wheat harvest is now over in North Missouri. In some of the counties the yield is slightly below an average crop, but in the larger number the yield is considerably above an average, rendering the crop on the whole more than an average. Millers pronounce the quality superior.

— The radical negroes in Tennessee carry banners with mottoes that are very suggestive. One displayed at Franklin the other day was inscribed, "Remember Fort Pillow when you go to the polls," and another was, "The Radicals build school houses and the Conservatives burn them."

— The steamer R. E. Bell, Capt. W. T. Garrison, while towing a schooner up the Waccamaw river, S. C., on the 5th instant, was suddenly struck by a barricane and capsized. So sudden was the accident that although the steamer was alongside of the schooner she was towing, out of sixteen souls on board, but nine were saved. Capt. Garrison was among the lost.

Communication.

WAR.—War is a dreadful scourge upon the human family. The number of human beings who have been murdered and fallen in battle since the deluge, would be almost enough to cover the earth. Why has this been permitted? Man was created in the image of God —that is, in respect to the invisible, immortal spirit which animates his body. But has he not been more merciless and cruel than the tiger, that will not kill his own genus? The advance in civilization, and the power of the Christian religion in a large part of the earth, have thus far been inefficient to avert the calamities of war, and prevent the mad passions of human beings. Nations wage war against each other, often at the command of a sole despot, and often for trivial causes; and often, as in lawsuits, each party in the end is a great loser. What is war but murder upon a large scale? An eminent poet says that

"One murder makes a villain;
A thousand makes a hero."

Upon no principle can an *aggressive* war be justified; and it is difficult to justify it upon Christian principles in the *defence* of the national existence, but it may be by human reason. To say nothing of the waste of life, (the greatest evil) war is a waste of treasure of each belligerent, and a dreadful corrupter of the national morals, as all rational men will admit. Let us advert to a few facts.

The Christian religion was proclaimed over eighteen and a half centuries ago, which inculcates mercy and peace on earth, and good will to men. When the founder of that religion was born, the historic records show that the peace of Europe was preserved by about three hundred thousand soldiers. Prior to the late war in Europe, there were over two millions and a half on the peace establishment. The pay of this immense army must be defrayed by the people of about twenty different nations and principalities of Europe. These unproductive soldiers might have been productive laborers and mechanics. The late Prussian war cost the people about three hundred and fifty millions of money.

The cost of the wars in which England has been engaged have long oppressed, and will long continue to be an onerous burden upon the laboring classes, while the wealthy aristocrats may fatten upon the interest of their money loaned to the government.

Are not these facts sufficient to make every honest man abhor and oppose war? But the waste of treasure and oppression of the laborer can not be compared to the loss of life.

Turning to our own country, we have had several wars of aggression, on account of slavery, against Mexicans and Indian tribes.

Slavery was the cause of our last war in defence of the national life. The object of its instigators was to extend and perpetuate that God abhorred institution, which oppressed four millions of people with more merciless cruelty than any institution of the kind that ever disgraced the earth. At the day of judgment it may be more tolerable for Sodom and Gomorrah than for its instigators. But they will never again have any taste to engage in such a conflict, and they now despise their Northern sympathizers who gave them assurance of "aid and comfort," but shrank back from its performance.

That the Northern Democracy were instrumental in prolonging the war, and therefore were the means of greatly increasing our vast national debt, are historic facts. This debt should be paid off gradually, for future generations should bear a portion of the burden for the security of freedom. Our internal taxes should be largely reduced without delay, and the duties on our foreign imports should be so largely increased as to prevent the enormous export of specie to pay for merchandise the nation can dispense with.

In other words, the balance of trade, always payable in specie, should be in our favor. It is estimated that over eight hundred millions in gold has been brought from our mines. Where is it now? Our paper currency should be a true representative of specie in the banks, which now discount without specie in their vaults for redemption. The sooner there shall be a compulsory return to a specie currency, and the sooner the government shall redeem its paper currency, (the latter having been indispensable during the war,) the better it will be for all classes except the gold gamblers. Too long delay would cause a revulsion and calamitous state of things.

We might enlarge upon these points, which seem to be almost self-evident. Our government should reduce our national armament, instead of increasing. So soon as the rebel states shall be fairly reconstructed, which will be for their benefit, our land military forces should be largely reduced, and there should be an immediate retrenchment of all expenses not absolutely necessary for the safety and peace of the nation. We are now in no danger of war, foreign or domestic. Large and powerful military establishments may (as they have done in other countries) lead to war without a justifiable cause.

ANTI BELLUM.

— In Kentucky the wheat crops turns out well. A fair average crop of barley, rye and hay has been made, and though the corn is backward, yet it has come up well and now looks promising. The fruit crop is very abundant.

— Mary and Keziah Hicks, of Roane county, Tenn., have latterly disagreed with their step-mother, and the other day they removed the old lady to the smokehouse, labored like fiends to strangle her, then poured melted lead into her ear, and finally struck her several murderous blows on the head with an axe. The girls then left her and went to church. The old lady died soon after.

SINGULAR ACCIDENT.—The Fall River News relates that on Wednesday afternoon, as the wife of Mr. Joseph Bridge was walking along Pleasant street, she came to a yoke of oxen attached to a wagon loaded with wood, standing close to the curbstone. The heads of the oxen were down, and just as Mrs. Bridge was passing the team, the oxen threw their heads upwards. One of the horns of the ox nearest the sidewalk caught in the lady's hoops, and in an instant she was whirling in the air. The lady screamed, the ox, as badly frightened as the lady, bellowed, and made frantic efforts to shake off the mass of hoop skirts, petticoats and feminine gear generally, which hampered his figure head. Mrs. B., after being tossed about on the horns of the frightened animal for a few seconds, was thrown off, and either in her fall, or by being run over by the wheels, had her left arm very badly injured, so much so that the flesh was mashed almost to a jelly.

INDIAN AGENTS IN NEW MEXICO.—The Santa Fe Gazette is after the Indian agents with a "sharp stick." The superintendent, it says, has for the last six months been living fifteen hundred miles from his superintendency. The Pueblo agent is almost constantly on a wild goose chase after imaginary gold mines; the agent for the Utes has been at his agency once since his appointment, and remained there a few days. With one superintendent and six agents for New Mexico, there are two agents at their places of duty; five are scattered over the country doing anything but that for which they draw liberal salaries from the government.

☞ A St. Louis correspondent of the Cincinnati Commercial says most of the fifty thousand Germans in St. Louis are free thinkers. They seldom, if ever, trouble the churches, and with them Sunday is a splendid holiday. The more aristocratic and wealthy throng the club rooms. Beer gardens and beer houses are in full blast. The best bands of the city are always engaged for the people's amusement. The parks are crowded, and the whole city seems to regard Sunday as a gala day. In the evening the theatres (German) are thronged from "pit to dome."

— A Council is now sitting in New London, Conn., to consider charges alleged against Rev. J. Edward Bell, of the First Baptist Church of that city, of plagiarism and obtaining money under false pretenses.

— A wretch named Henry Smith living in Brooklyn become enraged with his wife, when he seized a sauce-pan which was setting on the stove full of hot grease, and poured the contents over both herself and child, a little girl two years of age. The child cannot live.

— The Washington papers tell of a Police Justice there who, having "got a full cargo of gin aboard," went "on a bender" through the city, bringing up at a well known concert saloon, where he was welcomed familiarly by the actresses as "Justice," and was eventually escorted in triumph behind the scenes. The on-lookers seem to have been a good deal disgusted.

— The trichinosis, which was thought to have died out in Germany, has again showed itself at Halberstadt (Lower Saxony.) A considerable number of the inhabitants, and amongst them children only three years old, have been affected. Without the intervention of the police, the butcher who sold the diseased pork would probably have suffered severely from the anger of the populace.

— Letters from persons in New Orleans, who have the confidence of General Sheridan, state that he will soon issue an order removing the entire body of office holders in Texas, with the exception of a few who hold positions of minor importance, and who are considered good Union men.—Judge Paschal will probably be appointed Governor in place of Throckmorton, the present incumbent.

— The health of the Emperor Napoleon is causing some uneasiness in court circles, where it is known that he is suffering from a relapse into the painful symptoms with which he was last year affected. His physicians counsel as early a close as state reasons will allow of court festivities, in order that he may have the benefit of treatment by mineral waters. Meantime he is forbidden horse exercise and the pleasures of the table.

WE ARE IN THE MIDST OF A REVOLUTION.—No more premature decay of the teeth.—SOZODONT renders them indestructible. Nay, more, it makes the enamel as white as Parian marble, and the breath as odoriferous as "the sweet South breathing o'er banks of violets."—Neither the teeth nor the gums can become diseased, if it is used daily. 9

RADICALISM becomes a virtue when directed against our own evil habits, so does the radical detersive qualities of Tyler's O. K. Soap prove a blessing to those who employ it for the cleansing of the body, clothing and abode. No family should be without it. All first class grocers sell it. 11

☞ Physicians recommend SPERR'S Sambuci Wine as the best for females, weakly persons and invalids. Sold by Druggists. 2

Would you save yourself from suffering after eating or from acidity of the stomach or burning sensation or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c. Try it. Grocers and Druggists most all sell it. The wholesale agents are wholesale grocers. 93

WASHINGTON ITEMS.—Under date of Thursday evening, Perley says:—

It is not certain that the veto message will be finished to-morrow in time to be sent to Congress, much to the annoyance of those members who had hoped to be at their respective homes on Saturday night.

A party of Democratic Congressmen have gone to the White House to-night to express their hopes that the message will not be so defiant in tone as to provoke discussion before the bill is enacted by a two-thirds vote.

It is reported that the President is in a rage against Congres, and his friends fear that he may commit some folly.

The Senate concluded its discussion on our Indian difficulties to-day, and agreed to the appointment of a Commission to treat with the hostile tribes, which is to include three army officers of high rank, to be designated by the President. During the debate a letter was read from General Sherman, in which he said "I trust Congress will prescribe clearly by law what the military ought to do, and say who shall declare war against any, and what, Indians. This should not be left an open question."

—The New York State Constitutional Convention has, by the decisive vote of 72 to 28, defeated Mr. Murphy's amendment to the majority report of the Suffrage Committee, in which he retained the present property qualification of voters, and provided for a separate submission of impartial suffrage to the people.

WHAT EVERY ONE WANTS.

A good, reliable medicine that will be on hand when required, and never fails when called on.—That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the Age, as it does all but is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Sea-sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions: and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest and Limbs, thousands have testified it, and the certificates can be seen at the Doctor's depot, 56 Cortlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and those who now have it in their houses, say they would not be without it even if it was $10 per bottle.—Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50cts. and $1 per bottle. Sold by Druggists. Depot 56 Cortlandt street, New York. Jy8daw1m

SCHENCK'S MANDRAKE PILLS.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we append a brief

DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! In the liver is dissected, it must purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, duration of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to render a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—the heart sends the vital current down through the arteries; it passes through the veins, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "people die of consumption."

They usually begin their treatment with the use of some cough medicine, the basis of which is morphine or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are compounded by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times, Prof. Schenck's Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

IMPORTANT FOR INVALIDS.—The weakness of the stomach, and its faintly performing its offices is only occasioned by the debility of the stomach nerves and their various branches, by being flattened with phlegm, gross acid and sedi dregs, indigestible meals, offensive drinks, or other matters which remaining too long assume a corroding quality

BRANDRETH'S PILLS cleanse the stomach and bowels of all unhealthy accumulations, and purify and invigorate the blood, and should be used by those who, having lost, are in pursuit of health.

The Hon Demas Barnes says—"I sell more of Brandreth's Pills than of all others puttogether."

BRANDRETH'S PILLS are prepared only by Druggists, and at the Principal Office, Brandreth House, New York. Observe B BRANDRETH in white letters on the government stamp on each box. Je29dawlmos
